TRANSCRIPT OF MESSAGE #648 - Part 5

UNVEILING THE TREE OF LIFE

This Message Has Been Transcribed and Edited For Clarity, Continuity Of Thought, And Punctuation By The CCK Transcribing and Editing Team.

This is part 5 of **Unveiling The Tree Of Life**, and what the Lord is doing to the best of my ability to understand it is that He is bringing forth an increasingly more accurate idea of the maturation of Christ in us, and His ascension, the ascension of Christ, which the church calls the catching up. I am not prophesying it but it is in my heart that when we get this understanding correct, people that are believing the message are going to start having this experience. That is what I was taught years ago when I first came to the church, whatever is preached, the people who are receiving the message, they get whatever is being preached. If the preacher is preaching faith, the people get faith, if the teacher is preaching deliverance, the people get deliverance. We are preaching longevity, we are preaching the, what the Scripture is Joel describes as the return to Eden with a fire burning behind us, and the Lord is giving us a more and more accurate understanding of what that means.

In part 4 of this message on Thursday, I do not know about you but it came out under the spirit of revelation and I did not emphasize it, it just came out so I do not know how many of you picked it up or not but I now understand what the catching or where the catching up is to. We are being caught up, or Christ in us is being caught up to the world of Beriah. This message is all about the spiritual worlds. I can only review to, I know we have people that

are really not well versed in this message but I can only review to a certain point.

We are talking about spiritual worlds, and up until last week, up until last Sunday, I was pretty much just dealing only with the 4 worlds that we might be able to relate to, this world which is called the world of action, the Hebrew word is Asiyah, the world next to us we know as the astral plane, the Hebrew word is Yetzirah, and that is where all of the evil entities are, in the astral plane. That is the world that is right next to us, and each ascending world has authority over the world below. The entities in the astral plane have authority over the people or the beings which is humanity in this plane, and they have authority over us in the same way that human beings have authority over the animals. They are just higher than we are, and that is why we are in trouble, we are in trouble because we sinned, because our original ancestor sinned and died.

A part of our jailed condition is that we exist under the authority of this higher world which feeds off of us and seeks to use us and hurt us and damage us for its own purposes. The 3rd world, actually we are going from the lowest world up, it is really descending order but this is the way we are doing it, why? Because I am explaining it to you from the perspective or from our perspective, this is where we are down here at the bottom. The next world up has the astral plane, is called the world of creation, the Hebrew word is Beriah, that is where the garden of Eden is, that is where Adam fell from, and since Adam fell out of the world of creation, Beriah, it became a waste land.

If you have read in the Scripture about the old waste places, or the Hebrew word that suggests the waste land or the desert or the wilderness, that is what it is talking about, the waste land, the world of Beriah, that was the garden of Eden, but the inhabitants of that world because of a lust for power, as is being revealed to us over these last few messages, because of a lust for power, fell down into the water world below which is the astral plane, so they abandoned more or less the place where they were supposed to be rooted, the world of creation, and they became the evil entities of the astral plane.

It is Star Wars all over again, brethren, Darth Vader and all of that, the male Adam and the female Adam fell down out of the world of creation and they became the sons of God that we read about in the book of Genesis who looked upon all of the daughters of men and found them fair and took wives of them all, and intermarried with them and produced Nephelium, spiritual

entities that were extremely powerful. All of this is a review brethren. The garden of Eden, the world of creation is a waste land. When Jesus said, ***I go to prepare a place for you***, what He meant was, He was doing what needed to be done for our, to bring us back to the world of creation, because that is our true home.

Paul said that we are travelers and we are not citizens of this world, we are citizens of another place, we are citizens of the world of Beriah, we do not belong here, at least our spirit. Our spirit or the soul that came from God is an inhabitant of the world of creation. Above that world is another world called nearness to God or the world of emanation, the place from which the power of God goes forth to bring forth creation into the three world below, and just a message or two ago, I started talking to you about the world of Adam Kadmon, which I had not really been doing previously, trying to keep this message as simple and untechnical as possible, but this is the way the Lord led me so I have to now start talking to you about the world of Adam Kadmon.

The Hebrew word Kadmon means primordial. This is talking about the Adam that we read about in Genesis 1, the first Adam that was created, he is the most ancient of all human beings, he is the one that was created and who received the commission to go forth and multiply and fill the earth. Going on with our review. All of creation exists within the Ayn Sof, the Ayn Sof is the Hebrew word for the unlimited one, the unlimited one is infinite, there is nothing outside of Him, it is impossible for something to be outside of Him because He is infinite. All of creation, all of the worlds that I just named and all of the other worlds, because there are infinite worlds, but the worlds that we deal with are, the 5 worlds I am talking about now, all of creation, all of existence, all of the worlds are inside of Him.

If you can think of creation as taking place in a circular spherical area that exists within the infinite one, this is where Adam Kadmon was placed, in this empty space that came into existence in the midst of infinity or the infinite one. This Adam Kadmon, this most ancient human being, he does not look like we look, he is not homosapien, we cannot even relate to what he looks like. He does not look like anything, he has no form, he is a spirit being, and he is a very high spirit being, because he is the closest being to the Ayn Sof, the unlimited one, he has direct contact with the unlimited one, and that makes, now this is the teaching of the Kabbalists.

As I have told you many times, the Lord has led me to study Kabbalah and to share it with you, a lot of what I read if not most of what I read, I bounce it off of my spirit, a lot of it aligns up with the doctrine of Christ which the Lord taught me, and I have taught you. I believe it, unless it offends my spirit, as far as Kabbalistic teachings go, most of it witnesses to the Doctrine of Christ in me, when I get beyond my knowledge, most of it witnesses to my spirit, some of it does not, and almost everything that has not witnessed to my spirit to date, I have practiced what I tell you about, I practice what I preach, I put it on the shelf.

I believe God has taught me to study this Kosher Kabbalah, because there is unkosher Kabbalah, I study it and if I find something that offends me and I have found teachings that have offended me, I put it on the shelf and I say, ***Lord if it is true and you want me to understand it, please help me to understand it.*** Almost everything that has offended me in these 6 or 7 years that I am teaching Kabbalah already, it has turned out that the Lord has witnessed to what they said, just that they said it in a way that was unfamiliar to me.

What I am teaching you now this morning is what I have learned from the Jewish Sages and I believe that it is true, and I believe it until the Lord tells me that I am mistaken. This is the teaching. Adam Kadmon the most primordial ancient being, he has no form, but because of our carnality and our inability to conceptualize in any way an idea that we have never heard before, because of our weakness, the Lord lets us study this Adam Kadmon by perceiving him in the form of a human, but he is not a human, he does not have arms and legs, and a head like we do, but that is how we will perceive him so that we can learn something. We see a man, as we perceive a man in a spherical space because the Ayn Sof is not two dimensional, so he is a sphere in this empty space and we perceive him as a human being with two arms and two legs and a head, and he is in the midst of infinity, and his role is to be a filter for the light of God, for the light of the infinite one, because the light of the infinite one is so incredibly powerful that if it comes in contact with the created worlds, because the infinite one is not created, Adam Kadmon is not created.

This is what they teach, he is not created, he is so close to the Ayn Sof, that he, I do not have the word, so I just tell you he is mediator, he is the mediator, he is so divine, he is so close to the Ayn Sof that he is not considered created, he is an aspect of the Ayn Sof that is in this empty space, that is a filter for the light of the Ayn Sof to go forth and descend into the lower worlds. The

light of the Ayn Sof must be veiled because it is so intense that if it comes in direct contact with creation, it will destroy the creation, which is us.

The light of the Ayn Sof goes into Adam Kadmon. Think of yourself with an empty space on the top of your head and if you want to see this, if you have received the notes and the exhibits that Xxxx mailed out to you, those of you who were not here last Sunday, I guess we have to do this over. The drawings that I did have numbers on them. The exhibits that are copies from the book do not have numbers on them, so we assigned letters to them, and I will just go over those letters now, so anybody who was not here last week can follow me. The letter A, exhibit A, if you can see it, it is the circle with the needle going in the middle, can you see that on the computer, Xxxx? That is exhibit A, I will be referring to that as exhibit A, the circle with what looks like a needle in the middle. Exhibit B is the image that says figure 9 on it. Exhibit C is the image that says figure 8 on it. Exhibit D is the image that says figure 11 on it. Exhibit E it says table 2, parallel realities. Exhibit F is the only exhibit that has no identifying marks on it, it is a series of linear images.

If you would look at exhibit F, you might get an idea of what I am talking about. If you look at the very top of exhibit F over here, this is signifying the light of the Ayn Sof going into Adam Kadmon. You can think of the light going into your head and entering into your physical body, and the way the Kabbalists teach this is that the light goes into Adam Kadmon's head and it comes out of his eyes and his ears and his nose and his mouth, and that light that originally came from the infinite one is filtered in the head of Adam Kadmon.

The light or the breaths that come out of the ears, eyes, nose, and mouth, it is you might say is adjusted light, it is diminished, it is weaker, the light that comes out of the eyes is the most powerful, most unfiltered aspect of that light. Then as the light descends and goes lower and lower inside of his head, the light becomes breath, the breath that comes out of Adam Kadmon's mouth is the weakest or the most veiled. We have all kinds of messages on that from years ago. As far as our messages today goes, the Lord is giving it to us in a greater depth.

This light that comes from the infinite one is perfect light, it goes into the filter, just like we know light can go into a prism and it breaks down into the colors of the rainbow, the light that comes from the Ayn Sof goes into the head of Adam Kadmon and breaks down into different attributes that are invisible

when you look at the simple light, He is called a simple homogeneous light, perfectly blended and benevolent.

The truth is that he is an integration of both negative and positive qualities that are so perfectly blended that if we could look at the light of the Ayn Sof it would be simple and peaceful and perfect, then it goes into the filter of Adam Kadmon's head, and it comes out into attributes that, at least what we can call attributes, that are still very high but again we are looking at it in a matter that we can understand it.

We are told, and this also with regard to exhibit F, it is showing you all of the worlds below, this top world here is the world of Adam Kadmon, and the reason you see all of these levels is because each world has ten vessels in it, and those vessels are called Sefirot. These are vessels that contain the light of God.

This top world has ten vessels and the light from the Ayn Sof that starts at the top, flows down through all of these vessels and eventually appears or brings forth the world below. When we talk about 5 worlds, we are talking about 5 worlds, each one that emerged out of the higher world, we are not just talking about 5 worlds that happened to exist, the highest world brought forth or you might say gave birth to the world below, which is the world of emanation, the world from where the power of God goes to bring forth creation, and then the world of emanation, out of the world of emanation emerged the world below which is the world of creation.

The Kabbalistic teaching is that the world of Adam Kadmon and the world of emanation are so close to the infinite one, that they are not considered created, they are considered a part of the divine one. The 3 worlds that come forth below are considered creation, and those 3 worlds are, the world of creation where the 2 Adams were placed, Eden, if you will, paradise if you will, and the world of forms, the Hebrew word Yetzirah or we call it the astral plane emerged out of the world of creation, and out of the world of Yetzirah, the astral plane, emerged this world.

There are 3 worlds called creation. Beriah, the world of creation, Yetzirah or the astral plane, the world of forms, and this world, the world of action, 3 worlds collectively called creation. The two worlds above, the world of emanation, and the world of Adam Kadmon, are considered to be divine because they are so close to the Ayn Sof. The purpose of creation is that the Ayn Sof wants to appear in a visible form. Once creation is fully formed and

all of the 5 worlds are functioning, the Ayn Sof again will enter into the top of Adam Kadmon's head, and not only flow in to his face and come out of his eyes, his ears, his nose, and his mouth, but actually will flow in a straight line directly down through Adam Kadmon's ten Sefirot, this is the intention okay, to flow, for the Ayn Sof to flow all of the way down through to the lowest world and abide in the lowest world in a form that will not destroy us.

Each of these worlds, this is a linear explanation, it is not realistic but it is necessary or I do not think any of us could ever understand it, at least I needed to see this linear image of it. Each of these worlds are one inside of the other, each of these worlds are each inside of the other, and all of these worlds exist in us. There is a microcosm and a macrocosm, there is a world out there, a planet is a part of it, our universe is a part of it, this whole universe brethren, the whole universe, not just our planet, not just our galaxy, but the whole universe is Malkhut, this whole universe is here at the bottom of the chain, the lowest Sefirah called Malkhut, that is our universe.

That is why Jesus called it outer darkness because all of these lines that looked like, you can see, it is one vessel inside of another vessel, they are really spheres inside of spheres, inside of spheres. This world is the outermost sphere. Jesus called it outer darkness because at the innermost point is the Ayn Sof. Try and visualize this brethren, think of all of these worlds, ten levels in each one, all inside of each other and you can see, you can get a better idea of that by looking at the exhibits B, and C, you can examine them more and D, D really shows it very nicely, all of these worlds are all inside of each other. Actually exhibit D shows it very well, and it shows you the light of the Ayn Sof going into the innermost point in the narrowest point and from that entranceway, descending down to the lowest point, and abiding in the midst of all of the circles including the outermost circle.

All of these circles are inside of us, and they are all insulation, they are not layers of our physical body, our physical body is just one layer and all of the other layers are spiritual invisible bodies that dwell in our soul, they are soul, that is what they are, they are layers of soul, so we cannot see them. The ultimate end of this whole creation is that a thin line of light that comes from the infinite one, that surrounds everything because everything is in the midst of him, a thin line of light will come from him that will descend through all of the worlds and his resting place, the lowest place that he descends to, will be these physical bodies and he will be insulated, because he will be surrounded, that light, that thin light, will be surrounded by all of the thin worlds, and this physical body is the outermost circular world that will

surround him. From that innermost point he will be our brain, he will rule over us, he will be our consciousness, he will be our brain, he will be our motivation, on every level, and because of that, we will live, we will cease to die and we will live.

The reason that we die brethren, is that human beings this world is cut off from the divine worlds. The divine worlds are the world of emanation, the world of Adam Kadmon and of course the Ayn Sof Himself. The whole purpose of salvation, the whole definition of salvation is re-connection to the divine worlds. When we are reconnected to the divine worlds, which we actually are a part of, there really is only one, there is only one Adam, Adam Kadmon in the midst of the Ayn Sof, the one Adam Kadmon, the one who is so close to the Ayn Sof that he himself is considered divine. We are all aspects of his being. This is the explanation of that mysterious Scripture in the book of Acts that says, ***In Him we live and move and have our being.***

We are a part of this supernatural being called primordial Adam, the most ancient human being, we are cells in his body. Through him, through re-connection to him, we attain to immortality. The reason we die is that the worlds, the 3 worlds that I just told you are called creation, the world of Beriah, the world of forms, the astral plane called Yetzirah, and this world, the world of action, the Hebrew name of Asiyah, those collective worlds are called creation, and creation is a reflection of the higher worlds which are, as far as our study is concerned, the world of emanation, and the world of Adam Kadmon.

I also explained to you recently, that this very reality is replicated in our humanity. The human head, talking about our physical bodies now, the head through our neck, the base of our neck, is likened unto the divine worlds, the world of Adam Kadmon and the world of emanation, and the, now of course, let me back up, our true existence is our nervous system brethren, everything else our arms, our legs, is just hanging on a frame to be the slave or the servant of our nervous system, so actually we are talking about the brain, and the brainstem is the reflection of the divine worlds and the rest of our spinal column going from the base of the brain or the brainstem down into the last disc on our spine is a reflection of the worlds of creation.

We see a replication in the lower worlds of what is in the head. Let me say that again. This came out on Thursday I believe because I had a question for the Lord. Sometimes I get questions when I study, and sometimes I get questions when I preach, and I tell you as soon as I get the answers. I saw

a contradiction in what I was teaching, and the answer came forth, so let me repeat the contradiction for you so you can follow me. Years ago those of you who have been studying with me for a while, or who are reviewing the older messages, you might now that I taught for years that Adam had to ascend into our heart center, and when he ascended to our heart center, he would find that, that heart center was covered with water, we have another message called ***Water Over The Heart***, something like that, and that, that spiritual water has a personal name, which is Satan, so that Satan in most human beings is possessing the heart center. In those days we were talking about energy centers before I never even heard the world Sefirot, we were talking about energy centers, so I really do not want to get into the names of the Sefirot with you because I know there are people here that would not be able to follow that, so I am trying as best that I can to not be too technical. The heart center is likened unto one of the Sefirah called Tiferet, so I just want to put that in there, if you cannot follow it do not worry about it.

The ten layers or the ten vessels or the ten Sefirot that contain the light of each world, are applied to areas of our body. I will just say that again, we will just try that again, according to the teaching before I knew anything about Kabbalah, and I only knew there was one Adam, today I hope you all, if you do not, I will tell you again, there is more than one Adam, there is Adam Kadmon, the most ancient of beings, then there is Adam of the world of creation, then there is fallen Adam in the astral plane, who is really manifesting as Leviathan, and then there is the Adam of this world whose name is Abel, because he is a truncated Adam because each of these Adams is a tree, and the Adam of this world is just the root of the tree that has been cut down. We see that there are many Adams, I did not know that years ago. I thought there was just one Adam, and I taught that he was the Adam that is in our lower centers which we know to be Abel, I have taught him as Abel, the truncated Adam who had to be regenerated and fight with Satan and Leviathan until he ascended into the heart center, at which point he would smite the waters of the heart center just as Elijah and Elisha smote the Jordan, and the Jordan dried up.

Then that Adam would stand in the heart center, ruling all of the powers and principalities existing in the lower centers of our spiritual being until Jesus came from above and carried him up, I did not know where he was being carried up to, but at the time the message satisfied me. Then more recently the Lord started teaching us that Abel is held captive in the cerebellum, the lower part of the brain. Again without getting too technical, we will talk about

the upper brain, the midbrain and the lower brain. Abel, the truncated Adam is captive in the cerebellum the lower part of our brain, where if you look at the pictures and we had a couple of messages with a lot of pictures, it is just amazing that cerebellum, first of all is wrapped in tissue that looks just like a serpent which we know to be Cain, so Abel is under Cain's ground, completely wrapped over is if you would put a head covering on you, and then the midbrain and the forebrain are completely spread over him, he is completely captive, he has been pressed down into the south, the lower part of the brain, which is back here in the neck.

The Lord also revealed to us that there are two, the scientists have named olives in the brainstem, right here in the brainstem, by your throat, and that this is the mount of olives that the Scripture is talking about, so that Abel that is completely in bondage under Cain and under the whole cap of Leviathan, has to be regenerated, Abel has to be regenerated into the fullness of the power of Adam, that Adam was given in the world of creation.

He has to throw off Cain, he has to overcome Cain, the regenerated Adam, who is still under the dominion of that Serpent Cain, and that Serpentine upper and midbrain, he has to overthrow that power of Cain and walk across from the neck, from the cerebellum which is in the neck, to the two olives in the brainstem. In order to get to the two olives in the brainstem, my understanding, I may have the wrong anatomical word, but this is what my understanding is right now, that is the 4th ventricle that he has to cross over. He has to cross over the sea of spinal fluid that is in the 4th ventricle that is right here flowing from the brainstem, from the spinal column to the brainstem up into the brain. When the regenerated Adam stands over here on the two olives, he will now be lined up, he will be aligned with the light of the Ayn Sof that is entering into.

There is a spiritual aspect of us brethren, that I am using our own head to demonstrate this spiritual point, he is not coming in from the top of our head he is coming in from a spiritual plane which is within ourselves, but so that we can understand I am telling you that, that thin light of the Ayn Sof, that source of immortality, that source of eternal life is entering in through the top of our head, this is just a metaphor brethren, entering into the top of our head and is going to descend to this place in our brainstem, it is going to be lined up.

The top of our head or the crown energy center is lined up with the two olives, it is not lined up with the cerebellum back here in the back of the brain. Adam

has to escape, he has to cross the sea of spinal fluid, he has to stand on the two olives which would put him in a perfect position of alignment with the light of the Ayn Sof that is coming down, it may not even be the light of the Ayn Sof, the aspect of the higher world that is coming down is going to click in to space.

Have you all seen that advertisement that is all over the tv lately where they are all clicking in, did you see that (chuckle), they show a mountain climber clicking on his belt and baby in a seatbelt clicking in, it is like 4 or 5 different clicks, do you know what product, I do not recall what product it is, so there is all of these clicks, that is our example brethren. The aspect from the world above that is designed for this specific purpose is going to descend into our spiritual being, this is an individual experience, and click on to the regenerated Adam who has escaped from Cain.

What is interesting is that if you see the picture of the brain, Leviathan is like a cap, like a serpentine cap over the cerebellum where the regenerated Adam is. At this point the regenerated Adam is not fighting upwards, he is not fighting to overtake Leviathan who is the forebrain and the midbrain, he is not fighting upwards, he is going across. He just has to escape Cain who would stop him from going across that sea, and of course Leviathan, that cap of the forebrain is exerting influence on him and strengthening Cain to not let him go, but Adam at this point is not going up, he is not going to go up until he first stands on those two olives.

I saw a Star Trek episode years ago, where there was an ancient nation of Amazons that had been absolutely brilliant and they lost all of their brilliance and the women, they were still all women, a society of all women, they were simple as simple as could be, like childlike simplicity, but one of them was the high priestess and once a year she would go into their temple and stand on these two spots on the ground and put a cap on her head, and she would become brilliant.

There is so much in science fiction brethren, but it really takes the edge off of the heaviness in this message anyway. The regenerated Adam is going to walk across the sea of spinal fluid in the 4th ventricle and put his two feet which he does not have, this is a metaphor, he is going to put his two feet on the two olives on our brainstem and he is going to click in to the one who is coming to the higher world which is actually, I do not want to get into that now because if I confuse myself, I will surely confuse you, the one who is coming from the higher world, and they are going to click together and our

spiritual nervous system will be reconnected, our spiritual nervous system. Spiritually speaking the brain is Adam Kadmon, and we are along the line of what would be our spinal column. Let me say that again, Adam Kadmon, primordial Adam, he is a giant being, think of him as a brain and having a spinal column, think of him having a nervous system. He is the brain, we exist along one of the discs of the spinal column, and his spinal column has been disconnected from his brain.

When Adam in you and Adam in me overcomes Cain and crosses over that sea of spinal fluid, and stands with his two feet on the mount of olives, the brain of the whole man, of the whole Adam Kadmon in which we are cells is going to click into place and we will be restored, fully restored to the whole of the nervous system of the creator. Adam Kadmon is the creator, he was told to go forth and reproduce and fill the earth, he is creating us, just like all you women have had babies, from that point of view you are the creator of that child. I know that your husband had something to do with it, but it is your flesh, your blood, that produces the child, your body that produced the child.

I said to the Lord one day, as I was preaching, it came out as I was preaching, I said, Lord, What happened to poor old Adam who is on the heart center, that valiantly ascended from the lower parts of our spinal column, or the energy centers associated with the lower parts of the spinal column with great victory, great power, and great fortitude, ascended fighting Satan and Leviathan, and the flies, all of those entities that we were studying about in those days, and ascended into the heart center, smote the waters defeated Satan and was standing valiantly in our heart center, occupying, fighting all of the forces below and occupying until Jesus came from above and caught him up, what happened to poor old Adam down there, these two stories do not match, these two metaphors do not match, and this is when the Lord said to me, ***Yes they do, that our humanity is a reflection of the higher worlds, and the head, our physical head and our brainstem, and the Adam who is in our cerebellum, he is a reflection of Adam Kadmon and the world of emanation, and the rest of our spinal column is a reflection of the worlds of creation.***

From the base of the throat down, which is pretty much of the spinal column is a reflection of what is happening in our head. If Adam is in our cerebellum, and he is escaping from Cain and coming over into the throat, that reality is reflected in the lower worlds within us. There is an Adam in our cerebellum that is escaping into our throat center, and there is a counterpart of him in the heart center, just like there, going back to the worlds of creation now, just

like there is a world of Adam Kadmon, and then there is an Adam in the world of creation, two different Adams, an Adam in the world of creation is a reflection of Adam Kadmon.

The Adam in our heart center which is standing guard over all of the worlds below in the lower part of our spinal column, which I hope you all know this is our spiritual body, that we are talking about, this is all spiritual, Adam in the heart center who is guarding everything below, he is a reflection of the Adam who is in our cerebellum. Just like there is an Adam Kadmon and there an Adam in the world of creation, and there is an Adam down here. Is everybody okay?

All of this is review brethren, and I know you all know this and you are all going to stand up and teach this right? You are all laughing. What came out in the preaching on Thursday which really exciting me, was that I now have an idea of where we are being caught up to. We who are trapped down here in this world, our spirit is joined to Jesus, our soul loves Him and longs for Him, and if you have been at the ministry for a long time, you may recall my earlier drawings of how Adam was caught up but Adam's ox was still stuck down at the base of the, in this world, do you remember that? Xxxx do you remember that, you did all of those drawings.

The ox was down here in the world. I could be flying in the spirit, this happened to me, I am flying in the spirit and I am getting a pain here, and I am getting a pain there, and I am getting a pain there, and I got mad because that is a curse, you know.

He could not get in over here, so he came over here, I rebuked it over there, so the pain came over here. Finally I got mad and I yelled at it, well it is gone today. I said, ***How dare you, how dare you come in and attack my body when I am this high and the spirit bringing forth this revelation, how dare you.***

When we get to this place, it is a whole different world from Pentecost, where you go as a child and you say, ***Lord please heal me.*** I do that too, please do not misunderstand me, I do everything that I can do, and then I say, ***How dare you.*** I do everything and if it did not go away, then I am saying, ***Lord, what are you willing to do for me?*** He wants us all to try. We are not babies anymore, we have to start to grow up. It is all a state of mind. Who are you in your mind? Again, I am not putting anybody down. There are Christians of all ages. Brethren, please understand, I do both, I do both. I do all I can do

and when I do not see any result, I say, **Lord please, what are you willing to do**, and then if nothing happens, I go back to doing the first thing again, I do both.

You have to start believing that you have power, even if you pray and it does not happen, it is a state of mind brethren, that we are growing into. I believe the Lord would not let us die if we are called, but He could let us suffer, if the Lord makes a judgment that this is something that this is something that we could chase, and we have not stood up against it, an infirmity, we have not stood up against an infirmity in our body, He would let us lay there for a while, until finally we say, **Lord, how come you are not answering my prayer, what is wrong here?** Brethren, we have to grow up.

Back to today's message. I have reviewed the worlds for you, I was telling you, I found out in the preaching Thursday, it just came to me, it should have come to me sooner, but it did not, I do not know why not, that we are being caught up to Beriah, that is where we are being caught up to. Let me explain that to you. We are down here, our bodies are down here in this world, and we have a level of soul called the Nephesh, because there are 5 levels of soul, and the level of soul called the Nephesh is in our blood. The Scripture says the life of the flesh is in the blood. That is the level of soul, the lowest of the 5 levels of soul that animates this physical body, and the other levels of soul dwell in this body.

It is actually the Nephesh that is being saved, it is the level of soul that is the animation of this body that is being saved, because the Nephesh is attached to the higher levels and either the higher levels are going to fall down and lay in the ground with the Nephesh and be consumed, or the Neshamah which is the higher level of soul is going to bring the Nephesh up. This is a conflict that is manifested in every aspect of our lives brethren. We are challenged to abide in the spirit continuously. Let me take the most obvious source of challenge for all of us, our families, we love our families, we have no desire to leave our families behind, but we have a great need, a great spiritual need, we are challenged to minister to our families, and engage in family affairs without our spiritual soul called the Neshamah collapsing on our Nephesh.

How would you know if your Neshamah collapses that means come down? You say something to me like somebody said to me recently, I am as dead as a doornail, what happened to me? Your Neshamah crashed, fell down from its high spiritual place and is now laying on top of your Nephesh, which is the level of soul that animates this body.

We have to find that happy medium, the answer is not to run away from the things of this world, that is not the answer. Of course we are not going to, well that is our family, we are not going to run away from our family. We cannot be twenty four hours a day in spiritual things, and if we spend too much time with our family without our higher soul being refreshed, it collapses. The technicality of this brethren is that, we are not yet reconnected to the eternal worlds. I have just given you, I just spent 15 or 20 minutes or longer giving you a description of the re-connection that we are waiting for, remember? The regenerated Adam has to get his two feet standing on the olives, and waiting for the re-connection that is coming from the higher world of Adam Kadmon, so that we are continuously flushed and flooded with the life of God even when we are doing carnal things. We are not re-connected yet, you see.

We are not on automatic yet. We have to find that balance, and for everybody, it is a personal challenge. It is a personal challenge that continuously changes as Adam in you, which is Christ, the resurrected Adam in you becomes stronger and more mature. I find that I can stay away from my spiritual studies for longer periods of time without damaging the Christ in me.

When your Neshamah crashes that is the damage of the Christ in you. Everybody has to get that answer for themselves, and we have to be filled up. When I was in the church world, I use to hear the phrase, ***Are you prayed up?*** I never knew what the pastor was talking about. I need to have so much of an interaction with the Spirit of God that it sustains me when I go out from that spiritual place, when I go out from this house. If I have not been with the Lord enough to build me up or fill me up, in the church world it is prayed up, and I go out into the world, even if going out into the world is going into the next room where there is a family gathering, if I am not filled up enough, my Neshamah is going to crash.

We all have personal challenges, we have to get before the Lord, find out who we are, where we are, what we can tolerate, and then we have to do whatever we have to do to be filled up with enough of the Spirit of God before we go out.

Sometimes when that happens, I pray it does not happen for any of you, I do not have those problems anymore, but if it does happen to you, that you have a challenge from a family member, that you are spending too much time, whatever you are doing, reading your Bible, listening to messages, whatever

you are doing, you are going to have a choice, either you are going to, with the help of God, and the grace of God, you will do it in a godly manner, respond to your family member and explain to them that you just have to do this, and you just have to do it, and that you will be with them shortly. That is your personal challenge and new level, new devil. That was happening to me for a while. My conflict was the office work and the spiritual work, but somehow I cried so much that the Lord got so tired of hearing from me that He did something, so these days when I work on the secular work, it is such a creative process, the things that He has me doing, that I am getting anointed from that too, but I still have to get into my spiritual studies.

Back to the depth of the message today. We are being caught up to Beriah, because our, we have a level of soul here that is attached to ox, that is attached to the human person, and this humanity that we have, because it is more than our body, you know, it is the Nephesh level of soul, it is our body, it is our emotions. Brethren, do you realize how very needy the part of us that is in this world is? We need physical food, we need emotional food, we need spiritual food, we need to be comforted all of the time. Maybe you do not realize that, or maybe you do not think that because maybe your surrounded with people all of the time, maybe your family meets your needs, maybe you do not realize that you need all of these things, you try going into isolation.

The Lord had me in isolation for more than 13 years, you try going into isolation, and you will know how needy you are, just for human contact. You may be fighting with your husband, every day 10 times a day, you try going it alone. It is a whole different problem. If you are fighting with your husband 10 times a day and you think the answer is to leave, you have no idea what is waiting for you when you leave. It is not going to be perfect when you leave, because now you have the problem of isolation and loneliness. When you are married you have the problem of fighting with your husband. The answer is to stay right where you are. Is that not what Paul said? If you are married, be content with what you have. If you have a wife or a husband, do not try to get out of it, and if you do not have one, be happy with what you have.

Every lifestyle has its pain, because we are so, so needy! This is what the Lord said to me this morning. He said, If there is anyone that has the slightest doubt that human beings, physical males or physical females are spiritual female, if there is any doubt, that humanity is spiritually female, you are not looking at the reality of your condition because the overriding quality of the female, and this is a spiritual definition.

It is for the whole world, only a lot of men think it is just for physical women, but the whole definition of being female which is this whole world, physical males and physical females, is neediness, that you need somebody to meet your needs.

Look at the starving people, they are female, you are hungry, if you do not have enough food to eat, you are female. If you are suffering in your emotions because nobody is loving you, you are female. If you are suffering physically from lack of someone, they did studies on babies that were in orphanages, nobody, the children were hardly touched enough and they just withered and died from lack of contact. Are you withering and dying because nobody touches you, nobody kisses you? When you come, you do not have a meeting like this to come to, someone to put their arms around you, and say, I am glad you are here? You have no contact at all, you are withering, you are needy. You need physical contact, you need emotional contact, you need spiritual contact, you need food, you need society. This whole of humanity, we are so female! The toughest person out there, the toughest man, the toughest woman, you are so female! You cannot even make it in this weather without clothing or some covering over you.

We are down here in this world, female, Adam's ox, and our Neshamah, our intellectual soul of God is up there, it is at least in our throat, the Neshamah is in our throat. The Adam in our heart center is the ascended Nephesh, the consciousness that is in the blood, the soul that is in the blood can only get as high as our heart center I think. Once you get into the neck, you are dealing with the Neshamah already, the whole intellectual soul of God. That is what reconnects to the world above, the Neshamah, the intellectual soul of God, not the Nephesh, the soul that is in the blood. The intellectual soul of God that reconnects to the higher worlds on the one hand and on the other end connects to your Nephesh in your blood. The neck bone is connected to the hip bone, and the whole thing, it is a chain, just like the discs of your spinal column, it is a change.

Here we are down here, our intellectual soul is up there with God, and the rest of our emotions are down here and our physical body is down here. Our human needs are down here. We have a world of darkness laying over us called the astral plane, the Hebrew name is Yetzirah, it means the world of forms, it is where all of the, not only the demons but all of the entities are there, they are not just demons, they are actual species living in the dark, and our natural example is all of the species that live in the sea, they live in the darkness of the astral plane, and they are forms, they are not human,

and they are in torment all of the time, because they are in an in-between place, so they want to manifest in you and me.

We have a whole world of darkness lying over us, I think Paul said something like that did he not? The whole world lieth in darkness or wickedness, and above that wicked world is the wasteland. Does anybody remember what the wasteland is? Beriah is the wasteland. Beriah is the world of creation where the garden of Eden is supposed to be, where it was, where it is, you know in principle, that is the world that Adam fell out of because instead of looking up to the world above, what is the world above the world of creation, anybody? Emanation, and the world of emanation is considered divine, it is close enough to the infinite one to be considered divine.

The two Adams, the male and the female Adam, instead of looking up for their sustenance, became intoxicated, it has been revealed here recently, with a desire for power. If you look brethren, you have to humble yourself and bend your knee to the higher worlds, but if you look down, then you become the god of the world below, so the two Adams thought, and they sojourned down there and they took wives of all of the inhabitants that they chose, and what they did not know was that wherever a female is, there is a male.

They took wives of all of the female inhabitants of the world of the astral plane, but there was a male element there that attacked them and captured them. I have all of this on another message for you, how that male element got down there, it is on a recent message. The male and female Adam, they did not expect to find a power in the world below that was stronger than them.

Brethren, we have a natural outplaying of that in this world. One of the problems with the political correctness that is going on in this country today and again, I do not really know what is happening in other parts of the world, so I speak about this country all of the time, because that is my sphere of knowledge, one the aspects of political correctness that is extremely dangerous is thinking that those of us that have attained to a certain level of spiritual safety in this world, can befriend or minister to people who are on a lower spiritual world and not get hurt, that you can walk out into the street and talk to a homeless person, well you can be kind to them.

I have bought homeless people meals, I will not give them any money, I prayed for them, I buy them food, but to think that people that exist on a lower plane of consciousness, literally in another world, we are all in this same

physical world, but spiritually, they are in another world, to think that they are helpless, especially you men, you find some young girl that you think you are going to help because she is in trouble out there, some young drug addict or alcoholic, and you think you are this big strong man, you think you are going to save her, you better watch out because there is a spiritual element in that weak person that if they can do it will capture you and drag you down into her world.

So you better not, and this is the example in the book of Proverbs does it not? It talks about the harlot. It does not have to be a woman, it can be a young man whose is in trouble, in a lower spiritual world than you that they are suffering in this world, and you think that you are going to be able to help them, and maybe you can, but maybe you will get trapped by the spiritual male that has brought them down to that place and is feeding off of them, and he wants you too.

Does anybody not know what I just said?

If you feel God is telling you to help somebody or if your kindness wants to help somebody, you help them, but you remember they are in different world than you are in, and there is a male element that is going to try and capture you if you get emotionally involved, be careful.

Those of us that are ascending, we are more vulnerable than the average person, Satan is after us if we are ascending, why? She wants your energy. That was just a side message.

Here we are, our intellectual soul is ascending, we are being fed this glorious message, and yet we are suffering in our emotions, we are suffering in our body, we have to get up back into the next world. We have to get past that astral plane, Adam in us, the regenerated Adam in us which is associated with our Neshamah, the intellectual soul that comes from God, is communing with the principalities, not the negative principalities, the principalities from the kingdom of God, in the world of emanation. Jesus said, Where I am, you too shall be. Our Neshamah is in continuous communion with Jesus who is in the higher world. He is the head of the world of emanation. Remember there are ten layers in each world. Jesus is ascended to the highest level of the world of emanation, and we have a continuous communion with Him, or least depending on our degree of maturity, we have access to Him, we may not have a continuous communion with Him, I do. You have access to Him, if you do not have a continuous communion with Him, whenever you turn to

Him however you turn to Him in prayer, through reading the Scriptures, through playing your music, however you reach for God, we have a continuous access to Him. That is our intellectual soul, but our body is still down here, our emotions are still down here and that Neshamah, that intellectual soul that we all have, that is in union or in continuous union or to whatever degree, I keep saying continuous, maybe it is continuous, I do not know, your potential is continuous with Him, it is not strong enough to bring relief and promised peace and contentment to our physical bodies, to our emotional body, and to our intellectual body.

The Neshamah, the intellectual soul that we receive from God, that has a potentially continuous connection with the Lord Jesus who is in the highest point of the world of emanation, is not strong enough to relieve our physical needs, our emotions needs, and our intellectual needs, and that is why we suffer, that is why we are sick. Once again, our Neshamah, our intellectual soul which is associated with Adam, with the regenerated Adam in us, is underneath this world of darkness called the astral plane, and this world of darkness is typified in the Scripture by all of the lands that the Hebrew children had to cross through when they came out of Egypt, Og, and Sion, and all of these powerful kings that said, No you cannot pass through. Moses said, ***We do not want any trouble with you, we will pay for anything we take, or if you do not want to sell us food and water, that is okay, we just want to walk through, just let us walk through.*** They said, ***No, you cannot walk through.*** The Hebrew children then had to fight their way through, that Scripture is a type of our spiritual reality. Our Neshamah associated with the regenerated Adam is coming out of Egypt and he wants to go back to the world of creation, which is his world, that is the world that he is a citizen of, not only is he a citizen of that world, but he is king of that world. Adam is king in the world of creation, and he is king of the two worlds below.

Adam is king, he is king of the three worlds of creation. Remember I told you at the beginning of this message there were three worlds of creation, the world of creation, the world of formation, the astral plane, and this world, collectively called creation. The worlds above these three worlds are called divine. They are so close to the unlimited one that they are called divine. Adam is the king of creation, the king of the three worlds. Right now he is a fallen king. Even in us, where Adam is regenerated, he is still a fallen king because he has not regained his country. He is living in a foreign land, and the physical body which you and I are, are the fallen land that he is living in,

and he is trapped under the whole ceiling of darkness called the astral plane, that even though he sent an S.O.S. through the astral plane and connected with the Lord Jesus and now there is a line of communication open, the Neshamah in you and me which is the level of soul associated with the regenerated Adam, is not powerful enough to overcome Og and Sion and pass through that astral plane in one piece, you cannot do it, they are too strong for him.

What we are waiting for as far as our needs are concerned, physical, emotional, and intellectual needs are concerned, is to be caught up, is for our Neshamah which is the level of soul associated with the regenerated Adam, that Neshamah to be caught up to pass through the astral plane in one piece and be reestablished in the world of Beriah. He needs to be re-planted, he is tree, he needs to be re-planted, the whole world needs to be re-cultivated. When our Neshamah, the level of soul associated with the regenerated Adam is re-planted in the world of Beriah, he will re-populate that world.

What does that mean? All of his ten Sefirot will come into existence in that world, and he will be powerful enough because he will now be in a world above the astral plane, he will be beyond Og and Sion and all of those species that are saying, **No, you will not pass**. He is going to be their king, he is a king now but he is a king that the prisoners have taken control over. He will be back on his throne, he is getting caught up to his throne, we are getting caught up to the throne of God, that is what we are getting caught up to, and from that position, that reestablished position of the regenerated Adam in you and in me, restored to Beriah, the world above the astral plane, he will take authority over the astral plane, and he will have the power and the authority, he will have both, remember there are two kinds of power, the dunamis power which is raw power that you do arm wrestling with, and the exousia power, those are Greek words, the exousia power which means the power of authority.

Remember the example that I gave you, a president, the president of the United States for example, he can send an atom bomb somewhere by picking up a telephone and saying, I want you to do it. The atom bomb loads to the plane and the plane takes off, and the pilot drops the bomb. He never even did an arm wrestling thing, all he did was pick up the telephone, that is the power of authority.

When Adam in us is restored to the world of Beriah, he will have that kind of authority over the astral plane, the astral plane which is causing the aches and the pains, which is causing our emotional distress which is causing any other distress we are experiencing.

The Scripture teaches us as we studied, when we did the studies on Samson, we found out that the Scripture talks about that lusting woman, it is our soul brethren, it is our Nephesh that is never satisfied, that woman that is always crying, she always needs to be comforted as typified by Delilah, ***always give me, do something for me, do something for me, give me, love me, help me, feed me***, that Nephesh in us will finally be satisfied when the intellectual soul which is male to that spiritual woman inside of us. When he ascends into the world of Beriah, he will have the power to satisfy the rest of his being because all of this is going on inside of us. Are you following me? Okay.

That is what we are getting caught up to, that is what the catching up is all about, it is caught up to the throne of God which is in the world of Beriah, which is Adam. Adam himself is the throne of God, because the principalities that represent God to us that are in the world of emanation, are going to sit or be attached to Adam of the world of creation and that is the connection. The world of Adam Kadmon is connected to the world of emanation, is connected to the world of creation, is piercing through that astral plane and connected to us down here satisfying our every need with a godly satisfaction.

That is what we are being caught up to, okay so you wondered about it, so we talked about that, we talked about the reconciliation of the teaching of the Adam of the cerebellum, and the Adam of the heart center, the Adam of the heart center is a reflection of Adam who is escaping from our cerebellum.

This was all a review, this is what we have been talking about, so we are going to go, let me see if there is anything else I want to tell you, I will take a quick break and then we will go on with the notes for those of you who have printed out your notes or who are looking at them on your computer, we will be starting with, these are the notes that say, ***Unveiling The Tree Of Life - Part 3***, and we will be picking up with #57 on page 7, and what all of these numbers are brethren for your information is simply this, when the Lord gave me this revelation it was so intense that all that I could do was write down phrases that were coming into my mind, and this is what came out of it, all of these items that came forth as the Lord was giving me this revelation.

When I did part 3 of this message, my exhortation at the beginning of the message, and I think that came forth last Sunday if I am not mistaken, my exhortation covered all of these numbered points, and then when I started commenting on each of the numbered points, I realized that I had really brought it forth in the exhortation and that I would just be expounding further on these points, so brethren that is what we will do. Are there any questions or comments at this point? If not we will take our break. I do not know if I will be able to finish this, but I just do the best I can, the way things have been going, from one message to the next I do not know if the Lord is ever letting me go back. It is where I left off because there are several messages that I just got back to. Anyway, this is basically a review or for you, and maybe even for me. When I preach to you I get the message stronger in my own spirit. We are picking up on page 7 of your notes, #57, well I guess you have to go back to #56 or you will not know what I am talking about.

#56. The Father marries us when we penetrate into Christ and I made a correction on your notes and it is not accurate to say that we penetrate into Jesus, we penetrate into Christ, where Jesus is waiting for us. Just to remind you where Jesus is ascended to, the glorified Jesus, and again this is all a review, all of this is on the previous messages.

How do I make this brief, the Nephesh of Jesus, the personality of Jesus, the aspect of soul, now I am talking about Jesus of Nazareth now, the aspect of soul that is in the blood, the life of the flesh is in the blood, the personality is associated with the Nephesh level of soul. Jesus of Nazareth, the Nephesh of Jesus of Nazareth is now ascended and joined to the Neshamah of Elijah, you may recall, and you may recall that Elijah ascended to Heaven before Jesus did, right I hope you all know that, Elijah ascended to Heaven in a chariot of fire and horses and Elijah descended from Heaven to incarnate in Jesus of Nazareth. Then the Neshamah, Elijah was the Neshamah, remember the Neshamah is the level of soul associated with the regenerated Adam.

Elijah, the reincarnating Elijah was the Neshamah or the regenerated Adam within Jesus of Nazareth. That Neshamah married the Nephesh of Jesus of Nazareth. We are talking about union of aspects of soul, hip bone is connected to the leg bone, that is what we are talking about, the union of aspects of soul, because all five levels of soul eventually will be unified, they will be one soul, there is not supposed to be any division. All five levels of soul will be tied together.

Brethren that is the definition of a Nephelium, there are good Nephelium or righteous Nephelium and there are evil Nephelium, the definition of Nephelium is a person who has all levels of soul tied together functioning as one force, as one intellectual force, as one spiritual force, as one mind. Brethren, we see this principle manifesting in our world today, what principle? The principle of tying all forces together to produce a super force. We see this principle in science today brethren.

Our scientists today are looking for a scientific theory that will combine all of the forces of nature which would be controlled by the fallen mind of mankind. Brethren that will never happen, that will never be allowed, but that is what our scientists are looking for today, they split the atom, they had the hydrogen bomb, they had you know all of the theories that came forth from Albert Einstein and beyond, string theory, M theory, and they are looking now for the one theory that is going to tie all of those theories together, each theory discovered by man gives man more control, this is our scientists want, control over nature.

Various scientists have discovered various theories, or, I do not know what the right word is, because if it is not a theory, once it starts to work it is not a theory anymore, a spiritual, a scientific principle that imparts power over nature to man. That is how we have the lifestyle that we have here in the west anyway, all of the benefits that we have of modern electronics and power. We see what the principle of the Nephelium is manifesting in our western society which is looking for this ultimate power over nature. We are looking, our scientists are looking to produce a national Nephelium. It will never happen because what is behind this is the spirit of Cain. As I explained to you, well maybe I should go over that today.

What I explained to you all on Thursday, this is very important, an understanding, so far as understanding what is happening in these last times, and the Lord brought a correction to what I was preaching last Thursday, and I would like to repeat that for you, this correction that the Lord brought to me, it is a deeper understanding. One of the most recent things that I was preaching to you or the way I was preaching to you about the end times was something like this, Jehovah, He does not want to destroy humanity. His first goal and His desire is that Adam should stand up in full power and bring, and by the power of his mind influence all men to repent and become peaceful. Either that was going to happen or the sowing and reaping judgment would wipe out mankind as it did in the days of the flood, because the Lord would never allow humanity to be indefinitely and

completely controlled by Cain. That was what I was teaching, and as of Thursday this was the more less refinement of that, that came forth. It is really much, the reality of what is happening in our world today is really more significant than that, and this the reality of our world today, brethren, humanity is Adam's ox, the human part of us is Adam's ox, our physical bodies and the Nephesh aspect of soul, our personalities, and we were created to be a house for spiritual life.

Paul clearly said we have an inner man and we have an old man and we have a new man, we are created to carry spiritual life. The reality is that there are only two aspects of spiritual life that we can carry, we are created in a particular way to carry a particular form of spiritual life, and there is only two possibilities of who we could carry, and one is Abel, and the other is Cain, and Abel is the root of the whole tree of life, and the whole kingdom of God that flows up out of his root, and Cain is the root of the kingdom of darkness and the Serpent and that ugly tree that grows up out of that root.

There are only two spiritual men that are equipped to ride us, one or the other, and when we reject the mind of God and when we reject the morality of God, the ways of God, whatever degree we are capable of understanding it at the moment, which is happening in the western world, now it is happening in the Christian world right now, the basic Christian principles are being trashed, seriously trashed and rejected by the majority of the people, and I say that because I look at what is happening to Europe and I look at what is happening in this nation, I do not know what is happening to Christianity in the 3rd world, I do not know, but I would not expect it to be radically different, but if it is radically different, that has to change eventually, because Adam is falling. Fallen Adam was raised up by God through the Christianity that came forth in Great Britain and the United States and was spread to the 3rd world, and Africa and Asia and to some degree India.

This level of Christianity that is in the world today, it came forth as the fruit of the honoring of Jesus Christ. The greatness, wherever you see greatness in the world today, it came forth as the fruits of honoring Jesus Christ or a nation that was helped by a nation that was great because we honor the laws of Jesus Christ, the righteousness of Jesus Christ.

The people have not been particularly spiritual, but the government, the law under which we live has honored the laws of the Scripture, I should have been saying the laws of Jehovah, I am sorry, the laws of the Scripture.

As the western world, as the Christian western world turns against the righteousness of the Scripture and the laws of the Scripture, by that withdrawal, whether we know that we are doing it or not, we are embracing Cain, because there is only one of two inner men that can be living through humanity, and we cannot exist without an inner man.

As we reject the righteousness of God as manifested through the root of the tree of life that is in us down here which I am calling Abel, as our nation, it does not have to be you personally, but our government and the governments of Europe, and again, I do not really know what is happening in Africa and India right now, but just by the way things go, it would follow because the righteousness of Jesus Christ started in one place and it spread out to the world and then the fall is starting in the same place and it will eventually spread out to the world, that is the way it works.

By withdrawing from the righteousness of God, we are embracing the unrighteousness of Cain and there is no other way it can be, we cannot withdraw from the righteousness of God and be neutral, because there is no such thing as humanity being itself, either we are manifesting Christ, or we are manifesting Cain. That is the reality of our existence.

As the powers of Christianity in the world today withdraw from this righteousness, mankind becomes more and more evil, because we, the outer man that you see, we are not what it is all about, it is our inner man, it is our inner man, that is what it is all about. The evil that you see coming in the world today, it is more than the sowing and reaping judgment, it is a withdrawal from righteousness that automatically produces unrighteousness because there can be no vacuum in nature, we cannot be empty. We are withdrawing from righteousness and we are being filled, except those of us that are resisting and standing before God in general, what has been the western world or the Christian world is becoming filled with unrighteousness, and it is not, well you can look at it and say it is the sowing and reaping judgment but it is more than that. Can you hear what I am saying, am I making any sense at all, we have to be either Abel or Cain, we are either one or we are the other.

When we reject Abel, we become Cain. All of this evil that we are seeing in the world today, this is Cain, this is the nature of Cain, this is that man of sin that is taking up residence in the minds of Christians everywhere and is manifesting in the United States government right now and actually, it did not happen overnight, the unrighteousness in the government did not happen

overnight brethren but it is at a high point, now it is really obvious what is going on now, but the elected representatives of this country do not care anything at all about what their constituents want.

They were elected, they have the power and now they are going to do whatever they want to do. They are thieves, they are thieves, they have stolen power that was given to them in trust. It was a representative power that was given to them to represent us and they have taken what we gave them and they have robbed us, they are robbing us. Cain is appearing in this world, and all of the nations that were always Cain, North Korea with its atom bombs and Iran with its atom bombs, all of the aggressive nations that are war like nations that are seeking to destroy peace and destruction, they were always in the nature of Cain, and Great Britain and the United States and other European nations at one point stood against the nations that were in the nature of Cain, and the United States is the last nation as far as I know to stand against the unrighteousness of Cain as a nation in the world.

I do not know about the American people, I am hoping it is not true of the American people, but our government and our president is selling us out wherever he goes. Cain is appearing, Cain has appeared in the government of the United States, has appeared in the governments of Europe. Denmark is really for some reason right at the forefront of unrighteousness, very interesting, Denmark was founded by the descendants of Dan which is an important tribe.

Dan, the prophecy about Dan is that he is judgment, he is supposed to be judgment, righteous judgment I would assume, but he is right in there today you know with the nature of Cain. This is what happened on the other side of the flood. All of the beings on the other side of the flood were the descendants of righteous Seth, and then one day, they were righteous and then one day they were evil, they turned, their nature turned from righteousness to unrighteousness.

We read in the Scripture, we read in the New Testament, talking about Jesus, it says in Him there is no shadow of turning, there is no possibility of Him turning to His evil side. In the Old Testament, Jehovah says, ***I am Jehovah, I change not***, that is the same thing, He says, ***I do not change from good to evil, I do not change, I stay good, I stay righteous, and for that reason***, He said, ***Israel is not consumed***. Everybody that cleaves to Jehovah, you can stay righteous in the midst of the greatest unrighteousness. That is what that means, ***I change not***. It does not mean

that He loved you and now He does not love you anymore, well it could mean that, but that is not what it means.

You can apply all of these other explanations to it but that is the foundational meaning, ***I am Jehovah, I change not, I do not turn evil, I never turn evil, you can rely on me, I never turn evil. If you are looking at the god that turned evil you should know it is not me, I do not turn.*** If you think God is telling you to do evil, you should know that it is not Him, He does not tell us to do evil, He does not tell us to do immoral things.

Here is where the sowing and reaping judgment comes in, if it goes so far that the nature of Cain takes over this whole world, then the sowing and reaping judgment will come in because the Lord will not allow it, He will not allow humanity to turn into a race of monstrous people where a small handful of people are empowered and the rest of the people are slaves, and tormented and who knows how bad it could get, if that would happen. We have seen tyrants across the world, we have seen people in concentration camps, we have seen what man can do to man. Man can become quite evil, and at some point Jehovah will knock it out. He did that with the flood, He said, there will not be any more flood. There will be fire, but I believe that the fire that He is talking about is the judgment which will raise up Christ Jesus in the people.

That is what I believe but just to summarize what I just said to you, it is not really accurate to say that Jehovah is bringing all of this destruction on the world as a punishment, He is definitely not punishing us. We brought it upon ourselves by choosing unrighteousness, we have chosen Cain, by rejecting righteousness, we have chosen Cain, it is not God in anyway punishing us.

#56. The Father marries us, who is the Father, we learned on Thursday, the Father is the level, if you want to look at your exhibits here, exhibit F, you can see that the highest Sefirah that at the top of Adam Kadmon just before he interacts and literally becomes one with the Ayn Sof, the unlimited one, that is the level of the Father, He is wisdom, His attribute is wisdom. The level of the Father which is the highest level of Adam Kadmon, the primordial human, the highest level when you go higher than that, Adam Kadmon is emerging with the Ayn Sof, it is wisdom, and this is the Father who wants to travel through this line, from this spiritual height, will travel all of the way down and nest Himself in we human beings, the Father wants to dwell with us.

The Father will not dwell with us without His son because it would destroy us. The Father dwells within the son, these are all spiritual layers within us brethren, the Father dwells within the son, and the son is in us, is within us and then we do not get fried, we get blessed, we would be electrocuted so He does not come into us without the son, because the son standing between the Father and us, protects our lives and is a filter through which the power of God that comes from the level called the Father, can be a blessing unto us.

This is why so many people believe in the Father but they do not believe in the son, they may have a lot of spiritual truth, they may have a lot of knowledge. I agree with a lot of things that the Jehovah's Witnesses say, not everything, but in some areas I agree with them rather than the Pentecostal church. The Father will only go so far, if the person is not, if there is not prepared within the person an insulated area called the son, the Father will not descend into that person because it will kill you.

They may have the knowledge, their doctrine might be true, but brethren what good is the doctrine, we want the experience right? I do not know about you but I want the experience. We have to have the whole truth to whatever degree we can comprehend it at the time, or whatever the whole truth is for this age because the whole truth is infinite brethren, our mind at this stage cannot comprehend the whole truth, but there is a truth for this age, or for this day, or for this hour, and I believe that it is being preached here.

To whatever degree the Lord will equip us or permit us to comprehend it, I want it to be more than a doctrine, I want it to happen to me. Maybe another group of people, they may have some truth that I do not have, I want all of the truth that I can get, but the issue is not who is right, the issue is not who knows what, the issue is are we traveling along a path where we are having experiences coincidental with the doctrine that is being fed to us. If we are not having the experiences, then the doctrine is just itching our ears Paul says, making us feel good, **wow, what a wonderful revelation, yeah, a revelation**. I enjoy the revelation but it is not enough, it has to play itself out in me.

I do not know about you but I am so excited, I know where I am being caught up to. I am being caught up to a position, a spiritual position where I have authority over the entities in the astral plane. I do not know whether I will go back to these numbers or not, but I am just going to go with the Lord,

brethren, I was reading the Zohar this morning and I read something that just fascinated me.

It was talking about the elements that were contained in the tabernacle that was created in the wilderness, the actual creation of the tabernacle, and the elements within it, and we are told, I think it is pretty obvious according to the Scripture that, I am not going to say it that way, let me say it another way. The suggestion in the Zohar was that no human hands touched anything, the objects or the material that the tabernacle was made from, and it relates it to what we read about concerning Solomon's temple, that every stone, every element of the building blocks of Solomon's temple was prepared elsewhere. There was no hammer heard by the temple in Jerusalem, and the writer of the Zohar is comparing that to the tabernacle in the wilderness, and he is saying there is a significance, a spiritual significance behind this, that the Hebrew word is suggesting no human hand, no human tool was put on this building material. How could that be? The answer is that an insect, this is in the Zohar brethren, an insect prepared the material, an insect did it, a stone cutting insect prepared the building blocks or the material.

Do you know what I think that means brethren? We know about spiritual insects here. The Lord revealed spiritual insects to us, do you remember that? There are spiritual insects, intelligent spiritual insects that live and dwell in the astral plane right? Right, that is why the Hindu gods, Kali, she has six arms because she is an insect, the Hindu god Kali is an insect that dwells, and intelligent insect that dwells in the astral plane.

Remember all of these species in the astral plane, they are more powerful than the best of us down here, that is why we need a savior right? Right. What that said to me that I read in the Zohar, this one little phrase stone cutting insect built the temple, and the tabernacle. I will get this out, just bear with me, I will get it out.

What this said to me is that the living God, Jehovah, He utilized, He has authority over the astral plane, Jehovah has authority over the astral plane. Why does Jehovah had authority over the astral plane, where is Jehovah in relation to the astral plane? Jehovah is the name of God that is associated with the world of emanation.

Remember that the Sefirah are vessels that contain the light or the power of God. We are worshiping the light of God, the essence of God in the vessels, we do not worship the vessel, so Jehovah is the name of God, the name

Jehovah is the identification of the essence of God that is associated with the level of mother in the world of emanation.

Remember the Ayn Sof, the power of God, He is stepping down, He is getting closer and closer to creation so that He can relate to us, and the way He is stepping down is that He is wrapping Himself in these vessels called Sefirot, which darken His light because too much light will blind us and destroy us.

There is a level of light of God called mother, there is a Father which is wisdom, there is mother which is understanding, and they both exist in the world of emanation, and Jehovah is the name of the essence of God that is associated with the level called mother of the world of emanation. Jehovah would then have authority over the world below. What is the world below the world of emanation? The world of creation, right, and what is the world below the world of creation? The world of formation, right. The insects are in the world of formation, that is the astral plane, the world of formation, so Jehovah is two worlds above. The world of emanation where the spiritual insects are. I believe what that means in the Zohar is that Jehovah reached down and took authority over these entities in the astral plane, and that they built the temple. I am going to try and cut this down, I am going to try and make this slow because there are a couple of spiritual principles, I am going to take it one thing at a time. Are you following me with this?

Jehovah, the essence of God that manifests from the world of emanation took authority over a species, we do not know how many insects were involved, took authority over a species, two worlds below called insect, the name of the species is called insect and He drafted them to build the temple and the tabernacle. Are you following me? Okay, now how could this happen? How did they do it? Brethren everything in this world, everything, from our physical bodies to this table to this telephone, to this camera, to the rug on the floor, everything in this world is a reflection of something that exists in the world above. There is nothing in this world, this world is a picture, this world is a tapestry, it is a woven work which is a reflection of what is going on in the world above.

There is nothing that exist in this world that does not have a root in the world above, there is nothing that exists in this world that is not a reflection of something that exists in the world above. The way you build a building or a tabernacle in the wilderness without hands, without laying a tool on it, when you have the spiritual authority to do it, the way you do it, is you have it built in the world above, and then it has to appear down here.

Everything that exists in the world above is reflected down here. Jehovah drafted this group of beings called spiritual insects, and influenced them with an influence they could not resist, because they are evil, and they built literally built the temple and the tabernacle in the astral plane and then it appeared here below. Does that sound crazy to you? Brethren are you going to be spiritual or are you not going to be spiritual brethren.

I told you, not everybody listening to me, but I told the group, whoever was listening to me or whoever heard the message, this has to go back five or more years, someone brought back a video to me made by a Christian ministry, they brought it back from Nigeria, and it was a very powerful video.

It was explained to me that, and I believe it that it was a Christian, a legitimate Christian ministry, when I say legitimate, I mean with the Spirit of God on it, but that there is a problem with witchcraft in Africa, a degree of the problem that many of us here in the west do not see. It is necessary as the Lord would raise up some Christian ministries to deal with that level of witchcraft, and this was a Christian ministry who made this video to deal with Nigerians who were very steeped in witchcraft and the Lord was intending to deliver them, so you have to meet people where they are.

If people need deliverance from witchcraft, you have to talk to them about witchcraft, you cannot tell somebody that is bound by witchcraft that they should just leave at the door and go on with no explanation, with no ministry to their mind or their spirit to get them out of it. This man brought back this Christian video from Nigeria, and it was all about levels of witchcraft that were operating in Nigeria and that a lot of Nigerian Christians were believing and were bound with.

One of the issues that has fascinated me for years, and I have even seen the principle I am going to describe to you, I have even seen it in other areas beyond this movie, and could not figure it out, and now I got the answer. This video, it started out taking place in the spiritual realms, let us say in the world of formation, in the astral plane, or in hell, I think the way they presented it, was that it was in hell, and there was this male demon and this female demon that decided to go down into the earth to destroy a couple of people, a couple of Nigerians who had become Christians and were trying to lead a Christian life, and when they descended into the earth, as they descended into the earth, there just appeared a whole building, a whole building just appeared. Not only a whole building, but a whole lifestyle.

In other words, actually the building was a church, and the man took the role of I think he was a Catholic priest, and all of the neighbors thought that he had been there forever. These two people, these two demons, they decided to descend into this world, and as they descended, the environment in which they would live just materialized, a house, a neighborhood, neighbors, people who knew them, the woman went to church and all of the members of the church knew her as if she had been living there for years.

At the time, I had gone before the Lord and then when they left, they left the same way, the house just folded up and it was gone. None of the neighbors missed them, nobody knew that they were gone, and that fascinated me. The Lord explained it to me at that time that the minds of the people of this world, brethren, it is just like the matrix, we are living in the matrix, that when a higher spiritual power than the powers of this world wants to do that, the minds of the people which were on the level of this world just fall into place.

When people from the higher spiritual world appear, the minds of the people that are on the level of this world, just follow through as if they were always there. When the entities of the higher world depart, the minds that are on the level of this world just forget about them.

I do not know how true it is, but I am told that when you have cattle and the season for all of the calves to be born, and the person who owns the cattle takes all of the calves away, I was actually on a farm once, the cows were just mooing and mooing and mooing, and I said to the woman who was hosting me, ***What is going on?*** It was touching my spirit, the whole heard was just mooing and mooing and mooing. The woman said, ***Well they just thinned out the heard, they just took their calves.*** I said, Oh my goodness, these cows are crying for their babies or calling for their babies, and my host said to me, ***Yeah but they will forget in a day, it does not go on more than a day or two, and they forget about them.***

Brethren, that is how we are compared to these entities on the higher plane. When they descend into our lives, people on this plane just adapt, and when they forget they were ever here. That is our condition brethren, you need to know what our condition is. I got my answer from the Lord on that, but the answer that I did not get into til today was, how they got the building to appear, a building, a car, clothing, a fully equipped house, that I could not understand until today.

It was built in a higher world and then it just appeared. In the same manner brethren, when the regenerated Adam returns to the world of creation and is reestablished there, this world is going to be restored to its condition of goodness and the evil will just not even be a memory, is that not what it says in the book of Revelation, **Behold I make all things new**. You are not even going to remember what it was like before, that is what the Scripture is talking about, we are not even going to remember what it was like because our minds will be influenced, no longer influenced by the astral plane, and the evil in the astral plane where we have to fight to be good, but we will now be influenced from a higher world, from the world of creation which is in submission to the world of emanation, which is divinity. We will be so radically changed, **Behold I show you a mystery**, we shall be changed from above, and we will not even remember the sins of our youth. Behold, I show you a mystery brethren, we shall all be changed, hallelujah. Brethren, that was powerful, that was prophetic, if you have not figured it out by now, that was prophetic! Wow, wow!

#56. The Father marries us when we have to penetrate into the center of Christ. What I have written here is the Jesus center. What I am trying to tell you is that when the regenerated Adam in our cerebellum passes into our throat center and stands on the olives, we will be in the center, I changed from Jesus center to the Christ center, actually it is the throat center. That is where the Father, I just showed you where the Father was if you recall, He is the highest level of Adam Kadmon, He is coming all of the way down from this level all of the way down to where we are, and remember brethren, this is the metaphor but it is close enough for the condition that our brains are in right now, He is coming in through our crown center. This is the Father and He is going to meet us right in the throat center, where our Nephesh, the frail lowest level of our soul that is in the blood, is going to be surrounded by the Neshamah, the regenerated Adam, and other layers that will be surrounding us and the wisdom of the Father is going to descend right in the middle, and we will be fully prepared to be blessed by it and not destroyed by the descent of the Father into us. That is the marriage, it is the marriage between the regenerated Adam in us and the Father who descends into us, and in this marriage is the re-connection of the spiritual nervous system of Adam Kadmon, and we are a cell in His body, and at that moment, I do not believe it is going to be a moment in time, but at that event that is our entrance into eternal life, reconnected to eternity, we become a part of eternity as it exists within Adam Kadmon, primordial human.

That is where the marriage is, and also when the Scripture talks about Messiah and the government will be on His shoulders, that is what that means, not the shoulders over here, the government is in the throat. This throat center is a very powerful energy center, and when the regenerated Adam escapes from Cain and crosses over the sea of spinal fluid and stands on these two olives and is joined from the power, from the eternal worlds, the person that has this experience will rule from his throat center, he will speak words of authority and great wisdom. When it says the government is on his shoulders, that is really what it is talking about. It means the consciousness of that person has made it into the center of their throat and reconnected to the higher world, that is what it means, the government will be on his shoulders. Messiah or Moshiach as the Hebrews say, as the Jews say, will be a human being that has this experience.

#57. When the marriage is accomplished, the wisdom of God which is the highest degree of Adam Kadmon becomes permanently bound to our earth, and then we become a ladder or a connecting tube between the worlds of Adam Kadmon and Asiyah, this world of action, so that our consciousness can ascend up into the world of creation and the entities, the principalities of the kingdom of God can descend into our world if they want to.

When Abraham looked and he saw those three men, he knew that they were angels, it says he was sitting in the door of his tent, brethren, this physical body is the tent of our inner man. Abraham was seeking God at the moment, and he saw three angels materialize. He was the door, Abraham was the door that these three angels in their spirit form passed through and materialized outside of him. Are you all following me, Abraham was the door, he was the door, that three angels in spirit form, they had no form, they had no body, they were spirits, Abraham was sitting in the door of his tent, his consciousness was in this physical body which was his tent seeking God, he was open to God, and he became a ladder, and three angels descended from a higher spiritual world, they descended into this world through Abraham. In the Matrix, they had to do it through a telephone.

Three angels, as Abraham sought God, passed into Abraham's consciousness, into his physical body, however it works, I do not have all of the answers, God knows, and these three angels, these spirit beings materialized outside of Abraham, and he saw them, he looked up and he saw them, it passed through him. Some you may recall that years ago, I do not know how we got into it but we were talking about, it was a deliverance message, we were talking about demons and then someone experiencing, I

think it was a movie, or I do not know where it came from but I can even see it my mind's eye, but I cannot recall any more information, it was about a man who was in bed and a leprechaun appeared to him on his window sill and spoke to him, and I told everybody at that time, that leprechaun came from within him, that leprechaun was in his own mind and it materialized outside of him and spoke to him.

It is the same spiritual principle whether it is from the kingdom of God or the kingdom of darkness.

Abraham was seeking God and he became a door, and those three angels in spirit form descended in him and materialized outside of him. The incident that I am talking about that happened years ago was that the man was in bed, whatever he was thinking about, and the leprechaun appeared to him, and something came down from the astral plane and he was the door and appeared across from him. It is the same mechanism whether it is the kingdom of God or the kingdom of darkness, it is the same mechanism.

#58. Adam within us ascends up this ladder and is reestablished in Beriah, that is what I have been talking about today. Once we marry the Father, once Adam gets across the sea of spinal fluid, stands on the olives and marries the Father and this ladder is established, then Adam ascends up the ladder and is reestablished in Beriah, the world of creation.

#59. The reinstated Adam is the king of Beriah, the world of creation, he rules over Beriah, the world of creation, Yetzirah, the world of formation, and Asiyah, the world of action. Adam Kadmon dwells in the midst of king Adam, Adam Kadmon, primordial human, dwells in the midst of king Adam, Adam of the world of creation.

Remember I told you this morning, there are multiple Adams, Adam exists in some form on every world. Just like you can go from here to France and you will find McDonald's, (laughing), Adam exists in some form on every world. The main guy is Primordial Adam, Adam Kadmon and everything else is inside of him, all of creation is inside of Adam Kadmon. In Him we live and move and have our being, and Adam Kadmon is in the midst of who? Adam Kadmon is in the empty space that is in the midst of the Ayn Sof, the unlimited one.

#61. Jacob received the red and the white zygote of Adam Kadmon, and well I preached that on the earlier message that, this is going back to Jacob. What

has been happening here is that, three different messages are crossing over, **A SON IS GIVEN**, this message which is, **UNVEILING THE TREE OF LIFE**, and the three messages, I am going back and forth on the three messages because the Lord has been moving on me to get this more accurate information to you. As I have told everybody before, I will tell you again, if you want to listen to the messages in the order that I preach them, please go by the dates because for these last three messages, one was **A SON IS GIVEN**, I do not know what the other one was, I have just been jumping back and forth, I could be on part 2 of one message, then I preached another message and then I went back to the first message, so check the dates, and I suggest that you do listen to the messages consecutively, as the Lord brings forth more and more accurate understanding that we are hearing today, it is a very exciting message what He is saying today. That **BEHOLD WE SHALL BE CHANGED**, it is still vibrating in my heart. Remember whatever is preached, that is what happens to us brethren, so we have every reason to and we should believe that it is going to happen to us, we shall be changed. What does that mean, what is the change? The change is that the regenerated Adam in us is going to be transported safely through the astral plane and reestablished in his kingdom of Beriah, and the very reality of his position will give him and us through him authority over all of the forces of this world and of the astral plane and torture us and hurt and kill us, eventually they kill us. I am on #61, so I am talking about Jacob, going back to that message which I am not even sure what the name of it was, God help us all here. It is **JACOB'S PILLAR, A SON IS GIVEN**, and **UNVEILING THE TREE OF LIFE**. With these three messages, I have been jumping back and forth as the Lord gives me more information. In one of those messages I explained to you that this creation is all about reproduction. Human reproduction is just a metaphor or an example of something that, because it is important to us down here, but from a spiritual or a cosmic point of view, human reproduction is a metaphor or a way by which we can understand spiritual reproduction in high places.

What does that mean? It means we need a male seed and a female seed, everybody knows that, okay, you need a male seed and a female seed to make a baby. In the high spiritual world called Adam Kadmon, he has ten layers of himself, ten vessels within himself, we have a heart and lungs, we have organs, Adam Kadmon has Sefirot, that is what they are called, I do not know what they are, but you can liken them to human organs, he has ten of them, ten parts to himself, and two of his parts are his reproductive parts. We see that it is not at all uncommon in plants that plants have both sexual

organs, some humans have both sexual organs, but it is called a perversion and it is very sad if a human being is born, with both male and female parts but it happens and that person is usually, has a very hard life as a result of it.

Adam Kadmon, he is not human, he is a high spiritual being and he has both male and female parts, so the way the Kabbalists express reproduction on that high spiritual realm, now remember this Adam Kadmon, he is the one who was told, go forth and multiply, you know and fill the earth. That is his commission to multiply so therefore he has reproductive parts, and two of the ten of his parts that we call Sefirah, have reproductive qualities, one is male and one is female. The way the Kabbalists express this reproduction is that his male part, the Hebrew word for that is Yesod, Yesod, the male part, produced a white drop. What does that mean? I do not know what it means, but it brought forth something in a high spiritual realm that can be likened to sperm, and he has a female part, and his female part produced what the Kabbalists call a red drop. What is that? I have no idea, but it is something that we can understand by thinking of a human ovum, and he reproduced within himself, Adam Kadmon reproduced the male and the female, the sperm and the egg, the white drop and the red drop joined with each other and produced one spiritual entity that I call a zygote because in human reproduction when the sperm penetrates into the egg it becomes one cell, the first, the two become one, the first cell of the new baby. When Adam Kadmon became ready to reproduce, his male and his female organs, each produced the appropriate aspect necessary for reproduction and they joined and they became one zygote, one seed that descended into the world below, and the world below Adam Kadmon is called the world of emanation.

The world of emanation came into existence as this zygote that came forth from Adam Kadmon emerged within him and then emerged out of him, descended from out of him and produced the world below.

The baby or the offspring of Adam Kadmon is another world, the world of emanation. That is what I am talking about here on item #6. Let me prepare you for this even further. What I am actually talking about here is going back to Jacob's pillar where we were discussing what Jacob actually received in his spiritual experience on his way to find his wife after he had deceived his father and received the blessing from his father as well as the birthright which he got from his brother, so Jacob now had the right of the firstborn and was headed to his uncle Laban to marry into that family which was the will of his father, that he should go to get a wife to his mother's family, and he fell asleep

and he had a dream and in that dream, Jacob saw a ladder that was connecting heaven to earth and angels descending up and down that ladder. We have a whole message, I preached several parts on it, and I explained to you that what happened during that spiritual experience was that, well I am going to preach this with the correction, I do not remember exactly what I said in this message but the correction to it is, I know what I preached, I preached to you that Jacob had received the seed of the male Adam, that is what I preached to you, that, that was my understanding at that time, that all that we had, we humans, all that we had was the female Adam, and that it was the male Adam in the form of the Lord Jesus Christ coming to marry us so that the whole Adam would be restored in us, and that was not correct, so we have been on this magic carpet ride with the Lord correcting me, so that was not correct.

We have the whole Adam down here, because now we found out that it was both the male and the female Adam that looked into the astral plane below, looking to see who they could take for wives, looking to see which entities they could dominate and control and be gods to, and that both the male and female Adam fell into the waters of the astral plane, and then we were cut off from the life of God because when the two Adams fell into the astral plane, the world of Beriah became a wasteland, and there was no way for the world of Yetzirah which is the astral plane or this world down here, to obtain the life giving energy that comes from God that is intended to, the life giving energy that God intends for us to have that is being channeled from the Ayn Sof through Adam Kadmon through the world of emanation, then it is supposed to go to the world of creation into what is down here, but the world of creation is a wasteland, there is a break in the link, there is a break in the chain. When Jehovah moved to start to make plans to restore all of humanity to the world above, so that life giving energy that comes initially from the Ayn Sof can be channeled to us down here so that we can live and not die, because we not supposed to be dying from generation to generation, the plan of Jehovah, it manifested, it began with Abraham, and Abraham was promised a seed which seed was to eventually manifest itself as Messiah, or Moshiach as the Jews would say, but that seed, it is not just for Moshiach, it is for all of humanity and this is what I told you in Jacob's pillar, I am starting to pass out in the spirit, this happened on Thursday too.

What I preached in **A SON IS GIVEN** was that the seed that Jacob received was the male Adam so that Adam could be whole in him, and then I was telling you that when Adam was whole in him, somehow the manchild would

be born, something like that. This is what I am telling you now, is the correction, and this is the correction, what Jacob received when he had that dream was the zygote, this one spiritual seed that was the unified white drop and red drop. He received the zygote of Adam Kadmon, Jacob received the zygote, the spiritual seed of Adam Kadmon, he received the seed which was his ability to regenerate the two Adams that had fallen into the lower worlds, to restore them into righteousness and to reconnect them to the world above so that the world of creation could be repopulated, and thereby the link that connects the power of eternity to the created worlds could be reestablished. Did I say that okay, I am sorry to go out in the spirit, (chuckle).

I am on #61, Jacob received the red and the white zygote or the zygote that consisted of the red and the white drop of Adam Kadmon which is the regenerated world of emanation. Let us just deal with that, it is the regenerated world of emanation. I think I just, the way I just explained to you was not correct. I am sorry you have to roll with these punches brethren, because I am a student teacher and as I am corrected, you are corrected, so we just have to go with the flow. I just said it to you incorrectly.

Let me go back, initially Adam Kadmon in his first attempt to honor his commission to go forth and multiply and fill the earth, what he did was he produced this zygote from this red drop and this white drop from his male part and his female part, and that zygote emerged to the world below and it brought forth into existence the world of emanation and then the world of emanation, the reproductive parts of the world of emanation brought forth the world below, and I mentioned this to you earlier how one world emerges out of the other world, just as if a woman has a baby and then that baby has a baby and then that baby has a baby, and you have three or four generations, this is how the worlds were formed. Then we humans down here were cut off from the life giving world of emanation because the two Adam's fell into the sea of the astral plane and the connecting world of Beriah became a wasteland. I got that right. What Jacob received when he had this dream was the zygote from the world of Adam Kadmon, just give me a second, I am going to explain this to you, now what I am challenging you to do right now is to take a jump from the theory that I just gave you that just told you how the worlds were born, how there was a white drop and a red drop and then the world of emanation came into existence, I am going to ask you to take a jump from that theory, to the reality that, that what I just described to you is taking place inside of human beings, and it is a condition of soul, it is a condition of soul.

I just gave it to you in some abstract theory, if the world of emanation was born out of the world of Adam Kadmon, and the world of creation was born out of the world of emanation, and the world of the astral plane or Yetzirah was born out of the world of creation and that our world was born out of the astral plane, and that all of the worlds including the lowest worlds were intended to be nourished by the power of God, but when the two Adams, the caretakers of Beriah, turned away from the worlds that are looking to the world above for instructions, they wanted to exercise their own power and they looked down and fell into the astral plane, the connecting link of the world of creation became a wasteland, and the connection of the life giving world of emanation was severed from the world below. That all happens inside of us, that whole reality happened inside of us. Can you take that jump? Because everything that happens in the higher planes must be reflected on the lower planes.

We in our fallen state, are experiencing what happened in the high spiritual worlds with the white drop and the red drop and the birth of all of the worlds. Let me say it to you in another way, just in case somebody is confused, and I am passing out in the spirit, I am getting slain in the spirit, but I can do it, if you see my eyes close, that is what is happening to me.

This is how I want to give it to you, everything that happens in the higher planes eventually plays out in all of the worlds below, but it does not play out in the same way, in this world, it plays out in the form of human beings, in the astral plane, it plays out in the form of other entities, in the world of Beriah, there is no form yet, it plays out differently in each world. The reality of creation for us down here is that there is an image inside of mankind. There is an inner man, in the book of Daniel it is called an image, and it is described as a statue whose head is of gold, and this his body goes into silver and bronze, and we are told that his feet of the statue is of iron and clay, and that a rock is cut out of the mountain without hands, that means no one took a chisel and chopped it out, a rock just went flying out of the mountain and hit that big statue on its feet. This statue is the statue of our old man, it is the image of our old man, who has a carnal mind.

This is my point, I have already explained twice how we wound up down here and how the world of creation became a wasteland and how we are stuck down here, well this image comes from the astral plane because we are cut off from the world of creation, so our old man which is Cain, his head is in the astral plane and his body is down here. Adam of creation before he fell, his head was in the world of creation where he spanned all three worlds.

Adam of creation, his head was in Beriah, and I do not know what part of his body was in the astral plane, and his feet were in this world. The image of Cain that is ruling through us today, his head is in the astral plane and his feet are in here.

That whole image that is described in Daniel 4, of that statue, that is being destroyed because the rock is hitting it on its feet, that statue extends from the astral plane down into this world, and it is that statue or that image that is preventing humanity which is Adam ox, the house or the vessels that this image dwells in from being occupied by the image of God.

We have all of these preachers telling us that we are in the image of God, we are not in the image of God, we are in the image of the serpent through Cain, and our Neshamah, our intellectual soul of God is in communication with Jesus above, but we are suffering down here because we are occupied by a foreign power, we are occupied by a foreign spiritual power, and it is a big statue. What does that statue mean? It means the same thing that I have been telling you all along, it is the hip bone connected to the thigh bone, connected to the leg bone, that statue and the feet is Cain, and attached to Cain is Leviathan, and Satan is in there somewhere, and the serpent is in there somewhere, and Pharaoh is in there somewhere. That whole statue, is signifying the image of the serpent that occupying humanity.

We who are Adam's ox, we are an occupied people, we are occupied by the image of the serpent, and all of the levels of the worlds of the serpent exist within us, and there is this one little part of us which is the resurrected Adam that is in communion with the kingdom of God. This image of the serpent that is manifested through us through Cain has to be brought down so that the image of God can be built up in us.

Now we know how that rock is being cut out of the mountain without hands, because I just gave you the explanation for it. The rock is being cut out of the mountain without hands just like the rocks for the temple are being built without hands. It is happening in a higher spiritual plane and it is merely being revealed down here. It is not being initiated down here, it is happening in a higher spiritual plane that a weapon is forming in this world that is going to smite this image of the serpent on its feet and bring it down. Hold on just a second brethren, why am I telling you all of that? I am telling you all of that because this image that is appearing in humanity, it started in the higher worlds, and it emerged and it eventually appeared down here. When the Lord

goes to take it out, He is not going to take it out from the high place where it started.

He is going to take it out by attacking its appearance in the lowest world and that is what the Scripture means when it says, the rock came from out of the mountain without hands and smote the image on its feet. This is an image that is rooted in a higher world, it is rooted in the astral plane, the serpent in the astral plane created its own, let me say it another way, all of the worlds, *Jesus, help me to make this simple please*, every one of these worlds, I do not know about Adam Kadmon, let us just say the world down here, this is the world of Asiyah, within the world of Asiyah, there is a world of emanation, a world of creation, a world of formation and a world of action, all within the world of Asiyah, then within the world of Yetzirah, which is the astral plane, there is within the astral plane, a world of emanation, a world of formation, a world of creation, and a world of Asiyah. All of these worlds, they are appearing as this statue.

I do not know if I am reaching you at all, and the anointing has gotten so thick, let me just, this statue represents all of the worlds, represents the creation, you might say all of the serpent, this statue represents the serpent's world. The serpent replicated, the serpent counterfeited the true creation, and brought forth an inferior creation, the creation of God was supposed to emerge from the world of creation, and encompass three worlds, but the guardians of the world of creation fell into the world below, and brought forth an inferior or a defective creation consisting of the materials of just the two worlds, Yetzirah which is the astral plane, and this world, and it appeared in this world and this spiritual principle that I just explained to you about an inferior creation, is metaphorically described in the book of Daniel as this statue of Nebuchadnezzar, the statue that Nebuchadnezzar dreamed about with the head of gold. This image, this statue is appearing in us because this world and human beings in general, we are the Sefirah called Malkhut, we are the female Sefirah, the lowest Sefirah, the lowest vessel of all of the worlds, each world has ten vessels with this, the lowest vessel is called Malkhut, it is the female vessel and brethren, I am sorry if this offends you but this is just the way it is okay, female is signified in this instance by the concept of being the container or the vessel that receives, female receives, male gives, male deposits, female receives, we are a receptacle.

Malkhut is the receptacle that receives from the worlds above. This image is descending from the astral plane and it has worked its way down and we are the container, this world is the container, that is why it is a female world, it is

a container, and the feet of the statue are standing in this world. The Lord wants to take it, has to remove this image to replace it with the image, the righteous image of God. Am I getting through to you at all? Are you understanding this at all? Okay.

We are told in the book of Daniel that the warfare against the image is not going to be where the image started from, the image started from the height of the astral plane, the world of emanation or the astral plane, the highest place of the astral plane, that is where the image started, that is not where the attack is going to be. The attack is going to be on the image that has birthed all of the worlds below of the serpent's defective creation of which this is the lowest one, the attack is going to be here within the human being, and that is described metaphorically in Daniel chapter 4 as the feet of the image.

The rock that came out of the mountain without hands is the rock that came from a higher plane, it was not cut out down here, just like the rocks, just like the stones of the temple that no human hand was put on it, because it was created or it was formed, not created, it was formed in a higher world and then it just materialized down here.

We are being told that there is a force, there is a power, that is just going to materialize down here. There is going to be a group of people, a company of people that suddenly they are going to have all of this power, nobody is going to be able to figure out where it came from. It is just going to materialize. Nothing, no tool or power of this world can bring forth the army of God that is about to materialize, because it was crafted in a higher world and it just materialized down here.

This warfare that is going to be directed at the feet of the statue, can your mind translate what I just told you, to me telling you that the seed, the seed of that warfare that is going to, I have to laugh because I am passing out in the spirit, just bear with me please, bear with me, can you translate the theory that I just told you, to the reality that a seed was given to Jacob, okay, because everything that I just told you is happening inside of us. Can you take that jump from everything that I just told you about the statue and the feet and the rock coming out of the wall without hands, being cut out of the wall without hands, that is the statue that is in us, that is the image of our old man, that statue is in us.

The seed that Jacob received was the zygote of Adam Kadmon that would bring forth the world of emanation. Remember how I told you how originally before the guardians of the world of creation you know fell into the astral plane, how that world of emanation emerged out of Adam Kadmon, that same zygote from Adam Kadmon that has the ability to bring forth the world of emanation was planted in Jacob. Can you take that jump from that spiritual theory. It happened down here in this world and the form that it took when that whole story that I just gave you, because everything happens on all of the worlds, okay, so that whole story that I just gave you, when it played out in this world, the way it played out in this world was that a man, a human being named Jacob received a seed that had the potential to bring forth a godly world of emanation in that man, and that seed and that world of emanation that would come forth would regenerate righteous Adam because of the world of emanation regenerates the world of creation, so righteous Adam would come forth, that is the regeneration of Adam.

The warfare is down here in the feet, so that is what Jacob got, he got the regeneration of the world of emanation which had the potential to reestablish the world of creation which is the link between the world of emanation and the created worlds. Did I do it? Okay. Let me see what comes next. What a day! These last few messages have been unbelievable.

We are trying to do #61. Jacob received that zygote made from the red and white drop of Adam Kadmon which is the regenerated world of emanation. The first world of emanation died, the first world of emanation died. When the guardians of the world of creation called Adam refused to look up and submit to the world above but they looked down because they wanted to be gods, and the world of creation became a wasteland, the world of emanation died, the world that had brought forth the world of creation died.

Not only did the world of creation die, but the world of emanation died, and that first world of emanation, that firstborn who is called, anybody remember? The world of emanation is a generic name, it is like saying a woman had a baby, a baby boy, the baby boy's name is John, and then she had another baby boy, and they are both named baby boy, but one has a personal name John, and the other baby boy has a personal name Jack.

The world of emanation is a generic name, it is like saying a baby boy was born, and the name of the first baby, the first world of emanation was? It is a world, it is the personal name of the first world of emanation. It is the world of points, and that world died and there is all kinds of teachings on that, there

is a lot of teaching on it years ago, the world of points. Now there is a second world of emanation coming forth and it is coming forth and it is called, I do not even know what to call it to tell you the truth but it is coming forth in Christ, I do not have an exact name for you right now because I cannot even keep my eyes open (chuckling).

Then this is why we see that principle reflected through the whole Scripture, it is always the second born, the firstborn is always set aside for the second born, always, everything I ever did in this ministry, it is about 21 years old now, started in 1988, however old that is, close to 20 years old I guess, the first of everything that I ever did, did not work out, so it is the second one, the second one always worked out, so it is a spiritual principle, that works out in our lives.

We are back to #16 here, talking about Jacob now. What Jacob received in that spiritual experience was the zygote of Adam Kadmon which is the regenerated world of emanation, the second baby boy, which seed has been genetically transmitted to Jacob's descendants through his genome. This seed that came from the spiritual world of Adam Kadmon was worked into the genetic structure of Jacob, and has been transmitted to his descendants through his genetic structure which is called his genome. The genome is our genetic structure, that means everybody that receives this seed which we are receiving today through the grafted seed of Christ, has the potential to regenerate the kingdom of God within you. What is the kingdom of God? It is the regenerated world of emanation which brings forth in us the world of creation which is the regeneration of righteous Adam, and then righteous Adam brings forth within us the righteous astral plane, what is that? That is a spiritual dimension that is righteous that I have been calling the Spirit of Christ for all of these years, and then the astral plane within us brings forth the world of action which is what? A righteous aspect of this world, which we will call Abel, the righteous conscious mind, and the physical body is only a reflection of the feet of the spiritual man.

The whole image of God is being built in us, and the warfare is between the image of God that is being built in us, and the image of the serpent that is already occupying us. That is the whole warfare, and it is being fought in us in our mind, and in our emotions. Watch your emotions brethren because they will take you out, they will take you out. You have got to get control over your emotions. You cannot live out of your emotions or you will end up in disaster.

Make your commitment to the Lord that you want to live out of the mind of Christ and then ask Him to help you because you will need help. If you get into your emotions without permission from God, I am not saying you cannot have any emotions, only as God permits, you will be destroyed, you will be spiritually destroyed. That is true in this world, also you will be spiritually destroyed.

#62. This inherited zygote is the seed of the mind of God which can be activated through prayer and Scripture study. What I am trying to tell you here, what this number #62 is trying to tell you is this, that the nature Jew who has received this zygote from Adam Kadmon which was interwoven with Jacob's genetic material, they have what the Gentiles do not have, they have something within them, and they will tell you, the Jews will tell you, ***We have a soul that comes from God, we have something that the rest of humanity does not have.*** That is true, they have this zygote, the seed of the world of emanation within them and that seed can be, you see a seed has to sprout, it has to become quickened, so what I am trying to tell you is that a natural Jew, the word Jew, let me correct this also, you may have heard me tell you that the word Jew comes from the tribe of Judah, and it refers only to the tribe of Judah, but there is Israel out there also, and I have been corrected by this course that I am taking from this Rabbi and I am so grateful to be corrected for any error that I have, the word Jew does not come from the tribe of Judah, and he gave me the whole story of how that word came into existence, and the reason is sounds so much the word Jew sounds so much like Judah, is because the two words actually come from the same spiritual root which means, I think it means righteousness, my mind is failing me at the moment, but they come from the same spiritual root and that is why they sound so much alike.

When you look at the two words in the Hebrew, they are exactly the same except for the last letter. I am not, I really should not even be saying what the word means because I do not remember, I will have to listen to the message and he told me twice and I still do not remember. When I say to you that the Jew has this potential to have this ability to have the world of emanation regenerated in them, I am talking about all of Israel, I am not talking about the tribe of Judah, I am talking about all of Jacob's natural descendants, and of course we do not know where Israel is today, except that we think that anyone who would be following this message most likely is a reincarnated Israelite or a descendant of an Israelite.

We do not know where the ten tribes are today. I am talking now about all 12 tribes, not just the people that call themselves Jews, that we know about who are in Israel and the United States, we are also talking about any natural descendant of Jacob, whether you know who you are or you do not know who you are.

You have a genetic potential to have Adam regenerated in you when I am talking about the world of emanation, I am talking about the regeneration of Adam in you, but something has to quicken him. That could happen through the study of the Scriptures, or being exposed to the anointing, but I will get this out brethren, just please bear with me. Non-Jews, we have this opportunity to have the seed of Christ grafted to us and once the seed of Christ is grafted to us, we are pretty much in the similar condition to the natural Jew. We have a seed that can be quickened through the seeking of God, studying of the Scripture or being exposed to the Spirit, but that is not enough.

Whether for the Jew or whether for the Christian, what we have is the regenerated Adam who is under the authority of the astral plane and still disconnected from the world of Adam Kadmon. We see, my point here is that I want to make sure that you understand what I am telling you is that the natural Jew has a potential to be very spiritual and very wise in the Scripture, through the quickening of the seed that Jacob received, because we have a lot of Christians saying to the Jews, ***You cannot have, you do not hear from your God anymore, you cannot have anything to do with the Lord, unless you receive Christ.*** I am here to tell you that the Jews can have the first stage regenerated in them without believing in Jesus. Brethren, I am so drunk in the spirit, are you understanding, am I making myself clear, are you understanding what I am saying? Okay.

The Jews can be spiritual in God, and they can get a great deal from God, without receiving Jesus, but they cannot pass through the astral plane and be reestablished in Beriah without marriage to the Father, which only comes through Jesus. Did I make that clear? Okay.

In the New Testament, we are told that Jesus said to the Pharisees, ***You will not hear from me anymore until you say, Blessed is He that comes in the name of the Lord.*** I have been meaning to look that up in the Interlinear Text, and I have not had time to do it but this is what is on my heart, I do not know exactly what the Interlinear Text says, but that was talking about the government of Israel. Today the 12 tribes of Israel were stateless until 1948

when Israel restored. That was what that meant when Jesus said that, ***You will not hear from me as a nation until you say, Blessed is He that comes in the name of the Lord.*** The Jews lost their statehood.

The average Jew, anyone, the average Jew that seeks the God of the Scripture and prays and seeks God with all of his heart, he will hear from his God, he will definitely hear from his God. Did I make that point clear? Okay.

Let us go on, I am not #63. The regenerated world of emanation within a Jew can regenerate male and female Adam within a Jew, so that means a Jew can be highly spiritual if he seeks his God with all of his heart in the only way that he knows how, his passion for the God of the Scripture can regenerate Adam within him, because it is true what the Jews tell you that they have something that the rest of the world does not have, they call it a soul from God.

What they do not know, is that Christians that receive the seed of Christ have the same thing. Christians who receive the grafted seed of Christ have the same thing. The Jew receives genetically from Jacob. Brethren, there is such a big shaking coming amongst God's people, there are going to be so many people that are going to be absolutely shocked. I got a cd from one of the ministries that we support, and it sounded interesting so I listened to it last night. The Christian, they just think that they are the head of the Jew, and that the Jew, they have to learn about Jesus, and that the Christians are so way ahead of them, and the Jews think that the whole world is going to come under the authority of the law, and they are just both wrong, they are both wrong.

There are going to be Christians that are going to be wailing and gnashing their teeth when they find out that most of the teachers of this high doctrine are going to come out of Israel, the Jews, the religious Jews that know the Zohar and Kabbalah, they are going to be the ones that are going to spread over the whole world teaching this message, because it takes a Christian so long. How long are we studying this message here? It takes a Christian so long, so there will be a few of us, a few Christians teaching this message, but these Kabbalists out there, they are going to be like Paul.

Paul was just instructed for 2 or 3 months and he went off and became the greatest apostle. There are going to be a lot of Jewish apostles out there, teaching this message once they get it about Jesus Christ. There are going to be a lot of Christians that are going to be wailing and gnashing their teeth

when they find out that all of their doctrine is wrong, and they have to submit to the Jews, and there are going to be a lot of Jews wailing and gnashing their teeth when they find out that there are going to be Gentiles or what they consider Gentiles exalted in God's kingdom, because the Jewish teaching is that the Jew will always be in a spiritually superior position to the rest of the world, that they will be the teachers, they are the mediator nation, they teach what the church teaches, they are going to be in a spiritual superior position.

Both of these two columns, they are going to have a big shaking up, their pride is going to be ripped to pieces, for these Jews to find out that at least initially they have to be taught by the Christians that have the message. I am glad the Lord is in charge of this because it is going to be something, it is going to be something to see brethren, it is going to really be something to see.

#64. I think I just explained this to you but I will read #64. The Jew who experiences the activation of the world of emanation which is the mind of God, and the regeneration of Adam, that is the world of creation, still cannot be reconnected to the Father, because Atzilut, the world of emanation above is still unrecognizable to Adam who is disconnected from that world, and he rejects Jesus as the Father's partsuf.

What I am talking about here is, I really cannot go on, it is ten til 5:00 p.m., I do not think I can explain this whole thing. I would have to re-preach a whole section of what I preached previously. Let me see, we have ten minutes to go. The Jew experiences the activation of the world of emanation which is the mind of God which regenerates the world of creation which is the regenerated Adam can still not be re-connected to the Father. I explained that to you because the world of Beriah is still a wasteland, because Atzilut, the world of emanation above, is still unrecognizable to the regenerated Adam in the Jew who is disconnected from that world.

I gave a whole teaching on how in one of these recent messages, on how the world above is unrecognizable to us. Okay the Lord is helping me, on how the world above is unrecognizable to us because we are so fallen down here, even with the regenerated Adam in us, we are incapable of conceptualizing something that we have never, that we do not know. We cannot conceptualize something that we do not know. It is for this very reason that the architect of creation has seen fit to personify the element of Adam Kadmon that is reaching down to us to create the lower worlds. The Lord is helping me, let me expound on that.

Just like I told you there is an aspect of Adam Kadmon and an aspect of that is female, he has an aspect of himself that is specifically designed to reach into the lower worlds to bring them into existence and to form them in his image, in the image of Adam Kadmon, who is in the image of God, and he has been calling to us, Judah has been calling to Israel for years, and the fallen Israel cannot recognize him, because the world of creation is a wasteland in between us and the element of Adam Kadmon that is reaching, that is calling to us across the spans of the wasteland of the world of creation, he is calling to us saying, **Come**, metaphorically, let me give it to you as a metaphor, ***Come into the olives, come step on the olives and I will grab you.*** He is waving at us, he is calling to us, he is trying to get our attention so that he can reach for us and reconnect us to the world of above, and we cannot hear him, we cannot see him because if he is standing right in front of us waving his arms like this, we do not, we would say, ***Who are you?***

There is nothing within us that can recognize this level of Adam Kadmon that is assigned to bring forth creation in the lower worlds. The Father in His wisdom said, ***The way I am going to do this, is that I am going to wrap that element of Adam Kadmon who is assigned to bring forth creation in the lower worlds, I am going to wrap you in a human personality so that when the people in the world below, when Adam in the world below, the regenerated Adam in us, sees that part of me, the Father speaking, when he sees that part of me whose job it is to reconnect you to my world, he will see a human personality and at least he will be able to have Moses' reaction, saying, What is that burning bush, I think I will go over and investigate it.***

I am going to say it again, the Father which is the highest Sefirah of Adam Kadmon, he said, ***That part of me that is designed to bring forth creation and to reconnect those people down there in Asiyah, they are supposed to be reconnected to me and I keep sending forth that part of myself, giving them my hand, saying, Come on, I will grab you, and they will not grab hold of my hand, because either they cannot see my hand or they do not recognize my hand or they are afraid of my hand because they do not understand it, so I think the solution to the problem is that I am going to wrap that part of myself that I am extending into the lower world to try to reconnect to my people, I am going to wrap it in a human personality, so that at the very least, my people in the lower world will say, Let me investigate, and then I can at least talk to them.***

The personality of the aspect of Adam Kadmon that is assigned to reconnect us to the eternal world has now been wrapped in the personality called Jesus of Nazareth. Jesus was now glorified, He was wrapped in the personality of Jesus of Nazareth, He is now glorified, because that aspect of Adam Kadmon that is designed to rescue us, entered into that man, Jesus of Nazareth, and acquired Him, and then that aspect of Adam Kadmon returns to that high place in the Spirit, and took the soul of Jesus of Nazareth with him, took his Nephesh with him. Now Jesus is up in that high place, and He is the one, Jesus is the one that speaks for that high level of Adam Kadmon that wants to save our life.

Is that not interesting, Moses had somebody speaking for him, he has Aaron speaking for him. Jesus speaks for the Father, Jesus said, If you have seen me you have seen the Father. Jesus speaks for the Father. That is why He is the mediator. Let me see how I am going to relate that to what, to my note here. The last part of #64 I said, Because Atzilut the world of emanation above is still unrecognizable to Adam down here in this world, even though he is a regenerated Adam, he is still disconnected from the world above and he rejects Jesus as the Father's partsuf. Partsuf, that is the Hebrew word for personality, it is the word that is common to the Kabbalists, they talk about the Sefirah having personalities.

Let me read you the whole thing. The Jew who experiences the activation of the world of emanation or the mind of God and the regeneration of Adam in the individual, still cannot be, they can experience that, that is pretty high, you know, to have Adam regenerated in you, you can be very spiritual, you can be brilliant, you can bring forth all kinds of teachings, and there is a lot of prolific work going on from the Jews translations of the Kabbalistic works, they are very, very smart, and I thank God for all of the translations that they are doing for us. All of this is under a true anointing. The world above is still unrecognizable to these Jews that have Adam regenerated in them, so that they do these great spiritual works, they still are as human as we are, and cannot recognize that high spiritual entity which is a part of Adam Kadmon which is penetrating into this world to rescue us, they cannot recognize it, and they still cannot recognize it ever since the Father wrapped that part of Himself in the personality of Jesus of Nazareth, the Jews still cannot recognize that it is an element, that Jesus of Nazareth is wrapped around an element of God that has the power to give them what they are praying for everyday.

The Jew has a revelation that they are disconnected from the world of God and that they have got to get back up there, but they think that the way it is going to happen is by doing good deeds. Even though the Jew can have, and this is not every Jew, the seed does not sprout in every Jew, but the Jews that have Adam regenerated in them and they are powerful spiritual forces for God in this world, they cannot be reconnected to the world above, which is our ultimate goal, our ultimate goal is to be delivered from death.

Our ultimate goal is not the message although it is delicious, our ultimate goal is to be delivered from death. To be delivered from death we have to be reconnected to the higher world. No matter how brilliant these Jews are, or how wonderful their life is because Adam is regenerated in them, they still cannot overcome death until they reconnect to the higher world, and they cannot recognize the element of Adam Kadmon that has penetrated into this world to rescue them, they cannot see it, and they cannot see the personality that the Father has wrapped around it, so they are stuck until their consciousness is raised and they can recognize this element of the Father that is here to rescue them.

Before that can happen, although I do not want to say before that can happen, a big impediment to that happening, to what happening? To the Jews either recognizing the spirituality of the aspect of the Father that is in the earth to rescue them, or the personality that is wrapped around that element of the Father which is Jesus, until they can recognize one or the other, they cannot be restored to immortality and as great and as blessed as they are, by the presence of God in their lives, they will die like all men. Is that not what Jehovah said to them? Ye are gods, but you have died, you will die or have died like men. It is in the Psalms, Ye are gods, but you die like men, that is what Jehovah said to national Israel. What does that mean?

Now we just found out what that means brethren, there is such a spirit of revelation flowing these last few weeks, what does that mean, Ye are gods but you will die like men? It means Adam was fully regenerated in you, but you never made it to the other side of the astral plane, you never made it back into Beriah where you would be connected to the world of emanation which is divine life.

He is saying, All you Jews, national Israel, years past, what you had was the greatness of the regenerated Adam in you, but you never made it to the other side of the astral plane, you brought forth wind. What does that mean? All

that you brought forth was spirit and the spirit was great, but it did not save your life.

I feel to say that one more time and then that is going to be it for today, #64. We are talking about the natural Jew, he is capable of having the full Adam regenerated in him, but he will die the death of men, of a natural man because he cannot recognize the spiritual move of God which wants to join itself to him, or the personality that is wrapped around that spiritual move which is Jesus. The reason he cannot see it, that is what I am trying to get out, the reason he cannot see it is because he is so completely focused on this false teaching that doing that Mitzvah which the whole list, I think it is 365 blessings, I do not know, I have to get the numbers right, that positive commandments and negative commandments, thou shalt not, and then things that thou shalt, and I think it is 365, but I am not sure.

I think it is 365 and 248, but I do not know which is the positive number and which is the negative number. They are so focused on their belief that these Mitzvahs, these positive things that they have to do will eventually result in bringing Moshiach, and they say once Moshiach comes, they will ascend with Him, that you cannot tell them anything else.

They cannot see either the spiritual move of God because a lot of them are spiritual people, so if they cannot recognize Jesus, why can they not recognize just that it is an aspect of the Spirit of God saying, **Come this way**, why can they not see it? They cannot see it the hard way, the spirit alone, they cannot see the spirit dressed in a personality, because instead of looking up to the world above for instruction, they are looking down and they are doing the same thing that fallen Adam did.

They are looking down and say, No we know how to do it and it is all about these Mitzvahs, and that is how we are going to ascend, they cannot hear it because they are not looking up brethren, they are focused on what they know and they are looking down, they are doing the same thing that happened in the garden, but this will change.

This will change when it is going to be, I believe it is going to be a Gentile that is Adam is going to stand up in full stature. What does that mean full stature? He is going to stand up and he is going to stand up in Beriah. That is what it means to stand up, and is going to be reestablished in Beriah in a human being that is not, well I think he has to be Jew, but he is not going to, it looks to me right now that it is not going to be, not likely to be one of these

religious practicing Jews, because they think their salvation is in the law, and you cannot break through into their mind, but I think it has to be a descendant of David, so we will see.

When Adam is reestablished, when the Adam of creation is reestablished, and his power, his authority is reestablished over the astral plane, then he will be able to influence the Jews down here in this world and he will be able to call to them and say, **Look up, look up.** The answer is not on your realm of keeping the Mitzvahs, it is something you want to do yourself. I talk to you about that all of the time, you cannot do it yourself, it has to come from above.

You think you are going to be reconnected to immortality by something that you can do, but there is nothing that we can do that will reconnect us to immortality, it has to come through submission to the higher world. Right now they are blinded to it, but they will see again when Adam stands up in Beriah and shines his light from that high place, the Jews will see again, and many now Jews, not just from the tribe of Judah, there are 12 tribes of Israel, that have not, both the Jews that are in the church that have false doctrine and the Jews that are the natural Jews, and whoever else is going to come, it cannot be everybody, I mean I really believe the Scripture says not everybody is going to come, but the invitation is to everyone who wants to come, if you do not want to come, you will just live out your life however that life may be, a good life, a bad life, I do not know you will just live it out and you will die.

The bottom line is this brethren, this is very good news, that Adam is being restored to his throne in the world of creation, and when he is reestablished there and in right relationship to the world above, all of the power of the higher worlds, of the world of Adam Kadmon and the world of emanation, will be manifested through the world of creation to the two worlds below, and evil will be gone, evil will be dealt with and these worlds below will a reflection of the righteous worlds above, and everything that we have gone through in these days, will not even be a bad memory, it will not even be remembered. That is the promise.

I have preached to you while I am being slain in the spirit for at least a half an hour, I think I have done the job, I hope that you have been edified, and I pray that you should all have this experience. Any questions or comments before I go?
