TRANSCRIPT OF MESSAGE #551 - Part 5

THE WORLD OF POINTS & THE FALL

This Message Has Been Transcribed and Edited For Clarity, Continuity Of Thought, And Punctuation By The CCK Transcribing and Editing Team.

Drawing # 1, I've broken the board into two sections, and what we're going to do today is it's a combination of a review, actually I'm starting pretty much at the beginning of this revelation of the world of points, and I'm going to work in some corrections that the Lord has shown me, remember the way the Lord teaches here is that he gives me the revelation in whatever way I could receive it, and then he works on it, and develops it, and corrects it. So there's always corrections, and Lord willing I will work in to some new material that you haven't heard before.

So on the left side of the board, we have the SaG of the SaG. Now this is new, in the past I would have the whole tetragrammaton YHVH up at the top, and I would show you that we were working with the first letter Hey, which is the SaG, but I now report to you that at this point of the beginning, if that's the right word, as I tell you all the time, I'm frequently at a lost for words, I believe this was before the beginning, or before time began.

The Sefirot Keter which is the world of Adam Kadmon, had and still has, because this world still exists, everything, see every spiritual thing continues okay, nothing is destroyed, what happens is that layers are added on top, okay. Just as if you had a lantern with a lit candle in it, and you started throwing material towels or whatever over the lantern, you throw a towel over the lantern

and the lamp gets a little dimmer, then you throw another towel over the lantern and the light that shines out gets a little dimmer, until eventually you can't see the light of the lantern at all, but the flame is still burning, you just can't see it, because you have added all of these layers.

So this, what I'm showing you now, I have to use the word beginning, because I don't what other word to use, but initially the world of Adam Kadmon was just two letters of the holy name, Y and H, and in the world of Adam Kadmon which is the first of the five worlds, remember there are five worlds, Adam Kadmon, Atzilut, which is the world of emanation, the world of creation, the world of formation, and the world of action. In the world of Adam Kadmon, the highest world, there are only two Sefirah, the Yod and the Hey, and that's because we're going to add on, there is going to be added on to those two letters, and it was initially ordained that the holy name would have three letters and I'll read it on the board eventually, YHV, Y, the father, Hey the mother, and Vav the son, YHV. The second Hey was not originally a part of God's name. The second Hey which is the forth letter of the tetragrammaton was added on when the creation fell.

As I've been preaching through the doctrine of Christ for years, this physical world is an additional orbit on the atom of creation, it's not suppose to be here, and this is why we're told in the King James translation, that the world will role up like a scroll, this world is going to disappear, because it wasn't suppose to be here in the first place. This world of flesh which is, this is a penal colony, this world is a penal colony, it is a place of punishment, this world is place that Peter speaks about when he talks bout the angels that were cast down to hell, bound in chains of darkness, it's this world, we're in it here, but you can't see the forest for the trees.

The average person would say, "Oh Sheila, you're crazy", because we have nothing to compare this world to, well we do here, but the average person has nothing to compare this world to, and the very best in this world is still hell. If you have every privilege you could possibly hope for, you're still subject to death, you're still subject to disease, and you are still subject to emotional heart break, should your life go that way, disappointment in relationships, disappointment in marriage, disappointment with children, loss of loved ones, this is hell brethren, and there are different levels of hell.

So this world of action is signified by the fourth letter of the tetragrammaton, and although I have not read this in Kabbalah, based on what I'm telling you now which I have learned from Kabbalah, I would have to say that when this physical world is rolled up like a scroll and disappears that the tetragrammaton will revert to three letters. See, do you understand that if you don't try to understand that these Hebrew letters signify what is to us real events, it would be as if to say I would assign to a letter to three of you a, b, and c, and I would draw upon the board a, and you two would disappear, then I would write b, and you would appear, and when I wrote a, b, and c, on the board, all three of you would appear and if I would erase one letter off the board whoever that letter was assigned to, would disappear, because that letter represents you, a human being. That's what the Hebrew signify. They signify streams or sources of spiritual power, and in the case of the tetragrammaton, they signify all of the worlds.

It's as if to say if it were possible I don't think it would happen, if this planet were to explode, of course this planet is just a little part of the visible world, something would be affected, the shape of the letter would change, if you can hear that, and it's this basic principle, if you can grab hold of it, that leads us to the true healing, which is in Christ, you see. That's why when you heal this physical body, or you make a change in your life, in this world, you still have the root of problem, if you think of yourself as a Hebrew letter, and you deal with a problem in your life, that Hebrew letter hasn't changed.

So the chances of the problem recurring, or a similar problem, or a problem of similar intensity occurring in your life, is very great. But once you receive the power to go behind the scenes, to go behind the veil of this physical world and adjust the Hebrew letter, which is really a power source, then that which was causing the trouble in your life, ceases to exist and you must heal in this world, you see. Does anyone not understand that? So from the same point of view, if you can believe that, that permanent healing comes forth by not dealing with the physical but by dealing with the spiritual, that should be a strong witness to you that everything including thought, starts in the unconscious or the invisible plane. And thoughts that just pop into your mind like that, have been traveling for a long time from the unconscious part of your mind, to the subconscious part of your mind and they just suddenly appeared in your consciousness, but they've been traveling a long distance, and they went through a whole process of birth before you, that thought entered into your mind.

Everything is spiritual, it's behind the veil, this world is that blanket laying over the lantern, that I just told you about. The reality is behind us, the reality is invisible. So if you believe that Jesus Christ is the invisible reality of this world,

then you really need to believe that everything that happens has an invisible reality behind the veil. It can't be one way and not the other. See this is a problem that the people in the church have, they can believe that Holy Spirit is inside of you, but they don't believe that Satan or the devil or the demons are inside of you.

So you have to be, your thoughts have to line up, otherwise you're not thinking logically. So if the whole foundation of the universes is invisible, that means every foundation of everything that happens out here is invisible. What's more, Kabbalah teaches and I'm very inclined to believe this, that everything that exists in this world, a simple blade of grass, a leaf on a tree, everything that exists in this world has a root on the other side of the veil in the invisible plane. Everything. And that is why this world and the whole physical world including space and all the planets that is why the physical world is called an illusion, because it's not the reality, the reality is behind the veil, just like a puppet show, we are like a puppet show, the one who's speaking and the one who's manipulating us moving us is behind the veil. And we are the puppets who think that we have life, but we don't, that's hard, it hurts your pride, okay on with today's lesson.

So, we're starting from the beginning with some improvements or some corrections, we see that when we start to deal with the formation of the worlds, because Adam Kadmon if you look on the right this is my drawing of Adam Kadmon if you haven't guessed it, he is the beginning of the worlds. He is the primordial human, and everything that exists in the physical worlds came forth from him, we know that Adam Kadmon is not in humanoid form, but we draw him as a humanoid as a metaphor which means that we draw him in a humanoid form so that we can relate to him and the processes that he has gone through and is still going through to fulfill his commission to bring forth the worlds as the Ayn Sof wills them to be.

So back to the left side of the board here, so at this point, we're dealing with the world of Adam Kadmon, there are only two Sefirot in the world of Adam Kadmon, the Yod and the Hey, which is Chokhmah and Binah, now the world of Adam Kadmon is Keter, they're the same. Keter has only a Yod and a Hey, Keter is the world of Adam Kadmon. Only a Yod and a Hey, and the Hey is SaG, SaG is the female, Yod is male, SaG is Binah understanding, Imma, mother, she is the one who brings forth the children, she is the one who is bringing forth the worlds below.

Everything that comes forth, well Imma, the SaG, she brings for the son, which is the world of Atzilut, first the world of points and then the world of emanation,

and everything after the world of emanation comes forth from the world of emanation. See, the Yod and the Hey, the world of Adam Kadmon, and the world of emanation, that is the light of the Ayn Sof that has come into the creation, but anything after that, the three worlds that come out of the world of emanation, it's not new light coming forth from the Ayn Sof, it's something that is giving birth out of the world of emanation, and the whole creation is male. This is very important, this is a creation with male and female aspects, with the male is in control or the male dominating, okay. The woman is not to be seen. See, in our physical world we see a perversion of this, that the woman is not to be heard or seen, she can't have an opinion, she's suppose to hide behind her husband, in some extreme cases, in some certain societies they don't let the woman become educated, they veil her completely, this is not talking about the female woman, this is talking about the female mind, see.

The female mind is not to be heard, there's to be silence in the church, and the female mind is not to be free she has to be covered. If the female mind is uncovered, it's a disgrace. It's a disgrace to the, now don't get condemned, I'm just trying to educate you here, this is Scriptural principles. If you're walking around with your female mind openly manifesting, you are uncovered, you are naked woman, and what does that mean? What is naked woman walking down the streets mean? It means you're easy picking for any unscrupulous man that comes along, that desires to take advantage of you.

Well as it is down here in the world, so it above, actually it's the way it's usually said is, as it above, so it is below. So if you're walking around with your carnal mind uncovered, either because you don't have a head that's going to be correcting you or you're in rebellion against the correction, you're going to be easy picking for any spirit that wants to convince you that something is right when it's not right, which can result depending on who you are, in certainly unpleasant things in your life, at the very least unpleasant things in your life, and at the very worst, severe problems in your life, such as losing some of the things God has given you. Okay, everything that God gives us, we have to fight to keep, because we have an enemy, we have a carnal mind that will cause us to lose everything that God gives us if she can do it.

Therefore our job is to be educated to find out what our part is, so that we don't lose what God has given us, and the Scripture is very clear with the parable of the talents, that it is possible to lose what God gives you because of ignorance. Praise the Lord, let us be educated brethren. So Keter the world of Adam Kadmon, has only two Sefirot, SaG is the female and she is the one who is giving birth to the son, MaH, who is the Vav, the third letter of the holy name. The holy name originally was the Yod Hey Vav, the second Hey was added on

only after the world of points fell, and an independent female world came into existence. So even if you can't recognize that this world is hell and that it does not glorify God, and that it will be rolled up like a scroll and disappear, aside from that we have a second witness that a female world is illegal. A female manifestation is illegal. All female manifestations are only acceptable when they are a part of woven together with, mingled with under the authority of a male mind.

And the only male mind is Christ Jesus, it has nothing to do with your physical form. Spiritually speaking the only male mind is Christ Jesus. Of course in this world, in this fallen world, where so many people, the large majority of people, probably 99 and 99 100th % of the people are not in the Christ mind, we do have male and female in this world also.

You know if you have a female mind you really need to be under your father, or under your husband, but in our society today women have the opportunity to develop the male mind of this society, which means you can take care of yourself, and you don't need to be taken care of. Praise the Lord. Let's go on.

Now this is review, I brought down the Yod and the Hey, which is the SaG of the SaG, is everybody okay? Each of the letters of the tetragrammaton, the Yod and the Hey is in and of itself a tetragrammaton. That's what we're talking about when we talk AB(72), and SaG(63), MaH(45), and BaN(52), each of the letters of the tetragrammaton in and of itself is a secondary tetragrammaton, I hope everybody knows that by now. So on the left side of the board we have the SaG of the SaG, and again I've just put down the Yod and the Hey because the Vav isn't born yet, the Vav is the son who has to be born of Abba and Imma, and he's not born yet. So to remind you the Yod is the cantellations, the Hebrew word is Ta'amim, does everybody remember that? Okay. the cantellations those are talking about little symbols that go either above, equal with or underneath the Hebrew letters which indicates the tones of the letters so that you could sing these words, because the whole Scripture has a melody imputed to it. Each word of the Scripture has a melody imputed to it, I wish that you could get that music however they do it, wouldn't that be wonderful, well I pray that prayer right now, if there's a way that the Lord make that way for you, I would like it myself.

But every word in the Torah, the five books of Moses at least, has a melody imputed to it. Praise the Lord. So the Yod is the melody the cantellations, the Ta'amim, and the emanations that come forth from the Yod, are the lights of the ears the nose and the mouth of Adam Kadmon, and they are called collectively the A'Ha'F, the lights of the ears, the nose, and the mouth, and of course we've

had many instructions, a lot of instruction on that in our series A Look At Kabbalah. And the Hey, the Hey of the SaG of the SaG are the Nekudot, which are the vowels, and the light of the eyes comes from the Nekudot. So the lights of the eyes come from a weaker source than the lights of the ears the nose and the mouth. Now the lights of the ears the nose and the mouth come forth as concrete breaths, they have lights that comprise vessels and inner light, they're concrete, the only problem is that the lights of the inner light, and the lights of the vessel are the same grade of light, so when you look at them you can't tell the difference. If I was doing a drawing and I drew a cup, and I drew that cup with black ink, and the water that filled the cup with black ink, you could tell where the water ended and the cup began, so the vessel, the light, everything is light you see, and I had the little trouble with this at one point, even darkness is light, and when I first heard that I said, "Oh come on", but now I understand it.

Everything that exist came out of the Ayn Sof and the Ayn Sof is light. So the only thing that we could be dealing with is different grades of light, different grades of light. So we start with a light that is so bright that it's dazzling, maybe we can't even see it, that's the probably the light that was revealed on the mount of transfiguration, that bright dazzling white, okay and then as the light dims eventually it gets to the point where the contrast between the dim light is so radically different than the unhindered light, that we call that dim light darkness, but it's still light, can you hear this?

It's still light, but it's degraded light, it's lowered light, it's coarse light, so compared to the true light it's darkness, and that's what Jesus meant when he said, don't let your light be darkness, Jesus said that remember that, don't let your light be darkness. I never knew what he was talking about.

We all have light, make sure that your light is the true light, make sure the light that you're dealing with, that you are living out of is not the darkness, make sure that the light that you're living out of is the Christ mind and not the carnal mind. Because if you say that you love God and you're living out of the carnal mind then your light is darkness and your salt is lost its savor, see. Okay.

Okay, so does everybody remember this now, the SaG of the SaG and the cantellations and the light of the ears nose and mouth, and the light that comes out of the eyes, everybody okay? Okay let's read what we have written here. The name of God, YHVH, the tetragrammaton, was originally only YHV, the

second H, or the second Hey was added later. Keter, the world of Adam Kadmon has only two Sefirot, AB, which is a Yod, and SaG, which is the Hey. The Vav which is the son, the offspring of AB, and SaG appears in Atzilut, that's the Atzilut that's the first world, it's the world of emanation. The son appears in Atzilut when that world comes into existence. In other words the world of points, which shattered and died, and was reconfigured in to the world of emanation is the world of the son. Just like I told you if I had a letter on the board that signified you and I erased the letter and you disappeared, when that world disappears, the son disappears, okay the world shattered, the son died.

Okay, let me read this again, the son, the offspring of AB, and SaG appears in Atzilut when that world comes into existence. The world of points is the primordial Atzilut with the first expression of Atzilut and the world of emanation is the reconfiguration of the shattered world of points. Mortal man is primordial Atzilut, appearing in the world of action. So contrary to what Kabbalah teaches, even though the world of points shattered and died, we still exist, and of course this is a principle that we learned early on in the doctrine of Christ, the Serpent said to the woman, "you shall surely not die." The woman said, "Oh, but Elohim said if I eat of that tree I will die, I will lose my mortality, I will die to my immortality, and the Serpent said, you shall surely not die, different Hebrew word, you shall surely not cease to exist. You shall surely not cease to exist. See, my friend, we have this right out of the Bible the woman says, Elohim said if I eat of the tree of knowledge of good and evil, I will die to my immortality, and the Serpent says, "You will surely not die, you will surely not cease to exist, the Serpent changed her words.

So we see which mind that comes from, okay. So the world of action shattered and died but still exists, and we are it. We are, this modern world this mortal world is the world of points and everything that existed on the high level which is Atzilut, that's a very high level, now exists down here in the lowest level in the female world of action. And we each human being is a manifestation or an expression of everything that's going on in the creation. We are the microcosm, we each one of us is a world, everything that we're learning about is going on inside of us. Okay I'll go on with that later, let's finish reading what we have here.

So mortal man is primordial Atzilut appearing in the world of action, and the glorified Jesus Christ is the world of emanation, on all planes. The glorified Jesus Christ is the reconfigured world of points, he's the first one, he's the beginning. He's the beginning of the reconfiguration. What Jesus Christ looks like today for whatever degree we can understand him, or conceive of him or

perceive him, that's what Atzilut is suppose to be and that's what we are called to be, we are all called to be the Vav, the son of the tetragrammaton.

Now we're appearing as the daughter which was never suppose to come into existence. So the Lord Jesus Christ is the world of emanation, and he exists on all planes, existent and non-existent.

Do you remember we had this lesson recently, maybe as recently as Thursday night, that there is consciousness in non-existence, I hope my words are right, the Ayn Sof has consciousness, I may be using the wrong word but we know that the Ayn Sof is there and that he is the source, or that it is the source of everything, but from our point of view the Ayn Sof is non-existent. Existence means to be, to appear, and the Ayn Sof is not appearing to us, he's an enigma to us, we cannot, it, we cannot comprehend it at all, it's beyond our ability to comprehend the Ayn Sof, so as far as we are concerned, it is non-existent, it is non-being, it is non-appearing, but the Ayn Sof sent forth a stream of its own light, created an empty space and sent forth some of its own light into that empty space with the specific purpose of bringing forth a creation of beings that the Ayn Sof would be able to relate to.

See the Ayn Sof wants to talk to us, and he's talking to us today through whom? The unknowable according to Kabbalah the absolutely unfathomable is talking to us today through whom?

COMMENT: Christ Jesus.

PASTOR VITALE: Well not really but you're close. Christ Jesus is down here with us, where is the Ayn Sof.

COMMENT: The Lord Jesus?

PASTOR VITALE: Yes, the Lord Jesus, the glorified Jesus Christ, the Ayn Sof is speaking to us and communicating with us and having a relationship with us today, as the Lord Jesus Christ, the Ayn Sof, it's very self. Because Keter is the Ayn Sof in the empty space. The glorified Jesus Christ is Adam Kadmon at the highest level, and the highest levels flows into the Ayn Sof. So we do have a communication or we have access to, when we get ourselves cleaned up enough to relate to the Lord Jesus on such a high level, we have access to everything that the Ayn Sof could possibly offer us, endless life which that of course is in Binah, and endless wisdom, endless everything, a continuous power coming in to the empty space from the Ayn Sof through the Lord Jesus Christ who is the highest level of Adam Kadmon.

Did I make that clear? Adam Kadmon is the Ayn Sof inside the circle. The Ayn Sof is endless but he's put a finger of himself inside a circle, and the finger or that aspect of himself is Adam Kadmon who is appearing to us today as the glorified Jesus Christ, who actually talks to us, is that amazing! Praise the Lord, okay.

Okay so the glorified Jesus Christ is the world of emanation appearing on all planes existent and non-existent, and what that means is that the glorified Jesus Christ has full access to the Ayn Sof, and Christ Jesus is the offspring of the Lord Jesus Christ, and he is appearing from the world of Atzilut, the world of emanation, all the way down to here, the world of emanation, the world of creation, the world of formation and the world of action, Christ Jesus is appearing on all those planes, down here in this world he's Christ, he's the seed, he's the seed, Christ and he's growing up, and stretching into the world of Atzilut, and the world of Atzilut exists in all of you.

When Christ Jesus matures in you, the world of Atzilut or the world of emanation comes into existence in you, and it is Christ Jesus in the world of emanation, that communes with the glorified Jesus Christ. Now look if you have a relationship with the Holy Spirit, that's wonderful, but that is not the same thing as the Spirit of Christ, you see.

It is not the same thing as the Spirit of Christ, you have a relationship with an aspect of the Lord Jesus, but you actually you have a relationship with a female aspect of the Lord Jesus, the Holy Spirit, does anybody remember who the Holy Spirit is in relation to Adam Kadmon's body, anybody? Do you want to try?

COMMENT: She's the woman?

PASTOR VITALE: No, the Holy Spirit is the glorified Jesus Christ, or Adam Kadmon's male organ without the reproductive gland. Well I guess you're right, she's the godly woman of the Proverbs, the godly woman of the book of Proverbs. So the Holy Spirit has no seed, you see, the Holy Spirit goes forth wooing drawing you towards the fullness, drawing you towards Christ, drawing you, the Holy Spirit will witness to you in the direction you must go in to become exposed to the seed of the Spirit of Christ, so that you can receive the grafted word, and become a spiritual man, you see. Once you've received, once Christ is grafted to you, and this is interesting because I've been teaching this for years, that once Christ is grafted to you, the Holy Spirit is absorbed Christ in you, now you have the Spirit of Christ, and now Kabbalah well it's still the doctrine of Christ because Kabbalah isn't teaching this, but what's coming forth here is that, the male organ is called the eunuch, she has no seed, and when

the reproductive gland is added to her, okay, you receive the whole relationship with the male, so it's the same thing I've been preaching all along. Did you understand what I said? Okay.

Okay on the right side of the board, I have a drawing of assimilation of Adam Kadmon, and you can see his ears, the light of the ears is from the cantellations of the Yod, it's from the cantellations of the SaG of the SaG. So I have written over here Ta'amim that's the Hebrew word for cantellations, the Ta'amim of the SaG, I should really of the SaG. So we see the lights of Adam Kadmon's ears are the Ta'amim of the SaG of the SaG, and I show you his forehead, AB, is in Adam Kadmon's forehead, and his forehead is called the forehead of desire, because Adam Kadmon's forehead is the place where spiritual sexual intercourse takes place. The place of the marriage bed, of the spiritual marriage bed, is in the mind. You see. And this is why I've been preaching here for years and years and years, you really can't have both, as unpopular a message as this might be, you can be married and engaged in a sexual union with your husband while pursuing Christ, but you will reach a certain point that you will not be able to go beyond so long as you are giving your spiritual energy, which is, there is no difference between the spiritual and sexual energy, we each have a measure of energy, and either we use it sexually or we use it spiritually. So you can have both up to a certain point, but it's not a very mature point, and to go on from there, you can mature spiritually while using up your sexual energy in a sexual relationship, and that's just the hard truth of this whole thing, that's why Jesus Christ was a eunuch.

Am I against marriage? No. But if God calls you, you have to give it up, if that's what he calls you to. Praise the Lord, and the truth is that as long as you're hoping and longing for marriage while you have a high call on your life, you have not given it up and there's a conflict in you, and when there's a conflict in you at some point you will lose one or the other. Praise the Lord, if you pull against the Lord too long and too hard, he is the one that you will lose.

Okay, so we see the forehead, Adam Kadmon's forehead is the forehead of desire, it is where AB, is located in the brain, and when the spirit of Christ enters into us, the Spirit of Christ is in the brain.

See the Spirit of Christ increases your intelligence, increases your intellect, the Holy Spirit does not do that, am I against that Holy Spirit? Of course not, there's a time and a place for everything, but the Holy Spirit is just the beginning, the Holy Spirit comes with gifts like engagement gifts, to introduce you to the world of God, to the Bible, to his ways, to his spirit, the Holy Spirit can bring deliverance, can heal you, but does not change your intelligence, the Spirit of

Christ can if you do your part, make you more intelligent. I get more intelligent all the time. So AB, is up here in your brain. SaG is down here in your ears. Okay. Now we're talking about spiritual reproduction right now, okay. Here I show you Adam Kadmon's heart, and down here although I don't have it on the board, what is this dot over here can anyone tell us? Okay.

COMMENT: His navel, or his belly button.

PASTOR VITALE: Yes, that's Adam Kadmon's navel, and the circle, you see his shoulders are squared off, but the circular aspect that I show you of Adam Kadmon is referring to the area actually below his navel, I don't know how clear this drawing is. The world of points is actually below his navel, so I'm going to have to try and adjust that somehow. So we have inside of Adam Kadmon below the navel, and outside of Adam Kadmon the world of points circulating around him below his navel, and the area inside of Adam Kadmon is now been revealed to us is Adam Kadmon's ovary, his female organ which is internal, and the world of points circulating around Adam Kadmon on the outside of him is his male organ.

So we see that Adam Kadmon is male and female, and he's going to bring forth a son from within himself. Earlier to get to this point here, you see we have SaG, we have the Ta'amim of the SaG of the SaG in the ears already, what that means is that originally the whole tetragrammaton was inside of Adam Kadmon, AB, SaG, MaH, and BaN were all inside of Adam Kadmon. AB, went up to the forehead, SaG came out through the ears, in three different out through the ears the nose and the mouth, and what we're left with inside is just a few inner aspects of SaG. All of MaH, and all of BaN are left inside of Adam Kadmon. Then we're told a desire arose within Adam Kadmon, a desire arose for the inner aspects, for the remaining aspects of SaG, and the inner aspects of MaH and BaN, to ascend up to where the Ta'amim of the SaG of the SaG are.

A desire arose which can be likened to human sexual desire. A desire of the mind arose, although it's not really mind, but I'm trying to help you to relate to it. We have desires of the mind brethren, we lusts of the mind, you just want something, some people have strong... it's a desire, so why did these inner aspects of SaG, MaH, and BaN desire to ascend or to ascend and go on the outside where the Ta'amim of the SaG of SaG are, why do they desire, that it was some kind of a reaction from within Adam Kadmon, some how founded on the, on his assignment, to bring forth the will of the Ayn Sof, to bring forth a creation, desire arose within Adam Kadmon, desire to reproduce.

So the reason I've drawn this like this, inside is that all of the inner aspects of SaG that were left ascended and some of the inner aspects of MaH and BaN ascended, but other inner aspects of MaH and BaN remained inside Adam Kadmon. So we see the inner aspects of SaG, MaH, and BaN, ascended, I've drawn the lines up with little arrows showing you, that they ascended up to the Ta'amim of the SaG of the SaG and mixed with them. Now Kabbalah calls these inner aspects the female waters, the female waters. Now at this point I don't know where they got that name but what it signifies really is the fluids of sexual activity, that's what it's talking about, and they ascend up and mix with the Ta'amim of the SaG of the SaG.

And I don't have anymore information about it at this time, but if ever you're reading in the Zohar and you read anything about the female waters, that's what it's talking about, and I recently, I read the Zohar everyday, I came across a paragraph where it talked about the female waters, and I got very excited because I would never know what it meant from the Zohar if we haven't had these studies from the tree of life and from our online course. So that really excited me. Whenever you read about female waters, it's talking about reproductive fluids, that's what it's talking about, probably talking about the female seed, the female side of sperm, the female seed going up. See as far as I know about human reproduction, the female seed does not come forth in a water medium, we know that the sperm the male seed comes forth in a water medium, okay, and the seminal fluid in human reproduction flows towards the female egg, for the purpose of contact and penetration and fertilization.

So here in spiritual sexual activity, we see the exact opposite, we see that the female, the female eggs, I'm going to say eggs, because I don't know seed, okay the female seed is in the water medium, and it's the female seed that flows towards the male seed, it's the exact opposite, can you see that? So what's happening here and the Lord is telling me this just as I'm teaching it, I didn't know this, is that this ascension of the inner aspects of SaG, MaH and BaN and especially being called water, is the momentum or the movement of the female seed which fertilizes the Ta'amim, I don't know if fertilizes is the right word, but which makes fertile the Ta'amim of the SaG of SaG. It gives it the seed, and then the Ta'amim of the SaG of the SaG ascends into the forehead of desire, where it couples with AB, to produce the son. Okay the Lord just gave it to me a little further. This Ta'amim of the SaG of the SaG, that is the female aspect of SaG, that is going to be coupling with AB. You might say that's the woman, to understand what's happening here. This light of the ears is the female or the woman, that's going to couple with AB, but the egg just like in a human woman the ovary, she has to ovulate and the egg has to come down into the uterus in

order to be fertilized okay, the woman here the Ta'amim of the SaG of the SaG, she has to rotate up towards where the male seed is, it's the exact reversal. Apparently the male seed doesn't move, well it's not the exact reversal, apparently the male seed doesn't move, he just stays in the forehead, and the woman has to vibrate towards the male, just as the ovum would ovulate out of the ovary.

So all the way down here in Adam Kadmon's navel, we see the seed coming forth joining itself to the Ta'amim of SaG of SaG, and then together the seed plus the Ta'amim of the SaG of the SaG, which, well we could say the light of the ears, I guess that's easier, the female seed joins with the light of the ears and the light of ears ascends into the forehead and couples with AB, and SaG gives birth to MaH, the son. Is everybody okay with this?

Okay so we see that desire of course is the inner aspects of SaG, MaH and BaN to ascend to the outer aspects of the Ta'amim of the SaG of the SaG, which is the light of the ears. Okay. There is then a spiritual sexual union in the mind of Adam Kadmon. You see brethren, we are really fallen, the world is fallen, it's sex bad? No sex is not bad, God has ordained it in marriage in this world, but we're fallen we can't stay this way, you see.

The whole cannot stay this way forever because we are called to be the whole of mortal humanity, not just the church. See the Lord he starts with small groups, and then he expands out, so right now the Lord is dealing with the church, and with some Jews, but he's not dealing with the heathen right now, but this is for the whole of humanity, this is the covenant that Elohim or the fulfillment of the covenant that Elohim made with Noah and his sons.

This is not just for the church, and when I get to it, I'll show you one of the revelations the Lord gave me for today is all of the Scriptures referring to the bride, the bride of Christ, I've heard it preached in the church the bride of Christ, it's the bride of all mortal humanity, and it's not the bride of Christ. The bride is the Fiery Serpent, well the Fiery Serpent is the bride of Christ, okay. I had it backwards, I'm sorry. It's the Fiery Serpents of mortal humanity that is the collective bride of the glorified Jesus Christ, and that is our restoration to our true heritage, we're suppose to be male, you see. Now everyone as they can bear it, is going to get this revelation. The priests are coming forth first, just like the priests cross the Jordan, a significant distance ahead of the people, brethren you're not suppose to go into condemnation, but you have to know that it's a disgrace to be a woman when you're called to be a man, it's a disgrace. If you can hear this, don't get condemned now, we fell.

Be not condemned, but you can't stay like this, you can't stay like this, you're a man, we're all men, you can't stay like this, see. So the first step backwards to becoming a spiritual man is to give the female sexuality of this world, and even if you're a physical male, you're still engaging in female sexuality because the female sexuality is physical sexuality. The male sexuality is of the mind, that is just the truth of who we are. Jesus said he had much to tell the Pharisees, but they couldn't bear it. So we can't stay this way because we're the son of the Lord Jesus Christ and we have to be who we're called to be, and this world has to come into the image of Adam Kadmon who is in the image of the Ayn Sof. We can't stay this way no matter how most of us would long to stay here, the majority of people would not want to change, and it is hard to change and it is painful to change, but we can't stay this way. But if the Lord's not calling you now you don't have anything to worry about, but if the Lord is calling you to change and you're pulling in the opposite direction, you are going to have a big shock when the Lord lets go of you, he will only hold on to you so long, and if you don't stop pulling in the other direction, he's going to let you go. But you could always repent and if you can't repent you can always confess that you can't repent and hope for the best, hope that the Lord will grant you repentance. Okay.

Okay so I'm showing you the world of points down here with the inner aspects of Adam Kadmon being the garden, Adam Kadmon's ovary, and what is growing in the garden are all of the male seeds of Adam Kadmon's ovary. Male, Adam Kadmon doesn't have any female seeds, you see. Everything's a male, there's a Scripture like that in the King James, it says and all of their offspring were male, something like that, it's in one of the prophets, all of their children were males. There's not suppose to be any separated individual female, the female is an aspect of the male, that means it's talking about a female part of us, no one's going into obscurity, every human being has female and male aspects.

Your female aspects have to, well first your manhood your spiritual manhood has to be grafted to you, which is Christ, and then your female aspects, your carnal mind has to go down under his authority so that you can be a man, because when Christ is grafted to you, and you are still living out of your carnal mind because you just have human problems that everybody has, okay, all, look there's no sin that every man doesn't have because you're stubborn because you're rebellious, everybody's got it, some a little more, some a little less. So if Christ is grafted to you and he is having trouble getting out, okay, you have to yield to him, you have to yield up that carnal mind just like you did this morning, you have to give it up and learn what Christ says, so that carnal mind can go down under so that you can become a man.

You see the personality who we are, if you're a physical woman, don't misunderstand me, and think that you're going to be veiled like someone over in Afghanistan, no, no, no, no, no, it has nothing to do with your physical body, within you, your female aspects have to go down under your male aspects so that you the person will be spiritually male. I'm talking about your liberation, I'm talking about your imprisonment, I'm talking about your liberation, you the personality, your liberation. Yes the imprisonment of your female side, your carnal mind, yes she has to go down in the pit, she has to because she's killing you, and she's killing the Christ who you carry, you see. Jesus Christ is the great liberator, you see.

And even to the extent that your carnal mind is going down into the pit, that aspect of you is not going to be tortured forever and ever, at some point your carnal mind will break, her rebellion will break and she will live in peace with the male aspects within you, and she'll be content, by however, whatever manifestation that will take of our female aspects, the day will come where her rebellion will break, and there will be peace within you, and she will be at peace. No one's going to be tortured forever, you know, at one point and this goes back years ago, you know maybe at least ten years ago, if not more, when I was going through this process and didn't really know anything about it, no one was here to teach me about it, you know like you have this privilege right now, there were times that it was happening frequently, I would hear woman screaming, I would just here this woman screaming in my head, just screaming, but the Lord told me it was my carnal mind, because she was going down under Christ in me.

The two of together, Christ and my personality we agreed to put her under, and I heard her scream and I've heard this testimony from at least one other person, she screams when she goes down under, but then she gets use to it and she's okay. Okay, praise the Lord, that's your female side, you see. There are some pop psychologists out there that say you have to be nice to your female side. I had one woman say to me, oh honor her, because died so that I could live, and this woman who said this to me was an emancipated woman, living an emancipated life, she had a career, she was very independent intelligent woman, but spiritually speaking I don't agree with her position, she said, Oh I honor her, I honor that female side of me, she died so that I could be who I am today. Well my carnal mind has to die and has died so that I could be who I am today, but I don't honor her, because if I gave her the chance she would murder me, see, so I don't honor her.

Okay, let's go on with this board. Okay so I show you the inside of the inner aspects of Adam Kadmon is his ovary, his female aspect, and the world of

points which circles outside of the same area below the navel, the garden, Adam Kadmon's garden, Adam Kadmon's ovaries in the garden, it's the area below his navel, and the world of points that circulates outside of that area is the male organ, its' the male organ. The world of points outside and the garden inside. Zeir Anpin's whole genitalia, well let me say this first, I heard a question here, okay I thought this is the question I heard, I thought the reproduction was in the mind and the forehead of desire, did anyone here think that? Or it was it the Lord saying that to me.

Okay, the forehead of desire is the high place of reproduction between AB, and SaG, between wisdom and understanding. The world of points which is reconfigured as the world of emanation is the next world, next to Adam Kadmon, the world of emanation is a very high place, and it is out of the world of emanation that the world of creation where all the angels are, the world of formation, which is the visible world, comes forth.

See the world action will eventually disappear. The world of formation will be the spiritual visible world. See, so it's Abba and Imma give birth to the son, and the world of points which becomes the world of emanation is the son, and then the son gives birth to the visible world, so we have a double reproduction here, the reproduction of wisdom and understanding, Abba and Imma, and then we have the reproduction of the son, which produces forth the visible world. So we see the son is the mediator. The son, the offspring of Abba and Imma is the mediator between all of the creatures that live in the lower worlds, and the heights of Adam Kadmon who is the Lord Jesus Christ. Is everybody okay? Zeir Anpin's whole genitalia is male.

Now this is a change here okay because I have taught you that the daughter coming forth is BaN, that's what I taught you so here's a correction here. Zeir Anpin's whole genitalia is male, but and the whole genitalia is the male organ which I've told you was BaN, and the reproductive gland, okay its testes. So for all intents and purposes we can really say that the daughter coming forth, she's really male, she's really male, she's a part of the whole male genitalia, which makes her male, however there is a distinction of authority between the male organ and the reproductive gland. The reproductive gland has authority over the male organ. Now I've been teaching you this from the beginning of the doctrine of Christ changing spiritual sexual roles. A woman is female to her husband, but she is male to her children, if you have authority your male, if you are under authority you're female.

So we all have opportunities to be male and female in this world, depending on who we are relating to. So the male organ, she is part of the male whole,

because there's not suppose to a separation between the male organ and the testes, is there suppose to be a separation between the male organ and the testes? No, if a human being is born with a male organ without testes, he's afflicted, he's considered afflicted, it's a perversion for man to come forth like that, for a baby to be born like that, in this world, so it's not suppose to be that way. So there's suppose to be one complete male organ, one whole male organ, okay. But because of spiritual birth, this doesn't happen in human birth, the male organ came forth before the testes, and if she would have just behaved herself and waited for the testes to come forth, she would never been identified as BaN.

Can you hear what I'm saying, can you hear what I am saying? Okay. It was only from the point that she took on independent action, that she thought and then acted out a thought that was deviant from the thoughts of her authority, the male reproductive gland, when she, you see, how do I say this, so when you are truly in submission a perfect submission, when the day comes that we are in a perfect submission to God, and there is not one thought that comes up even in the unconscious part of our mind that comes from the carnal mind, our only thoughts are the Lord Jesus Christ, or Christ in us, in that day there will be no separation whatsoever between us and God. This is the condition or this was the condition of Jesus Christ in the days of his flesh.

The only difference between him and God, which is not spiritually speaking is not considered a difference, is that his form was different. He was formed in flesh. See. But spiritually speaking there was absolutely no difference between Jesus of Nazareth and God because their mind and their thought process and their actual thoughts were exactly the same.

The only thing that was different was the form. See this is a very important basic spiritual principle.

When we had the issue in this country about stem cells before president Bush made his decision, somebody called me up and they wanted my opinion on that, and they were coming from a place saying, well the embryo was just, it's just, I don't remember exactly what their position was but it was something like this, but it's just a day old, and this was my answer to them. It's the same that embryo, that fertilized embryo, that is one day fertilized is the same life as the human being that would be born from it, who has lived for ninety years, the only thing that has changed is the form, can you hear this? It's the same life from the moment of conception through a fully grown fetus, to a new born baby, to that baby living to ninety years old, it is the same life, the only thing that is changed is the form, can you hear this? The only thing that's changed is the form, see.

So therefore spiritually speaking, it's the same thing if you kill it when it's one day fertilized or a ninety year old man. So you see abortion and euthanasia are the same act, in particular euthanasia of elderly people, it's the same act. See, now if you can hear that, if you can understand that, that will help you to understand the spiritual lifetime, and the righteousness of the Lord saying, the sins of the fathers shall be visited upon the children, because it's the same man, the only thing that has changed is the form. That's the truth, it is the same man, your child is you in another form, if you can hear it, that is not today's message.

Okay, Zeir Anpin's whole genitalia is male, but the male organ is subordinate to the reproductive gland, that's the testes, in this context that male organ is female, and we call her, we give her a different name, we give the male organ a different name than testes, simply to indicate that they are not equal in authority, see. So the male organ is called the daughter, and the reproductive gland is male, he is called the son, in this context only, to show the relationship between the male organ and the testes, but to anyone else, there's only one whole male organ, which is male. Can you hear this? Okay.

The daughter is MaH, she's male, she's MaH, when she's a part of the whole genitalia, but becomes BaN, the daughter becomes BaN when she acts independently of the son who is the reproductive gland. Accordingly, BaN only came into existence when the daughter rebels and received the name at which time she received the name of the Serpent, in the fallen system, which should never have come into existence. She only received an independent name. Son and daughter is an internal name, if you have a family or maybe you call each other by nicknames, it's just between the two of them, son and daughter is just within the family, to anyone outside of the family that's a whole male organ. I mean think of it in the natural, it's Bazaar that the male organ should act independently of the testes it's impossible in the physical, see.

So she did the unthinkable, it's still unthinkable in the physical, and it's unthinkable in the spiritual for the male organ to act independently of the reproductive gland, but it is impossible, not only unthinkable it is impossible in the physical, but it is possible, it's unthinkable and possible in the spiritual, she did the unthinkable. You have to realize how serious this was. She killed all of the male seeds of her, of Adam Kadmon's ovary, see, and brought a perverse world into existence where people have been suffering for a very long time, she did the unthinkable, see.

And what comes to mind, what popped into my mind when I said this is what happened at the world trade center, this has been labeled as the unthinkable, you see. So now remember, everything that happens in the spiritual plane is

happening over and over and over again in the visible plane, that's why King Solomon said, there's nothing new under the sun.

This world of action is the stage Paul said where the fall is being, or the different aspects of the fall is being reenacted over and over and over again. So we see this country falling, I believe the Lord's going to intervene and we're going to be caught from hitting from total destruction, but and I, this, the Lord must be saying this, it's coming out under the anointing, I never thought about it before, this hideous act that was perpetrated on our country and on New York City and upon each family that was affected, of what happened at the World Trade Center, is a sign that the Serpent is bringing forth her destruction in this land, it was a physical sign of the destruction that is already falling upon this nation, because of our rejection of the Lord Jesus Christ and our dishonor of him in our court system, see.

The people are bad enough but it's our government, our supreme court that are dishonoring the Lord Jesus, and the unthinkable occurred in this world of action. Very interesting. So accordingly BaN came into existence, when the daughter rebelled, and I remember reading, I think this was in the King James, I can't remember whether it was in the King James or in our alternate translation, but I think it's one of the chapters of the book of Daniel, where Daniel is asking when is all of this going to come to an end, and the angel said to him, the angel counted a few events that had to happen and one of the things that had to happen to bring this corrupt world system to an end, to a positive end, you know the deliverance, was that the rebellion would be put down, and I could never figure that out.

I don't know about you, all I knew was that Eve ate the fruit of the tree, and yeah so Elohim told her not to do it and she ate the fruit of the tree, I just couldn't get it that it was big rebellion, I mean I could even understand that she wound up having a spiritual fornication with the Serpent, and that this world was fallen because of her, but I just couldn't fit that word rebellion in, you know, when the rebellion is put down, it just didn't sit right with me, you see, I knew the Serpent was in the land and she's still rebelling, I just couldn't relate to it, I just couldn't get it right in my head, this does it for me, see. I can understand this, see. I can really understand this, the rebellion is, the male organ of Zeir Anpin, which is Christ Jesus to us, well I shouldn't even say that, Christ Jesus is the reconfiguration, Christ Jesus has this whole male organ, this is the world of points still exist, the male of Zeir Anpin and this world is doing her own thing, and she's not in submission to the reproductive gland which is Christ Jesus, you see. I can deal with that, I couldn't even deal with Satan being in rebellion, because I was taught well Satan is Jehovah's servant, and wasn't she always

that way, isn't Satan always a rebel, and I just couldn't make any sense out of it. This does it for me.

The powers and principalities that rule this world, which are generated from the Fiery Serpents in the individual human being are the bride of Christ, do you hear this? The powers and principalities of this world which are Serpents are the male organ of Zeir Anpin operating independently of his reproductive gland, and Zeir Anpin's reproductive gland is appearing today as Christ Jesus in the individual people trying to join himself to his own penis, can you hear this?

So the marriage is between Christ Jesus and the powers and principalities of this world, and when that marriage takes place, the powers and principalities of this world which are so vicious and virulent, will cease to have their own existence. So all the viciousness and the virulence and the evil of this world will cease because they will be incapable of manifesting apart from their husband, the reproductive gland which is Christ Jesus who is righteous.

You see, nothing spiritual is ever destroyed, it just either changes form or is covered over, and the list of things are really the same, when you cover something over you change its form, nothing is going to be destroyed, spiritual things are not destroyed anymore than energy is destroyed, just the form is going to change. The problem in the world today or the problem that we have is separation, and this age is called the divided age or the separated age, I know I have it in the alternate translation.

Every once in a while a phrase would come up that would just stick with me, I didn't know what it meant, but I couldn't get rid of it, and that word, the divided age, it just really stuck with me, this age, you see, all of the human beings for the last 6,000 years, well as long as human beings existed, we think it's about 6,000 years, we're all a part of one generation, the generation that came into existence when Zeir Anpin's male organ from his reproductive gland. And in the hour that Zeir Anpin's reproductive gland subdues his own male organ and knits them together again, this whole age that came into existence by this separated male organ is going to cease to exist. And the ages are within you, we're told in the book of Ecclesiastes the ages are in your heart.

Ages are within you, in your inner part. So you have got to get this new age inside of you, because when the old age rolls up, if you don't have the new age inside of you you're going to cease to exist. Praise the Lord. Now some people, some spiritual people or they call themselves spiritual people, pervert this whole concept, they say well Sheila, you just said, that nothing is going to be destroyed, and that Satan and the Dragon and all these powers and

principalities, there just going have their form changed, so that means that evil is an illusion, and you have to love the demons and not be too hard on these people, on these entities because or these people because well they're just a part of the divided age. No, that's a perversion, it is going to and is taking and will take a warfare to reknit Zeir Anpin's testicles to his male organ, and the powers and principalities have to be warred against and defeated, they have to be defeated foes, and you have to deal with evil on every level wherever it's appearing within yourself, within your family and outside of your family. I have to deal with it righteously in Christ Jesus.

So the world of points died, okay, the reproductive gland of the world of points, I think it died, I'm not sure what to say about that, but I will tell you this, that I just said to make a point, just in the last five minutes to make a point, I said, the reproductive gland of Zeir Anpin is being rejoined to his male organ, but that's not really accurate, I don't know what happened to that reproductive gland, if I know it's not coming to me at the moment. The reproductive gland of Christ Jesus. Christ Jesus is the whole, Christ Jesus is the whole man, the whole genitalia is going to be joined to the run away rebellious male organ of the world of points. Well your carnal mind says, well if Christ Jesus is the whole male organ, is the whole genitalia, which is the reproductive gland and the male organ, if you knit that together with the male organ of the world of points, won't you have two male organs? The answer is no, I don't have the details for you right now, but the answer is no.

This is the way it's being done. The Lord Jesus Christ which is the whole male organ, in the form of his son Christ Jesus in the individual, is apprehending and joining himself to the male organ of the world of points and this whole thing is going to be worked out, and we're all going to be a spiritual man, we're going to be a spiritual man, that's going to have AB, and SaG in our mind, and we're going to have Christ Jesus in our belly, overseeing the Fiery Serpent, and we're going to march into eternal life, but it's not going to be that easy. There's a big, big war revving up in the world, a tremendous war.

Right now the priests are being raised up, we are the priests, we're in training, we're priests in training, the whole world is going to have to be reconciled, it's going to be an awesome awesome job. It will be a supernatural work, however it's going to happen. I do not believe it will be the same procedure as we're facing here, because it will take a million years to do it. Once the priests are raised up there has to be a better way, there has to be a better way. Just like when we were in old order deliverance, and we use to spend sometimes two and three hours casting a demon out of somebody, we said there has to be a better way, and we now found out that there is another way, once Christ is

grafted to you, and you submit yourself to a ministry where the word is coming forth, and to the correction of your personality, that's the better way. You get the same results and even better results. Okay any questions or comments about this message?

Well we're not finished, we're going to go out to dinner now and I really have other things to tell you, I told you already about the bride of Christ, I want to work Noah into this, and the flood waters, so we'll do that Lord willing tonight, any questions or comments? Okay see you after dinner.

Drawing # 2, Adam Kadmon, I'm showing you Adam Kadmon again, and there was an error on drawing # 1, I don't really know what I said on this tape, we're correcting the drawings, the light that formed the world of points come out of Adam Kadmon's eyes, the world of points is Zeir Anpin's male organ, the light that comes out of the forehead is called the new light, that's MaH, and that is the reproductive gland. So we see that the male organ and Zeir Anpin's male organ and Zeir Anpin's reproductive gland come out of two different places okay. The light that comes out of the eyes forms the world of points, but the light that comes out of the forehead is a light that's born. The light that comes out of the ears nose mouth and eyes is not born, it's just light that rises up from the inside of Adam Kadmon and emanates out from the eye gates, the ear gates, the nose gates, and the mouth gates.

The new light, that's why it's called new light, that comes out of the forehead, is because it's not the light, the light that comes out of the forehead is not the light that have ascended from inside of Adam Kadmon and just come out. The new light is the product of the union of AB, and SaG, and that's the difference. So according to Kabbalah, it's my understanding of the readings that I'm doing now, It's pretty clear to me, that the teaching seems to be that there was only suppose to be one Atzilut, okay, one world that would circulate around Adam Kadmon below his navel, that world sometimes called the primordial Atzilut, emanated originally as the world of points, and Kabbalah teaches that that world lived and died, that the light was gathered up and reconfigured into the new light that came out of the forehead which was a stronger light, okay, but the Lord shows us tonight as we worked, as we interweave the doctrine of Christ with the doctrine of Kabbalah, the Lord shows us that first of all the world of points was not destined to live and die, but we know the story about what happened there, that the male organ engaged the seedlings of Adam Kadmon's ovary in an act...

Tape 2

... and that is why the world of points died, but the world of points did not have to die, and we're going to talk more about that on the next drawing.

The world of emanation was to have come forth whether the world of points died or not, the world of emanation is the Zeir Anpin's reproductive gland, which was designed to overshadow the world of points and merge the world of points and the world of emanation to become one whole genitalia of Zeir Anpin, see. So we must disagree with the doctrine of Kabbalah at this point, does anybody not understand what I just said, do you want me to say it again? Okay.

Okay so I'm going to correct drawing # 1, and this is the correction, I just want to make it very clear, the light that comes out of Adam Kadmon's eyes, forms the world of points, that is the daughter who when she thought independently of the son, turned to her evil side and became the Serpent, this light, okay this female light that came out of the eyes formed the world of points. The light that was born out of Adam Kadmon's forehead, and this light that formed the world of points, it's BaN, it's the female, BaN, okay, but she was never intended, it was never intended for BaN to bring forth her own world. See the world that BaN brought forth is the world of action, this physical world, and she caused a fourth letter to be added to the Holy name of a second Hey, but it was never intended for a female world to come forth.

BaN the light of the eyes, the light of Adam Kadmon's eyes that formed the world of points was only alone temporarily waiting for her husband, the son to be born from the forehead of Adam Kadmon, to come and overshadow her, to weave together with her, so that she, the female would be a part of the whole male genitalia, and although the whole male genitalia has male and female aspects because the male organ is considered female and the reproductive gland is considered male, when they're woven together, the whole male organ is considered male. So there is not to be any female world. The female BaN is designed to be an aspect of the male world, see, but she is just a part, a dependent part of the male world, it was never intended to be a female world.

Any world that is female is mortal and must die, it cannot stand, okay, does everybody have that? We're talking about that the light from Adam Kadmon's eyes, and the new light that was born from Adam Kadmon's forehead, we're talking about the world of points coming forth from the light of Adam Kadmon's

eyes, being female and the new light that was born from Adam Kadmon's forehead being male, producing the world of emanation, and the doctrine of Christ is saying that the world of emanation is not a reconfiguration of the world of points, but that the world of emanation is the second aspect of Zeir Anpin's genitalia, which came forth in two different worlds, spiritually speaking. The first world is a eunuch, a male organ that cannot produce male offspring, and male offspring is the only thing that we want, male offspring are immortal, female offspring are corrupt and reprobate and they die, that is not something to be desired you see.

So the lights from Adam Kadmon's eyes in the world of points was not designated to die, but well let me put it this way, she was designated to die to her own lifestyle, she's designated to be an aspect woven through by the preserving qualities of the new light, MaH, the son. Is everybody okay?

The two worlds designed to be woven together, the world of points and the world emanation, and when completely woven together to be called the world of emanation. You don't call Sheila's heart Sheila's heart, you just call me Sheila, that I have a heart in here, you don't speak to my heart, you call my heart Sheila's heart. The world of points is a part of the whole male genitalia, see. Is everybody okay?

Okay, so I've tried to show you here Adam Kadmon's ovary, which is the inner aspects of Adam Kadmon and the reference books that we're studying with, the Tree Of Life, by Rabbi Chayyim Vital, and the other books and references that I'm reading, although they clearly state that the MaH aspects are inside the BaN aspects, okay they clearly state that the MaH aspects, which is the male is inside the female. So I have drawn the relationship between MaN and BaN, inside of Adam Kadmon as what would appear to be eggs, ovum, this is the female aspect of Adam Kadmon, but every egg or ovum within him is male, is male, it's suppose to produce a manchild, everyone, and we are today the eggs of Adam Kadmon's ovaries, or the members of mortal humanity. Each one of us is suppose to produce a manchild, see. And the sac outside which is our physical body and personality is female. So who are you going to be? And you're having this conflict right now, I've pointed it out to you several times recently. Your personality still thinks that you're a physical woman, but because Christ is living powerfully through you, you are suppose to be a male.

Spiritually speaking you're confused, you see, and we're trying to get you straightened out, okay because the Christ inside of you is a the true you. So why are you still acting like a woman? This is what we're working on with everybody here, we are having a change of identity when Christ is grafted to us, we have a new identity, we have a new gender, but we the personality have to believe it and understand it, and go into training to accept our change of life. You see, everything that happens in the spirit happens in the natural sometimes as a perversion, we have sex changes in the world today, and what do they do, it's usually a man becoming a woman, most of the time I think it's a man becoming a woman, I haven't heard very much about a woman becoming a man.

So what do they do, they give the man hormone injections, so he grows breast, and the hairs of face stop growing, they teach him how to dress and how to fix his hair and how to talk and how to walk, and he becomes a woman. Well brethren, we're becoming men. Now we're not going to change our physical sex, if you're a woman, you're not going to change your physical sex, but your mind has to change, your reactions have to change, the way you think has to change, and when that changes your behavior will change and there's no way you're going to enter into this change if you don't understand what's happening to you because if you don't understand what's happening to you, you're going to resist this change. It could be very frightening and distressing, if you recognize what's happening to you without this understanding, it could be very very difficult for you. And depending on your relationship with Jesus Christ, everybody is not equally strong, it could kill Christ if you don't understand what's happening, you could abort the Christ child that you're carrying. And that's what this education is all about, to educate you, to educate you to work with the Christ within you, so that you could be, or become what you're suppose to be.

Okay and the gifts of the spirit not the end of it. You're suppose to come to the fullness of the stature of the Lord Jesus Christ, that's what we're called to, to be spiritual men, to judge righteous judgment, to execute the Lord, to protect the widow and the orphan, to protect the weak of this world, that are being victimized by the evil inclination in this world, that is what the high calling is, its' a sacrificial lifestyle that does righteousness, defends the weak, challenges that wicked strong ones, on behalf of the Lord Jesus Christ, for the people that he would protect, who are crying to him day and night. So if you're looking for glory for yourself you're in the wrong place.

If you're looking for glory for yourself, you should stay in Pentecost, where everyone comes over to you and says, Oh, what a wonderful prophecy that was

sister you are so anointed. If that's what you want, you should stay in Pentecost, I'm not being sarcastic.

The Lord is not forcing himself on anybody, you are going to get the true desires of your heart, and this high call is not for everybody, so if what you're looking for is the praises of men, you should go home, just like God said to Gideon, send the ones that are afraid home, you're in the wrong place, you're in the wrong place, men will despise you when you have this ministry, you'll be hated for all your good works. Jesus said, For what good works do you hate me? Okay.

Okay so here's Adam Kadmon I've showed you the male seedlings and there's a Scripture that I wanted to give you and I can't find the Scripture, I'm sure it's in one of the prophets, it says in that day every child born will be male, obviously I don't have the right words, because I cannot find it in my concordance, everyone born will be male. I use to wonder about that, you know, no more children of the Serpent, you see, only the children of Christ Jesus who is Zeir Anpin. No more mortal, no more mortals being born, only immortals being born. Okay so here we see the seedlings of the garden, we now know that the garden is on the inner aspects of Adam Kadmon, and I see that I drew that wrong again, but I'm going to let it go. The seedlings are within the whole diaphragm, I'll add that here. It's the world of points that is only below the navel, but the seedlings fill the whole diaphragm. So I'll add some more in there right before we take that picture.

Okay I've showed you the garden the inner aspects, here's the Fiery Serpent which is BaN, who is come down from the eyes of Adam Kadmon, the world of points, the male organ without the reproductive gland, she is half a man, the world of points is half a man, see. She's suppose to be in a convent until her husband comes she's not suppose to be active. Okay now remember from a previous message yes, the Lord knew that the Serpent knew that the daughter would not be able to control herself. Yes the creator knew, that the Serpent would move upon the garden to seduce the seedlings, and therefore the commandment was given to Adam, simple Adam in the garden, guard the garden. But simple, you see no matter how weak the man is the commandment goes to him.

Now I remember telling you this a couple of years ago, if you are one of these women whose husband is very weak, and we have a lot of that in this country today, no matter how weak he is, now matter how incompetent or unreliable he is, when Jesus enters into your family to set it straight, he's going to that weak incompetent irresponsible man and giving him the commandment.

And if you've been living in this family for years, if you're the woman and you've been taking care of everything because your husband has been totally irresponsible, drunk, drug addict, a womanizer or whatever, and you've been taking care of everything for years, when you say Jesus restore my family, restore my family, when Jesus Christ moves into your family, he's going to your weak no good drunken husband and saying you're the man, stand up on your feet and I'm going to teach you what to do.

So the commandment was given to the man, Adam, guard the garden, but the truth is that the man in the garden was simply ovum, seedlings, and each seedling was surrounded by a sac of BaN, that is why the seduction went to the woman, the Serpent went to the woman, the woman heard the commandment but Elohim said, we shouldn't eat of your tree, because the man and the woman were one, but the woman was on the outside, see and Adam, the seedlings inside apparently were too weak to deal with the woman, but the commandment was given and they could have dealt with the woman through obedience, see.

That's all that I have for you, is that the commandment was given, the creator said, I know the Serpent is going to seduce you, the restraint should come forth from the garden, the restraint should come forth from Adam in the garden. A commandment was given and that is where the disobedience came in, the man was very weak, the female sac that he was dwelling in was very strong, but it has to be possible, well he didn't have to eat you see, maybe the commandment was given to Adam, so the woman who is this sac, the BaN sac that the seedling was in, she agreed with her relative the Serpent on the outside. But he male seedling that was in, she agreed with her relative the Serpent on the outside. But the male seedling that was inside, apparently had the power to resist and did not, but the commandment was given, and this goes right in with doctrine of Christ, it was the disobedience that caused the fall. And to this day, men have a problem when they have a, you know it's, I don't want this to sound like I'm putting down women, because I'm not, but I do know this, that anybody that's in the passive role, has a tendency to put pressure on the authority if that authority has affection for them.

If it's a son with his father, it doesn't have to be, it's just that women frequently are in this passive role. Whoever is in the passive role, when you've got a personal relationship with the authority, it's just the tendency to push, you know to let the authority know what you want, and it's a tendency for the authority to want to please you, and it's very hard to be in authority, and that's why rebellion

is such a serious crime because the people underneath the authority just have no way of knowing what it's like exercising authority over people. It's very very hard, you know whatever level you're on, wherever you're at, in the family, in the work place, in government, it's very hard to say no to people, and then people get mad at you because you say no, and they just don't understand what you're up against.

So the commandment was given to this female aspect of Adam, this simple Adam, Adam that was less than an embryo, just like ovum in Adam Kadmon's ovary. But apparently he had the ability to say no, if he didn't have the ability to stop the woman that was surrounding him, he must have had the opinion to not eat also, somehow because the commandment was given. The commandment was not given to the Serpent who was the male organ, the commandment was given to the simple Adam, in the ovaries, the seed in the ovaries of Adam Kadmon. And I don't know about you but this explains what I've been hearing for years to me, so much more, that Adam was disobedient, I never, you know I never really got it, you know, how he was disobedient, it was his wife that ate the fruit, you see.

So apparently the woman was instructed also, not to eat the fruit, the woman inside the garden heard the commandment, when God commanded Adam, the woman heard the commandment too, she knew, she said Elohim said we shouldn't do it. But the Scripture says that the woman was wholly seduced, completely seduced, like she didn't stand a chance, that's what the Scripture says. The woman was wholly seduced.

So it was disobedience that caused the fall. Okay so just in case you're not following me, there were two Adams, there were two Adams in Genesis, the first Adam is in Genesis 2:15, and that's referring to the seedlings of Adam Kadmon's ovary and then the second Adam, I think he appears in Genesis 3, I'm not sure we have it on another part of this message, and we're told in Genesis 2:15, that God put Adam in the garden, if you look up that Hebrew word it means that it allowed him to stay there. Adam was not in the garden because he deserved to be there, or because of any strength or any authority, God put him in there, God gave him the privilege of being in the garden, see.

So that's the simple Adam, and then we have Adam the man who was born of Adam Kadmon's from Adam Kadmon's forehead, and I covered all that on another message so I'm not going to repeat myself.

So here we have the seduction right here, I'll just read our writing here. According to the doctrine of Kabbalah, MaH, the new light comes into existence

only because the shattered world of points needs a rectifier or savior, but MaH was destined to come into existence even if the world of points lived, and even if it didn't shatter. The world of points, the light from Adam Kadmon's eyes is the first aspect, the male organ of Zeir Anpin's whole genitalia, MaH, Zeir Anpin's reproductive gland had to be born for the seedlings of Adam Kadmon's ovary to be born as a race of immortal spiritual men, you see, and the reason Kabbalah doesn't see this, is because, you see, doctrine build one aspect of doctrine upon another aspect of doctrine. This knowledge comes forth after we receive the revelation that the world of points is dealing with Zeir Anpin's genitalia. And the outstanding revelation that came forth in part one of this message that the world of points was the male organ alone, and that the world of emanation is the testicles.

So without that revelation this revelation could never come forth. So we see that the Lord does build line upon line, precept upon precept. You see. When I use to say, I use to say, Oh I don't believe that, you know, I use to, we read that in the book of Isaiah, where he's talking about teaching line upon line, precept upon precept, and I use to say, Oh I think Isaiah's criticizing the people. I don't think God expects us to go read every verse in the King James translation, because the way the Lord was teaching here was that he was jumping us all over the place, but now I realize that I don't think that's what Isaiah meant, not line upon line, precept upon precept of the King James translation, he's talking about foundational revelations. You have to build upon what you have or you will not understand the revelation coming down. So that's what he meant by line upon line precept upon precept, teaching upon teaching, principle upon principle.

See we can never get this revelation that the world of points will never be destroyed, it died, and it will be resurrected, because the world of points, the reproductive gland without the male organ isn't any good either. See. So it has to be line upon line precept upon precept principle upon principle, and the doctrine comes down, and why do we have to know all of this? Because we have, Christ Jesus is, this is his food, because Jesus Christ is the word of God. We are consuming him, because we become what we eat.

So if you want to arrive at the fullness of the stature of Jesus Christ, you have to eat his word, to arrive at the fullness of the stature of Jesus Christ you have to think like he thinks, which is impossible, if you don't have his word in you, and that's not talking about the King James translation, it's talking about the spirit of the word. Any questions or comments so far?

You do, okay. I did want to make one other point I think on an earlier part of this message, I referred the collective seedlings in the garden as the female, and I don't want anyone to get confused because sometimes I express myself differently on different occasions. I did and do consider the Adam in the garden, the seedlings, as the female aspect of Adam.

Remember spiritual reproduction is likened to plant reproduction, Adam Kadmon had both male and female reproductive organs within him. So the aspect called Adam in the garden is really the female side of Adam, and I made a strong point on a previous message, that the woman was warned, don't sleep with that, that one that looks like a man, that's coming looking for you, don't sleep with that Serpent. Wait for your husband, and the burden and the responsibility for the pregnancy for the ungodly unholy pregnancy of the Adam in the garden, lies with Adam in the garden who really is the woman, Adam really is the woman. If you're following me, I hope I'm not confusing you. Yes it was the male seedling wrapped in a female sac but the whole male seedling is female because of the weakness of the seedlings, the weakness of the seedlings. So the woman that the Serpent spoke to, it really was the whole seedling, which was male and female, see. And the fact that the King James says, Well the woman said, but Elohim says, if that's the way of saying that the male seedling was female, he was probably one in his mind with the female that he was wrapped in. It was less than an infant, he was a seed.

Now we know from the King James that Jehovah spoke to Levi when he was in Abraham's loins, so that has a Scriptural principle that seedlings have consciousness. But he was weak, the Adam of the garden was weak, he was the female side of Adam Kadmon, or the female side of Zeir Anpin, and for intents and purposes, the woman was the Adam in the garden. I hope I didn't confuse you, is everybody okay for now anyway, okay.

On the right side of the board, MaH, the son was always destined to overshadow the daughter who is the world of points. It was always destined to have both the world of points and the world of emanation. It is not true that the world of points died, shattered and died, that the light was reconfigured and born again as the world of emanation, not true. See in the previous part of this message, we clearly stated that the world of points lives, well it exists, we are it. The world of points died but did not cease to exist. We are it, fallen mankind is the world of points, and the world of emanation is the Lord Jesus Christ, and Christ Jesus in you and me, that is the world of emanation, and the world of

emanation will swallow up the world of points only to the point that the two worlds will be woven together, the world of points will not, let me put it this way, the substance of the world of points, will not cease to exist. The world of points will die, to its independent existence, because it's independent existence is hell, it will die to this existence but its substance will not die, it's substance will be absorbed in to the world of emanation, and it will have its distinct identity, because the world of points is the male organ, and there will be a male organ and a reproductive gland. But they will so completely bound together under the authority of the reproductive gland, that mortality will cease to exist.

But the world of points is not going anywhere, she's just changing form, she's just changing form, the two worlds will coexist for all eternity. Praise the Lord. Ex. 25:23-24, and I'll let you look that up and read it yourself, the significant verse says, well the significant phrase is, and thou shalt overlay, talking about the wood with gold. The world of emanation is the gold and the world of points is the wood, speaking about immortality and mortality. The world of emanation is immortality, gold, and the world of points is the mortality, wood. Wood signifies the daughter because alone, she can only produce a mortal world. Ex.25:8, 11, again please look it up yourself, the phrase we're concerned with is, "and thou shalt overlay the wood within and without with gold. And I show you over here that the male seedling overshadowed with gold, okay. the female sac around the seedling which is BaN, is going to be overshadowed with Christ. Today we have Abel, under the authority of Cain.

Cain is that sac of BaN, okay that Cain and Abel, that Fiery Serpent when Christ comes to you, Christ is cleaving to that Fiery Serpent, which is Cain and Abel, cleaving and Leviathan can't shake it off, and that's the gold, that's coming and spreading out over Cain and utterly neutralizing her. And over here on the right, we have the Fiery Serpent which is BaN, the male organ, overshadowed with gold, okay and that is Christ Jesus is overshadowing the whole Fiery Serpent that has Christ overshadowing Cain, if you recall the doctrine of Christ. And when I drew the overshadowing over here, I saw that that there are two bars with the Fiery Serpent in the middle, and the world of emanation is coming down and straddling that Fiery Serpent and the Lord showed me that it look like the double helix, like the human chromosomes. So the form of DNA of mortal man, promises redemption, because we see the Fiery Serpent straddled by the two straight lines. We see that circular aspect of the double helix, straddled by two straight lines. That is the promise in our very DNA, that the Lord Jesus Christ the world of emanation is going to straddle that Fiery Serpent and straighten her out, because then she translates into the three columns of the ten Sefirot

configured as a human. The reason we have three columns here is because the Fiery Serpent is straightened out.

She becomes linear also. And of course there is a reversal here because in the three columns of the ten Sefirot configured as a human, the middle column is the most powerful column that leads to eternal life, but before the Fiery Serpent is straightened out we see she's in the middle, and she's straddled on each side. So this is the unholy system, see we are in the unholy system, for years now I've been referring to this principle to as time line, two time lines the carnal mind and the Christ mind, two different times lines. Kabbalah calls the two the unholy system, and the heavenly constellation, or the unholy constellation, that's Kabbalistic terms.

What's coming to my mind is I spoke to a preacher down in Florida once and mentioned the word time line and he said what, what? He had no idea what I was talking about, but probably any Kabbalist who would listen to me, I don't at this moment would be shocked if I could get a Kabbalist to listen to me, but all of these years before we even starting teaching Kabbalah, if a Kabbalist would have just listened to me, they would have known what I was talking about. I was teaching Kabbalistic principles all of these years and I have no idea, it just came out of my spirit. Okay before your comment, are there any questions about this board?

COMMENT: When you initially put the word overlay there, the Scripture of Solomon, and I believe the Scripture says the child was overlaid, that came to mind, and then when you put overshadowed down there, I thought of Mary being overshadowed, the Holy Spirit.

PASTOR VITALE: That's interesting, the child was overshadowed, I'll have to think about that. Okay is everybody alright with this teaching? Okay we'll take a picture.

COMMENT: Is overlay and overshadow the same thing?

PASTOR VITALE: Yes, at least in the context of my drawings in this message and the answer is yes.

Drawing # 3, again we have Adam Kadmon, the basic idea that I'm trying to show you here is that there was a spiritual sexual union between the Serpent and the world of points, that surrounds the garden, and the seedlings the male seedlings of the garden which is the female Adam, okay, and there was an offspring, and that offspring, not even was is Rahab, he primaeval Dragon, what

was birthed into Adam Kadmon in the midst of him or the primaevial waters the evil primaevial waters, of Adam Kadmon. And this is so interesting to me because I remember asking the Lord so many times, we have done several messages on Genesis 1, where did these waters come from Lord? Where did these waters come from. This is where they came from, isn't that exciting? The waters that were birthed into Adam Kadmon were not suppose to be birthed into Adam Kadmon. Did God make a mistake? No, God designed a creation, he designed a creation where there was free will involved, did he know this would happen? Yes, he did everything that he could, everything that he could do is to give the commandment to the weaker vessel, don't do it, don't sleep with that man, and the female Adam Kadmon buckled under the pressure. Yes God knew it would happen, but he didn't desire that it would happen, and he did everything he could to prevent it. But it happened and all things work for the good for those who love the Lord, so the problem will be straightened out, and the creation will come into existence in the exact perfect form, that lines up with the will of the Ayn Sof. But this is what happened, the Serpent, the world of points came forth first, and before MaH, the world of emanation could come forth to overlay her, and absorb her into the whole of Zeir Anpin's Genitalia, the Serpent succeeded in seducing the female side of Adam that was in the garden, and their offspring was birthed right into the garden in the midst of Adam Kadmon, and I think on a previous part of this message, I gave you the Scripture from the book of Acts, and in him we live and move and have our being.

All of the worlds are within Adam Kadmon, and at this point in the creation, Rahab, the primaevial Dragon, the beginning of the fallen world, was birthed into the midst of Adam Kadmon, and this brings us to Genesis 1. Now what was suppose to be birthed inside of Adam Kadmon, was the male offspring of those seedlings, exactly what that would have looked like, I don't know, but it certainly would not have been a raging sea with a personality called the Dragon, an unformed sea, chaos was birthed into Adam Kadmon, and the Zohar talks about Tohu and Bohu, and I haven't really, and even I could do it, I wouldn't it doesn't really belong on this message, but Tohu is chaos, the unformed substance of the offspring of the Serpent, and the seedlings of the garden.

See at this level they were not formed yet, and they appeared as a grade of light called water. As I explained I think on this message, everything that exists is some grade of light, because we came out of light, and light is all that there is, and the lowest grade of light is called darkness. I told you earlier I had a problem with that when I first heard it, but I can deal with it now. Light is the only thing that there is, and you degrade that light and you degrade that light, and you degrade it and you degrade it, and you cover it over, you shadow it over,

you shadow it over, and the most shadowed over grade of light is called darkness.

So darkness covered the deep, darkness was birthed into Adam Kadmon, the raging waters of Rahab, the primaeval Dragon. Now the Serpent is the SaG of the world of points, how do I know that? I read it in a teaching, I have no reason not to believe it, the Serpent that actually did the deed, is the SaG of the world of points, and that makes sense when I read it, it made sense to me because SaG, which is Binah, is the mother who is, her function, or one of her functions is to bring forth offspring. So I have no problem believing that it is the SaG of BaN or the SaG of the world of points that came forth as the seducer. Is everybody okay with that? Everybody following that? Okay, the world of points came forth, it came forth with ten Sefirot, the world of points came forth with ten Sefirot, and the one Sefirot of the ten that rose up to be predominant and to be the seducer was the SaG of the world of points that aspect of the world of points, or that Sefirot, the world of points, which is the one that brings forth offspring, you see.

And it would be okay for the SaG of the world of points to function as SaG and to bring forth offspring, when she is functioning with the reproductive glands, her husband, she wasn't suppose to do it alone, see. So the Serpent is the SaG of the world of points, and the head of the world of points, the Keter, the Chokhmah and the Binah, did not die, okay. This is predicated on the breaking of the vessels, the reason we say that the seven lower Sefirot of the world of points died, is that their vessels broke, and it's really the same principle that's going down here in the world of action today, our vessels are our bodies you see. When our bodies die, the spirit in us and the personality in us ceases to exist as us, in any event. When this body dies we die. Even Christ Jesus in us dies when this body dies. So when the vessels break, they're considered dead. Remember everything I teach you and everything Kabbalah teaches you, is talking about conscious beings, it's written down in a manner that sounds like it's abstract philosophy, but it's not, it has to be interpreted, and even the teacher of the Rabbi the online course that we're taking, he says the same thing.

To take Kabbalah as a strictly intellectual exercise is not a good thing, I think he even teaches it could be dangerous, because this deep study once again, this is my way of saying it, but he's really saying the same thing, it stirs up your Fiery Serpent. If you misuse the message, no good thing could come out of it.

You see, there's an aspect of the Zohar that's a part of the Zohar that I've read several times, and it names three different Rabbis, it's all Rabbis studying in the Zohar talking to each other, I don't recall the names, it says, and I'm

paraphrasing, the three Rabbis, entered into this deep study of the Zohar and only one of them came out of this study in peace. And for the first few times that I read it, I didn't know what that meant, but today or yesterday the Lord told me what it meant, because the true meaning of peace the Scriptural meaning of peace is that you have inner peace because the Serpent or the rebellion of the Serpent within you is put down, and the Serpent is fully controlled by Christ Jesus, that's the only true peace.

See we know the Scripture says peace, peace, they say peace peace but there is no peace. The only true peace is the inner peace that comes when you have completely died to yourself, and Jesus Christ rules your life, and in order for that to happen, Christ Jesus in you must be fully controlling your Fiery Serpent, she must be in the pit with a seal over her, so what does that mean, the three Rabbis went into this study, and only one came out in peace, what does that mean? Two of the Rabbis, the Fiery Serpent got loose, and they lost their peace, do you hear that? This teaching was so spiritually powerful, that it energized the Fiery Serpent more than it energized the imputed Christ Jesus in the Rabbis, and they lost their peace.

And the significance is clear in the Zohar, it's very clear. I do know that the teaching of Kabbalah and I put it on this message earlier, you have to read the Bible, you have to read the Zohar, you have to study the law, and you have to do the Mitzvahs. So the suggestion was that these two Rabbis were not satisfactorily fulfilling these commandments, and they lost their peace. Okay, so I don't even know how I got into that subject right now, what was I reading? That's okay. So we're saying that the SaG of the world of points is the one that actually is the seducer, and the seven lower Sefirot or the ones that shattered when Rahab's waters poured into them. Water is a grade of light which is heavier than the light of MaH, and it was MaH that was suppose to be born into the midst of Adam Kadmon, and I don't know what that would have looked like, but it would have been a lighter grade of light, it would not have been water, you know.

So the vessels of the world of points are destined to be filled with inner light, every vessel of every world is destined to be filled with light. Our vessels are destined to be filled with light, but the vessels of mortal humanity are filled with darkness. If we were filled with light, we wouldn't have diseases or the problems that we have, because disease cannot live in light, disease is pestilence, it only lives in darkness. So the vessels of the world of points are destined to be filled with inner light, the inner light of MaH, which they could have contained. Now why do I say that? Because the teaching of the doctrine of Kabbalah, is that the reason the vessels shattered is that the light that was destined to fill them

poured into them, this is the teaching of Kabbalah, if you may recall, the ten Sefirot of the world of points did not come out in the three column configuration as they were suppose to. The ten vessels of the world of points, came out in a straight line, and the Lord told us that that straight line is the male organ of Zeir Anpin, okay.

They came out in a straight line, and therefore when the light that was destined to fill ten vessels poured into the first vessel, the full amount of light to contain all ten Sefirot poured into the first vessel, and the Keter, and the Chokhmah, and the SaG could tolerate it, but the other seven vessels, when the collective light for seven vessels poured into the Chesed, that Chesed could not abide it and collapsed, and all of that light then poured into Gevurah, which also collapsed, and all of the vessels underneath collapsed going down. And the world of points says that Da'aT was in there, but I'm not going to get into that right now. Does anyone not understand what I just said? That according to the doctrine of Kabbalah, the reason the vessels shattered, was that the inner light, enough inner light for seven vessels poured into Chesed and Chesed couldn't it, she couldn't hold her own light and pass the rest of the light on, that is what she was suppose to do.

She was suppose to take enough for herself, and pass the rest of the light on down to Gevurah, and Gevurah was suppose to take enough for herself and pass the rest of the light on down to Tiferet, and Tiferet was suppose to hold on to its light and pour the rest on down to Netzach, but that didn't happen. Chesed collapsed under the pressure of all of the light, and then Gevurah collapsed under the pressure of the light right down to Malkhut, and every vessel broke, that is what the doctrine of Kabbalah says. But the doctrine of Christ says no, says no. First of all it was not a mistake that the ten Sefirot of the world of points came out in a straight line, they were suppose to, that's the male organ of Zeir Anpin, and second of all, they most certainly were equipped to deal with the male light, MaH, if MaH had been born into Adam Kadmon's mid section, the ten vessels of the world of points most certainly could have handled that grade of light, they could have, each vessel could have taken what it needed for itself, and passed the rest on, that male level light, or that male grade light could have been processed by the Sefirot of the world of points but the Serpent birthed her offspring into Adam Kadmon and her offspring was a or is a denser heavier grade of light called water, and the vessels of the world of points could not bear under that weight of the heavier grade of light that came into them.

Is everybody okay with this? Any comments or questions on drawing # 3? Okay we're going to finish this up now, I want to relate a couple of Scriptures on Noah, Genesis 6:13, 17, we will be translating those verses, in accordance with this

revelation. Genesis 6:13, and 17. Drawing # 4 on the left hand side of the board, I'm showing you the seven lower Sefirot of the world of points that shattered. Kabbalah says that there's an eighth vessel that Da'aT is in there, and that Da'aT is the I don't want to get into that right now, I'm not disagreeing with it, I'm just not dealing with that aspect right now, okay. They say, the eighth vessel is Da'aT which ultimately is the rectifier that comes forth the savior, so I'm not dealing with that tonight.

So these seven lower Sefirot of the world of points were confronted by Rahab, now you remember look at the earlier drawings, the world of points was surrounding Adam Kadmon's mid section where Rahab was raging, and the light from Adam Kadmon's mid section was destined to fill the vessels of the world of points, and as the light which is the waters of Rahab which is a grade of light, that is heavier than the male light that should have come forth, or let me say the containers or the vessels of the world of points were designed to hold or to contain the light of the grade called MaH, the male. They were designed they were not constructed to hold the grade of light called water. So there was a mismatch there, and as we see the whole title wave you might say, okay, Rahab's waters entered into the vessel of Chesed, as I told you earlier, Chesed was suppose to take what she needed and pass the rest on down to Gevurah, who was suppose to take what she needed and pass the rest on down to Tiferet, who was take what it needed and pass the rest down onto Netzach, but Chesed collapsed under the flood of waters that came in. And that's exactly what they're called in Genesis, the flood of waters came in, and all of the seven lower vessels collapsed and in the lower section on the left hand side of drawing # 4, we see the primaeval ocean with the wrecks of the shattered shards or fragments of the vessels that broke floating in the waters.

Now as I looked at this board just before I started preaching again, what came to mind, was the teaching of the doctrine of Christ, which is not exactly the same but very similar, you may recall me teaching you that Adam is the collective name of the many Abels that were configured in the male configuration, and one by one the Serpent seduced the Abels of the collective configuration called Adam, and as the Abels were drawn towards the Serpent, this configuration of Adam dissolved and all of the Abels they lost their cohesiveness you see, they were all together in formation, and it reached the point where enough of the Abels were seduced so that the whole formation collapsed, which meant there was no unity, each Abel was on his own and they all came under the Serpent's power, and I have drawings if you want to look back a couple of years ago, drawings of all the Abels in the primaeval sea, as they were covered over with earth, and became the Fiery Serpents, but we have drawings of the many Abels

of Adam's configuration being swallowed up by the primaevael sea, and that is exactly what we're saying here. This particular drawing shows the shards of the vessels but the many Abels of the Adam configuration, was swallowed up into and became Rahab.

Does anybody not understand that? They changed their form. When the Serpent had spiritual sexual intercourse with the many MaH, with the many seeds, seedlings of Adam Kadmon's ovary, they, a new entity was born, there was a spiritual sexual union and the two cleaved together and became a new thing, which is Rahab, the primaevael Dragon. So it's very close, you know, I know it's very late, if I had the time I could do another drawing and point it out to you but it's much too late, but that's what came to my mind anyway.

On the right side of the board, we have two translations that the Lord has given me out of concerning Noah, Genesis 6:13, and 17, now remember every event that happens, happens on every plane of consciousness.

So talking about Noah, what I'm suggesting to you is that the same event that happened on the left side of board okay, in the world of points, happened again in the world of action with Noah, and not only that, but brethren it's happening again in this country today, and not only in this country, in the whole Christian world, I hear that there are virtually no churches, very churches left in England, all the churches are closed down.

England, the great evangelist, the great representative of the Lord Jesus Christ that brought the gospel all over the third world, all over Africa, all over India, all over the British empire, they spread the gospel, no one's going to church anymore. It's horrendous okay, but this is what's happening, what happened to Noah, it's a spiritual event, we're just looking at the event in the world of action saying what happened to the British empire, the defender of the Christian faith, the queen of England, the defender of the Christian faith, what happened?! This is what happened.

And Elohim said to Noah, the end of the collective male organ is coming, I have told you in this country what's happening here, that Christ Jesus is dissolving. Do you recall me telling you that, at least over the past year I've told you this, Christ Jesus is dissolving in this nation, at the time I wasn't even aware of what was going on over in England. Christ Jesus is dissolving, just as Adam's configuration dissolved because as each individual Abel, was drawn towards

the Serpent, the integrity of Adam's configuration collapsed, and that's what's happening in this country today, as each individual person who is born and raised Christian no matter how nominal, is departing from the faith that was given, is departing from the faith that was imparted to him, the integrity of the configuration of Christ Jesus that has protected this nation for as long as it's been in existence, is dissolving. That's what happening, right here, the same thing is happening again.

There's nothing new under the sun, and Elohim said to Noah, well before I say this, just in case anyone is not familiar with our teaching here, the words in round parentheses are the words that you will find in the King James translation, and the words in square brackets are amplifications, words that I have added in. "And Elohim said to Noah, the end of the collective male organ is coming, behold Rahab the personality of the Serpent will fill Malkhut with violence and Satan the violent personality of Malkhut and Malkhut is a translation of earth, will destroy them. I see I left a couple of words out here, Malkhut is a translation of earth, and personality is a translation of I think the word in the King James is before.

Another translation of that word is face and face we always, we've been translating for years face the part that shows out the personality. Look at what they're saying, Behold Rahab the personality of the Serpent will fill Malkhut the visible earth, this world, the world of action with violence, now who is Malkhut? Remember the teaching, Malkhut is the chamaeleon, she can be Christ Jesus to us, a source of great blessing and eternal life, when Malkhut is lined up with the supernal mother, Imma, who is eternal life, Malkhut is a source of eternal life to us, okay. But when the right column is not manifesting and Malkhut is filled with the left column, with violence and judgment, when Elohim is manifesting through her Gevurah is manifesting through her, she becomes Satan the sowing and reaping judgment. It's the same Malkhut, okay that's either the white throne judgment, who is Christ Jesus to you or the sowing and reaping judgment, Satan. And men mortal men we're chamaeleons, we're good and evil, you see.

So this is what the Lord's saying to Noah, Rahab the personality of the Serpent is going to fill Malkhut with violence. Now prior to this, now what we're being told here is that prior to the flood, there was a manifestation of I'm saying Christ Jesus the Old Testament we'll be saying Zeir Anpin, there was a manifestation of the holy constellation in the earth, and that manifestation was the descendants of Seth. There was a holy manifestation of the nature of God in the visible world, and then if you remember the teaching from the doctrine of Christ and it's also obvious in the King James translation that those beings that

existed on the other side of the flood, turned from good to their evil side, they were seduced.

There's nothing new under the sun, it's going to happen over and over and over and over and over again, at infinitum unless and until this cycle is interfered with, and the great interferer is who? Who's bringing reincarnation to an end?

COMMENT: Glorified Lord Jesus Christ?

PASTOR VITALE: Yes, the Lord Jesus Christ is going to interfere with this cycle that was launched at the time that the Serpent first seduced the female Adam in the garden. It's been, that event of the seduction of the female Adam in the garden has been repeated and is being repeated and will be repeated without end until the cycle is interfered with, and that is the job of the Lord Jesus Christ, and we who are his sons, that is our job, it's called the reconciliation of the all. In the New Testament Kabbalah calls it rectification. Something has to stop the cycle, and you have to understand, that there is a spiritual force that is propelling this cycle forward and the name of that spiritual force? Anybody? It's Rahab, it's the Dragon, appearing in this generation as Satan and Leviathan. So it's no easy thing stopping this force. It has to be somebody that's stronger than Satan and Leviathan who is strengthened by the Dragon in the inner planes, and the name of the name, don't be despaired, the lion of the tribe of Judah, he is strong enough to open the seals that will execute the judgments upon these powers and principalities that will cause them to release his people. Hallelujah. So this is what's happening, the male organ of Zeir Anpin that existed in Noah's day, there was a righteous image, there was a righteous manifestation of God in the earth, but Rahab has come, the cycle is repeating itself, and it's filling Malkhut with violence, the chamaeleon she's going from imputed righteousness which is manifesting through her good side, to her evil side.

She's turning, see, in him there's no shadow of turning, what does that mean? In the man Jesus Christ, in the days of his flesh, there was no shadow of turning, he didn't go back and forth, he was the image of the father, in the days of his flesh, you see, he was not a chamaeleon. So Elohim is warning Noah, brethren, it's happening today, behold Rahab the personality of the Serpent is filling this visible physical world with violence and Satan the violent personality, which is now in this visible physical world is going, it will destroy Christ Jesus the male organ of the Lord Jesus Christ, unless the Lord Jesus intervenes. I tell you unabashedly and without hesitation this country is finished if the Lord Jesus does not intervene, but I believe that he will intervene, and is intervening, already intervening. There is not a doubt in my mind that without the intervention

of the Lord Jesus, we would go the way of the world before the flood, not a doubt in my mind, because there's nothing new under the sun.

And Elohim said to Noah, the end of the collective male organ, now this collective male organ, let's get real it's made up of beings, I don't know what they looked like on the other side of the flood, but today the collective male organ of the Lord Jesus Christ is Christ Jesus, it's the body of Christ. And I want to tell you for years, this whole country was the body of Christ, it was made up of all kinds of people, the body of Christ, it's made up of the priests, it's made of the very serious devotees, and it's made up of the simple people that just go to church on Sunday and honor Jesus Christ. This whole nation, every human being in this nation was a part of the collective male organ of Jesus Christ, and one Abel at a time. The people are being seduced and the configuration of Christ Jesus has lost its integrity and it's starting to dissolve more and more quickly. "And Elohim said to Noah, the end of the collective male organ is coming".

The end of it is coming, it's dying, behold Rahab, look, look open up your eyes, Rahab the personality of the Serpent will fill Malkhut, this visible physical world with violence and Satan who will appear, see Malkhut is being filled with violence. The people of the visible world, the chameleons are turning to their evil side, and being filled with violence, by Rahab, and when she's filled with violence, when we're filled with violence we become the personality of Satan.

See the church has not problem believing that they can express Christ, but they don't think they can express Satan. That's what happens, the same people that were the defender of Christianity across the world, Great Britain is now the chameleon, they turned, and the same thing, would be in this country, a great country for evangelism, we've outdone Great Britain for a long time now, but there tremendous battle going on because there are many Christians that are fighting, but the waters are coming in, and they're dissolving the image, the image of this nation has already radically changed. See but he's not dead yet you see, and even if he dies. Today there's someone in the earth, who can never die again, so he can always raise his son from the dead you see.

Hallelujah. Genesis 6:16, in the verses between 13 and 17 Elohim is instructing Noah, on how to build the ark and now in verse 17 he's saying this is why you should build an ark because. "Behold look at this, there will fall upon Malkhut, there will fall upon this visible physical world, and Malkhut is a translation or an interpretation of I, this is something we learned from Kabbalah the eye is Malkhut, okay, in case you don't remember that. Because behold there will fall upon Malkhut, this visible physical world, a flood of unholy semen, the same

Hebrew word that means water, means semen. Brethren it's the world of points happening all over again, it's the Serpent spuing out her unholy seed upon the seedlings in the garden. I don't believe that the female Adam went down very easily, he was utterly sprayed with unholy semen, and he was seduced in his mind, but if he would have obeyed the law, he would have made it you see. And that's no easy thing cause I've been tested along these lines, the mind control is intense, doing what you know is right when every fiber of your being is screaming to do something else is no easy thing.

"Because behold they will fall upon this visible physical world a flood of unholy semen, which will destroy the collective male organ in the visible world, where the spirit, which is the male level of soul, is the life of Zeir Anpin, in this visible physical world that existed in Noah's day, the male level of soul representing the life of Zeir Anpin who is present in the earth, just like the Spirit of Christ representing the life of Christ Jesus is in the earth today. That's what this is saying, because behold there will fall upon Malkhut a flood of semen which will destroy the collective male organ, in the visible world where the spirit which is the male level of soul, is the life of Zeir Anpin, in the world below. The life of God in the world below is his spirit, that's what's being destroyed, and because of this, Zeir Anpin's collective male organ in the visible world will die, because of this unholy semen that's being poured out.

Brethren this nation is being sprayed upon, especially the church, the church is in vile condition, the charismatic church anyway, you know. It's being utterly deceived by the unholy spirit of the world of points, also known as Satan who is actively revealing herself. I'll read it one more time. Because behold there will fall upon Malkhut a flood of semen which will destroy the collective male organ in the visible world where the spirit which is the male level of soul is the life of Zeir Anpin in the world below, and as a result of this, Zeir Anpin's collective male organ in the visible world will die. Everybody okay?

One last word before we close for tonight, of course the answer, Elohim and Jehovah's answer to this problem which we should be very concerned with because it's happening today, is to get inside the ark, and the Hebrew word translated "Ark" simply means "box" and a box is a container with four sides, the four sides signifies Christ Jesus, he's a four sided being, you have to get into the ark, and ark is in your mind, the ark is the mind of Christ, you have to think with the mind of Christ and in the hour of trouble you bury yourself in the word assuming you are living for God, assuming you're living for God. You're in right standing with God, your sins are confessed, you're repenting to the fullest degree you know how, and all appropriate action is taken in accordance with the law of God, the least of which is talking about tithing, and free will offerings,

that's the least of which. Nobody here is having a problem with that, all appropriate action, you have to be relating to your fellow man in a godly manner.

Assuming that's how you're living your life, you hide in the word, and brethren, that's no easy thing to do, I have just been through a severe trial where I was spending three or four hours a day just reading the word, I would have done more if I didn't have other things to do, apparently it was enough for me, three and four hours a day, just reading the word, and I had a tremendous victory, the Lord gave a tremendous, tremendous victory, and personally I am so excited to see myself coming into this. You have to be very disciplined to do this. For years I would go through a heavy trial and be upset and I would run out and I would overeat and I would go to the bagel store, and I would do this and I would do that, I would call up everybody to pray for me, not that there's anything wrong with calling people to pray for you, I did ask for prayer. But I was so upset when I went into a big trial, that I couldn't get into the word.

So to me this is a tremendous victory that I was able to bury myself in the word like this, and the victory came really in less than a week, in a very few days, every victory may not come that fast, but that's where the ark is, that's where the ark is. So you have to, before the crisis comes you have to building up your tolerance to be in the word of God, you have to build up to that tolerance. I remember years ago, when the Lord first started bringing me in to this deep stuff, I couldn't even listen to one my own tapes, more than one tape, one hour and my brain was burning out. I use to suffer from burn out, when I listened too much, now if I just have the time to do it, I could probably be in the word twenty four hours a day, I don't burn out anymore.

So you have to have the tolerance to do what you have to do, to be safe. So all of these years, that people think we're crazy by the way we serve God, all of these years, when the hour of crisis comes we're going to be the ones that are going to be safe, and we're going to be the ones that are going to have it within our grasp, to help others as the Lord allows us to do it, this is the only safe to be, in his word and in his mind, and don't forget that the end of being in his word is that you have to start thinking with his mind in your daily situations. You have to give up, you have to give it up, what your carnal mind thinks, you thought that way all your life, you have to give it up, you have to think how he thinks, if you want this safety.

And I'll tell you at this hour we're hoping for eternal life, we're hoping for restored health, we're hoping for many good things, but let me tell you something there is a much more urgent issue, this is a very dangerous day to be alive, we need safety today, okay. In the hour that we receive immortality and divine safety

praise the Lord, but I'm not there I need safety today, today. Because the forces of evil are loose in the earth, and they grieve the spirit of the man who serves God continuously.

Are there any questions or comments on this glorious message that the Lord has given us today? Anyone? God bless you all, goodnight.
