TRANSCRIPT OF MESSAGE #648 - Part 2

UNVEILING THE TREE OF LIFE

This Message Has Been Transcribed and Edited For Clarity, Continuity Of Thought, And Punctuation By The CCK Transcribing and Editing Team.

(Meeting already in progress)...are the feet of the spiritual man that we know as the Lord Jesus Christ today, and He is not here, He is in a higher world. He wants to descend into us and join Himself to His feet which we are, and then when He is fully present in this world, He will influence the whole world and bring it into right order. That is what we are hoping for.

I have a hope, I definitely am not prophesying to you, but I have an observation, this message today is so high that it almost is knocking me off of my kilter since the Lord gave this to me. I prayed to the Lord a few days ago, you see I do not know what the Lord's plan is, I just gave you a general plan, but I do not know His blow by blow plan, and I said, Lord, are you willing to intervene with this health care vote tonight? I am not about to be praying that, I am not about to be trying to control this health care vote with my own mentality or whatever spiritual power I have, I have whatever I have. What are you willing to do? I know that if every Christian on the face of the earth prayed, we do not have enough power to stop this vote from going through, and if I ever get through message today, I will show you why, but you know why, the powers and principalities that are in control right now are stronger than the collective force of every Christian on the face of the earth. I am fully convinced of that, there is not a doubt in my mind, because we are the feet of the savior, we need the whole person of the savior to overthrow these powers.

I have understanding for you of who these powers are more than I have ever understood it before, but I have to go with the Spirit, and this is the introduction, and this is the introduction He has given me, we will just do the most that we can today. That is what I said to the Lord, ***I know you can do it, it just takes one Senator that promised to say***

yes to say no, one, they have sixty votes, if one Senator says no, it is over, just one. You are the God who overshadowed Balaam and made him bless Israel, you can do anything, anything is possible, but I do not know if that is what you want to do, I do not know, but I said, Lord I am asking you if you are willing to do it, would you do it, if not, I guess it was not in your plan.

That was a few days ago, and now that this incredible message has come forth and even me preparing it, I hope that I have been able to convey to you what has to occur for a message like this to be transmitted from a higher world into this host vessel, and then to have it preached with all of you listening. It is bringing down the power of the higher world into this world. That is just another way of saying that the savior wants to descend into this world.

Does this high message at this time mean that the Lord is going to do it? I do not know, but it might, does anybody not understand what I am saying. This is an unusually high message and when we preach like, when I prepare like this, it is bringing down the power of the higher world, does this mean the Lord is going to do it? I do not know, we will find out. Let us preach this message, and what is it about? It is about, it is a deeper understanding than I have ever had before, of the fall, of who we are, of what our condition is, and most of all, and why it is taking so long for the Lord to save us, it is a very exciting message, but even more exciting than that, it is exciting on multiple levels because this book, ***The Palace Of Adam Kadmon***, this book and I told you when I preached part 1 of ***The Unveiling of The Tree of Life***, this is part 2 of ***The Unveiling of The Tree of Life***, but it has nothing to do with part 1, I am just jumping all over the place brethren, and again it appears to me what this is all about, this magic carpet ride that the Lord has us on, that there is a message that He wants to get into our spirits because what we believe, what we understand and what we believe is very important, because when we believe it, it brings it down into this world.

When we believe it, it comes to pass. I have the understanding of a whole chapter, not a whole chapter, but a whole part of a chapter of this book, ***The Tree of Life, The Palace of Adam Kadmon***, it is unbelievable, I do not even know that the author of the book understood it to the degree that the Lord is showing it to me, and I do not take any credit for this, this is what I have been given. It is the secret of what happened, it is the secret of the fall, how we got here, and what our present condition is, and this message, I want to tell you where it came from, this message came from my doing the best I can to understand and convey to you what Jacob received.

Again, we are going back and forth with all of these messages, we were dealing with ***A Son Is Given***, last Sunday, and I was teaching from my notes and I said, ***Well it was the male Adam that was joined to Jacob and that is gone through his genome and now the male Adam is being joined to the female Adam in us***, and as I preached, there was a lot of revelation in that message that I preached on Sunday, I realized, I said, ***Hey, I do not know that this is right, I do not know that this is right***, and that is right on the message, I did not take it out. This is the correction. It was more than the male Adam that was grafted to Jacob, it was more than the male Adam. It was a more powerful seed than the male Adam alone, and this is what the Lord had to teach me to answer that question.

I am throwing this message back in the message called The Unveiling of The Tree of Life, because I am doing the best I can, this is the first time in the twenty one years that I am preaching, that my messages have been so haphazard that if you want to follow them in chronological order which advised, you really need to not go according to the message numbers, but go according to the dates on the uploads because I hopping back and forth between different message numbers.

This is an incredible breakthrough as far as the Jewish people are concerned, there is going to be a great uproar, from there point of view this is a violation of their holy word, but it is not, it is the truth of an extremely difficult Kabbalistic book that has been revealed to me, and I could just hear them screaming, ***Who do you think you are? This Rabbi Luria's, his essence of his teaching or the beginning of the essence of his teaching, who do you think you are?*** I do not think I am anybody, I am the host of the savior. I thank God for Rabbi Luria because his teaching, well what the Lord use to teach me because I could not understand this message if I did not have the foundation.

You all here, you have had the similar foundation, I know that you do not understand it to the degree that I do, and as the Lord helps me, I am going to do my best to impart this to you, and it is not just for your edification, everybody that receives this word on any level, you become one of the first inhabitants of this world who will be walking around with this kernel of truth. That makes you a seed, that makes you a homing division, that makes you a magnet, this belief that you walk around with, that pulls down the power of God, which is pulling the savior into this world.

Brethren, we have an important job to do, this message is way beyond anything it will do for us personally, it will do for us personally, but it is way beyond that, way, way, way beyond that. God willing, Lord willing, I am going to make this simple, I will be pulling from certain areas that some of you have never heard before, and others of you who have been with me since 1991, you may not even remember me talking about the Kings of Edom, this great mystery the Kings of Edom, who are they, we have information about that.

Lord willing, I am just going to get started, I do not know how I am going to start, but I am going to get started, Jesus has to help me. The Kings of Edom, they are spiritual principalities, they are the principalities of this world. They are the principalities of that exist in the astral plane or the world of Yetzirah, that manifests through a group of hosts people, just like we are the host of the Lord Jesus Christ, there are people who are the hosts for the principalities and powers that rule this world, and these are the people, they may or may not understand who they are, but these are the powerful people of this world, and there really are, I do not think any of us doubts that there are people who rule the world.

Although we do not have any kings or queens in this country, we definitely have a ruling class. I do not know about you, but I am not smart enough to be the president. We are just average people here, so there is a ruling class, people that are very smart, and they are highly educated, and they are in Washington, and their heads of state, not only in this country, they are heads of state all over the world. There are people that are just brilliant

in this area and then there is the common people, so how come, how come some people are so brilliant. I could see one person being a little smarter than another person, but how do you get such a disparity you know from someone that is brilliant enough to, and not only brilliant enough but emotionally and mentally strong enough to bear the pressure of ruling a nation like that. I cannot even, I know what pressure I am under from running this little ministry, I cannot imagine even being a Senator let alone the president of the United States, who are these people that have this kind of strength? They the hosts in most instances, well of one or the other, either they have been raised up by the Lord Jesus, or they have been raised up, they have been raised up by the powers and principalities who are ruling this world.

Brethren, this is it in a nutshell, a showdown is coming between the people who are hosting the image of God through the Lord Jesus Christ and the people who are hosting the corrupt image that was formed in humanity as a result of the fall of creation from a very high place even higher than the Adam who fell. I want to make my point before I go on to that. There is a showdown coming and the showdown is in the flesh. There is a false image in humanity right now.

The Scripture says that mankind was made in the image of God, but that image was broken, and another image was raised up in its place and we see that image in the book of Daniel, it had a head of gold, etc., etc., etc. I hope you are all familiar with that Scripture. I have it in my notes for you, it is the third page of your notes, and it is the Scripture, it is in the King James translation, it is in red, Daniel 2:31-35;

DANIEL 2:31-35

31. Thou O king sawest, and behold a great image. This great image whose brightness, (now this was a dream that Nebuchadnezzar had, and Daniel was interpreting the dream). This great image whose brightness was excellent stood before thee and the form thereof was terrible.

32. This image's head was of fine gold, his breast and his arms of silver, his belly and his thighs of brass,

33. His legs of iron, his feet part of iron and of clay.

34. Thou sawest til the stone was cut out without hands, which smote the image upon his feet, that were of iron and clay and break them to pieces.

35. Then was the iron, the clay, the brass, the silver and the gold broke into pieces together, and became like the chaff of the summer threshingfloors, and the wind carried them away, and no place was found for them, and the stone that smote the image became a great mountain and filled the earth. KJV

Brethren, this image is the image that all mankind born of a woman are made in. We are not in the image of God, this image appears in the spiritual plane, and it is the blueprint of the image of the nature of mankind, and that stone that is cut out of the mountain is the one who will be reconfiguring us. Brethren, we have to be reconfigured, we are formed incorrectly, and the Lord Jesus Christ is descending into this earth with a spiritual power that was imparted in seed form to Jacob, which is more powerful than the powers and principalities of this world, but it is not here yet.

What we have, and the power that we have seen in the church, some of us have been healed, some of us have been delivered, I was delivered from premature death, there is power in our personal lives, there is power to overcome financial problems, we have seen the power of God, but this is the power that resident in the earth, we are weaker than the powers and principalities that rule from the world above.

Through the marriage, the Lord Jesus Christ is coming to marry what has already been brought forth in us, and through that union we will be stronger than all of the collective powers and principalities in this world.

The real battle that we read about in Revelation 12 where it says, ***And Michael and His angels fought, and the dragon and his angels fought***, that battle is coming, brethren there is no rapture, there is a war, and we are the soldiers in the war, but you do not fight until you are prepared to fight. I want to, as the Lord helps me impart to you an idea of the whole background of where these powers and principalities came from, who they are, and where they came from. What I just told you is that they are manifesting themselves as the image of mankind.

We are not in the image of God, and even if we have the Holy Spirit, or even if the seed of Christ is grafted to us, we are not in the image of the Lord Jesus, we are not. We have to wait for the marriage for the power to change our image. We are in the process of it, we have made some progress, but we are not brethren, and the proof is it is the lack of power, that is the proof, the lack of power.

God willing I am going to convey this message to you. Let us start by looking at the drawing. I did email it to you if you are listening with the camera. These are deep Kabbalistic principles brethren that I am sharing with you. I have been talking to you basically about four worlds, I have been telling you that there are four worlds that we deal with, the world of emanation, which is the world from where the power of God comes forth, underneath that is Beriah, the world of creation, the two Adams were planted. Below that is the water world, the astral plane, the Hebrew word is Yetzirah. We are the lowest world called the world of action, all of the other worlds are invisible, we are the only visible world, and this is the place where the thoughts of invisible spiritual powers are manifested or are acted out, in a manner, where they are revealed, they are acted out.

Today we will talk about the fifth world which is really the first world, which is really the highest world that I have not mentioned to you before, and that is the world of Adam

Kadmon. Kadmon is a Hebrew word that means primordial. I just pray for all of you, everybody listening to me, everybody who is listening to the message, that the Lord open your mind and your understanding, that Adam who was formed in the garden, was not like you and me. He was powerful spiritual human being, and he was in the third world down. Adam, the male and the female Adam that was formed in the world of creation, were in the third world down, the highest world is called the world of Adam Kadmon, a primordial Adam.

The Adam that we read about who was put in the garden, that is not the Adam that it was said about, Let us make man in our image. That man that was made in the image of God, is the primordial Adam, the oldest most ancient of all human beings, and he was such a powerful human being that I cannot even comprehend him, but it is he that Paul is talking about in the book of Acts when he said, ***In Him, we live and move and have our being.*** We are cells in the body of tremendous gargantuan spiritual being that is beyond our ability to comprehend. It is as far beyond our ability to comprehend him as a cell inside of our body is to comprehend the whole of us, and this world.

The Kabbalists call him Adam Kadmon, the most ancient primordial of beings. I have talked to you somewhat about the Ayn Sof, who the Ayn Sof is, the unlimited one, He is infinite and unlimited, there is nothing that is greater than He is, and He is not even a He, it is an it, it is not male or female. Nothing greater than the Ayn Sof, it is infinite, and nothing can be outside of it. That means everything that exists is inside of the Ayn Sof, the unlimited one.

Creation is in its midst. There came into existence an empty space that we can liken to a womb in a woman, I am telling you that so you can hopefully understand what I am saying, an empty space in the midst of infinity came into existence, because this unlimited one desired to bring forth a creation, just like a woman desires to have a baby, the womb is present, this empty space opened up in the midst of the unlimited one, Ayn Sof, Hebrew meaning unlimited one. In the midst of this empty space there was brought into existence Adam Kadmon, primordial human, the most ancient of all spiritual beings, as He was so great, He filled the whole empty space. Did you ever see, I am really trying to limit these drawings because they take so much time, we are going to have to use the camera because these drawings of, we will have to use the digital camera, the drawings of the viewing camera. I will just do this quickly, did you ever see when you were passing occult or any way you get on the internet, it is a circle like this, and they show a man and you all know that I cannot draw, I am going to do it this way, they show a man, and they show him filling the whole space, did anybody ever see that, do have any idea what I am talking about? Maybe we will not even take a picture of it. That is not even a picture to take, we will ask Xxxx to make something up for us. Maybe I could find something on the internet and print it out.

The children of darkness, they are much smarter than the children of light. They know all about this stuff, you know, they have, I have been looking at this picture of a circle with a man with many arms in it for years, thinking, I wonder what that is. Today, after 21 years of teaching this message, I understand that, that is Adam Kadmon. That is the most ancient human being that was built into the empty space in the midst of infinity where all

creation, and the people in the occult know about it, I do not know what they think, but probably they know the truth. Is everybody following me?

This Adam Kadmon, this most ancient human being, He is the one that is given the commandment to go forth and multiply and fill the earth. Within Him exists all of the worlds, within the world of Adam Kadmon exist the world of emanation, where the power of God goes forth to create the world of creation where the two Adams were, the astral plane, the world of Yetzirah, the water world, and this world, and we are in the innermost part. All of these other worlds are outside of us. Brethren this whole universe, is a manifestation of the lowest world. There are universes beyond this universe that the scientists do not even know about. This is the only visible one. This drawing that I did for you, I think it is fairly understandable considering I cannot draw.

The world of Adam Kadmon, it is the highest, it is the highest square at the top, I have some marks there showing, and anyone viewing the camera, I emailed you this drawing. Just in case, just in case you did not get it. Is that showing on the computer? Do I have it right?

That highest square that is the world of Adam Kadmon, and as you can see all of the other worlds came out of it, but the most significant part of this, of this drawing, is this line that goes down the middle, because there is a high principality of God's creation called the wisdom of Adam Kadmon that is descending from that high place all of the way down into our world, and He is one line, can you see it, there is one line going all of the way down into our world.

I really cannot hold this up anymore, I hope you were able to view this on your computer. Out of the world of Adam Kadmon, well each world, each world brethren consists of ten spheres called Sefirot. Brethren, these are not just little spheres of light, they are great powerful entities. I needed somebody to tell me that. When I first started learning about the Sefirot, I said, Okay, so they are little disks here, but no, they are powerful entities with consciousness. Brethren, this is a principle that I think all spiritual philosophies know about, even Hinduism teaches about the ten great ones. I never studied Hinduism any further than that. I am just trying to tell you that it is acknowledged by spiritual philosophers that are really deep into spiritual knowledge, that at the beginning of the creation, there were ten great entities that Kabbalah describes to us as spheres, that contain the light of God. We had vessels that were filled with light, vessels that were made from light, that were filled with light, but vessels that were capable of being broken, so that the light within them could be poured out.

Each world has its own ten Sefirot, and it is the lowest Sefirot called Malkhut which is a female, the Hebrew word is Malkhut, she is the female. It is the female of the world of Adam Kadmon, I do not really have it marked on your drawing, but she is at the bottom of this top square here, the female of the world of Adam Kadmon, that brought forth literally brought into existence the world below, which is called the world of emanation. She brought forth the ten Sefirot of the world of emanation.

The world of Adam Kadmon is sinless, the world of Adam Kadmon is without sin, it is a holy world, but the lower part of the female of the world of Adam Kadmon brought into existence the world of emanation. She brought forth those ten Sefirot of that world. That was the first, let me say it another way, that was a primaeval world that has a name, the Kabbalists call it, the world of points. Those of you who have been with me for a while, we have so many messages on the world of points but, I never understood it like it is coming forth today.

This world of points, it was the first stage of creation, that is coming out of Adam Kadmon, who himself was created. Adam Kadmon was created, He came into existence through the light of the Ayn Sof, that filled that empty space, that now the one that is created is bringing forth creation in the lower worlds. These ten Sefirot that first came forth in the world of emanation, they were not perfect, they were capable of sin. I want to tell you now that Rabbi Luria who wrote this book, The Tree Of Life, He does not believe that they sinned, they died. These ten Sefirot broke up and died, and Rabbi Luria does not impute sin to them, but the Lord has told me that they died because of sin, because I do not think that, I think the Scripture teaches the soul that sins dies, and they sinned.

Let us talk about what their sin was. What was their sin? There were ten Sefirot in a straight row, and now these were spiritual beings, these were just not pitchers of water. They were spiritual beings, and they needed to be sustained by the higher world. What is the higher world? What is the world above the world of emanation? The world of Adam Kadmon, absolutely, they needed to be attached to that world to be sustained. The ten Sefirot of the world of emanation needed to be attached to the world of Adam Kadmon, and they needed to be functioning in a manner that would enable them to receive the sustenance, food if that is how we need to hear it, the food or the strength, or the energy from the world above to survive. The way it was arranged was that the first Sefirah was supposed to be rotated upward, you can see my head, just rotated upward, to be fed, just like a mother feeds a baby bird, to receive the food, and then rotated downward to feed the Sefirot below.

That procedure of being fed, of turning your face upward and being fed, and then turning your face downward and feeding the one below you, was the plan that was designed to sustain all of the Sefirot of the world of emanation, but these Sefirot, they had, I do not know if personalities is the right word or not, but I am doing the best I can to explain it to you, to make this simple, they had personalities, and they had attributes, and they were filled with pride, they were prideful, and they did not want to have to be fed by somebody else.

Brethren, everything I am going to tell you, you can see these qualities in human beings today. It used to be that it was a shame to take welfare, it is not a shame anymore in this country, not that I want to shame anybody that is on welfare, some people need welfare. What I am talking about is an attitude today that get what you can and do not bother working for yourself. That is out there, that attitude is corrupting the whole country. If somebody needs help, they should get it, but they should get the help and then get up on their feet, and go to work, unless of course God forbid, you are crippled, and you really cannot do anything, then should be taken care of.

The Scripture says, If you do not work, you do not eat. What does that mean? It means that it is not a healthy lifestyle to be on welfare. You should be a productive person. Even God forbid you are crippled, you should be productive in whatever way you can be productive. If your hands work, you use your hands. We have seen pictures of an artist that painted holding the paintbrush in her teeth, and of course Stephen Hawking who is completely paralyzed, and I think he is still alive, even this great astrophysicist had all kinds of books written.

We are born to overcome. That is what the principle is, but it means ten beings that emerged out of the great Adam Kadmon. Sin was found in them, and they did not want to look up to be fed, they did not want to be the baby bird that was going to be fed by somebody else, they wanted to be the boss. Brethren, we see this in human beings, I see this in human beings every day. Everyone wants to be the boss, not everyone, but a lot of people, they want to be the boss, they want to be the head.

If you have a legitimate position as being the head that is fine, it is a lot of responsibility, whether you are the head of a ministry, whether you are the head of a family, whether you are a manager in the office, whether you are president of the United States, having authority is a very heavy weight. There are some immature people that just want to be the head. They do not have any idea about the weight or the responsibility, and they do not care about it, they just want to be telling other people what to do.

This is a serious sin, that is very damaging to the lives of the people that have this problem. We see that it originated in the world of emanation, this high, high spiritual place with these ten Sefirot, these ten spiritual beings that were the beginning of the world in the beginning of what we know today to be humanity. I have no idea what they were like, I just have a vision that they were powerful spiritual beings, they were manifesting these immature qualities. What I find interesting is that a lot of Christians who write about Roman and Greek mythology, they will tell you and it is true, that the Romans, and the Greeks, that they gave human attributes to the gods of their pagan religions, and the Christians, all of the Christian writers that I have read, say, ***Well you know, this is just paganism, there is no truth to it at all***, but there is truth to it. I am not saying it is true the way the Romans or the Greeks did it, but here I am telling you the same thing.

There were these ten great spiritual beings that were manifesting what we know to be ungodly human attributes. They did not want to be the tail, they wanted to be the head, striving for power, and because of this weakness in their characters to whatever degree you could call it a character what they had, destruction ensued, that the vessels that contained, did I make, I do not know if I made this clear to you. These ten vessels contained the light that came from the Ayn Sof. Why would they contain the light that came from the Ayn Sof? The plan brethren, was to bring forth a visible creation through a series of steps downward, because the physical creation could not exist, a visible creation would never survive on the high level where the creation was still invisible, it would dissolve. That is what was happening to Jesus' body. If you remember my teaching, about Jesus on the Mount of Transfiguration, the church world in the King James says, these great drops of blood were coming, because He was so scared. No, His physical body was dissolving, because the man inside of Him, was not a citizen of this world. The

man inside of Jesus, who was married to Elijah, was marrying or about to be married to, I do not want to get into these details right now, to Elijah who was attached to the world above, the inner man of Jesus of Nazareth, had become a citizen of a higher world where His being was emanating such energy that it was dissolving the vessel that He was resident in of this world.

The creation you see had to be separated from the highest place, the creation who would be the vessels that would ultimately contain the whole of the light of God, had to be separated far enough from that light, so that when the vessel was infused with the light, it did not dissolve. Everybody with me?

These vessels broke up, and the light that was in the vessels and the pieces that the vessels broke into fell down. That much you may remember me teaching, but what I did not know before was this. The worlds below did not exist yet, because it was the plan was that just as the world of emanation came out of the world of Adam Kadmon, the world of creation was supposed to come out of the world of emanation. Then the world of formation was supposed to come out of the world of creation, and then this visible world was supposed to emanate out of or descend out of the world above, which we call the astral plane or the world of formation. That was the plan, but none of the world existed below the world of emanation because the process had not been completed yet.

When these vessels broke, and the pieces of the Sefirot and the energy within fell down, where did they fall to? There was nothing underneath. What I want to suggest to you is this, this is what happened, that these broken vessels went forth and brought forth the worlds below in a corrupted state of being. They did not just fall like pieces of pottery falling out of the sky which is what I always thought, they fell in their consciousness, they fell in their morality, but they continued to pursue their assignment, so the broken vessels from the world of emanation indeed brought forth the world below, the world of creation, in Hebrew called the world of Beriah, that world came into existence, and then that world brought forth the world below, and all of the worlds right down to the world of action where we are today have been brought into existence by the corrupt conscious beings that we call the Sefirot of the world emanation.

All of the world below are corrupted. Is anybody not following me? What happened next? What happened next, Adam Kadmon the creator, He is the guy, the most ancient of all primordial beings who is filling the whole empty space who is responsible, he is the ultimate guy that is responsible for what happened in the lowest world. Adam Kadmon up here, and specifically, more specifically, the Sefirah called Chokhmah, the wisdom that comes from the world of Adam Kadmon, is responsible for the ultimate manifestation of the creation which is the visible world, all of the way down here in the world of action, and he is the one, the wisdom of Adam Kadmon, He is the father that is responsible to the Ayn Sof, the one above Him, for all of the world below and in particular for our world, the world of action down here. The descent, let me just divert a little bit from what I was just telling you, the descent into this world, when we are waiting for His descent so that He will marry us. That descent is not just to say hi to us, that descent is coming from the Father, the Chokhmah of Adam Kadmon, He is descending all of the way down into this world, to impart the power to this world to wage the war against the powers and

principalities that rule here which are, the broken pieces of the Sefirot, and the energy that fell out of them, which are now turned evil.

I am going to say it again. The wisdom, the Chokhmah, also called Father, of Adam Kadmon, the one who is responsible for all of the worlds below, He is working with the lower worlds to prepare them to be in such a condition that He, the wisdom of Adam Kadmon, can descend, or I am sorry His light, okay, His essence can descend all of the way down into our world which is the lowest world for the specific purpose of resting the power away from the broken pieces of the Sefirot who became corrupt, and the energy which they capture.

He does not want to punish them. He will punish them if there is no other option, but He does not want to punish them, His purpose is to reclaim everything, to reclaim the energy that turned evil, and to fix everything that went wrong. There may be some punishment necessary along the way, but the motive behind the punishment is always restitution, rectification, and life. The energy that was in the vessels fell down as far as Yetzirah and it became a water world. That is the world, we know it is the astral plane, the Hebrew word Yetzirah, it means formation, the world of formation. This is the first world where spiritual life took on some kind of form. All of the energy from the whole ten vessels fell down and became the sea called the astral plane, but it is an evil sea, and all of the pieces of the broken vessels became at least some of the inhabitants of that world. From that world of Yetzirah, the powers and principalities of the fallen Sefirot have incarnated this world, which is in the image of that statue that we just read about in Daniel, and we are not in the image of God.

The Father of the creation right here, the wisdom from the world, the Sefirah called Chokhmah from Adam Kadmon, He has been working tirelessly to prepare the lower worlds so that He can descend all of the way down to us and save us without destroying those worlds, because if the worlds are not prepared for His descent, they would be destroyed as He descended into them. He is too powerful. It is really not the light of Adam Kadmon that is coming all of the way down. The light from the world of Adam Kadmon does not descend below the world of emanation, does not descend the world of emanation. The light is too powerful okay, so that is what these little squiggles mean on my drawing over here.

The light of Adam Kadmon, He goes down as far, well, let us just say to a point in the world of emanation, and this light is in the form of ten Sefirot, so it is the lower, I am going to try and make this as least technical as possible. The lower Sefirot of the world of emanation, lay hold of that light, this light from Adam Kadmon, Father, it is descended into the world of emanation in the form of ten Sefirot, and the lowest of those Sefirot, now take the light and carry it to the world below, so it is not Adam Kadmon Himself that is going to the world below, it is the Kabbalists say, it is the sparks of His life. Then you get into the world of emanation and the same thing is repeated. The lowest Sefirot of the world of emanation, carry the light into the world below, the world of formation, and then the lowest Sefirah of the world of formation carry the light into this world.

We see that this world we are told by the Kabbalists, contains the sparks, we might say the reflection of the light that comes from the most high. Once we are fully prepared, these sparks of His light, that is what we would say Christ in us, without going in to any details, making this simple, we would say it is Christ in us. Once we are prepared and the preparation for His descent is a group of people, a company of people, that have the sparks of this life, because everything does have a spark of His life, and then the Father Himself is going to descend through this path that was created when the lower Sefirot of each world brought forth the world below. He is going to descend through this whole path, and He is going to be complete from this point of view, that His head, talking about Adam Kadmon now, His head will be in the upper part of the world of Adam Kadmon, and His feet will be standing in our world.

He is a superior spiritual being that spans all worlds, His head is in the world of Adam Kadmon in contact with the Ayn Sof, and His feet are down here in the lowest world in contact with us. There is only one problem. When the Serpent took over this world, going back to pass messages now, think it terms of the messages we had on the brain, when the Serpent took over this world, He put anything that was of God where? Underneath the forebrain, and off to the west, off center. The part of the brain, I have been teaching you that Abel is in, it is off center. That is why, well what is in the center? The spinal column is in the center, and the brainstem, the brainstem. When the light of Adam Kadmon, when the savior descends into our vessel, He is coming in through the top. It is not our physical head brethren, this is just to help you to understand. He is coming through the crown center of the head, and He is descending right into the brainstem, because that is really what we are, our spinal column and our brain, our nervous system, that is what we are. When Adam Kadmon, when the savior descends into us, His feet are going to be standing in our brainstem, and there is a location in our brainstem that has been designated for His feet to stand on, and the reason for that is that when the feet of Adam Kadmon stand on the two places in our brainstem designated for His feet, those feet will be connected to the whole man whose head is in the world of Adam Kadmon, and down here in this world we have the full power of the full man, or full spiritual man, of primordial Adam, the oldest human being.

Does anybody not know what I just said? There is a problem, what is the problem, does anybody see the problem from what I just said? We are off center, and what does that mean? It means that if He is descending, if Adam Kadmon is descending into this world and He does not have any feet, His feet are down here, He has to connect with His feet.

His feet have to get on the place that is designated for the connection which are the two olives in the Mount of Olives. Abel, or the resurrected Adam has to step across from the place where He is buried underneath the fore and the middle brain and stand on those two olives, so that when Adam, when the savior descends from above, the whole body is connected. Did I make that clear? You all got that.

What we are trying to accomplish is bring the power of God into this world, and there are host vessels prepared for this right now, and when that happens, that is when the war begins. You think you have been experiencing the war, that is when the war begins. What I hope to show you next is why it will be without a doubt, that the sons of God, the human

being, the human hosts in which the savior of the world has descended will be twice as strong as the human hosts that contain the powers and principalities of this world.

Think about what I just said. When I first started teaching, we were talking about human beings in this world, that they are just brilliant, they are billionaires, they are trillionaires, everything they touch turns to gold, and it is not even that they have the money, my mind could not even keep up with them, their business decisions and their wheeling and dealing and their ability to see into the future and make wise decisions and have power in this world.

They are an elite class in this world and in this country even though we do not have a king, they are in elite class of people that just hold on the wealth, and brethren, it is not just that they have money, because there have been people that have been getting millions of dollars through the lottery for years and a lot of them are destroyed by the money, they do not know what to do with it or they misuse it, and it destroys them, so it is much more than having money, it is a mentality, it is a state of being, it is a wisdom that is on them.

Those brilliant people, will be defeated, by the human hosts that are now the sons of God. That sounds mind boggling, does it not? We are going to become very, very intelligent more so than these brilliant people that are ruling the world, why? Because the source of all wisdom will be dwelling in us, and when He dwells in us we will be caught up to be like Him. That is when the war begins, and the whole world is about to change, I do not know how it is going to happen a day at a time, but I have just given you the general blueprint, it has nothing to do with you or me, it does not make us special, it does not make us great and other people not great.

I mentioned to you earlier, any kind of authority is a very heavy weight, it is a responsibility, it is a great honor and it is exciting, but it is a great responsibility to receive properly from the one above us, and to give properly to the ones, and to respect properly the ones beneath us. It is a literal war of the taking over of human kind by the power or by the image that is formed from God, by the image that is formed from God that will be taking away human kind from this image that was formed by the fallen corrupt broken Sefirot of the world of points. Is there anybody that did not follow me? I think you all got it. This is going pretty well, I did not think it would go this well.

This is another point, the next point that I want to explain to you.

Adam Kadmon is full well able to correct the error that happened the world of points, because it was the lowest, it was the female of Adam Kadmon that brought forth the world of emanation, the first world of emanation which we call the world of points, and she, by the way this is what is known in this world the Shekinah, the female of the world of Adam Kadmon, her name is Malkhut of Adam Kadmon, she is what is called the Shekinah, she is full well able to correct the problem. This is how the problem was corrected. Let me just repeat something first, the ten Sefirot that appeared in the world of emanation, they came forth from the female of Adam Kadmon, and they were corrupt. The world of emanation has already been corrected and restored, and the second seed that the female brought

forth was a seed that was joined by the, I am sorry I am having trouble getting that out, the Sefirot above the female, is what is called the Yesod, that is the genitals of Adam Kadmon.

We are just saying in that high spiritual world, there was a copulation. In the first attempt, the female alone gave birth. Do you know that is a reality in this world, I have talked about this from time to time, it is possible under certain circumstances, and it is certainly possible, it is certainly evident and existing in the plants of this world, that a female can reproduce without a male seed? There is a certain name for it that I was just reading the other night which is eluding me right now. This female Malkhut, she reproduced without a male seed, that is what I am trying to tell you. She reproduced herself without a male seed, and her offspring corrupted, her offspring was the world of points and it corrupted.

The second time she reproduced she coupled with the Sefirot above her, which is called the genitals or which is called the male sexual organ of Adam Kadmon. We see that the lowest of the ten Sefirot of the world of Adam Kadmon is the female. That is the tenth one, the ninth Sefirot of the world of Adam Kadmon is the male, the Yesod. Before the female, before Malkhut tried to rebirth the world of emanation, this time she did not do it alone, she coupled with the male who was above her, and brought forth a dual seed, a double seed, brought forth a zygote or brought forth those ten Sefirot of the world of emanation, that were now the product of the union of the male and the female. Everybody okay? The world of emanation is completely reconfigured, it exists, it is all fixed up. What is the problem, what is the problem down here in this world and all of the evil entities in the astral plane and what is the problem?

This is what the problem is. The world of Adam Kadmon is beyond time, there is no time there. I do not really know if the world of emanation is affected by time or not, I honest do not know, but I think if it is affected by time, it is so close to the world of Adam Kadmon that things happen very, very quickly, if it is affected by time at all.

The further you get away from the creator, the longer or the more time is involved in the events of the higher worlds playing out down here. let us just say for argument's sake, because I do not know the answer, that the world of emanation was reconfigured within one hour, in one hour the mess that was occurred by the sin of the Sefirot of the world of points was all cleaned up and whatever was left if there was any residue of the broken pieces that did not fall down, they were cleaned up, whatever energy was there was re-gathered and re-grouped, and another ten Sefirot were birthed into the world of emanation and these were holy Sefirot.

It happened in one hour after the fall, but in the world below, in the world of creation, maybe it took a thousand years for it to happen, and in the world below that, in the world of Yetzirah, maybe it took ten thousand years for it to happen, and the world down here where we are, it is taking thousands of years to happen, because everything that comes, everything that happens in the worlds, in the created worlds flows down from the worlds above. We are actually waiting here in this world, for those of us that are suffering, in a variety of ways, a lot of people are suffering more than we are, people are starving, people freezing to death, people being tortured, the people of this world that are suffering, we

are waiting for the correction, for the rebirth of the world of emanation to vibrate down to our world.

The correction was made, it occurred within one hour of the fall, in the world of emanation, but down here, and that is why I drew this drawing this way, that you could see that each world was smaller than the world above, and each world below is farther from the source, the source of all life, Adam Kadmon is the source of all life to the worlds that are created out of Him, and of course the sustenance of the Ayn Sof is what sustains Adam Kadmon.

We are waiting all of these thousands of years, I really think it is more than 5,000 years, I think we had a very good message on that a couple of years ago, some Rabbi wrote about it, I believe that the earth is old as the scientists say that it is, we have been waiting all of this time for the salvation that the world of emanation experienced in one hour, we are waiting all of these years for it to come down here.

We read in the book of Revelation, ***And there was silence in heaven for a half an hour***, well that is a half an hour up there. How long is it down here? Thousands of years, but our time is coming, I really believe it is at hand, and it is very exciting, exciting things. That was not as hard as I thought it would be. I have some more, are there any questions about what I just told you? I would like to take our break here, and when we come back, as we go through these notes, I have some additional information for you as to more of the details of what happened, and also about the seduction of the two Adams that fell down into Yetzirah, we discovered that, in a recent message, I think it may have been the last message or the one before that, how the account of Dinah, there is only one sentence in the Scripture that talks about Dinah the daughter of Jacob, that she went out to see the inhabitants of the land, and that she was captured, you know violated by the prince of that land, that, that was just an outplaying in the material world of what had happened, something of the events that have happened in the world of creation, and the world below the world of creation that you know as the astral plane, the world of Yetzirah, and we found out that it was the female Adam started it, but the male Adam followed her, they were descending into the lower world seeking out the inhabitants of that land, and they fell into that world, which is the genesis of the myth of narcissus, we had a whole message on that which is probably last week.

When we come back from our break, we will go over these details and I did the best I could last night to just put down in a series of sentences the revelation that the Lord gave me, and we will just discuss each of these sentences and bring forth the rest of the message. Basically let me just say this before I go, the two Adams fell into the world below and they are the sons of God that looked upon the daughters of men, and found them attractive, and the bottom line is that the two Adams that had within them the resources to reproduce on the lower world were captured, they were captured by the forces of the world of points that had fallen down to the world, now remember the world of points, the Sefirot broke, and the energy fell down, and they continued to form the lower worlds, so they were in the lower worlds. Then when the reconfigured, let me just give you this before you go, the rebuilt, the reconfigured or as the Kabbalists say the rectified world of emanation which is now strong and okay and holy, when that world brought forth Adam in the world of creation below, are you all following me? There was a new, there was now

a new set of ten Sefirot in the world of emanation, and they are okay, they are not corrupt. They did what they were supposed to do, they brought forth the lower world which is the world of creation, they brought forth the male and female Adam and we are told Jehovah put the male and female Adam in the garden, in the world below. That male and female Adam were placed in a world that had been previously corrupted by the fallen Sefirot. The male and female Adam were, even though they came out of the rectified world of emanation, the worlds below were already created in the image of the fallen Sefirot, so they were vulnerable, and we see that the male and female Adam that were placed in the world below, even though they were brought forth by the rectified world of emanation, they had inherited or they came in contact with the weaknesses of the world of points and repeated the same sin, instead of looking up to the world of emanation, to the one that was higher than them, they thought or decided that they wanted to be the head and they went looking in the world below. They went looking to see who they would be god over, and they were captured, the male and female Adam went into the lower world looking to see who they could be god over, and they became captured by the corrupt forces of the world of points that were already in the lower world. Is everybody following me? Those forces of the world of points that captured the male and female Adam, captured the reproductive power of God to bring forth humanity in this world.

That is, the female Adam that was captured by the forces of the world of points, who were the broken forces of the world of points in this world, she became the harlot of Revelation that we read about, and if the Lord ever lets me do it, I would love to go over those chapters with you. This world could not exist without Adam, Adam was captured by the, we call them the Serpent, the fallen forces of the world of points, because she was needed to bring this world into existence.

Adam Kadmon, He is in the form of the Lord Jesus Christ, He is descending into this world to join Himself to us to give us a double portion of power to make us strong enough to overcome the fallen entities of the world of points which captured the woman and are using her life force to bring this world, but to sustain this world. We have work to do, He is descending into us to rescue Adam in all of the life force of God, which we are calling Adam in all of humanity, wherever that life force is.

It is way beyond the salvation of the individual, God wants back all of the energy that belongs to Himself. It is, I am going to end with this, I am going to end this session with this, it is, what we are involved in is the rectification, the correction of the error of the world of points. It is thousands and thousands of years after the fall that was corrected, the fall was not from the world of creation where the atoms were, the fall came from a higher world than that. What happened when the atoms fell? They were just repeating the sin of the higher world which was vibrating downward, and we today continued to repeat the sin of that higher world until the Lord Jesus Christ gets here to bring the rectification to this world as well as the world of emanation.

That is what is going on here, that is it in a nutshell, it is way beyond us, it is way beyond the individual. What is going on in our world today, is cosmic, it just goes all of the way back to the roots of the creation which are higher than the garden where the atoms are.

Brethren, we are going through these notes, which I think will take us to the end of this meeting and then if the Lord lets me, in the next meeting, I want to literally go through the book, this book The Palace of Adam Kadmon, and based on everything that I have taught in this meeting, speak about part 3 which is what you have on your notes. What we have been talking about and what we are going to talk about now are the foundational principles that you would need to understand what is in these few pages, it is just seven pages of this book. It is very, very exciting. Let us start reading at the top of page 1.

Michael, the seed of Jehovah's seminal fluid was grafted to Jacob. I have made so many changes, the issue that we are dealing with brethren, that brought this whole teaching to pass is because there had to be more than the male Adam that was grafted to Jacob's genome which is what I taught you on the last message that I am teaching. What I told you before the first part of this meeting, is for the purpose of the Lord explaining to us what was imparted to Jacob, and whatever that seed that was imparted to Jacob, if you have the grafted seed of the Lord Jesus Christ, you have it. Let us go forward with my notes here.

The seed was a new seed from the Shekinah or the Shekinah, the Malkhut of Adam Kadmon and I told you that earlier, the first seed that came forth from the Malkhut of Adam Kadmon brought forth the world of points, ten Sefirot, and they were female Sefirot because they came forth from the female, the reconfigured world of points came forth from the coupling of the male and the female of the world of Adam Kadmon. I want to suggest to you brethren that I believe from all of the studies that the Lord has given me, that those of us that have the mind of Christ, that mind of Christ is the reconfigured world of emanation.

I have been asking the Lord for a long time where are we, where does Christ raise us up to, and I believe that we have our answer. If you have the mind of Christ, now you have to be living out of the mind of Christ, but we have access to the reconfigured world of emanation, that is what the mind of Christ is, and that the world of points that still exists today in this world is what we call the carnal mind.

I give you a reference, now this is going to challenge your spirituality here, it has stumped me for quite a while. I just made a spiritual statement, I said the new seed, and the new seed is the ten Sefirot that came forth which is the reconfigured world of emanation, was a new seed from Shekinah, and I give you a reference saying Genesis 4:25;

GENESIS 4:25

25. And Adam knew his wife again, and she bear a son and called his name Seth, for God said she, hath appointed me another seed instead of Abel whom Cain slew. KJV

The carnal mind says, What in the world does that have to do with the world of emanation. This is the Scripture that indicates the way the spiritual event that I just described to you that the Malkhut of Adam Kadmon brought forth a second seed which was now the result of coupling with the male, that same event has to play itself out on every world below, and the way that event played out in this world of action was;

GENESIS 4:25

25. And Adam knew his wife again, and she bear a son and called his name Seth, for God said she, hath appointed me another seed instead of Abel whom Cain slew. KJV

Up in the world of Adam Kadmon, the male and the female are coupling and down here in this world Adam and his wife are coupling, and in the world above, a new world of emanation came forth and in this world, **and she bear a son and called his name Seth, for God said she, hath appointed me another seed instead of Abel.** And the Malkhut of Adam Kadmon is saying, And God has granted me another seed, a reconfigured world of emanation. Can you hear this? Towards the bottom of page 1, the Shekinah's seed entered into the world of emanation as ten individual Sefirot, so I have told you that. The ten individual Sefirot of the world of emanation are called the world of points, this is all review now. Forgiveness came forth instantly after the fall of the world of points because the world of Adam Kadmon is either beyond time, and the world of emanation is very close to that world. We see the change came forth, the reconfiguration came forth within an hour.

The Yesod of Adam Kadmon coupled with Malkhut to bring forth the reconfigured world of emanation which includes the name YHVH, we call that the Tetragrammaton, those are 4 Hebrew letters YHVH, those are the letters that form the word Jehovah, and Jehovah is a central point, Jehovah is the name of God that is associated with the Sefirot Binah who is intricately involved in bringing forth creation in the worlds below. This is talking about the reconfigured world of emanation. In the reconfigured world of emanation we see the name Jehovah, it is appearing in the reconfigured holy world of emanation.

You may recall that it is Jehovah that put the male Adam and the female Adam into the garden. This new reconfigured world of emanation is involved in bringing forth the worlds below, and they are part of the assignment to Adam Kadmon of bringing forth a visible world which will reveal the Ayn Sof, He wants His nature revealed. I do not know if the world of emanation is beyond time, I am thinking though that even if time does touch the world of emanation, it touches it in a different way than time touches us down here in the world of action. We have already talked about that. Because of this, repentance came forth very fast, very close to what we would call instantly. We are saying one hour. Even after repentance, now this is really important, I know that I have mentioned it not a lot, but

I know this principle came forth over the last months, even after repentance and forgiveness are fully accomplished, we must still deal with the fallout of the consequences of the sin. If you murder somebody, you can repent, repentance is an attitude of heart, you can repent and be forgiven, but you still have to pay the consequences of the crime.

If you are in a society like this, you go to jail, or you are executed. If you steal and you repent of stealing, you are forgiven, you are absolutely forgiven, but you will have to pay the consequences, you will have to return what you stole and five times more than that. That is what the Scripture says, 4 or 5 times more than that. The world of emanation is instantly or at least within one hour reconfigured, and YHVH, the name of God associated with Binah appears to bring forth the three worlds below, the worlds of creation, Beriah, the astral plane, the world of formation, Yetzirah, and this world, this world of action that we live in.

The Malkhut of Binah brings forth the male and female Adam and YHVH, the name of God associated with Binah, places them in Beriah, the world below. The waves of repercussion which resulted from the fall of the world of points must play themselves out in the three world below. In other words, even though the world of emanation has been reconfigured and standing by the power of the Yesod, Malkhut of Adam Kadmon, and the sparks of their life that are, well this is technical, I am not going to go into that with you this time. Going to the last sentence of that paragraph, the impetus of the sin of the world of points is still vibrating in the lower worlds. I told you before, the affect of the sins of the world of emanation, of the Sefirot of the world of emanation, were present in the very existence of the world of creation that the two Adams were placed into, they were placed into a corrupted world.

Wherefore the Yesod of Adam Kadmon is in the process of reconfiguring the lower three worlds starting here in the world of action. Why is He starting with the world of action? Because the world of action contains the other two worlds within it. The other two worlds are invisible worlds, the world of Yetzirah, the world of formation, and the world of Beriah, they are all part of the mind of the vessel which we are. The invisible worlds are the mind of us.

We are, the inhabitants of this world are the ox, we are Adam's ox, very humbly brethren, but we have to concentrate on what we will be because of who we are being joined to. Physically speaking, we are Adam's ox. The mind within us is either the mind of the world of points that was corrupted and fell which we call the carnal mind, or the mind of the reconfigured world of emanation which is reaching down to this world through the work of the Lord Jesus Christ 2,000 years ago. We have both worlds in us, and both worlds cannot continue to exist. One world will live and the other must die. The people, the inhabitants of this world that do not have the reconfigured world of emanation, all they have is their carnal mind, and no matter how fine and moral and ethical these people are, under the right circumstances, they will be corrupt, because they can be nothing else.

The light of Adam Kadmon is in the world of emanation, by the sparks of the light of Malkhut of Adam Kadmon. That means the Malkhut of Adam Kadmon is not, the Malkhut herself has not descended into the world of emanation, she is sent sparks of herself. It is

the same principle as Jesus saying, My words are spirit and my words are life. I am preaching to you now, I am not giving you my soul, but my soul remains with me, but my words are spirit and my words are life, so you are getting sparks of my fire, you might say, but you are not diminishing my fire. That is the principle when the Kabbalists talk about sparks, it means you are getting aspects of the spiritual life of this entity, but what you get is not diminishing the source of it. That is the concept of sparks.

This means that Malkhut of Adam Kadmon stays in her place, but the sparks of her lower 7 Sefirot are hidden within the Keter of the world of emanation. I do not think that is important to the essence of this message, so I either explain it another time, if the Lord lets me, or I will not explain it. The Chokhmah of Adam Kadmon does not descend below the world of emanation, and this is one of the first things that I explained to you. The light of Adam Kadmon is carried into the lower worlds as I showed you with that drawing, it is the lower 7 Sefirot of each world carries that light or the sparks of His light into the lower worlds.

Jehovah carried the light of Adam Kadmon into Beriah in the form of the male and female Adam. The male and female Adam were the fruit of the sparks of the source of the Malkhut of Adam Kadmon that is now in the lower worlds. The place of reception, the garden itself, in the world of Beriah, was already corrupted as a result of the fall of the world of points. Just in case you do not remember, let me refresh what I told you. The world of points, even though they corrupted for years, because I have been teaching this for years, I thought that the pieces just fell and they were gone. They fell mentally, they fell morally, it was a moral fall, and despite that moral fall, they continued on with their assignment to bring forth the worlds below.

The world of points brought forth the worlds below out of moral corruption, and there is a Scripture in Job that I did not quote for you here, where Job says my father was corruption, born of corruption, humanity is born of the corruption of the fallen world of points.

When the reconfigured world of emanation came into existence, and the ten Sefirot in the world of emanation or the lowest Sefirah in the world of emanation brought forth the inhabitants of the world below, and the inhabitants of the world of creation, or the world below are out of the two Adams, the male Adam and the female Adam. The world of emanation brought forth the inhabitants of the world below, the male and female Adam, the inhabitants of the world of emanation are the ten Sefirot of the Malkhut of Adam Kadmon, they were all, each of the ten of them was a superior spiritual being, I have no way to describe them to you.

By the time we get to the world of creation, we can somehow relate to the inhabitants of the world of creation. We are told they are the male and female Adam and they are that much more closer to our humanity, we see the woman being tempted by the Serpent, so of course that is a parable, I hope, I assume you all know that, so we can somewhat relate to woman in the world of creation, but I do not know how to relate to beings in the world above, they are too high for me.

I guess all of this is a review, it is amazing how all of this came out without looking at my notes. The sin of the world of points was pride. Each of the Sefirot of the world of points was supposed to look up to the Sefirot above to receive light, and then turn downward and deposit what they did not use with the Sefirot below, but all of the Sefirot of the world of points wanted to be the head, they wanted to be the giver, but they were not willing to submit themselves to the Sefirot who were greater than they to be filled.

What is interesting is that, some of the Kabbalists that I have written, and I even preached a couple of messages on this a long time ago, they refer to a concept called the bread of shame, the bread of shame, and now first of all you have to realize that all of the Kabbalists that I have read, as far as I know it is all of them, they loathe to impute sin to anybody in the Scripture, they do not like to impute sin, but they talk about a shame, they talk about a shame, in other words, the kind of shame that we used to see manifested in this world.

If a person with a godly pride had to take welfare, it was a shame to take welfare, but if his family was hungry, he took it because he did not have food for his family, that kind of shame. I read at least two Kabbalists that write about the bread of shame, that they impute to these primeval beings, but they make it a holy thing, a godly shame, but I do not see it, I think it was an ungodly shame, the shame being that they did not want to look up to be fed by the Sefirot above.

That was God's provision to look up and be fed. I keep seeing this mother bird putting worms in the baby bird's mouth. They were ashamed to do it because their pride wanted them to be the head. It was an ungodly thing and it resulted in their destruction. The Kabbalists that write about the shame, they make it a godly thing, but it is not.

All of the Sefirot of the world of points wanted to be the head, and they wanted to be the giver, but they were not willing to submit themselves to the Sefirot who were greater than they to be filled.

The Sefirot of the world of points were all turned downward so that they could be the head of the Sefirot below. Brethren, we see this in the church today. We see this in life today, in ministries and families that this is very common that the pride in the believer or in the family, it happens mostly in the church, and I think in a family you pretty much know that you are the head of the family, but within the church, we find a lot of people that they just want to be the head and they are not looking up to see if God really placed somebody over them.

Eventually they broke, these are the ten Sefirot of the world of emanation, they broke into pieces because of this malfunction and the light within them fell down and became the water world of Yetzirah that we call the astral plane. The pieces of the broken Sefirot also fell down and became the unholy Sefirot that formed the image that now rules over the lower worlds. I will not read these Scriptures again of Daniel 2:31-35, but this is a description of our carnal mind, and it talks about the gold and the silver and the brass, it is talking about the different qualities of our carnal mind, there is an unconscious part, a subconscious part, and a conscious part, that is what it is talking about, the carnal mind,

the iron, the clay, the brass, the silver, and the gold. The gold would be the unconscious, the silver would be the subconscious, the brass would be, the clay would be the human body, that is just my guess off the top of my head, I guess the brass would be the conscious mind, this is just my guess off the top of my head, and the clay would be the human body, and the iron would be possibly the personality, the iron, will, personality in the body.

The bottom of that page, the two Adams in the world of Beriah reflected the sins of the world of points, even though they were generated by the rectified world of points, because they were placed in a world that was configured by the morally fallen, I think I just said that wrong, even though Adam, the two Adams were created or came into existence through the reconfigured world of emanation, and they were holy, they were placed into the world of creation which was brought forth by the morally corrupt world of points. They had a mixture, just like we have a mixture today, the two Adams had a mixture, they were influenced by both good and evil.

They were corrupted, the two Adams in the world of Beriah reflected the sins of the world of points, both refused to look up to the one above for sustenance and satisfaction. We read about the female Adam looking down towards the Serpent instead of looking up, but we do not read about the male Adam looking down instead of looking up, but apparently he did because both Adams fell, they fell into the water world which as I told earlier is the basis of the myth of narcissus. The female Adam was closest to the world below, so it was she who initially started to sojourn into Yetzirah, the water world below, seeking out the inhabitants there, so that she could be a god to them.

Brethren, if you know anything about the demons in the astral plane today, they want to be god to the human beings of this world, they speak to the human beings of this world or they appear to them, a lot of them call themselves Jesus, and the ones that do not call themselves Jesus want offerings, they want, they will do favors for the human beings and then they want worship, they want worship. The Scriptural reference that I have for that is Genesis 6:2 which says;

GENESIS 6:2

2. The sons of God saw the daughters of men that they were fair, and they took them wives of all they chose. KJV

This came forth by the spirit of revelation in Sunday's message, that those sons of God were the fallen Adams, and not only the fallen male and female Adam, but the male and female Adam each had ten Sefirot of their own. We see that there were ten Sefirot of the male Adam and ten Sefirot of the female Adam, and they were all down in this lower world seeking to be God to the inhabitants of the lower world, but what they did not know, and what they did not understand was that the inhabitants of the lower world were not spiritually lower than them because this was the residue of the energy that fell out of the

world of points, so it was high, let us just say high angels fell all of the way down to a low place.

Brethren, this is my beautiful art work here. On the left side of the board, the world of points, that is the original first ten Sefirot that came down that corrupted, even though they were morally corrupted and morally broken, they still performed their function. It is the same principle as me telling you or teaching you that Adam died to his immortality, but he did not cease to exist. Abel was killed by Cain and under the ground but still crying out from under the ground. The ten Sefirot of the world of emanation broke into pieces, they were morally broken, but they still existed, and they continued to descend into the, to bring forth the lower worlds, and the lower worlds that they brought forth were corrupted because they were morally corrupted. On the left side of the board I am showing you that the world of points brought forth the world of creation, also called the world of Beriah, and underneath that the energy that was in the vessels that broke formed the water world of formation, we call it the astral plane.

The Kabbalists call it the world of formation, this is the first world where forms began to take place, and I have drawn that world in blue, and this says, the energy from the broken Sefirot form this water world, and then down here beneath that, we have the world of action, which is our world. On the right side of the board, I have done my best, I have used my best artistic abilities to try to show you that the reconfigured world of emanation, that is the world where Jehovah is, brought forth the man and the woman in the world of creation, the Hebrew word is Beriah, the world of Beriah, and that both the man and the woman, it looks like the woman did it first, but that is not important for this study, these symbols are showing you that the woman looked down into the water world, the man looked down, this was supposed to be the back of their heads, I am sorry, if you could not figure that out, that is what this is.

Both the man and the woman looked down into the world below, and we read the Scripture about Dinah going out and seeking, or looking for the inhabitants of the land. What happened to Dinah when she was captured and violated by Shechem, was a playing out in the lower worlds of what had happened in the higher world. Everything has to happen in all of the worlds. We may not be able to understand so much what is happening in spiritual worlds, but if we could see what is happening in this world and the Lord helps us, we might be able to understand what happened in the spiritual world. Dinah went out to see the inhabitants of the land, and she was captured and violated, and this is what the Lord told me, you could believe it or not believe it, this is what He told me, the man and the woman of the world of Beriah that had been put in a garden that Jehovah, you know the reconfigured Sefirot of the world of emanation did their job, but the world of points had already created the world of Beriah which had in its very fiber, the moral corruption of the fallen ten Sefirot of the world of points.

The man and woman which were good, were put into a corrupted land, and they had the same tendencies as the Sefirot of the world of points, instead of looking up to Jehovah who put them in the garden, they were looking down into the water world below seeking out the inhabitants of the land, to see who they could be a god to, and they fell into the water, and this is the foundation of the myth of Narcissus. We went over some of these

myths and I think it was last week that we went over them, and we went over the Roman myth and the Greek myth, and there were several myths from several different ancient nations, and most of them seemed to say that Narcissus which would be talking about Adam, found Himself, looked in the water and found Himself so beautiful that he fell in. That is the way the myth goes, but what the Lord has told me is that what Adam saw in the world below were the inhabitants of this water world, that were formed from the broken Sefirot of the world of points, that were down here in this water world.

This is the reason I put this on the board, Adam just assumed that the inhabitants of the world below were weaker than they, because the inhabitants of the higher world, you would expect to be stronger than the inhabitants of the lower world. What they did not know was that this energy, because this was not water like flowing out of our water tap, this was water, energy, spiritual water, what they did not know was that even though this world of Yetzirah also the world of formation was below them, the source of the energy here came from a higher world, it came from the world of points. Even though the water was below them, it came from an authority that was higher than them, and that was the trap, they thought that they had the power, they thought they were in control because they assumed that what was beneath them was weaker than they were, but what was beneath them was stronger than they were, because even though it was beneath them, it had fallen from a higher world. Did I make that clear, you got that?

They looked in the water, they were seeking out the inhabitants of the land, they wanted to be God, and they found the daughters of Adam, however it is phrased like that, I have not looked at it in the Interlinear Text, and they took of them as many wives as they chose, those were the female aspects of this water world. This water world had ten Sefirot like all of the other worlds. Adam must have gotten a hold of the Malkhut, the females of the water world and married them, but there males there too.

There was a Chokmah, father, Binah, mother, all of these higher Sefirot were also present in this water world, and while the two Adams were down here swimming around in the world beneath them doing what they should not have been doing, drunk with power as we found out from some of the other previous messages that we brought forth, they were drunk with power, they were looking for power, they were corrupted with a lust for power.

We had two witnesses to that in a previous message. Adam was down in a lower world where they should not have been, because they were supposed to stay up in their own world, and be bringing forth the world below, be bringing forth the inhabitants of the world below, they were not supposed to be going down there looking to be god to them. While they were down there doing what they were not supposed to be doing, with the women, they were overtaken by the men, and is that not what happened to the nation of the prince that violated Dinah? The Scripture says Dinah went out to look at the inhabitants of the land, that Shechem the prince of the land captured her, violated her, fell in love with her, and wanted to marry her. He spoke to Jacob and her brothers, and said, I want to marry your daughter and your sister, and apparently Simeon and Levi said to Shechem, they said, We want to marry your daughter, we want to be brothers with you, we want to do business with you, we want a good relationship with you, so Levi and Simeon said to

Shechem, Okay, but you all have to be circumcised, all of the men of your nation have to be circumcised. What does that mean? They converted, they converted to Judaism, so while the men were circumcised, and adult male circumcision is a very serious operation, and it makes the man very weak, while the men were all recovering from circumcision, Levi and Simeon killed them all. Can you not see that, the same thing is happening out here? The two Adams went looking for the inhabitants of the water world, they raped the females down there, then the males of that world came and they raped the females down there and they said to the male of that world, we want to be friends with you or we want to be your god also, and the males of the water world made some kind of a covenant with them, with the Adams, that made them temporarily weak at which point the males of the water world captured or killed for all intents and purposes Adam. Can you follow what I just said? Anybody need me to say that again.

This is what I have written here, the energy from the fallen world of points came from a higher world than where Adam were from, even though this higher energy was underneath the world of Beriah where Adam came from. You cannot always believe what you see. Somebody may look weak to you, but you may find out in a painful way, that they are not weak. That is the Genesis of the fall, the two Adams turned evil, and they were following the footprints of the world of points because they were influenced by the world of points and we down in this world here, we are still influenced by the world of points. Adam Kadmon from the highest world, He is the most ancient being that was created that we read about in Genesis, He is one world at a time rectifying those worlds, He has already rectified the world of points and it is now called, I call it the mind of Christ, but it is the reconfigured world of emanation, and the Sefirot are in a different relationship with each other, that is not today's message, and it is now a holy world.

This is all about mind brethren, this is all about high spiritual principles that were given an assignment to bring forth a creation down in this lowest world here where we are, and the outer man, we are to be an earthen creature and the inner man, was to be a mind through which the essence of the highest world which is Adam Kadmon could flow. This creation is designed for the lowest world to be the holding tank you might say of all of the elements of the creation, from the highest aspect, most spiritual, most ancient aspect, down to the newly formed creation of God. Jesus said, I am the beginning of the creation of God.

It is all to come together down here in the visible world. Something went wrong, at the beginning, something went wrong, and that error vibrated and flowed down to the lowest world, and in the same manner the correction is starting in the highest world, and flowing down to the lowest world. On the one hand this sounds like a wonderful message, except that it is not that simple for us the inhabitants of the land because people are getting hurt. There are wars, people are getting killed, terrible things are happening, but the truth is the truth. We have to do what we have to do to survive in this world until salvation comes, and it is possible to be protected through a relationship with the creator who we know to be the Lord Jesus Christ.

There are just terrible things happening in the world. All that we can do is cry out to God and serve Him, the safest place you can be is in His service, and we wait for the salvation or the correction that came to the world of emanation, to vibrate down to this world. The

Lord is not into punishing anybody brethren, He does it when it is necessary, He does not like to do it, He does not want to do it, His ultimate goal is the rectification of all the worlds that we should be where He is, we should experience what He is experiencing, we should have a safe presence in all of the worlds. Our mind should be, I do not know if we will ever ascend into the world of Adam Kadmon but our mind should at least ascend to the world of emanation, where we will be brilliant, we should have a body down in this world that will be healthy and inviolable and immortal, and that we will enter into eternal age of service to God. We do not even know what we will be doing in that age, but it will be good.

This is God's plan for us, and I am believing that it is going to manifest in this world before ultimate destruction falls. I told you at the beginning of this message, all you have to do is open your eyes, look at the maneuvering of all of the power forces of this world, this maneuvering, all of the maneuvers all over the world, maneuvers for power, as a vacuum is created as the United States falls, just like the Sefirot of the world of points fell.

This glory of God, first it happened to Britain, and now it is happening here. This glorious nation falling so we can look at it and we can cry or we can look towards the future that must come, the reconfiguration, the restoration of Great Britain, which is Ephraim, and the restoration of this country which is Manasseh, and through us the restoration of the whole world, that is the order. That is the order, for someone that does not like it I am sorry, I did not set it. God chose a people for Himself, the name of that nation is Israel, He said, You are the people that I am going to put myself in so that I can be revealed to the rest of the world.

Israel is the mediator nation, I did not decide it. It is not a politically correct message, I did not decide it, but salvation is for the world. The beneficence of God is for the world. The only people who are going to be upset by what I am preaching are the Sefirot in this world, the human beings in this world that are filled with pride, that do not want to look to Israel to be fed. Those are the only people that are going to be upset by what I am saying, because salvation is for the world, for all mankind. Any questions about this board?

COMMENT: When the two Adams fell into the world of formation, the energy in that world, could it have been an illusion that it was energy, more than what they had?

PASTOR VITALE: Let me tell you what I have so far, and you tell if it is right. I believe that you asked me if the energy of the water world could have been an illusion, and I was about to answer and you say, No, it was not an illusion, it was the water that came from the world above them, but then you said something else, now I even forgot what you said, was that the whole thing or was there something beyond that? Was it an illusion that seduced them downward? I do not know. I mean of course the Lord could correct me tomorrow, but this is what I heard from Him, yesterday. No, it was the energy that fell down from the higher worlds. I think that if the vessels of the world of points had not broken, that energy was supposed to stay above, and that each world coming down lower was supposed to be weaker and weaker, and the plan was, this is important so let me review this for you, each world below is supposed to be weaker and weaker, and the lowest world where we are should be the weakest, but that would not be the end of it. After the tower, and I am calling it a tower, if you look at that drawing that I showed you,

it is a tower, the highest world to the lowest world formed a tower, the wisdom from Adam Kadmon which is His Chokhmah, the Chokhmah of Adam Kadmon, His wisdom was supposed to descend in a line, in a thin line, from the highest place in Adam Kadmon all of the way down into our world actually inside of us.

Even though we would be the weakest world down here, we would be strong. Another way to say it is when the marriage came, when Adam Kadmon Himself descended into our weakness which is pretty much our condition right now, compared to the worlds above us, and even the powers of this world, those of us that are just average people, we are very weak.

We are waiting for the most powerful one, the wisdom, the almost highest Sefirah of Adam Kadmon to descend through this whole tower that has been built, and make those of us that are the weakest, the strongest. Is that not the Scripture? Those that are weak will be strong, right? Through the marriage, through the marriage. Anybody else?

COMMENT: I think you mentioned that 10th Sefirot was the one that fell first from Adam Kadmon, and you said the other 9 was attached to the Father.

PASTOR VITALE: I do not remember saying anything like that, but you may have heard it in another message, it was the lower 7 that fell, but I did not talk about that today, but you must be recalling it from my previous message. The lower 7 Sefirot of the world of emanation fell, and the upper 3, I am not sure whether they clung to the world above or not, I am not sure. Is that what you wanted to know, Xxxx?

COMMENT: There were ten Sefirot that fell right, there were ten that fell?

PASTOR VITALE: 7.

COMMENT: 7, oh okay, then I am wrong, I thought you said 10 fell and then there were 9.

PASTOR VITALE: I am sorry, if I said that I was mistaken, the lower 7 fell. Yes I am glad you said that because we will be getting, eventually we are getting to the place where we will talk about those 7 who fell. Brethren, let us just get to it when we get to it. I do not have any page numbers on these pages, so we just past the place where we read Genesis 6:2, and then I read the paragraph that led to this drawing, I will read it again. I do not know how this manifested between Adam a light being, and the females of Yetzirah, the water world, but the Scripture says that all of the 7 Sefirot of the male Adam and the 7 Sefirot of the female Adam found the inhabitants of the water world below weaker than they, and they took the females of the inhabitants for wives. The offspring of these unions produced the giants that were in the earth, the world of action in those days.

Genesis 6:4-5.

4. There were giants in the earth in those days, and also after that, when the sons of God came in unto the daughters of men, and they bear children to them, the same became mighty men which were of old, men of renown.

5. And God saw the wickedness of man was great in the earth, and that every imagination of the thoughts of his heart was only evil continually. KJV

We see the moral corruption that began with the world of points eventually manifested in the earth in the world of action, as the giants called the Nephelium. I do not know what they looked like physically, they probably looked gigantic physically, but they were spiritual giants. You are gigantic physically because your mind is a giant, they were spiritual giants.

Both Yetzirah and Asiyah were corrupted. The water world and this earthen world where we are, they were both corrupted, so the corruption that started in the world of emanation, that was where it began, it began in the world of emanation, the Kabbalists say, this is where the impurities began, in the world of emanation, that it reproduced itself as that sin, that corruption vibrated down and corrupted all of the three worlds underneath. Sin is contagious brethren, you have to defend yourself against it, it is catching, sin is catching, it pollutes everything that it can get its hands on.

Both Yetzirah and Asiyah were corrupted and Beriah was a wasteland because the two Adams had fallen into Yetzirah and taken up residence there. Beriah was a wasteland. These occult movies on tv never cease to amaze me, that series the Charmed Ones, they talked about the wasteland, I no idea there was anything like a spiritual wasteland in true spiritual philosophy, and yet, there they are talking about a wasteland, and even at the time, the thought occurred to me wasteland, I wonder what that could be?

The world of creation became a wasteland because the inhabitants of the world of creation fell down into the water world below, and the world of creation was uninhabited, and uninhabited wasteland.

It makes me wonder when someone like John the Baptist came out of the wilderness, if that does not mean that he was spiritually in that world of Beriah, because of his union with his God. Of course the Lord wants to restore the world of creation, that is the place that is broken down, that is the old waste place that is broken down. That is your Scripture right? All of this brethren is happening in us, it is happening in the world as a whole and it is happening in each individual of us. As I was reading the book that brought this forth, the chapter in The Palace Of Adam Kadmon, which hopefully will go through on Sunday, I could actually see some of the things that had taken place and I recognized that they had taken place in me as Christ Jesus is being built in me, you could say that. This is all about us.

It is true that it is about the world, but as far as we are concerned, it is about us, about our future development. We are out of childhood, so we are not developing physically anymore, but we are developing spiritually, and it is our spiritual development that will determine whether or not we stay in this world and enter into longevity or pass out of this world and have to start all over again, with another rebirth. These are very exciting times brethren, I hope that we all can enter into longevity and partake, and I think it is coming very soon, I think everyone of us has an excellent chance.

The reason we have an excellent chance is that the Lord wants us to enter in, He wants us to enter in, He spent your whole lifetime preparing you to be a vessel that can tolerate Him when He enters into you, He does not want to lose you, He wants you all to live, He is doing everything He can to keep you alive. I remember when I did not have this message but when I came out of the hospital after being there for 3 months, in 1991, and it was very strange, it was a very strange feeling to come home because to be in the hospital for 3 months, it was like being institutionalized, and when I walked into my house, it was a very strange feeling and I just sat down at the table, I use to preach at a little white round table at that time, and I sat down at the chair, and I heard a lion roar, and my whole back stiffened up and I just knew that Christ in me was saying, I have prevailed, He kept me alive, He kept my body alive, so that He could go on with this work instead of having to start all over again with somebody else.

It is possible, if I am, as far as I know I am the only one teaching this, of course the Kabbalists teach it, but not with this kind of understanding, so again no glory to me, but if I was the vessel that was chosen to do this and it was a plan that was planned for a long time, if Christ had failed to keep me alive, it could have meant that if He could not raise up somebody else by this time which He might not have been able to do, that the world would have been destroyed one more time, and He would have had to start all over again.

He sat in that chair, and I heard that lion roar, and He said, I kept her alive, it was great victory. Then He said to me, The winter is over, in other words, the hardest part is over. Beriah being a wasteland, there was no one, no Adam to carry the light of Adam Kadmon from the world of emanation, to the lower worlds. Can you all see that? With the world of Beriah being empty, there were no inhabitants in the world of Beriah, there was no one to carry the light to the lower worlds. Remember I told you that, I showed you the picture, I showed you the picture that it attached to your notes, and I said that the light only goes, the actual light of the Adam Kadmon, of Malkhut of Adam Kadmon, only goes as far as the world of emanation, and then after that, it is the lower 7 Sefirot of that world carry the light to the next lower world, and then the 7 lower Sefirot of that world carry the light to the lower world. The light is carried into all of the lower worlds, it is not actually the essence or the light of Adam Kadmon Himself, someone is carrying the sparks of his life. He remains in this high place where He is.

Years ago there was someone who was preaching that Jesus Christ emptied Himself into His church, and there is no one in heaven anymore, everything is down here in the earth, all of these crazy doctrines, all of these crazy doctrines that were preached. One more time, so now Beriah being a wasteland, there was no one, no Adam to carry the light of Adam Kadmon from the world of emanation to the lower worlds. Then something went

wrong, even more wrong than that. Suddenly, the two Adams were overtaken by the male forces of Yetzirah. They did not see the Serpent who was stronger than they, the two Adams, they did not, so I am saying that these male forces came in the personality of the Serpent. The two Adams, they did not see the Serpent who was stronger than they coming, because they were looking down on those who were weaker than they, rather than looking up.

You say in the book of Genesis I see the Serpent talking to the woman, well the Serpent had ten Sefirot also. Some lower aspect of the Serpent, the females, the females that the two Adams, the two Adams went looking for the inhabitants of the land and they found a Serpent, and they had a conversation with the Serpent, that was talking to them about the tree and the knowledge and all of that, and while they were talking to the females, the male came and captured them. That is just a parable of course to give you the general idea of what happened.

Remember Gideon's army, that Jehovah told Gideon, You keep the soldiers that are drinking the water but never take their eyes off of the enemy. The people, the soldiers that looked down, they are no good for your army. Do you remember that? That is what Jehovah said to Gideon, the soldiers that look down, no good for your army, so look at how it fits right into this message. You not only have to be looking out ahead of you, you have to be looking up, you have to be seeing who is coming from all directions.

It is interesting because that is what is going on in our government today, there is one broadcaster or opinion person who says all of the time, whenever there is something big in the news, look at what the left hand is doing, they send out all of this diversion because we have some very wicked ungodly people in our government today, the corruption has touched the government of the country that God raised up. When the news is filled with something like swine flu pandemic which never came to pass, watch what they are doing while your eyes on the swine flu pandemic. Watch all of the ungodly legislation that they are pushing through when you are not looking. Do not follow the crowd.

The male forces of Yetzirah married the female Adam, the male forces of Yetzirah married the female Adam who was already joined to the female of Yetzirah, and they produced a compound seed, and this compound seed is called Cain. This creation could not be in existence, the Serpent could not have brought this creation into existence if Adam was not captured. To be honest, I am going to be perfectly honest with you at this point, I do not know the difference, whether this is Abel or Adam right here, and I am just trying to make a spiritual point to you, so please forgive me, you know if that is confusing you, I do not have the difference right now, maybe there is a step that I missed in the descent, I am not sure.

We know that Cain is the Serpent's seed, and the Serpent seed I already preached to you was born out of the union of the Serpent and the female Adam, I have already told you that. This is how it came into existence. The male Adam separated from the female Adam, appeared in this lower world as Abel, and that, I struggled with that and I got that just before I finished up these notes. Again brethren, if there is any corrections, I will tell

you, do not get hung up on these little details, I am giving you profound spiritual principles, if I have some of the worlds wrong, the Lord will fix it up.

This is what I am suggesting to you, the male Adam who became just as evil as the woman, is appearing in this lower world as Abel, and Cain is the captured female Adam who is married to the Serpent, and that is the compound seed. You can see that Cain had no problem killing Abel, to the degree that I have this accurate, Abel is the male Adam who fell into the lower world. Cain is the female Adam who fell into the lower world who married the Serpent. We see that Cain had no problem killing Abel. Does anybody not understand what I just said?

The female Adam now joined to the Serpent's image became the harlot of Revelation. The female Adam, what is the Serpent's image? The female Adam is now joined to the whole ten Sefirot of the Serpent, and captured just like Binah was captured, and just like Neo when the Matrix was captured, she has been captured and plugged into the power plant of the image that we read about in the book of Daniel. Is it not exciting how this revelation pulls Scriptures from all over the Bible and puts it together? This is really, really exciting. Adam Kadmon's feet were to be standing in Asiyah, we talked about this already, this is review, the world of action, we are His feet company and anybody know the preacher that got this first revelation, anybody know the name of the preacher who got this revelation that the church was the feet of the Lord Jesus Christ? This is Bill Britton's revelation, he was the first one to bring this forth, that the church is the foot company.

Adam Kadmon's feet were to be standing in Asiyah, the world of action, they were cut off from Adam Kadmon's body in the world of emanation because, so the Sefirot of the world of emanation are the body of Adam Kadmon in the lower world, and they were cut off because the connecting worlds had died. Everybody okay? So this is like something you would see in a cartoon, its feet down here and its body is up here, and did you ever see one of those cartoons, they are cut or something and you see the two pieces?

When the Serpent overtook the two Adams, they were forced down under the forebrain of the individual. We have had several messages with these brains, and for some reason at the moment, I cannot remember whether the place where Abel is the cerebellum, the cerebellum does anybody remember? That lower brain, God has to help me, all of these words, nobody remembers? Okay.

The Serpent overtook the two Adams, and they were forced down under the forebrain, there is a forebrain, there is a midbrain, and I guess there is a lower brain, and we have had several messages on this, that Abel and Cain are appearing as this lower brain, it is the cerebrum or the cerebellum, the one that is underneath, and Cain is lying on top of Abel, and that area of the brain is pushed to back. Abel, now I am saying Abel now because I brought forth the teaching on the brain under the name Abel, and I am confusing Abel and Adam right now, because I do not have the revelation of how to separate them, so please flow with me and stay with me in principles. Abel who is in this back part of the brain which is the cerebellum, and the cerebrum, he has to move from the back here, the back of the neck into the brainstem, because this is where the two olives are, the two olives are in the brainstem, and when Abel puts his feet on the

brainstem he is going to be directly in line with the crown energy center that the Lord Jesus Christ is coming through to reconnect Himself to his feet, and if Abel does not get from the back of the neck through the seed that is formed within the body by the spinal fluid in the 4th ventricle, even if the Lord Jesus Christ descends into that person, there will be nothing for Him to connect to if Abel in that person has not been able to move onto the place designated by the two olives in the brainstem. Is everybody with me? Okay.

Can you imagine a stranger to this message coming in on this message? Can you imagine? You are all very smart, we are all very smart for what the Lord has taught us. In other words, the feet of Adam Kadmon were west of where they needed to be when Adam Kadmon descends into Asiyah to connect Himself to Asiyah through the inhabitants, you could see how fast I was typing there, whoever is listening for my words, I should do a spell check, in other words the feet of Adam Kadmon were west of where they needed to be when Adam descended into Asiyah to connect Himself to Asiyah through the inhabitants of this world who we are, who are His feet.

We have more than one identity. Down in this world, we are Adam's ox. The mind of Christ in us is the world of emanation. The foot company which we are is Abel in us who is buried under the fore and the midbrain. All of these elements that we are talking about for 2 or 3 hours now, they are all inside of us. We are what is called the microcosm, the universe is the macrocosm, everything you see out there is reproduced inside of us, just like an apple pit under the right conditions can reproduce the whole apple tree. We are the microcosm, everything that is out there, everything that we learn about, every spiritual thing that we learn about, it is inside of us, and we have the full potential to reproduce the full nature of Adam Kadmon, that is who Messiah is, Adam Kadmon.

Messiah is the primordial Adam, the greatness of the primordial Adam, the most ancient being. He wants to live inside of us, in our innermost point, and He should walk in us and talk in us. He does not want us to be androids, He wants a communication with us, He does not want pulling us on strings like puppets, He wants a communication with us, and He wants to agree with Him, so that all parts of us should be in agreement with the righteousness of God, is manifested through the consciousness of Adam Kadmon, so that we would speak like I am speaking to you now.

I started to talk to you about this in a recent message, saying that there are occult people that are dictated to, by spirit guides and they write it down, they type it up and they publish the book. That is not what I do. The Lord Jesus who is at my innermost point, He influences me or prompts me by giving me thoughts and suggestions, and then I go forth and I do the research and we do it together, because I could not do it without His wisdom, I could not do it if He did not give me this revelation. He gives me the revelation, then I write it down, then I pray about it, and then I say, Lord did I get it right? Did I look up the Scriptures? We are in a partnership. The Lord and I, we are in a partnership, that is what He wants. He does not want someone that is going to be, just doing something like a robot on command.

We are to be a multi-part individual, with all of our parts integrated doing what the heart of the whole person is commanding, or I should say the brain, we have a spiritual brain

that is moving now to pull all parts of ourselves from our outermost being to our innermost being together. Brethren that is the definition of Nephelium, or close to it anyway. A Nephelium, I looked this up once, it is a person whose conscious, subconscious and unconscious parts of his mind are bound together and operating as one mind. Brethren, that is not our condition, most people do not even relate to their unconscious or the subconscious mind at all.

A lot of other people because at this time, the unconscious and subconscious parts of our mind are evil, we are busy resisting our unconscious and subconscious mind. When we have a new mind, when we are reconfigured like the world of emanation was reconfigured, and our unconscious is the Lord Jesus Christ, and our consciousness is of His kingdom, and our subconsciousness is of His kingdom, and those 3 elements, the unconscious, subconscious, and conscious of the mind of emanation in us, of the world of emanation in us, when they are bound together, all operating together as parts of one well-oiled machine, when that mind is control of the physical body, we will be spiritual giants, we will be Nephelium, we will be positive Nephelium, not evil Nephelium, we will be righteous Nephelium. That is what the sons of God are, they are going to be Nephelium, giants in the land, spiritual, mental, moral giants. Let us wind this up.

I think this is the last major point. The Sefirot of the world of points, the Sefirot of the fallen world of points appeared in the world of action as the Dukes of Edom, and I remember when the Lord first brought me into Kabbalah, and I read about these Dukes, and I read that the Kabbalists were saying, that these, it sounds like they were human beings, in the King James it sounds like they are human beings, that these Dukes of Edom were the world of points that fell, I am saying, What are they talking about? I am so excited at all that the Lord has taught me, it has to be about eight years, it is just really exciting that this understanding is coming forth. Let us talk about this last point so that you can all get out of here.

I want to suggest to you that these Dukes that the world of points became are not flesh beings, but that they are Yetziratic beings, they are beings that come from the world of Yetzirah, from the water world, from the astral plane, and they are beings that existed within the human descendants of Esau, just like Christ exists within us, these Dukes were spiritual beings that existed and exists inside of Esau's descendants, and we are told that all of them died except the 8th one. It had to be 8 of them that fell. All died except for the 8th Duke Hadad. This is what the Lord told me, this one that still lives, he is the carnal mind, he is the Serpent's seed in humanity, he is the whole I do not even know if I should be saying the Serpent's seed, he is the Serpent's kingdom in humanity. All of the powers and principalities that rule over this world are the descendants of the world of points that became morally corrupt, and we read about these Dukes of Edom in Genesis 36:31-39;

GENESIS 36:31:39

31. And these are the kings that reigned in the land of Edom, before there reigned any king over the children of Israel.

32. And Bela, the son of Beor, reigned in Edom, and the name of his city was Dinhabah.

33. And Bela died and Jobab, the son of Zerah of Bozrah reigned in his stead.

34. And Jobab died, and Husham of the land of Temani reigned in his stead.

35. And Husham died, and Hadad, the son of Bedad who smote Midian in the field of Moab reigned in his stead. And the name of his city was Avith

36. And Hadad died, and Samlah of Masrekah reigned in his stead.

37. And Samlah died, and Saul of Rehoboth, by the river reigned in his stead.

38. And Saul died, and Baalhanan the son of Achbor reigned in his stead.

39. And Baalhanan the son of Achbor died, and Hadar reigned in his stead, and the name of his city was Pau, and his wife's name was Mehetabel, the daughter of Matred, the daughter of Mezahab. KJV

What is really interesting to me about this, first of all what this is saying is that each one of these Dukes represents one of the Sefirah that fell, that all died and only one has survived in this world, and he has become the Serpent's kingdom which is in the mind of the people, and it says that his wife's name was Mehetabel, the daughter of Matred. One of the occult movies that I watched that fascinated me, The Mists of Avalon, the heroin if you want to call her the heroin, she was the high priestess of wiccan, her name was Matred, I wonder if they got that name from the Bible, who knows maybe it is true, maybe it is true, all of this dry reading that we read about, all of these people, it is all dry, they are all people, they are all human beings that have lives and families and experiences. If we could just know this, it makes the Bible come alive.

It is the descendants of Esau and Hadar, so I gave you the wrong name, it is Hadar that survived, the descendants of Esau and Hadar, the 8th Duke who are the spiritual rulers of this world, and they are evil. What Jacob received, and we are back to Jacob now brethren, remember this whole study was to help us to understand what Jacob received in his dream that has been, that has become a part of his genome, that was passed down to King David, and through King David to Jesus Messiah, and through Jesus, all of the people who have the seed of Christ grafted to them, we are now going to find out, this is a correction, I have told you on previous messages that it was the seed of the male Adam that was grafted to Jacob and the Lord has corrected me, it was much more than the seed

of the male Adam. What he received was the seed of the reconfigured world of emanation which is manifested today in our lives as the mind of Christ.

Jacob received the zygote that came from the coupling of the Yesod and the Malkhut of Adam Kadmon, that work of reconfiguration that restored the world of emanation in one hour, has finally after thousands of years, found its way down to the lowest world 2,000 years ago, the seed of the rectification of the world of emanation that is a part of us arrived. Is that exciting, can you hear what I am saying?

The preparation for it was given to Jacob probably 5,000 years ago, I am not too good on that time there, it traveled in the genome of Jacob all of these years until 2,000 years ago, when that seed which is the result of the coupling of the male and the female of Adam Kadmon, the seed of reconfiguration of the world of emanation, the world of emanation coming from both the male and the female which is the perfect balance of judgment and mercy, it was the born, in a human being 2,000 years ago, and that human being was glorified, which placed him in a position or a condition by which he can now share that seed of the reconfigured world of emanation with any human being in this world that it is grafted to.

Is that the most incredible, incredible, incredible message, but it is not over yet because the seed has to become a full grown man, and the seed that is in the descendants in the Israel of God, the seed that is in the sons of God. We become the feet, we become the possibility of the Chokhmah, the wisdom of Adam Kadmon, the highest to descend into this world, we become the vessels that are now equipped for him to descend into this world an insulated way that will not destroy us or the world, when he descends he is going to be in the very midst of us.

Jesus said, Do not look here or there, or do not look there, it is coming from the east to the west, it is coming within you, behold the kingdom of God is within you, He is descending within us in our innermost point, and He will be insulated by all of the other layers of his life within us, so that He does not destroy us or the world. His feet will rest in this world permanently. Let me tell you this again, we are the Malkhut, the lowest, lowest world, we are the reception, the holding tank where all of the elements of the creation will come together, from the highest wisdom of Adam Kadmon to the ox that belongs to Adam, we are all coming together in this world in people, in people. This is the place, we are an ox, earthen animal vessel can have the wisdom of the most high without being destroyed.

It is an incredible, incredible message brethren, incredible. It is the descendants of Esau in Hadar the 8th duke who are the spiritual rulers of this world, and they are evil. When Jacob received the seed of the reconfigured world of emanation, the zygote that came the Yesod and the Malkhut of Adam Kadmon, the world of points when they are up there, the dukes of Edom when they are down here in this world, another name for them is the principalities of this world, they are only from the Malkhut of Adam Kadmon, can you hear this.

The principalities of this world have their power only from the female, the Malkhut of Adam Kadmon, the sons of God in Christ Jesus, we come from the coupling of the male and the female of Adam Kadmon. I am going to say it again.

The powers and principalities, the evil forces of this world, their power comes from the female of Adam Kadmon, the female only, the sons of God have a power, when the work is complete in us, that comes from the coupling of the male, the female and the male of the world of Adam Kadmon. We not only have two portions to their one portion, we have the strength of the male in addition to the female. Just as I told you earlier, it was not at all difficult to understand how Cain killed Abel, because Cain was a compound being, I do not know if he was a soul at that point or not, I really do not know, right now my heading is spinning from bringing forth this whole message, Cain was a compound unit, Cain was the seed that came from the union of the female Adam and the Serpent and possibly other elements of the Serpent's kingdom, found in Yetzirah. Abel was just the fallen Adam. We have no problem understanding that Cain was able to kill Abel. Well it is going to be reversed now.

The sons of God have the strength of the male as well as the female. The principalities of this world have only the strength of the female, it is going to be as done a deal, it is going to be as easy a victory as Cain had over Abel. Everybody okay? That does not mean there is not going to be any war brethren, what I mean is it is a done deal. The world of points the dukes of Edom, the principalities of this world are only the Malkhut of Adam Kadmon. This means that when both seeds mature, because both seeds are maturing, the people who are the hosts for the female the world of points, they are hoping to get married to the Serpent, just like those of us that have Christ, are hoping to get married to the Lord Jesus, there is a marriage coming. John said there are two resurrections, the resurrection of the damned one and the resurrection of life or righteousness.

Each of these resurrections are going to manifest in a company of people. The powers and principalities of this world are marrying some aspect of the Serpentine kingdom, who will be standing up in them just like we are hoping for the Lord Jesus to stand up in us. The ones that stand up in Christ Jesus are going to have the strength of the male as well as the female and no matter how powerful those that stand up in the Serpent's kingdom, they are just going to have the strength of the female, and the power of the female, the power of the corrupt broken vessels of the world of points are going to be overtaken.

What is going to happen to them when they are overtaken? They are going to be restored. They are being overtaken to be rescued. There is no eternal punishment, there is only temporary punishment for the, when it is necessary because the people, the elements that are in rebellion against God's plan have to be restrained because they are being self-destructive. The Serpent will marry the people of the many membered Hadar. Messiah the Lord Jesus, will marry the reconfigured world of emanation in Jacob's descendants. After the marriage Messiah will be stronger than the descendants of Esau, Messiah and the company of people that the sons of God that work with Him, will be stronger than the descendants of Esau.

It is Messiah's job to integrate the light that became evil back to its first estate, and to connect all of the worlds to Adam Kadmon, so that they could live. This involves Adam Kadmon's feet crossing over the sea of spinal fluid in the 4th ventricle to stand on the olives which will place Adam Kadmon's feet in a position to be joined to his body. I think I said that wrong, I think we are the body, it is the head coming down, he is the head of the body, we are the body, to be joined to him the head, joined to Adam Kadmon, the head, he is the head of the body. It is not his feet that was cut off from his body, it is his body that was cut off from his head.

The inhabitants of Yetzirah are the shells, the pieces of the Sefirot that broke in pieces, the Serpent is the collective sparks of energy that were lost when the vessels broke. The light from the world of points that fell into Yetzirah became the Serpent that married Adam. This has been quite a mouthful, my whole head is spinning, I cannot even imagine what you must feel like. Are there any questions or comments before we close. It is a miracle that I brought this forth brethren, I did not know how I was going to do it. If you have something to say please come over here?

COMMENT: I was just thinking of what Jesus said about, watch that your light is not darkness.

COMMENT: I questioned, we were in this a while back in this message we were talking about we are waiting for Adam Kadmon to stand up, and that means the feet have to be planted here, so would not the last thing that you just said about the head, we are actually waiting for the head, how that was flipped around, because is it not, do you know what I am saying?

PASTOR VITALE: No, try again.

COMMENT: The comment that you just made that said, actually it is the head the separated from the body, you said that, so we are waiting for what in aspect in relationship to what you said there?

PASTOR VITALE: We are waiting for the head to be joined to the body, so apparently, although we are the foot company, what I am seeing the spirit right now is that we are the foot company, and the body is built in us, the Christ that has been manifesting in us to whatever degree He is manifesting, that is the body, so we are the feet and if Christ is here with the body and we are waiting for our head to be added to us, He is not only our head but He is the head of all principality and power we are told, so He is coming down joining Himself to us and to take authority over all the principalities and power of this world. Did I answer your question?

COMMENT: Wow, yes. This message today, it tied so many different aspects of everything we have been learning along the way, this is incredible today, I have to listen to this at least 6 times because my head is just literally spinning.

PASTOR VITALE: I am glad it blessed you, it is very exciting, and I am really excited to see if the Lord does not move on this health care thing, but if He does not, and that health care goes through, do not worry about what is going on in the world, just keep your mind

focused on His head joining to His body which we are, and at the moment of that union, things will be popping around here, so if the Lord decides not to move on the health care, do not worry about it, okay? Everybody okay? Anybody else?

I just want to tell you all, please pray when you walk out of here, this message is very powerful, if you are getting in your cars, please pray, I will pray for you all, I will pray for you all now, but you pray too when you get in your car.

PRAYER: Father in the name of Jesus, I just pray for everybody that has heard this message, and even the rest of the ministry that have not actually been with us, I cancel all of Satan's plans in Jesus name, I break all of the curses that have gone forth to try to discredit this message or stop it from coming to pass, and to the fullest degree of all of the power that we can muster, that we have authority over right now, we push back the forces of the fallen world of points, all of the principalities and powers of this world, we speak to you boldly, your days are numbered, our head is coming to join Himself to us, and He loves you, and He is coming to take authority over you for your own good, you should lay down your arms and do not fight, but if you do fight, He will prevail over you and we who fight with Him shall prevail over you, and we send forth warrior angels right now to prevent or to pro-actively work against anybody, any force, any angel that is sent out to bring destruction, death, or disease, or infirmity into our lives, car accidents completely cancelled in Jesus name, safety on the roads, I cover all of your cars, your persons and your families with the blood of Jesus, and the glory of His life, and that this message should, I pray that this message should burn in your heart and bring forth an aura of safety and protection around you until the day of His coming, in Jesus name, may you come quickly Lord Jesus , amen. Glory to God, God bless you all.
