TRANSCRIPT OF MESSAGE #619 - Part 1

CULTS, THE BEAST & POLITICS

This Message Has Been Transcribed and Edited For Clarity, Continuity Of Thought,
And Punctuation By The CCK Transcribing and Editing Team.

Praise the Lord. We are going to talk a little bit about cults. Our doctrine does not line up with the Pentecostal church, but that is the only characteristic that we have here, and we have been talking about that a lot these last few days. It is really a misuse of the word, and I realize today now that it is touched me personally, that the Christian church has misused that word, even calling Jehovah's witnesses a cult, simply based on a doctrine that is different than the Pentecostal doctrine. They do not live in compounds, there is no, there has been, believe me if there was any evidence of control or forcing submission, surely it would have hit the newspapers, there is no news and there are Jehovah's witnesses all over the world. It really is the height of arrogance for the Pentecostal church to set themselves up to declare a discipline for lack of a better word, to declare it to be in condemnation, a cult, it is just really outrageous.

I never thought about it before that, but now that it has touched me, it is really very offensive and the height of arrogance to do that and even more outrageous when you realize that the Pentecostal church, that the doctrine in the Pentecostal church is all wrong.

Anyway, she was so desperate to get her husband and her daughter away from us, that she declared us a cult, and went forward as if we really are a cult, hiring, she spent \$5,000 to hire this man Rick Ross for a couple of days to come to Minnesota, and to do what they call an intervention to deliver her husband and her daughter from my mind control.

They blocked the drive in one day, you could not get out to go to work, and they had other people in the house that were trying to deprogram him. At first, now it is his wife you know so you sort of stay there for a day and listen to them, they try to take your cellphone away, to me it is unbelievable, and then after one day, he said, well I have to go to work, so

however he got past their cars that were blocking the door, maybe he mowed them down, I do not know what he did, and the girl they took out of school, and well she says she agreed to go, but it was her mother and they tried to deprogram her with a local pastor and all of that.

Anyway, this man Rick Ross was called in and thousands of dollars were paid, and it is very, it is just really shocking to see these kind of tactics scare tactics being used, and I have never been the recipient of anything like this before, I have read about it, I have heard about it, but it is really shocking and it is happening right today with the political left trying to, what Xxxx was telling us about yesterday, trying to get conservative talk shows off of the air by going to the advertisers and threatening them in such a manner that they would withdraw their advertising, and it is a denial of free speech that is manifesting all across the country.

This man Rick Ross, his heyday was in the sixties when there really was a phenomena of cults, a seducing making deliberate efforts to seduce and draft teenagers, young people out of college to go live in a compound behind barbed wire and they could not get out and the families could not get in touch with them, and they would have to kidnap them and lock them up in a room for a week and deprogram them.

That was when he came into this business, he is not a Christian. To me personally I think it is just a business, personally that is my opinion. Now he does not have much business because, you do not hear much about that today. There are all kinds of groups going around with all kinds of crazy doctrine that I admit sound crazy to me but we are supposed to have freedom of speech and freedom of religion in this country, to assume that everybody that believes something crazy, to assume that the leader of the group is mind controlling them is not reasonable. Something about that teaching attracted them, and they agree with it.

There is a tremendous fear I realize today of anything that is different, and the Lord has been teaching me for years that this is nothing new, and He has taught me over the years how the doctor that invented anesthesia, how he was booed off of the floor of some medical forum, I do not know what they called it at the time. I saw the movie, he left the floor in shame and disgrace, and his colleagues stood up and booed him until he left the room because he suggested the use of anesthesia in surgery.

This dead soul does not take too well to new ideas you know. Anyway, he called me, this Rick Ross, he called me and he was a, I really had to laugh, the list of questions he gave me, you would think he was a lawyer, you know, doing discovery, it is part of the legal procedure, and of course I did not answer him, I said, who are you? He said, well I am going to write a report on you.

I said write your report, but you know, all of the information you are asking me for, you can get it. Our income taxes are up on the internet, our financial statement is up on the internet, we are regulated by the, at least to a degree money wise anyway by the attorney general's office. You want to know what our EIN is, which is like the business social security number, you can get that freedom of information, go do your homework you

know, because I am not going to give it to you.

I forgot about it. He wrote his report; I am up on his website. It is interesting that some of the people on his website, the information about them is free and other people you have to pay for it. I wonder why the information about Living Epistles you have to pay for, I do not know what that means, I honestly do not know what that means, and he has a big disclaimer on his website.

He has, first of all, I consider myself well we finally made it into the big time, we are now listed with all of these other, he has Kenneth Copeland up there, and a whole bunch of other ministries you know who this man thinks he is that he goes in and writes them up like that, but he has freedom of speech just like we have freedom of speech. He has this big disclaimer on his website saying, even though the name of my website is something like cult busters; he says the fact that a ministry is listed here does not mean that they are a cult. He is just keeping himself from being sued. This is just how he earns his living you know.

We are up there on his website and we are one of the ministries that you have to pay to find out what he had to say about us, and I just forgot about him. Xxxx, Xxxx's wife, and her sister Xxxx, have been trying to do the work themselves because obviously they ran out of money, so I have to tell you that they are completely incompetent. Why should I help them to give them information that they would use and twist and distort, because they want the information to prove that I am evil, so why should I tell them anything? Anyway, I have just been ignoring their emails. Things have even been quiet from Xxxx and Xxxx, things have been quiet, so I thought it was over and I got an email last night from Xxxx, Xxxx's sister saying that Rick Ross' documentary is on tonight between 5:00 and 6:00 where he exposes the cults of the Meade Ministries and the House of Yahweh, and that he has footage from a hidden camera about what it is like inside of their compound and how mind control is worked on the people.

I thought at the time that I saw it that it was new footage, but I think the Lord told me that it is old footage it is A&E that just picked up the old footage, because we know that all of these stations A&E, Discovery Channel, History Channel, probably National Geographic too, but I am not sure, they have all been bought up by the same group of investors that have an anti-Christ spirit behind them, and Lifetime and WE, women's entertainment use to have such really great movies on there and the corruption has seeped into all, they have bought up all of these channels, all of this money they have, and they are infiltrating it with all of this anti-Christ doctrine, and then they claim that they are not anti-Christ because they put up Christian programs which is not the true Christianity, it is really gnostic Christianity.

The extent to which the corruption of the Christian world has gone, it is I guess the word is alarm. I know that I have to stay calm, but I am looking at this stuff, and I am just flabbergasted at the extent to which they have penetrated the secular Christian community, it is just amazing. If the sons of God do not stand up, this country is going to be flattened from a Christian point of view, and then whatever the consequences will be of Christianity dying in this nation.

There is just an assault coming from multiple directions, multiple directions, it is just amazing to me, I do not know why I am so amazed, and I should not be so amazed. It is some degree of naivety still left in me. The Scripture says the whole world lies in wickedness and Satan at a very high spiritual level, Satan is in a war with the Lord Jesus Christ for the control of humanity and the individual members thereof. It is very real you know, but I realize now that I am in the church 30 years, that I never really gave it full credence.

I was in deliverance, and yeah the illuminati and the trilateral commission and yeah, yeah, anti-Christ, etc., etc., and I do not know, my life is okay, you know, and I hear all of these alarms you know, Y2K and this is coming, you know, get food in your house, and all of these scares, get a new garbage pail and fill it with rice, and all of these scares have past, and nothing ever happened, and I sort of just, I have to admit now I did not take any of it seriously. That goes back 30 or 25 years ago. Today I look around me, and the program of anti-Christ is spent, it is so far gone that it is rolling in inertia right now, unless another force comes in and stops it, it is just going to roll right over us and crush us. It is that far gone brethren. That is one more witness that it is the end of the age.

Jesus said you will be able to see the season of the end of the age. Why are you surprised Sheila? The only reason I could be so surprised is that I never really believed the message. I have to be honest with myself; that is the only reason I could be surprised. Does not Paul say that? Paul, John, or James said why are you so surprised that the fiery trial has come upon you? Did I not tell you to expect these things? We do not believe it.

It is a defense mechanism of the carnal mind. The tribulation is coming. The tribulation is a popular doctrine in the church, you know we do not believe in the rapture, I do not preach the rapture, but I never doubted that the tribulation was coming. I have been in personal tribulation for years, I look around me, I see Bible belt states flooded and suffering under hurricanes, and I know that it could happen anywhere, but I do not know that it is really penetrated my mind because if it really penetrated my mind I would be terrified every day. I do not believe I am going to be raptured out of here. Look at all of those other Christians floating away on the top of their houses.

The bottom line is they do not think about it. Now however the Lord has put this political situation right in my face but it is tolerable because He has given me something to do about it, a particular way of praying and believing that the sons of God will stand up and intervene, so there is no feeling of helplessness. That is the answer, that is why I continue to be amazed at the degree to which the anti-Christ plan to shut down this nation, to wipe out Christianity, how far it has gone, I am amazed because I did not see it happening because I was not looking because I did not believe it because I guess it just really scared me, or it was not in my life plan to believe it.

It is real, church, this is not just fellowship, we were talking about this, this morning, we are not gathered together to have a good time in the Lord, or to feel good, or to get healed or to get our financial problems healed. If those things happen, it is a good, it is not a bad thing, but that is not the reason we are here. We are here to draw down the Spirit of God into the earth and preach the truth and send forth the thought forms of the doctrine of

Christ which will war against the anti-Christ message that is in the heavenlies that is corrupting the whole church.

We have a job to do, we are soldiers in the army of the Lord, and we have to know who we are because the night is far spent brethren. Darkness is covering this nation like a blanket and the whole Christian world. Darkness, deep darkness is covering this nation and it is through all of the airways, the newspapers, the magazines, the schools, they are after our children, and all of the adults that are not deep enough into Christ Jesus to be defended against this mindset, and there is a name for this mindset. We are warned about it in the Scripture. What is the name of this mindset? It is the beast brethren, the beast is upon us, and it is here. The Scripture says no man will be able to buy or sell if he does not have the mark in his mind and in his behavior, in his head and in his hand. That is excluding the people who are moving successfully in this bestial system by the power of Christ.

The people that do not have the power of Christ, are bending to the ways of the world, to the beast system, because there is no other way to get anything done, to make a living, or accomplish anything worthwhile in this world. You have to submit to the beast system. Just for a simple example, mom and pop businesses are almost completely wiped out. Big businesses are coming in and taking over in areas that were always mom and pop businesses, like local grocery stores, local hardware stores, local women shops, Bed and Bath came in and wiped them all out. There used to be a local store for years, Franklins, I remember them from the Bronx even before they came out here, you know a personally owned business, and Bed and Bath came in and just wiped them out, just took them away just like that.

I remember the day that Staples came in, there was a stationary store down in Port Jefferson, I think they were there for years, I think they were on the second or third generation of the family owned business, and they were giving everything away at cost, they wanted to just get rid of their stock, and I remember the look on the face of the people, they were like flabbergasted, they were just like that, overnight they were out of business, Staples came in and just knocked them out. Home Depot knocked out the hardware store that was up here in Setauket, Staples knocked out two privately owned stationary stores in the area, there has not been a local grocery store around in years and years and years, there are a couple of privately owned butcher shops, from time to time you will find a privately owned butcher shop, usually it is an Italian pork store. For some reason, the Italian people continue to prefer these Italian pork stores where they make their own sausage and their own mozzarella and they have all of these delicacies. It is that culture; that culture tends to continue on with that tradition.

The only other exception to that; that I know of, is butcher boy, there is a butcher boy over here but I think that is a franchise, but it is strictly a butcher store. Aside from that, any privately owned butcher store I have ever seen is an Italian style pork store. Everything else is the supermarket, it has knocked everybody out. The supermarkets are working to knock out the small or the privately owned health food stores; they are carrying all of the health food products that used to be only from health food stores. The people, and pharmacies, I have seen pharmacies knocked out. All of a sudden CVS is all over the

country, everywhere I go, there is CVS and now Walgreen's following them up with a close second, what happened to the local pharmacy? What happened to the local pharmacy? It is just amazing. Somehow that Italian pork store survives; that Italian culture. It is even hard to find a bakery, but most bakeries are Italian right? You have an Italian bakery? That Italian culture that honors food, you find the pork store, the Italian bakery, but aside from that, otherwise it is hard to find a bakery.

Everything is in the supermarket, the bakery, the deli counter, and Seven Eleven is coming in and giving a hard time to the local delis although you can still find local delis, for whatever reason that is. This is the beast. People who have spent their whole life for example going to school to become a pharmacist, and their dream was to have their own business and they opened up a drug store with a pharmacy section in it and they are making a better than average income, and then all of a sudden CVS comes in and you are out of business and what do you do. What does it mean? Only those with the mark of the beast can buy and sell. Now you have to go take a job, you have to be hired by Wal-Mart or CVS, you know or Walgreen's, and now you are a cog in the wheel and you are not your own person anymore and you are just making an average, I do not know what they are getting paid, but they could not possibly be making the same thing they were making when they owned their own business.

No one can buy or sell unless they have the mark of the beast, you have to be hired by the beast, by the beast system, the cloning of America and the cloning of the world, wherever you go, no matter what city, or town you go to, there is a CVS or Walgreens, a Home Depot, a Staples, and an Office Depot, wherever you go to. It is the cloning of the world.

This move towards one world government, it is all based on economics, it the big gigantic corporations, mega corporations of the world, they want the people to be spending all of their money and buying and selling and controlling everything, and they control you with the advertising, and influence you, it is the beast system, it is upon us, it is completely upon us.

If you want to be an entrepreneur, if you want your own business, there are problems to having your own business that never existed before, mainly your medical insurance. Do you know how expensive it is to get medical insurance if you are not part of a group of a large corporation? It is the beast system, it is here, it is manifested, it is upon us and it is affecting our lives.

Anyway, I was talking about this program tonight and I see this type of interference with people who want to, look I do not care if you want to believe that aliens are living next door to you. I do not care if you live next door to me and you believe that I am a green four eared alien, you know you can believe anything that you want to believe, but do not come in here and tell me that I cannot be a green four eared alien. Am I bothering you? Am I breaking the law, am I hurting anybody? No, we are supposed to have freedom of speech; and freedom of religion in this country.

There are powerful moves to remove it. Why? It is because people who have a

relationship with God, or people who have a spiritual belief, they are very hard to control, because now there is an opposition, the bestial government is trying to control the people, the bestial government wants to meet their every need, wants to meet your spiritual need, wants the welfare state, wants to meet your medical needs, wants to meet your social needs, wants to provide education for you, wants to meet all of your needs and all of the people are lapping it up because it is meeting in a need in people, because we are all lacking because of a lack of a fulfilling relationship with God. Even the people that have a relationship with God in this world, we are not completely filled at this point, everybody is worried about feeding their family, about having a roof over their head, about medical help, it is very hard to live your life depending on an invisible God. There is a weakness in the people that is so into this socialism, that says, oh yes, father government, the father government will take care of me, a chicken in every pot, and it is so fetching and so tempting, but it is what the Scripture describes when the Scripture talks about that woman in the book of Proverbs, she is standing in the street and she is standing there saying, Come in here, I have peace offerings, come in here, I will meet your need, and as soon as I meet your need, I will put the handcuffs on you and the chains on your neck and I will own you for the rest of your life.

That is the beast government, getting power by meeting people's needs and making life easier for them and brethren as soon as life is made easier for you, you have become a spiritual woman and you are in bondage to the spiritual male that is providing your need. The only way to be strong in this world; is to have your needs met by the Lord Jesus Christ. When the Lord Jesus Christ meets your needs, He strengthens you to go out and do what you have to do to be successful in this world. That is how He meets your needs.

It may look to someone that He does not meet your needs, but He is equipping you to be whole and strong and overcoming in this world. There was a time when it was a disgrace when I was a young girl, I am dating myself but I am telling you it was a disgrace to take welfare. I saw people go hungry rather than take charity in my lifetime. Today there are large numbers of people down at the welfare office trying to see if they qualify. The whole mentality is changed.

Anyway, we have this cult buster, so called cult buster who may have started out with a legitimate business of kidnapping young teenagers that truly were captured by some unscrupulous cult leader and deprogramming them, now he is unemployed, so he is going after organizations that are not harming anybody but are different than the traditional church and that are different than they are standing out from the beast machine, they are walking to a different drum, and he is making his money and he is trying to make his name, by trying to turn these groups of believers into something that they are not, by calling them a cult because their doctrine is different or because they have a leader.

I remember Pastor Saunders before he died in Connecticut, he had a church of about a thousand people, and he was an evangelist and he had a very anointed ministry. The Lord used to send him to Africa, and we saw pictures of him canoeing down the Amazon, he was a very courageous evangelist. His most famous testimony which I do not know if I will ever forget it, he was sent to an area where there were cannibals, and he was captured by the cannibals. They had never seen a white person before, so they could not

decide whether he was a god or their next meal as he put it, they could not decide, so they decided to test him, and find out whether he was a god or their next meal, because he was a, he had a lot of flesh on him, (laughing), you know.

They had a test in their society where they would test someone's ability to shoot an arrow, and there was a tree with a target on it, and an established amount of space from which they would have the opportunity to shoot and try to hit that target. They doubled the space for him; he was twice as far away from the tree as the normal space to shoot from, plus he had never shot a bow and arrow in his life. He pulled back the bow and he closed his eyes and he said, Lord, my life and my body is in your hands, and he let go of the arrow and it hit the target smack in the center. The whole village of cannibals was converted to Christianity.

This was the anointing that the man had. He had a church of a thousand people in metro Connecticut, and many testimonies like this. He preached with revelation, not of the degree that we have here today, but he preached with a lot of revelation, and an excellent anointing, the Lord told me that he definitely was an apostle and that there are different levels of apostleship, he definitely was an apostle, he had apostolic anointing on his teaching, on his ministry, on his whole life, they did deliverance, he raised people from the dead, all of the signs and wonders were there, and the government was after him, calling him a cult for no reason other than that he had a thousand people acknowledging him as their spiritual leader.

You know if you look at the definition of cult, the Catholic Church is the biggest cult in the world, one charismatic leader, with all of the, but no one goes after the Pope. It is irrational, it is completely irrational. He was having trouble with the local government; they were designating him a cult. The only thing that they were doing was that they were gathering together to have services and to fellowship, and there was no compound, they did not live together, and they were designated as a cult.

This is what is going on today, and now we have been named a cult by this Rick Ross whoever he thinks he is, and it is interesting though when I typed in the name of Meade ministries into a search engine, now remember the video was on TV tonight, it is about Meade Ministries and the House of Yahweh. I typed Meade Ministries in and the only item that came up that was not their own website was the article by Rick Ross, and it was from 1988. I said, oh look at this, this article is from 1988, and I wonder why he is dealing with it now. The Lord just told me this is an old video, I thought it was something he just did, this is an old video that he did in 1988.

The ministry still exists, and there was no sign that they are in any trouble with the law or anything like that, so who is this man to designate him as a cult? it is horrendous, it reminds of Senator McCarthy who persecuted Hollywood at that time in a Gestapo type way, and I think I am really offended which is I guess I am manifesting, I am just really offended, but I am glad that it happened because it has opened my eyes to see how wrong the church world is in calling Jehovah's Witnesses and Mormons and everybody that does not have Pentecostal, the Seventh Day Adventists, everybody that does not agree with Pentecostal doctrine which is all wrong anyway, which makes the whole thing

ludicrous, you know, a cult.

I hope that I never do that again. I have to tell you that, what is happening even over the last couple of years is really what is the right word, softened me towards other disciplines. I realize how really wrong it is, just leave them alone and leave them to the Lord unless they are actually abusing children, for which if that happens they should go to jail. We just recently had a cult leader, a true cult leader put in jail; he got a ten year sentence. This man was, I do not know if they lived in a compound or not but he arranged marriages, his group practiced polygamy and arranged marriages and he went to jail for marrying a 4 year old girl to a 19 year old, her cousin, and he should go to jail for that. He should absolutely go to jail for that.

Anyway, I think that it would be good to watch this video and to get a better grip on this man and who he is and what he is doing, we need to understand that the ministries, at some point that ministry has to, this ministry, Living Epistles has to become more public than it is, it has to. It is not even an issue of our doctrine being different; the issue is that I believe that this doctrine is coming forth under the anointing. I am not going to, and I am not making the mistake of declaring that every other doctrine is wrong which these other ministries tend to do. The Lord has given me an understanding that the Lord brings forth spiritual truth at different levels and in different ways to meet the needs of different categories of people who can only receive it in that particular way at that time.

I believe that I have the truth as the Lord is revealing it through this ministry. I do not have the ultimate truth; I do not think anyone can have the ultimate truth so long as they are in this flesh. It was not until Jesus was resurrected and in a glorified body that He quoted from every Scripture that prophesied of Him, He was the living word, everything, the whole word was Him, coming out of Him.

I can have an opinion, I can hear doctrines that I do not agree with that I do not feel any compulsion to straighten out the whole world's doctrine, and it would be wonderful if we could talk to each other and influence each other, but that is not likely, but that is okay, my job is to teach and preach and record the messages, and to teach and preach the people who the Lord sends here who believe that the Lord sends here to help them to grow in Christ Jesus.

I am not here to save the whole world now. My job is to minister to the people that the Lord has given me and to grow to the fullest degree possible that I can grow and to find out from the Lord what it is that He would have me to do in my twenty four hour day and do the best that I can do to do it. Leave everybody in peace, leave the, even the Pentecostals, you know, I have been so frustrated with them, but today I understand that they really most of them, simply cannot go any further. They are going as far as they can go.

In this ministry, we have done a lot of work on Rabbi Luria's Gate of Reincarnations, and I thank God for that teaching, it has really helped me, it has brought a lot of things that the Lord has told me to clear a place in my mind and it has taught me a lot too. When I first started teaching out of that book, I remember you and Xxxx were here and according

to that teaching, we come into this world with limitations, we come into this world with physical limitations, some people are born athletic, and it is nothing for them and they are out there running track and taking gymnastic lessons and they are doing great and others, no matter, they could take lessons until kingdom come and they will just never be athletic or you will just never be a good dancer, however it works.

We are born with physical gifts and physical limitations. We are born with intellectual limitations, and we are also born with spiritual limitations. The majority of the Pentecostal church today simply cannot come up to where we are at this time.

The teaching of Rabbi Luria which was shocking to me at the time, was you have to die and reincarnate to be able to go up to the next level. I said, I do not know if I fully believe that because in Christ Jesus I have just jumped from level to level, I just from where I was, I was spiritually a very ignorant person, there are a lot of people in this world who are spiritually savvy and it is not from Christ, it is just in them.

I did not have it in me. I came from knowing nothing about spiritual things to where I am today. This is the fault of the carnal mind you know, at one point in my pride I said, in Christ Jesus I jumped from world to world to world and you can do it too, but today I say no you cannot. If you can, God bless you, but maybe you cannot, and the majority of the people in the Pentecostal church today, it is appears cannot jump up to the next world where we are.

Does that make us better than them? Am I saying that I am better than them? Absolutely not, I am saying that everybody comes into this world with a spiritual limitation, if you can come, come. Jesus said, let whosoever will come, if you can come, come. When the Hebrew children left Egypt, some of the Egyptians went with them. If you can see what the Lord is doing in this ministry and it attracts you and you want to come and pay the price because everything has a price, then come. If you would rather not, if your place is Pentecost, I have had people say to me, I cast out demons that is good enough for me, or I give out tracks and that is good enough for me, if that is really how you feel and there is no pull on your life from the Lord to come up higher, well then God bless you, then you will pass out of this world, you will die to this world and you will come back and the next time you reincarnate hopefully you will come with a spiritual limitation that will allow you to enter into the next world.

Today I just expect that the whole world is not going up at once. The priests go up first, the priests crossed the Jordan first, they carried the ark of God, which would be likened to Christ Jesus in us, and they crossed the Jordan, not only did they cross the Jordan, but when they got out into the middle of the river, they stood there and they held up the ark, so that all of the other members of the Hebrew children could cross over without being hurt.

If you are coming today, you are a member of the priest company, and if you think that makes you better than somebody else then you do not belong here. It just is what it is. If the Lord has called you to be a member of the priest company then that is who you are and you should have an allegiance to the Lord Jesus, and do the best job that you could

do, and you are who you are and they are who they are and I am who I am, and just do your job, and stop looking at everybody else. I continue to mature and I am very grateful for what the Lord is teaching me.

Anyway, I think that it would be a good idea to watch this program because as we become more and more in the public eye, we are, the persecution is going to be intense, because the anointing is here, this is the true word of God, and it is a word that is coming forth at a level that opens the door for whoever can see it and is willing to come, to ascend into a higher realm. The Lord has told me spiritually speaking, we are the reception area for spiritual people Christians and otherwise, who are seeking into the spiritual life of Christ Jesus. This ministry is a reception area. In other words, in this ministry is access to the door. Sheila, Jesus is the door, who do you think you are? I am telling you what He told me, if you do not believe it and you think you can find the door someplace else, let me know, I would like to know if can find the door and I get a witness that it is more of a door than is here. Let me know about it please.

Anyway that is what is in the spirit today, I will just tell you briefly about the two ministries, the Meade Ministries and the House of Yahweh. What Rick Ross had against Meade Ministries was that apparently the woman were having their babies at home, and you know some women just decide to have their babies at home, that does not mean somebody is forcing you to do it. When I had my daughter, I wanted to breast feed, and the whole medical community in my area anyway was opposed to any woman who wanted to breast feed. I had to fight for the right; I fought the medical doctors for the right to breast feed my daughter. Today the medical community recommends it. Does that make you a cult if the women in your group have their babies at home? That is ridiculous. Because someone is doing something that you think is not wise, does that mean the leader of the group is forcing you to do it through mind control? What an unhappy conclusion.

Again, involved here is the beast system manifesting through the medical community. Listen brethren, I thank God for doctors and hospitals, and I have been in the hospital twice, in 2007 and 2006, and I thank God that, that hospital was there for me, I got wonderful care, but the problem with the carnal mind is that every good thing eventually becomes oppressive and it turns into a control issue.

Today we are being faced with socialized medicine which is a form, it sounds wonderful, sounds wonderful but as soon as they are meeting your need, they are now controlling you, and a story just came, someone called Rush Limbaugh from England, saying that they broke their leg and the department of socialized medicine in that welfare state refused to set his leg if he did not agree to stop smoking. The man said that he had tried. It was not even an act of rebellion saying, I will smoke, he said he had tried to stop smoking multiple times and he had failed, he could not stop and they would not set his leg.

The mentality behind it is, that if you smoke, or if you do not follow a diet that this organization believes is optimal for your health, or you do not check your teeth once a year or you do not do all of these things that these so called experts have now laid out as

what you must do for optimum health, why should we spend our money on medical care for you, your responsibility is to do everything that we say that you must do to be at optimal health or if you are not living that way, you are going to be sick and take money out of this welfare system and that is where it is headed, ultimate control, it starts out as a good thing, and it is taken over by Satanic forces of mind, of the people who are in the highest places. That is the truth.

I am telling you not to go to the doctor? Of course not, am I telling you not to go to hospital? Am I telling you that in my opinion we should oppose the welfare state with all of our strength? That is my opinion. The redefining factor or the opposing factor that will stop the medical community from becoming a part of the beast system is the righteousness of Christ Jesus. The lifestyle in Christ Jesus makes the individual strong, makes the individual independent, makes the individual healthy therefore less dependent on the system, therefore controls the degree of control that the beast system has over a sick population. Did I make that clear? There has to be an opposing force and that is the principle that we see when we discuss the Sefirot, and when we see the configuration of the Sefirot with three on each side, opposing each other, Chesed, the loving kindness opposes Gevurah, harsh judgment, and they come to a place of balance called Tiferet. Another name for that is justice. Either you are too soft, Chesed alone will bring forth what we are seeing in this country today, making excuses for a failure to do righteousness. Gevurah left alone kills you for a simple mistake and when the two come together and form a balance we find righteous judgment with mercy, or righteous judgment with room for extenuating circumstances.

Christianity, true Christianity where Christ Jesus is indeed manifesting through His people, it is a restraining force against the beast system. That is why there is such a push to crush it, that is one of the reason, there are multiple reason, multiple forces in our society are moving to crush Christianity, and each force has its own reason for wanting to stamp out Christianity.

I saw this principle manifested in a TV series called Charmed, and at one point there were forces for good, forces that claim to be above good and evil and to bring a utopia into our existence, they cast a spell over all of humanity and everyone is happy and cheery, and it is all goodness and light, and then suddenly you see somebody walking around and their hand is missing, and everybody is happy and saying, Oh what a wonderful day and God bless you and oh would you please move your car? Thank you for helping me; and someone is hopping down the street because their leg is missing. You see all of these people are amputees.

The question is asked, what happened, why are all of these people amputees? It was my fault, I turned the light switch on after it was supposed to be off and my hand was cut off. It was bizarre but it actually made a point. On the surface everything was cheery and wonderful and happy, but you did one little thing wrong and you lost a limb, harsh judgment; harsh judgment and a false kindness manifesting together but not coalesced into righteous judgment with room for explanation under extenuating circumstances.

It was a bizarre way of showing the potentials of our world, and that is what is happening,

that is the potential for the beast system. We are going to meet all of your needs, do not worry pay 75% of your income in taxes, better yet give us all of it, and we will meet all of your needs and then you need an operation, and you are told, I am sorry but we are out of surgeons or we have gone past the budget for this year or there is no anesthesia and will not be for another two months; but I am dying, and you are big brother who are committed to provide all of my needs, I have left everything in your hands. I am sorry, I cannot do it for two months, but I will be dead in two months. That is the way it goes.

This principle exists from the most human individual level all of the way to the situation that I just described and I have been preaching here for years, you do not ever give away your authority. Any legitimate authority that you have; if you give it away; you will be up against some fight to get it back.

Once you give away that authority and you come under the dominion of the person that you gave it to, you try and get it back. This is another way that this principle is demonstrated; I am going to use this example, we see it as the result of slavery of the American black people. A lot of them are so broken spiritually that they can stand up, not that they gave it away, but their individuality, their spiritual manhood was broken like a rod, it was snapped and once that happened, it is the same thing, if you give it away or if it is taken from you, once you give it away or it is taken from you whether it is your fault or not, I am not putting any blame here, putting back together again requires a supernatural work. You are broken, you are broken!

You do not ever give away your authority especially, any legitimate authority, especially authority that Jesus Christ has given you; if you are in a position of leadership and you give that leadership away, you will find yourself in trouble and when you cry out to the Lord, He will rebuke you and say, why did you give it away? When you repent, you have a war with Him on your side to get it back if you are strong enough to recover. Do not give your integrity away; do not give your authority away. Stay in the line with Christ Jesus, He is your strength, He is your wisdom, He will help you to navigate through and exist in the beast system, He will help you to survive in the beast system, and He will know that your true devotion and submission is to Him, and you will survive in the beast system. This is the truth of creeping socialism; it makes cripples out of the people. Does anybody have any questions or anything to say?

COMMENT: What you said before reminded me about what I saw in the news with that big heavy guy that they made him get the gastric bypass in order for him to adopt a child.

PASTOR VITALE: I do not remember that.

COMMENT: Yeah, it was just about a month or two ago, and he was really extremely obese, and they said, there is no way you can take care of this child at your weight, you have to get it, and he went for it, he went and did it.

PASTOR VITALE: Really? Yep, it is happening, you know there was a time and it is still required that you give your children certain inoculations before they go into school, and it made so much since that you could not let your child be in school with other children if

they were going to bring a plague into the school, and now they are requiring that nine year old girls get some kind of prophylactic for venereal disease, and syphilis and your children, your young daughters they are giving injections to prevent syphilis, and other venereal diseases and herpes, this is where it has come to, cervical cancer, yeah.

I was speaking to my chiropractor not too long ago; he just had a baby he and his wife, and he told me how he refused to give the baby a shot, they wanted to give the infant, I may not have this exactly right, I believe it was a shot against syphilis, something like that. This was a newborn, it was when his wife went into the hospital to have the baby, the shot was either for her or for the baby, I am sorry I do not remember, and it was for some venereal disease, and he told them that he refused the shot, he would sign a waiver, he refused the shot and he said to them, why are you giving my wife, it was the wife I guess, he said to them, why are you giving my wife this shot? They said it is to prevent the baby from being born with syphilis. He said; my wife does not have syphilis. He had to sign a waiver and there were several shots that they wanted to give again either the woman or the baby; that he had to sign off that they did not give it.

The day is coming that you will not be able to sign off. When you look at Hillary Clinton's proposed medical plan, a national medical plan, there are jail penalties associated with things like this. The medical plan that she drew up that failed when Bill Clinton was president, required if she could have passed it, if they could have passed it, that no doctor could practice privately, you could only practice within the scheme of socialized medicine and if you took a private patient you could get a jail term of up to ten years for taking a private patient. That was in her bill, and she is going to try and do it again.

We see that it starts out as a good thing, medical care for the masses for the suffering masses, and then it goes up on a scale and it is doing well, and it is doing well, and it is doing well, and then it peaks, and it becomes a monster. It is not just medical care, it is everything, it is the beast mind, if it is not controlled and contained and kept in its place of the righteousness of Christ Jesus, it will, every good work will become destructive eventually.

Right now another issue in this country is that, is entitlements, there are people that should be on welfare, there are people that should be on disability, they really cannot work, but the entitlements are so out of hand that there are not enough people left to pay for it, and the people who work are being taxed so highly, and eventually there simply will not be enough money to pay for all of these wonderful welfare entitlements that it sounds wonderful.

Everybody is there with their hands out, and there is not enough money to pay for it. I watched the republican debate last night, it was a repeat but I saw it on TV, and I will tell you it is not an easy decision which republican to vote for, I cannot line up with the democratic party at all, and I heard Governor Huckabee and I am telling you that I am really put off by his position on tuition, not free tuition but tuition at resident rates for the children of illegal immigrants, and a woman stood up on the You Tube and she asked a question, if you think that tax, the whole issue is it is tax payer money, that is the whole issue, it is tax payer money, if you believe that the children of illegal immigrants should

not only be allowed to go to a state college, but they should be allowed to go for in resident tuition rates, would you be willing to do the same thing for the children of the members of our armed forces? Those who have died, those who are disabled, how about that? He would not back down. I have to tell you that it just, aside from the other good things that he said, this mentality, I do not care that he is Baptist minister, to me this is a beast mentality that scares me, scares me, but I would not want to see anyone as president with this mentality.

As far as the Lord is concerned, as far as Christ Jesus is concerned, it is convoluted and perverted thinking. The only way he can justify what he was saying was that no he is not giving away something for nothing, no it is not unfair, what he is talking about is children that have been in the Arkansas school system since they are five years old and they have prevailed and they have studied and they have gotten good grades, why should they not have the same privilege as their fellow students? Mitt Romney came back at him and said, it is because they are illegal aliens, and what about the children of the people who died, the fire fighters who died, the police officers who died, the soldiers who died, what about their children? They are paying off government loans. He would not back down.

Again I want to say this, he is completely off of my list as an even possible candidate, not because of this one position, because I can hear somebody saying to me, Sheila, well you do not agree with him on this one position, do you knock somebody out because of that one position, it is not that I do not agree with his position, it is his rationale, it is the rationale of the beast mind, and even though he says other things that look good or that sound good, I would be concerned about the pollution and the expansion of that seed of the beast mind, I am very, very concerned about. Does anybody not understand what I am saying here?

I did not, right now my choice is Giuliani, I am not happy about a couple of positions that he is taking, but the position that he is taking that I do not agree with, I can recognize it as simply a different philosophy, he sees the situation differently but I do not see it as the beast mind, can you hear the difference? One issue I do not even have an answer for, I have asked the Lord to help me to see this and that is the issue of gun control; gun control is a big issue, the second amendment says that the citizens of United States have a right to bear arms period, no qualifications, you have the right to bear arms. President Giuliani who was the mayor of New York City which he said at the time that he took office was the most violent city in the country, and most of the weapons being used by criminals even in poor areas because the criminal activity is more in poor areas, he wants to modify that second amendment privilege, he wants people to have a license for guns and he wants them to take a written test before they get the license for guns.

When I hear the one side, the constitution says you shall have the right to bear arms period. That sounds right to me, why are you doing that? Then mayor Giuliani comes back and says, I had this severe crime situation in the city and what I did, these modifications that I put on a constitutional amendment, reduce crime by 70% and reduce murders in that city by 80%.

I want to tell you that I do not know what the answer is, so I asked the Lord, I said Lord

what do you have to say to that, because I am hearing both sides and both sides sound right and I do not know what the answer is, what do you say about that? I have not heard an answer yet but I expect to hear an answer. That is not a beast mind. I do not see that beast mind on mayor Giuliani, that was his solution to a problem through a compromise unfortunately of the United States constitution, and I do not know what the answer is, but I expect that I will hear from the Lord in due season at which time I will share it with you.

I was listening to Ron Paul, this was the first time I heard Ron Paul talk, I liked a lot of what he had to say, you know, he is against internationalism, he is against world organizations, he is saying if we keep on going in the direction we are going, there will be no nations left. That is correct, that is the plan of the United Nations to bring down national borders, they want a one world everything.

I said, wow, you know, I thought I was going vote mayor Giuliani, now listen to this guy, he is really good, what does that mean? Then he was challenged by McCain, who I really, I do not know what it is about McCain, but the spirit on him just completely turns me off, but he is for America, he is for victory in Vietnam, he is for respect of our military and I believe that all of the attacks on our military and the tearing down of our military comes right out of the communist manifest of how to destroy a nation, take away the right to bear arms from the man in the street, tear down the military, turn the people into pacifists and then you walk in with your army and take over their nation, it is right our Lennon and Marx, right out of the communist manifest.

It is happening in this country. I think that we should have a victory in Iraq; that we should not pull out as failures, we started something and we should finish it. Ron Paul took it beyond that, he said that he does not think that anybody should go into another nation and change their way of life. What he was talking about was what President Bush called nation building.

The mentality behind it is that the situation, this volatile situation exists in the Middle East; the people were being oppressed by Saddam Hussein who was definitely a Hitler to them, I have heard some real horror stories, mass rapes, torture chambers, the whole thing. We went into Iraq, there was legal, despite what the democrats say, we invaded Iraq on the legal ground of I think ten, I may be wrong about that, United Nations resolutions passed by the United Nations warning with military action if you did not, if Saddam did not stop doing what he was doing.

We went into Iraq on legal ground; we got rid of a dictator that was a horrible dictator, so then what do you do? Do you leave the people without a government? Do you put another dictator in place? What do you do? There has been an attempt to install democracy to give freedom to the people and to bring them out of tyranny.

If there is something wrong with that the Lord is going to have to help me, because I cannot see anything wrong with it. First of all what has been called a civil war I do not believe has been a civil war, Assyria was sending troops and Al-Qaeda were coming over the border and promoting fighting in Iraq after the initial invasion. In any event, Baghdad is cleaned up, Al-Qaeda has been driven out of Baghdad and this, the most incredible

miraculous thing is happening, after all of this fighting and all of the lives that have been lost, the Sunni and Shia Muslims are coming together, democracy, it is the beginning of the little buds of democracy coming to pass in this nation, which will be a blessing for the whole population and a start for the whole Middle East.

With all of the poverty and all of the problems of the Middle East and Palestine, in all of these states the whole Arab world, they have these rich princes and trillion Aires, and they do nothing for the people. I cannot agree with Ron Paul, that what president, I agree with the nation building to whatever degree that I understand it at this point. As far as I am concerned that is a very serious issue that Ron Paul just wants to pull out immediately and thinks that we have no right to be in there at all, I have to disagree with that completely, so that knocks him out for me.

I am back to mayor Giuliani, which is really interesting because before I had any time to seriously listen to the candidates talk, I saw mayor Giuliani in the spirit, he was standing out in the spirit, and I said, Lord is he your man because I really have not listened to anybody, is he your man? I did not hear any response, but he just remained to be prominent in the spirit.

I have heard one debate and for me at least at this point, it is still mayor Giuliani. I think we need a strong leader in international affairs and as far as, there was a question that Mitt Romney would not answer. I do not dislike Mitt Romney; I just feel more for Mayor Giuliani. There was a question that he refused to answer, I cannot remember what it was, and then there were two; I think there was another candidate that was not too impressive. It was basically McCain, Mitt Romney and Giuliani, and Huckabee. I think the three leading contenders are Huckabee, Mitt Romney and Giuliani. Those were the major issues as I saw them. Is there anybody else, do you have anything to say?

COMMENT: I noticed that somewhere along the line when you were talking about Giuliani you called him president.

PASTOR VITALE: Really? Yes, well I did not even know it, so perhaps that was, let it be a word of knowledge, Hillary has got to go; she has got to go. It will be a disaster for this country if she is elected. Wow, praise you Lord, okay Hallelujah.
