TRANSCRIPT OF MESSAGE #909 – 1 Part

SUPPER OF THE GREAT GOD, JEHOVAH

I have one lead for today's message. I was going to continue on with part two of the message THE WAR TO POSSESS THE WOMAN'S FIRST CHILD #908.1.CCK. Then, as I reviewed the message, I got an understanding of a Scripture that I did not have before, and I wanted to talk on that, which I will. And, well, I took a look at it last night and there is no way that it is a home message. I am really very excited that I got the revelation of what it means when the Scripture says, Revelation 19:21, "And the remnant was slain with the sword of him that sat upon the horse, which sword proceeded out of his mouth, and all the fowls were filled with their flesh." So I got very excited. And you know, sometimes I am listening to my own message, which is very anointed, and I get revelation that I did not have before. So, rather than keep you waiting, I will tell you what that means. I wanted to look at these few verses.

But first of all, I had forgotten until the Lord reminded me last night that the Kabbalists say that the -- when the Scripture talks about a fowl, actually, that Greek word, it means birdling, which would mean baby bird. It is talking about the Shekinah. The Shekinah is the bird of the Scripture, and the birdling, or the baby bird, OK, the baby bird would be like Christ in us. OK? The Shekinah would be the bird, OK, likened to the Lord Jesus Christ, the bird that flies free in the heavenlies, the bird that is not attached to the earth. OK, that is the Shekinah. That is the third degree of power of the Sefirot, OK, the mother who is bringing forth, who is making this creation. She is forming this creation. And the birdling, her offspring, would be Christ in us, which is coming forth from the seed of the Lord Jesus Christ. OK, so the fowls that fly in heaven would be the -- now I hope that we all understand that every aspect of deity that we talk about is a many-membered company. God is so great. There is no such thing as one, you know, one Chochmah. They just

exist on multiple planes of consciousness, many aspects of each entity. OK, hope you will understand that.

So let us think of Binah. And I have not really preached it this way before, but let us think of Binah as a many-membered flock of spiritual birds that fly free in the heavenlies. Now there is a bird on the other side. Everything that I talk to you about exists also on the other side. And what is the other side? The other side is the illegal side of the creation, the creation that came into existence from the union of the snake and the female chromosome of Adam that was being formed in the garden. OK, that is the illegal creation which eventually will be burnt up, and the legal creation is the new kid on the block, because the creation was stolen. In the garden, there was an accident in the garden when the female side of Adam committed adultery with the snake and we found out that the snake is not a physical snake, or for us is not in the form of a snake, but the snake applies to a company of deities, a company of demigods that we call Sophia that came from a very high place in the creation and was actually a previous creation that failed, you know.

So, Sophia, this company of deities and demigods, is the residue of an accident, you see? Because God does not fail. God does not fail. God sends forth the aspects of himself. He calls into existence everything needed to make a perfect creation, and then he says, "Become the creation," and all of the elements that he willed into existence now have a will of their own. And so -- and what has happened, and what happens today, is that those elements that the will of God brought into existence do things that they are not supposed to do, and that is the definition of a spiritual accident. Anything that happens in the spiritual plane that is not the will of God is considered an accident, and then there are consequences of those accidents.

So God willed the creation and he willed mankind to come into existence, and the elements that would produce mankind came into existence: a male, a female, a material substance. Everything came into existence, and then each of those elements have a will of their own. So there was an accident in the high realms of the spirit, which we think took place about at the level of the third degree of power. That is what I am thinking right now.

So we have, you might say, the counterpart of Binah, because I talk about the third degree of power. That is Binah, the supernal mother. The Hebrew word for mother is Ima. You know, so I have been trying to say Ima as long as I have been saying -- the word Binah is the Hebrew word for understanding, and it came to me recently that I really should be talking more in terms of the mother who is bringing forth the creation. But, in any event, she is the third degree of power. She is the Sefirah that encompasses -- she is the border that encompasses the name of God called Jehovah.

OK. Jehovah, he is the God of Israel, and he is the God that is in charge of this whole creation, and he has a border around himself, because if God does not have a border around -- if the name of God does not have a border around itself, it just flows into the -- into, if you want to call it, a sea. I do not know. I do not even know if there is a name for it. God is infinite. He is everywhere, and if he does not take an aspect of himself and put a border around it, it is like a river. OK? You can take the water in a glass and say, "Well, the water in this glass is drinking water. I have purified

it. I have dropped a pill in it and it is purified." The rest of the ocean water is not purified, but I can pour this water back into the ocean, and you would never be able to identify it.

So God is saying, "Well, out of the river of life I have taken this. I have dipped into the river of life and I have poured the water of the river of life into this border that I call the supernal mother, and I am going to call his name Jehovah, and Jehovah with the border that surrounds him which identi- -- which gives him a name. If the essence of Jehovah was poured back into the river, he would not be Jehovah anymore, so it is actually the border that gives Jehovah his name. And the border is called Mother, because this feature of the essence of God in a border called Mother has a function to bring forth the creation, so she is called Mother, if you can understand that.

So, what in the world am I talking about today? This is the third time. What in the world am I talking about today? What in the world am I talking about today? I was -- what was I talking about, anybody? What was I talking about?

Sons of God, the Christ, and [CROSSTALK]

Oh, I started on this Revelation Scripture. That was what I started on. So, yeah, so I was explaining to you what the fowls of heaven meant. Thank you, Jesus. OK. So the fowls of heaven are the manifestations of the supernal mother, OK, whose personal name right now is the Lord Jesus Christ. See? Just like the mother is a border that gives a name to the essence of God in the midst of her, the mother, OK, or the supernal mother as the Kabbalists say, is a very controversial term today for the Christians who are opposed to Roman Catholicism. And even Roman Catholics are talking about marrying who they call the mother of God, who is the mother of Jesus. She is not the mother of God, you know. So Christians do not like that term, mother. It makes their antennae go up. But the Lord gave me a Scripture for that the other day. You know, we know all these Scriptures, but we do not always connect the dots.

In the Book of Genesis, after the woman says, "God has given me another seed," and she gave birth to Seth. And her husband Adam called her the mother of all living. So the concept of a spiritual mother is very much in the Scripture in the Book of Genesis. OK, and we see that. And of course, the Christians will argue, "Oh, that was a natural woman." Well, maybe she was at that stage and maybe she was not, but that principle also exists in the spiritual plane and it is applied to the third degree of power. The first degree is Keter, the second degree is Chochmah, the third degree is Binah, Mother, the supernal mother whose job it is to bring the creation called mankind or Adam into existence, and the power by which she is doing it is the name of God, Jehovah. So Jehovah is the authority, and the supernal mother is the active spiritual agent that does the work. OK? And she does the work on multiple -- who knows? Maybe there are thousands of her or millions of her. I do not know. But I know that she is a company of beings that the Scripture describes as the fowls of heaven.

OK, the -- maybe they are angels. Actually, I asked the Lord the other day, this whole concept of angels with wings, you know. It took me a long time to even believe in angels. For a long time, I could not believe in the angels. I do not know why, but I could not. I prayed about it for years

before I got that witness that there are entities, there are consciousnesses that fulfill the will of God, but we do not know what they look like. Do they really look like humans with big wings coming out of their shoulder blades? Do they really? Do they fly? Will they be -- do they fly in the skies of this world? And I do not mean to be disrespectful. I have trouble believing that, but if it is true, I want to know it. If the Lord will witness to me that it is true, I will be OK with it. But he has not. And I actually had this discussion with him just the other night. Why would an angel need wings in this world, you know, physical wings coming out of his shoulder blade? Would it not be more appropriate that he just had the ability to appear and disappear and travel in the spirit? Are we going to see winged angels literally flying in the sky? You know, and we are told in the Zohar that some of the members of the tribe of Dan can fly. Well, do they have wings? Do they fly? Do they flap their hands? Or does it mean that they travel in the spirit? So I am inclined to believe that it means that they travel in the spirit, and I have a problem believing that they actually have wings that come out of their shoulder blades. But if they do, and the Lord witnesses it to me, I will accept it. You know, and there are good angels and bad angels, so who knows what we are going to be seeing in the future?

So the fowls of heaven, wherever you read about them in the Scripture, it is talking about the Shekinah. And the -- I do not even want to say the parts of the Shekinah, because she is a spiritual entity. So I will just say the many manifestations of the Shekinah. That is the best I can do right now. So she is the free-flying entity of God that is on the level where the Lord Je- -- well, the Lord Jesus is on all levels. The Lord Jesus is the name of God. He is the name of God. Today, the Lord Jesus is the name of God, and he can manifest any of the authority of any of the 10 Sefirot depending on what he is doing, see, or depending on what God is doing through him.

So, well, the point that I am trying to establish is that the Lord Jesus Christ, he is the head of the body. He is free-flying. He is not attached to the earth. So Binah, she is not attached to the earth. The upper triad is not attached to the earth, OK, and her manifestations are not attached to the earth. And her counterpart -- the manifestations of her counterpart are not attached to the earth. And then I was establishing Sophia, her counterpart -- that is how I got into that. Her counterpart, the third degree of power of a previous creation, OK, the 10 Sefirot of the previous creation are called the -- are collectively called the World of Points. The 10 Sefirot of this, that is bringing forth this creation, are collectively called the World of Atzilut, or the World of Emanation. So we are talking about actually two female warriors, both trying to produce a spiritual child.

OK. And we see that principle in the Scripture when Rebecca was pregnant. And she perceived something going on in her womb, so she sought the Lord and she said, "What is going on here?" And the Lord said, "Two nations in your womb, two nations, and the younger -- and the elder will serve the younger." See? Two nations, OK? So the spiritual -- that is a parable, brethren, and the reality is that there are two spiritual women, which is just interesting. I have just -- the Lord just brought to my memory the conundrum that Solomon had when the two women came to him both claiming that the chi- -- there was one child and two women, and they were claiming -- they were both claiming the child, see? And the -- as you may remember, there were two children. Each woman had a child, but one of the children died, you see? And I believe the story there is that there was a famine and the two women said, "Well, we will eat your child today. We will eat

my child tomorrow." So they ate the one woman's child, and then the next day, the second woman refused to offer up her child. I do not know if I have mixed two accounts or not, but there was -- the bottom line is that there were two women and one child, both claiming the child was theirs. So the wisdom of Solomon was, "Cut the child in half." He said that, believing that the mother, the true mother would not -- would want the child to live, would rather give the child up than see it cut in half. And surely, one woman said OK and the other woman said, "No, do not do it. Let her have the child." And Solomon said, "This is the true mother."

But the bottom line for us today, brethren, is that there is one child, and the child is formed out of the material substance that is attached to the female chromosome, OK, of the creation called mankind, which -- it is the same word, Adam. Adam, mankind, it is the same word in the Hebrew. And this is the creation of the supernal mother, OK, Binah of the God World of Atzilut. The creation that she is bringing into existence has a female chromosome that has a material substance attached to it. So she has the child, OK, but there is another woman that wants that child.

So if you can -- can you make that switch? Can your mind make that switch? Can you jump from a single woman being pregnant with two children? Only one can be born first, and the one that is born first inherits everything. The one that is born first is born with the nature of -- well, not now. The one that is born first inherits everything. Can you make the jump from that parable to the spiritual reality which says, not two children in the womb, but two mothers and one child? Not two children, not one mother and two children in her womb, but two mothers, only one barren, who is the one who has no material substance available to her. Why does she not have any material substance? Because she was cut off by Elohim. He said, "No, you have failed and you are not to bring forth this creation, and I have taken your ability to produce the child away from you," and left that woman barren and raised up another woman, OK, which is the God World of Atzilut or Emanation.

So it is Ima of the World of Atzilut that has already brought forth the female chromosome with the material substance attached to it. OK, so she is a fertile woman that has a child in her womb, and the child will produce the nature of the supernal mother, of the God World of Atzilut, which is the nature of Jehovah. But there is another mother, not another child but another mother, see, that is looking with envy upon this child of Jehovah's, OK, and says, "I was made to bring forth a child."

And what we are told in the Scripture that [UNINTELLIGIBLE] Rachel said to Jacob, "Give me a child or I will die." And Jacob said, "Who do you think I am? God, that I can give you a child?" She was desperate for that child. That is Sophia. She is desperate for that child, and she is not just saying it; she means it. If she does not put her nature inside of a child, she is truly going to die at some eternal point, at some infinite point. The word infinite can mean without any end, or so great that you cannot see the end. So the lifespan of Sophia is infinite, but it will come to an end at some point, you see? And her only hope of her life not coming to an end is that she produces a child with her nature. That is the same principle as what happened at the Tower of Babel. "Let us make a name for ourselves, or we shall be scattered across the earth." Spiritual entities must

be attached to the earth, on the earth as it exists now as humanity. If they are not attached to the earth, if they are not incarnated in a person, eventually they die. See?

So Sophia is now barren. What does that mean that she is barren? It means that she is slated to die. Brethren, a curse of God moves to end the family line. Now do not get upset if this applies to you. Just -- you know, but the truth is, if you do not have any children, if you have not produced any children, or if you have produced children that have not produced children, the Lord is putting an end to your line. Now the only -- he is putting an end to your line in this earth. To the people that are serving God in a ministry like this -- and someone just asked me this question the other day. If you are in this ministry and you are not married, and it does not look like you will be having any children, you will be having more children than the married wife. That is what we are told in Isaiah. OK. Isaiah said, "You will be having" -- the Lord said through the prophet Isaiah, "You will be having more children than the married wife, because you will be bringing forth the spiritual child of God. Your job is to minister to God's people who are bringing forth the spiritual child." But in the natural world, if you do not have a child, or if you have a child that does not have children, it is the end of your -- it is the end of the soul that you are -- could you please open that window in the kitchen? It was getting cold, so [UNINTELLIGIBLE] just heating up here all of a sudden.

So, brethren, let me review this principle for you, OK, the principle of the snake. I guess I did talk about it on Sunday. I hope some of you had the opportunity to listen to the message Sunday. OK, I explained the concept of the spiritu- -- of the hum- -- actually, the human snake. OK. In the natural world, a snake sheds its skin every seven years and it grows another skin. And it goes -- it leaves a dead snake skin. If you are out in the desert or the woods, you will find dead snake skins. And the skin goes on with a -- and the snake goes on with another skin. Well, brethren, humanity is the offspring of the snake and the female chromosome of Adam, so we are serpents. Our carnal mind is the mind of the serpent. We are a snake. We are a spiritual snake. That is the truth. And we shed our skins, OK, except that we are the skin. Humanity is the skin of the snake. The snake is the carnal mind. The snake is our fallen nature. The snake is our spiritual -- the spiritual entity inside of us, because we are a dual creation. There is a spiritual man inside of us and a spiritual skin. Cannot really call us a man. We are the skin or the animal that the spiritual man lives in, see?

So it is the spiritual man who is -- which is a soul, OK, that sheds its skin every seven years, only it is not every seven years. By our count, it sheds its skin whatever the lifetime of that person is: 7 years old, 14 years old, 90 years old, 100 years old. The carnal mind, the spiritual man that is dwelling inside of you, will eventually shed you as one of his skins, and the soul that you have is the soul that you received from your parent. The soul is traveling through the earth, staying inside of one human being until that snakeskin dries up and dies and falls away. And when that happens, when that snakeskin dries up and falls away, that same soul is already inside of the offspring of that person, so it just continues on from generation to generation. And this is actually the female side of the first Adam that has an existence. She blended with the snake, and they produced an offspring called Cain, and they are all stuck together: the female chromosome, the snake and Cain. Cain is the extern- -- has produced the external body. And they have been around since

before time began, and they keep shedding the snakeskins, see? So they are the snake. The woman is now joined to the snake, OK, and they keep shedding us as they go from person to person and generation to generation.

So if I could just find out -- remember where I was now. I know I was talking about the Shekinah. I was talking -- I was explaining about Sophia, how there was an accident and -- I cannot really say the first creation, because I do not know how many creations there were, so I will say the previous creation. I know there was at least one previous creation that the Kabbalists call the World of Points, and Sophia was in the third degree of power, Sophia meaning wisdom. OK. So, even in the present creation, the supernal mother who serves Jehovah, she is bringing forth this creation by her 10 sub-Sefirot. Every Sefirah has 10 sub-Sefirot, so it is the third degree of power, the supernal mother. When she wants to impart wisdom, she is moving through Chochmah of her 10 sub- -- it is not Chochmah, the second degree of power, but the Chochmah of the 10 s- -- of the second degree of power of the 10 sub-Sefirot of the third degree of power. So it is -- the two women are the female entities, and both of them in the same place of the third degree of power, one in the God World of Atzilut and one in the God World of -- the World of -- not the God World, but the World of Points, which the Lord has shut down and said, "You are barren. You have failed. You have produced sin. Sin was found in you, and I have removed your ability to reproduce yourself. I will strip you of the material substance," if it existed at that point. I do not even know if it existed at that point. But you do not have access to the material substance that will produce a child that you can get inside of, because you have to be joined to the earth of humanity or eventually you will die. So that is a pronouncement of death upon Sophia: "You are barren. You cannot have a child, and therefore it is just a matter of time until you die."

God does that, you know? He does not always kill you on the spot if he judges that you deserve death. Sometimes he just removes his anointing and lets you die naturally. Sometimes he does that with people; sometimes he does it with ministries. Sometimes he will shut a ministry down like that, and I saw the ministry that I was raised up in just die a slow death. Yeah. First the anointing went, then the people stopped going. Then he could not afford the building anymore. Then he shut down the building. Then he moved into his house, and then he died a slow death. OK.

So can you make the jump? Can your mind make the jump from a human woman pregnant with twins? And the word of God is, "The elder shall serve the younger." Can you jump from there to the spiritual world where there are two mothers and one child, one woman barren and one woman pregnant, and the barren woman jealous of the pregnant woman? Paul was referring to this basic principle when he said that Mount Sinai and, I am sorry, the other mountain, that these are parables. One refers to Hagar and one refers to Sarah. These two mountains, one refers to Hagar and one refers to Sarah. See? Two different nations. Two nations. Two nations, two mothers. Two mothers, two nations. One child. Although Paul would -- in Paul's analogy, there were two children, because Ishmael is the child of Hagar and of course Israel is the child of -- the ultimate child, Abraham, Isaac and Jacob. Jacob was the child of Sarah. But for our purposes today, I am trying to get across to you this concept that there were two mothers and one child, one barren woman, one fertile. One pregnant woman, one barren woman, and the barren

women determined to take the child away from the pregnant woman. And the way she would take the child away from the pregnant woman is by imparting her nature to the child. While the child is in the womb, OK, of Jehovah's wife, the supernal mother, Binah, who today is manifesting to us as the Lord Jesus Christ, the -- her name, her -- I am going to say Mother. What kind of name is that, Mother? Her personal name is Jesus. See? He is the one that is bringing forth young in the earth today. And there is another woman that is barren, and she wants the material substance of the child to impart her nature into it, to literally inject her consciousness into the child and to be born, joined to the earth so that she does not have to die.

Is there anybody that is not following me? This is very deep, you know. This is very deep, and I am going to be -- I was all over the place Sunday, and these messages, they are getting more and more difficult. OK. Do not worry if you cannot follow me. Just try to follow me and let whatever sticks stick, because I am going to be jumping around a lot. Lord, if I could just remember where I jumped from, I would really appreciate it. So what was I going to jump to? Yeah. I said she wants to put her nature into the child or she will die. I gave you that. I gave you that exaltation, and I forgot what I wanted to jump to. Let me just pray again. I am having too much trouble this morning. I do not feel distressed, but I am having too much trouble keeping track of where I am going, so I just break all of these curses in Jesus' name. And I just lose clarity of mind upon myself. Father, please help me to bring forth this difficult message. How can they follow me if I cannot follow myself? I just thank you for your assistance, Lord. In Jesus' name, amen.

So I have explained Sophia to you. I have explained the situation of the one child and the two mothers. OK, now when spiritual women have a child, they get inside of the child. They incarnate in their own child. It is like a caterpillar that spins a womb for itself and then gets inside of the womb. We, humanity, we are houses for spiritual life. It is all about incarnation, and I guess what I wanted to -- if I could write notes for myself, maybe I will remember how to get back there.

It is all about incarnation, brethren. I think I would really rather finish what I started before I go on to that. Let me -- I do not know whether I am supposed to fo- -- I do not know whether -- Lord, am I supposed to follow these thoughts in my mind, or am I supposed to finish what I started? I really, really need help understanding what you want me to do, Lord. So maybe I have just spent too much time talking about this, and the Lord is ready to move on.

So these fowl- -- OK, I see. These fowls of heaven, they are the Shekinah. The fowls that fly are the Shekinah, but the actual translation of the word is birdling, OK, which means the aspect of -- it would be Christ, that part of the Shekinah that is attached to the spiritual child that we are pregnant with, which is Christ. So I just pray that you can understand what I am about to say. Let me say it again.

"And the remnant was slain with the word -- with the sword of him that sat upon the horse, which sword proceeded out of his mouth, and the fowls" -- or the birdlings -- "were filled with their flesh." I am just going to say this outright, and we will see what comes of it. The birdling is the spiritual child that you are pregnant with. The birdling is Christ, OK? There is a spiritual entity inside of you, and he wants you and me to be his flesh. It is all about incarnation, brethren. Will

we be the flesh of the birdling of the Lord Jesus Christ? Will we be the flesh of Christ, or will we be the flesh of Lucifer, which is the name of the child when it receives the nature of Sophia?

They are literally -- now, brethren, you have to be spiritual. Jesus said to the crowd, "You need to eat my flesh and drink my blood." And they left him in droves because they thought he was saying a horrible thing and he was suggesting cannibalism, and they left him in droves. So then you have to be spiritual. Listen carefully to what I am saying. If you can follow me with this message, you are going to be one of a very, very few people that has the guts to receive this message.

We are, all of us, from our outermost point to our innermost physical point, including our organs and however deep this flesh goes, all of this whole flesh body is the skin of a spiritual man. Now in the natural law, skin is just on the surface of all of these organs and everything that is underneath, but it is the whole body is the flesh of an invisible spiritual man that is a consciousness. We are his flesh, see? And there are two women that want us to be their flesh. And one is the woman who created this flesh, although it was stolen and it is now in a form that she never intended it to be, which is the supernal mother of the God World of Atzilut. And her birdling, OK, the aspect of herself that wants to incarnate in the flesh that she formed, is called Christ.

When this birdling -- when this aspect of the Shekinah matures in us, she will join with us, because her name is the Lord Jesus Christ. So everything that I have taught you about Jesus coming down and joining with Christ in us, and then the name changes to Christ Jesus, the Lord Jesus Christ is the name, the personal name of the Shekinah, the one who is making this creation, forming the creation by the power of Jehovah. The sup- -- and she is therefore our supernal mother, or the supernal mother of Adam inside of us. She wants to get inside of us and live her life through us, and the way she is doing it is by putting her seed in us first. And the end of us, brethren, our ultimate experience in this present state will be that we will be consumed by the Shekinah, swallowed up and digested and be born again in another state in which we are very much in our proper place, that is, submission to the male entity inside of us. Now the male entity which is presently inside of us is a female deity, but to us she is male because she is our authority.

Can you hear that? Can you hear that? Is it upsetting to you? Is anybody here upset? Because what I was looking at this morning two hours before I came out here, before --two hours before I came out to get dressed -- it started last night, but what I was looking at this morning was the Hopi prophecies, the prophecies of the Hopi Indians. And what I want to say to you -- last night I was looking at prophecy from some Jewish sect that says all the Christians are going to convert back to Torah-believing Jews. This is what I want to say to you. This is the conclusion that I draw, and also I will tell you one other thing first.

I fell asleep listening to YouTube. I really keep saying I am not going to do that, and I keep doing it. I fell asleep listening to YouTube last night, and when I woke up this morning, I was looking at a woman, a very normal-appearing woman, being interviewed by one of the few interviewers on YouTube that -- she is a New Age interviewer, but I do not see a dirty spirit on her. I see a woman and -- it is a woman and her husband, but it is basically the woman that does the interviewing

and I think he does the cameras -- is that she seems to really be seeking truth, but apparently she has no relationship with Jesus Christ. But so she is seeking truth, you know, from all of these occultish people. But she herself, I do not see a dirty spirit on her interviews. They are very intellectual, and I watched quite a few, you know, but of course they never have anything to do with Jesus Christ. So she was interviewing this woman who claims to have been abducted in 1988. That was a very propitious year, brethren, 1988. You know, this ministry began in 1988, and I have been told by some they believe the church age ended in 1988. Rush Limbaugh started in 1988, which was the political education of the people. So 1988 was a very propitious year. She claims to have been abducted in 1988 by the tall, white aliens, because there are all different kinds of aliens. Apparently, the greys are evil, and these tall, white aliens, which -- I do not know that I have heard it anywhere, but I have put together little pieces of information that I have had, and apparently these tall, white aliens seem to have been the gods of the Nor- -- the Nordic gods, Norway and perhaps all of Scandinavia, but certainly the gods of the Vikings. From what I have seen, they were tall whites. So she claims she was abducted by the tall whites, and they were very kind to her, and they instructed her and gave her understanding, and told her that there were many of her and that they are peppered through the population. She said it could be your schoolteacher, it could be the head of the PTA, it could be your doctor, it could be your husband or your wife, and we are all pretty much unrecognized.

So everything that she was saying is really true of us. We are unrecognized. Nobody knows who we are. And I listened for longer than I -- well, all I could think of was that I have to preach and yet I am listening to what she is saying. It was nothing -- I could not perceive anything evil on her, and after I listened for almost an hour, I said, what did she say? What kind of information did she give? She talked about these aliens giving her information and that she is -- she and the others like her are to be vessels of education to the people, and that there is a dark side, but that these tall, white aliens are good. Now I do not know who you are that is listening to me, brethren, but every entity that is not from the Lord Jesus Christ is evil. They may appear to be good. It is the good side of the evil, OK? The Lord Jesus Christ is the only one that is good, OK?

And she said that -- I thought this was really interesting, that they call themselves by multiple names. The watchers, the keepers, but they tell her that their function is to -- what is the exact word that she used that made me think of Adam in the garden? We are told that God put -- Jehovah put Adam in the garden and he said, "Now keep the garden." And that is what she was saying about these tall whites, that they were here to take care of us and to guard us. I do not know if she actually used the word guard or not, but it made me -- the word that she used made me think of Adam in the garden. They were saying that they were the male Adam that was -- were here to take care of us, the female side of Adam. That is what I heard her saying that they said to her, although she did not know that is what she was saying. And there was a lot of talk about seeds, that they were bringing new seeds, which I think her understanding of seed was a seed of a new kind of food. That is what she was thinking.

So I listened for maybe at least half an hour, if not more, and I said, what did she say? She has all of this information for the people. What information? What did she say? You know, and she claimed that she was associated with the Hopi Indians, and how she was associating herself with

the Hopi Indians. And what is really interesting is that it was just a couple of weeks ago that I wound up all over the Internet reading Hopi Indian prophecies. And I did not even know how that happened. I mentioned it to somebody, I did not even know how that happened. It was very interesting. So when I shut her off, because I said I cannot listen anymore, and I sat down at the computer to prepare for today's message, I wound up looking up Hopi Indian prophecies, which I reviewed for myself. And they are -- they claim to be a peace-loving people. They believe that they were here from the flood, and they have a lot of prophecies in parable form that really lines very much up with the Scripture, you know, very close to the Scripture, most of them, of what is coming, and there is an evil, and the Savior is coming, and they even had two, what I would call, two witnesses, and very, very similar.

Last night, I was listening to -- I was reading online this group of Ultra-Orthodox Jews, you know, that receive Jesus as a rabbi. And they, let me tell you, they believe all of the Christians that believe in Jesus are going to become Torah-observant Jews. And this is what came to me as I came out here, and I think this is the crux of the message this morning. There are all kinds of teachers out there, and they are all teaching very s- -- of course, they are all teaching, and they are also teaching World War III. The rabbi of the Jewish open session was teaching World War III, definitely. The Hopi Indians were saying, pretty much, they were closer to me than the rabbis. They were saying there is either going to be a great destruction or, if the people do the right thing, it does not have to happen. Well, I am not saying if the people do the right thing. I am say- -- my hope is that the Lord Jesus Christ will show up and bring sanity to this world and save us from World War III. That is my hope, and I prayed about it a lot, and that is all that I get. It is conditional. Jesus said, "No one knows but the Father the day of his coming." Nobody knows for sure what is coming on the earth, see? And it could be very, very bad, or we could escape, and that is what the Hopi Indians are saying. And I think the fact that the Lord elected Donald Trump is a very good sign that we are going to skim by without total destruction.

But anyway, so this is the thought that came to me. There are all these disciplines out there, all of these people with their own prophecies and their own agenda. The Jewish organization had an agenda because they want to go back to the land of Israel. They want to expand. They want the original scriptural parameters of the land of Israel. But the Hopi Indians did not seem to have any agenda for themselves. And I am thinking there are all these disciplines, and over the years I have read others, and they all line up. The Mayans and the [UNINTELLIGIBLE] -- everybody, brethren, everybody I have ever read about has the information in parable form. I have not read anything -- now, that does not mean it is not out there. I have not read anything by anybody or any group that has the degree of truth that the Lord is giving us here.

I personally believe the seeds that those white -- tall, white aliens were talking about to this woman, and she took the name Miriam, I personally believe the seeds that they were talking about were not food seeds, but they were the seeds of the life of tall, white aliens that are befriending humanity and saying, "We are going to take care of you, and we want to help you, and we are good to you, and we are your friends." And what they really want to do is plant their seeds in humanity.

And we need to understand that the end of having a spiritual seed planted in us is that life as we presently know it comes to an end, and we are -- when we are born again in the image of the entity that planted the seed. I am going to say it again. We need to understand that we are the earth, OK? We are walking wombs, OK? We are not the creation of God. We are the spi- -- the material substance that is attached to the female side of Adam, OK, that died when his wife married the snake. OK? We are the material substance that is in a generic form, and we are capable of having spiritual seeds planted in us.

And let me say this also. Everybody that I read, they are all -- they all have the question, what is coming next? What is coming next? What is this all about? What is it about? What is coming next? They are all asking the question, even the woman that was being interviewed this morning. What is coming next? I do not know. They gave me this information. What is coming next? I do not know. I do not know. Nobody knows, but the Lord is telling us. And I am telling you, if you are brave enough to hear this, what is coming next is our utter destruction, is the utter destruction of life as we now know it, when we are born again from the seed that is -- when the seed that is planted in us is fully born again and swallows up everything that we are so that we become one new creature. And of the two, of the twain, he made one new man. Jesus already experienced it. And if the seed that is planted in us is Christ, we see Jesus. We have an excellent future. But if the seed that is planted in us is the seed of the tall, white aliens that are convincing this woman and everyone like her that they are good and they are kind and they are here to help us, you know, and they just want to plant some seeds, if that is the seed that you get, you will be born again into a condition that the Scripture describes as damnation. And most likely, the Lord will not let you live, and you will be destroyed. That is it. All of these disciplines, they all have their prophecy, they all have their messages, they all have their agenda. Nobody, I have not heard this from anybody.

Oh, that is not true. I did hear it from somebody. I did hear it from somebody on Star Trek. I heard it on Star Trek. There was one episode of Star Trek where the man -- he looked very humanoid like we did. OK, it was a variation of what I am saying though. It was a positive variation of what I am saying. The man looked human like we do, and he was persecuted. People did not like him, and he was an alien that they took on the ship. They did not know why; people did not like him, and he was just very strange. And then one day, the next time he appeared on the deck, OK, he had turned into a golden man. But that truth is not what I am saying. Excuse me. That truth is saying that the very man which would be us, which would be the skin, that he went from being a mortal skin that dies after a season into a golden man. It was talking about the glorification of the skin which we are. Do you understand what I am saying?

That is not what I am saying. I am saying we are the earth, you see? And the seed that is planted in us, when it matures and produces fruit, in order to produce the fruit, it will zap all of our energy. Well, let me say this first. When a plant starts to grow and it is getting ready to produce fruit, it takes all the energy of the plant and comes forth out of the flower. The flower is destroyed when the fruit comes forth. That is what I am saying. All of our energy, everything that we are and the seed with our energy is going to be born again as a new creature, and we will have a submissive -- but we will be blended together with it, and our consciousness will be in a submissive state.

So when we are born again as Christ, as the Lord Jesus, as a part of the body of the Lord Jesus Christ, we will be fine. But you get the wrong seed, and you are being born into a damnable state that the Lord Jesus Christ will probably be destroyed. You will be born as a deformed animal, as a sheep brings forth from a human that had sexual intercourse with a sheep. In case you have not heard that, that happens from time to time on the farms. When farm boys get carried away with themselves, the sheep gives birth to something that has human qualities, and the farm has to kill it. That is what they are going to be born as, you see.

So we have different kinds of aliens. Some are trying to capture humanity by force, take us by force to impregnate us, and others are trying to take us by deception, the tall, white aliens. Good cop, bad cop, see? "We are your friend, we are going to take care of you, we are going to help you, and beware of those bad guys over there. Stay with us, and you will be OK. And we just want to give you some seeds; that is all. We want to give you our seeds." So the woman thinks it is a seed for a kind of corn, and I read that on the Hopi prophecy too. A new kind of food, a new kind of corn, see?

So that is the truth. Life as we now know it is coming to an end. The world as we now know it is coming to an end. Is that not what the Scripture says? It is what the Scripture says, but nobody understands what that means, so they think they are going to heaven and walking on streets of gold.

So all of these aliens, the tall, white ones, the short, grey ones, the ones that act like they are your enemy, the ones that say they are your friends, they all want to get inside of you because if they do not get attached to a human, they will die. And getting attached to a human in our present state does not do them much good because this body dies, but the child that is produced will be immortal. You see? And they cannot produce their own child, or maybe they can. Maybe that is what they are trying to do. I do not -- I take that back. I do not know about that. But they are trying -- they definitely want the Christians. They definitely want to get inside of us and be fighting with us to possess the Christ child that is emerging.

We are told the dragon waits for the child to be born to consume it. OK, well, that sounds like the dragon wants to kill it, right? The dragon waits to consume the child when it is born. I always thought it meant the dragon wanted to kill it, but no, that is not what it means. See, the principle, brethren, is when I eat a piece of chicken or a steak, I eat the chicken or the steak and I throw the bone away, and the healthy part becomes flesh on my body. They want to eat us so that we become the flesh on their body.

So there was a science-fiction movie once where the aliens were giving out cookbooks to man, and they found out that it really said how to cook man, that they wanted to cannibalize mankind, cook them and eat them in our concept of cannibalism. But even that is not true. It is not that they want to catch us and eat us like we eat cattle or deer that we catch. No. No, they do not want that. They want our spiritual flesh so that they can live forever. When they eat us, we will continue to exist. You see?

So the fowls, the fowls were filled with their flesh. The fowls were filled with their flesh. I looked at it in the interlinear text. I said this has to be wrong. I do not know whether it was translated incorrectly or it was translated correctly deliberately because the truth is too painful for most people to bear. I am -- for me, it is not painful. For me, it is not painful. I implicitly trust the Lord Jesus Christ. I see Jesus. That is what happened to him. You want to know what happened to his physical body? The flesh of his physical body somehow provided a permanent form, a spiritual form, to the entity that saved his life, which is actually Primordial Adam dressed in the garment of Elijah. Jesus is representing Primordial Adam to us. Primordial Adam is God, the creator, Elohim. His seed, the seed of the Lord Jesus, is the seed of Elohim, the creator, Primordial Adam. The seed of the Lord Jesus Christ is the seed of Primordial Adam. Our ultimate end, brethren, is that we will become the flesh of Primordial Adam, but not this flesh which gets sick and corrupts, OK, because we are the materi- -- made of the material substance that is attached to the female side of the first Adam, but we are malformed because we are mixed with the essence of the serpent. Now if you can hear this, listen. The serpent is the bones. Primordial Adam wants to eat us, throw away the bones, which is the serpent, and make us his flesh. Can you hear that as a positive thing? Can you hear that?

Yes.

We are talking about the separation of the joints from the spirit and the soul from the marrow. We must be separated from the snake if we are to go on. If our personality is to go on, we must be separated. And where are we? Where is our personality attached? Where is it attached? Anybody? Where is our personality attached? Anybody? Please, somebody? Where is our personality attached? Where is the nefesh attached? Nobody knows?

To your blood? Blood?

Well, that is close, but not -- what did you say?

To our blood. In our --

It is close, but that is really not the right word. Where, the blood in my nose? The blood in my eye?

No.

Which blood?

The blood of Christ? The spiritual blood.

Which blood? Which part of my body is it attached to? If I cut my finger, is it attached there?

No, but [INAUDIBLE] marrow?

The marrow, yes. Attached to the marrow of our bones. Our soul has to be separated from the bones. Now there is a bizarre-sounding Scripture. I believe it is in Isaiah, OK, where it says, "Yea, put the kettle on. Boil the water, chop the bones well, and boil them well." Now it sounds absolutely bizarre, but that is in Isaiah. The bones have to be cooked to separate our soul from them, and that is just a parable way of talking about Peter's discussion of the elements collapsing from the great heat.

Now listen, brethren, if you are hearing this, you are privileged to hear this. If you are upset, you are not understanding me properly. If you are upset, you are not understanding me properly. I do not believe we are going to be boiled in oil or cooked alive or anything like that at all. It is a spiritual process. Something happened to Jesus' body, which is -- to Jesus' body after his consciousness was removed from the body. His consciousness left the body. It was dead. The body was dead. Something happened over a period of three days and three nights that caused the body to disappear, and the parable that describes what happened to it says that the body was chopped up. The bones were chopped up very well, put in an iron kettle and cooked. That is the parable, which is the salvation, the rescue of the female side of Adam that is in this condition because of her adultery with the snake. And I am sorry if I offend you, but the message is just graphic. Our reality -- you know what our reality is? You know that the Scripture calls Satan the dog, OK, and do you know sometimes dogs get stuck to each other? You all know that dogs can get stuck to each other. That is what we are. We are stuck together and we cannot separate. If you do not know what I am talking about, ask the Lord. We committed adultery, and we are stuck together and we cannot get separated.

I read recently -- I must have read it on Drudge. I do not know. I do not know where else I would have read it, that some African man -- I do not know what -- he was not from Nigeria. I do not know what country -- I do not think it was Nigeria. I do not know what country he was from. That he knew his wife was committing adultery, so he had a curse put on them, and they got stuck together and they could not separate. They had to call for help from the hotel room, and there was actually a picture of the two of them that had been put on the back of a truck taking them to the hospital. Do you hear what I am saying? It is just an outplaying of the spiritual reality. The adulteress is stuck together with the snake, and the only thing that is going to separate us is a chopping up of the bones and a boiling. That is the parable.

So we are being permitted this deep truth, and the Lord says he does not do anything unless he tells his prophets first. So if you can hear this -- if you are upset, you really need to talk to me about it, because it is really nothing to be upset about. It is just the way the spiritual reality is couched in very graphic terms. We are going to have some kind of an experience. The Scripture talks about it from at least two different vantage points. Peter says the elements are going to melt, and that means the elements of our body and the cooking it, chopping the bones and cooking it in the pot, which is pretty graphic, but that is the general principle. The soul must separate from the bones. See?

Now when you cook bones, the marrow gets very soft, right? It comes out and you eat the marrow and you throw the bones away, right? And then the flesh plus -- of the animal plus the marrow puts flesh on our body. And that is the parable, because I do not really understand the full process myself. What do I know? I know that Jesus said that the male side of the first Adam that was rescued and in his renewed state is called the second Adam. What is the difference between the first Adam and the second Adam? The first Adam was of the earth, earthy, and the second Adam receives the D- -- received the DNA of Primordial Adam from the Keter. He is the Lord from heaven. The second Adam is the Lord from heaven. What makes him the Lord from heaven? He received the DNA of Primordial Adam. So when Jesus talks about the regeneration, when he talks about the regeneration of the first Adam, he is not talking about the first Adam just rising from the dead in his same state. He is not rising from the dead in the same state, OK? The earth man is having the DNA of the creator attached to him, and that is -- will regenerate him in righteousness. See?

So something happened to that body that took three days and three nights, and it was completely absorbed. It was cooked. Some great heat touched it, the soul. The female side of the Adam separated -- of the first Adam separated from the bones, and they came together and became a single entity, I think. What do I mean I think? Well, there is one Scripture that says Mary Magdalene looked and there were two angels, one sitting at -- looking at the grave close, one sitting at the head and one sitting at the feet. One was the male side of the first Adam; the second was the female side of the first Adam. Then the Scripture says she looked again, and all she saw was Jesus. So we do not know -- maybe you know, but I do not know whether she saw those two images because the Lord wanted her to understand what happened and he really was a single entity, but those angels were just a demonstration carrying a message of what had happened, if not for Mary, for those of us who are reading about it today. Or are there really spiritual males and spiritual females in the glorified state? I do not know the answer to that.

So, brethren, I have to laugh. What a message. It just keeps getting better, you know? Actually, when I was getting this message, when I was -- well, I got this message when I was listening to "All about Adam," part 2 or 3. Who knows when I got it? Maybe I was listening to what I preached on Sunday. It is getting very close, at least to the next stage of our development, for the Lord to be giving us all of this truth. We need to understand that only Christ in you could receive this. This is special food.

So, Revelation 19:17-21: "And I saw an angel standing in the sun, and he cried with a loud voice, saying to all the fowls that fly in the midst of heaven, 'Come and gather yourselves together unto the supper of the great God.'" So I saw an angel and he was standing up. He was not lying down; he was standing up in power, and he was in the sun. The sun is Tiferet. He was in the center of the middle column. He was standing in the center of the middle column, and who stands in the center of the middle column? That is -- Jehovah is there, Binah is there, the Son of God is there. They are all the same person depending on how they are manifesting at the time. "And he cried with a loud voice, saying" -- it is all Primordial Adam whose name today is the Lord Jesus Christ. "And he cried with a loud voice, saying to all the fowls" -- all the fowls, all of the birdlings, all of the manifestations of the Shekinah -- "that fly in the midst of heaven." And what is heaven?

Heaven is the Son of God. That -- he is standing in the sun, the middle of the middle column. The center of the middle column is the midst of heaven. So who was the Shekinah that is flying in the midst of the middle column? OK, Binah is there.

You may recall when we did some studies on the colors of the Sefirot, and I talked to you about each color hav- -- each Sefirah having its own color. I believe Gevurah is red. And the colors of Tiferet keep changing, because each Sefirah has its own color, but as the different -- the energies of the other Sefirot drained into Tiferet, the color of Tiferet kept changing. At one point it was egg yolk yellow; at another point it was green. I think its ultimate color was purple in this stage. Did you say something? I think its ultimate color was purple. So what is draining into Tiferet? OK, Gevurah is draining into Tefirah; that is red. Love and Kindness, which is Chesed, is draining into Tiferet, and she is white. OK, the Chochmah is draining through -- Chochmah is right above with Chesed, so Chochmah is draining into Tiferet. I think he is -- well, I am not sure what color he is. And then Binah is draining into Gevurah who is draining into Tiferet, and I think that is the egg yolk yellow, Binah together with Gevurah. And they are all -- so here is Binah. Here is Chochmah. Binah is coming down to Gevurah. Chochmah is coming down to Chesed, Love and Kindness, and they are both draining. They are both going to the center and draining into Tiferet, the sun. And they are blending. They are becoming -- and they become this great angel, OK, the Savior. We know him as the Lord Jesus Christ. He is the soul of Messiah.

But it is very [INAUDIBLE]. In essence, he was Primordial Adam, the creator, and this is all about the creator making a body for himself. This is all about Primordial Adam, the only begotten Son of God, the Ein Sof, who is making a body for himself, and Primordial Adam is going to be inside. He is going to be the inner man of the body, which we are in another form, and the Ein Sof will be in the midst of him. It is all about making a body, but it is a many-membered body for God, which is the Ein Sof, and the Son of God is Primordial Adam, his Son.

OK. We are the creation, or the creation in the making. We are a part of the creation. We are the material substance of the creation. We are a part of the creation. We are supposed to be blended with the other parts, but right now we are separate. We are an outer skin. We need to be blended in.

So, brethren, I wonder what is going to be happening on May 30th. This message is just getting crazier and crazier. "So I saw an angel standing in the sun, and he cried with a loud voice, saying to all the fowls" -- all of the birdlings -- "that fly in the midst of heaven." So now I told you that the Shekinah is likened to the Lord Jesus Christ, flying above, not attached to the earth, but now we are talking about birdlings. So here is the question: Is the birdling -- when I preached it earlier, I thought the birdling would be Christ in us, but Christ is attached to our earth. OK.

So this is how I -- Lord, help me to explain how I saw it. I saw the seeds of the Lord Jesus Christ that are delivered to us by -- at least one way that they can be delivered to us is by the Holy Spirit, unless I am mistaken. Maybe it is not the female seed. It must be the male seed. It must be the male. It must be the male side of Adam. Unattached, the Lord Jesus Christ right now, all of his spiritual seed, all -- not the seed that goes down as the Holy Spirit, but the male chromosome.

The male chromosome of the Lord Jesus Christ is a many-membered male chromosome, and they are flying in the midst of heaven. They are not attached. Christ, the female seed, is attached to our earth, but the -- not the female seed, the female chromosome. I am sorry, the female chromosome. The male chromosome is called a birdling, and it is not attached, and it is likened unto the sperm of the Lord Jesus Christ, the male side, the male chromosome. It is the male chromosome. They are flying in the midst of heaven. They are a part of the Lord Jesus Christ. They are his reproductive potential, and these birds are receiving an instruction: Fly down and eat the flesh of all of these people. What does that mean? Can anybody guess what that means, based on what I have just told you for the last 15 minutes? Anybody? Rose, can you get that? What does it mean?

Say the question again.

Yes. The birdlings, I suggest to you, are the male chromosome coming from the Lord Jesus Christ. They are flying in the midst of heaven. They are not attached to the earth. And the commandment is, "Eat the flesh of all of these people, and fill yourself with the flesh." And they are birdlings; they are the male chromosome coming from the Lord Jesus Christ, not attached to humanity. What are they being told to do?

It is a single word, a single word. What are they being told to do?

Attach?

Well, how do you attach? What is the word?

Consume?

Consume.

No. You are close. You know the answer. You know the answer.

I do not know.

What is -- how does a spirit attach to a human? What is the word?

[INAUDIBLE]

You know, June. You know what it means. What is the process called?

[INAUDIBLE]? No.

And it is by the seed?

Reproduction? Like to --

You are going all around. Sounds like --

We got two: Rose, graft; and Labay, marry.

Well, I would say incarnate. I believe the word is incarnate. Incarnation. All of you birdlings, all of you -- excuse me. All of you sperm of the Lord Jesus Christ, you are just sperm. You are in the same condition the entities at the Tower of Babel were in. If you do not incarnate and not -- you see, attach is not enough. You have to -- incarnation means the complete blending of the two lives that you become one. That is the difference between grafting and attach. Means that you can be separated. Incarnation means it is a complete blending and you become one.

Amen.

If you do not blend with humanity, you will eventually die. So these are the birdlings or the male chromosomes or the male seeds. It is not even the male chromosome. It is the male seed that is coming down. Maybe not. Let me not get stuck on that. I guess it is the male chromosome of the Lord Jesus Christ saying, "Go down and eat the flesh of all of these people that you should become one, that they should become viable in their reproductive ability." I guess, let me review this for you too because it took me a long time to get this straight.

The Lord Jesus Christ, he is female in the creation process. Primordial Adam is the only one that is male in the creation process. So all of the work that we have been studying about and reading about, the whole -- everything that we have been working for is actually the construction of a viable female egg that Primordial Adam can fertilize. See? Let me say it again. Everything that we have been working for, OK, is the construction of a viable female egg, the replacement for the first Adam who died, that Primordial Adam, who is the male, can fertilize. So therefore, these birdlings, they are the male chromosome from the Lord Jesus Christ. First, he delivered his female chromosome through the Holy Spirit, which has been in the earth for a long time now. OK. Now we are getting to the place where he is going -- he is ready to release the female -- the male chromosome with an instruction: "Consume their flesh. Become one with them." OK?

So it is different than graft because it means -- well, grafting, eventually you become one, but initially you can be separated. Well, I guess graft is OK, but I think incarnation is a better word. OK. Completely join with them. Join with them. Come together with what has been -- with the work that has already been done, and bring into existence a viable female egg so that Primordial Adam, the only spiritual male, the only begotten Son of God, can come down and fertilize that viable spiritual egg inside of each of us as a human being. And then that holy thing which is born of that construct will grow up and suck the soul out of our bones, but it is not a death process. It is a life process. It sounds like a death process, but it is a life process. That holy thing that will be conceived in us will suck our soul out of our bones and discard the bones, chop them up, put them in a pot, cook them and, I guess, make them soft enough so that they too will blend with the hole because there was no residue when the stone to the cave was rolled back.

We have to be truly born again, you see? There is -- being born again is a process, and we have begun the process. But to say we are born again, past tense, is a lack of understanding. But it is good enough for now, you know? It is good enough for now. You tell a little girl, you know, you are girl, and she does not have to know that she is going to grow up and be a woman capable of having children. You just tell her, you are the girl; you are not the boy. You know, so you can tell us we are born again without telling us the rest of the story. Yes?

I kind of mixed something up. You said the viable egg, and then the next step would be the -- to the incarnation, the -- and the blending. That would be the male Christ, male chromosome. And after that, there is another step? Or is the incarnation equivalent to the reproduction?

The incarnation of the male chromosome is the adding of the male chromosome to what already exists, which -- what already exists is the female chromosome, OK, grafted to us.

OK.

The female chromosome attached to our hu- -- or the spiritual side of our humanity. So the female chromosome is an egg that is not fertile.

OK. So once the incarnation happens, then that is the viable egg. That can --

Well, yes and no. OK. There is one more step, OK, which has to burn the female chromosome.

Yes.

It burns over.

Yes. OK.

So it is interesting. I think that is two separate -- two -- I have not thought about this before, but I think it is two separate events. OK? It is a spiritual burning of the female chromosome. Every time sin enters into our mind that we refuse that sin and choose the righteousness of Jesus Christ, that is the sacrifice or that is the burning of our sin nature. That is how it burns. It burns when we reject it and rebuke it.

Amen. Yes.

OK. So the first coming together or the first blending would be the male ch- -- the female chromosome, the male chromosome, and the residue, the righteous residue that is left after the burning of our female side, of our sin nature. So we have the righteous female chromosome of the Lord Jesus Christ, and then we have the unrighteous female which is our sin nature. So the righteous female joins with the male chromosome, and then we have to burn -- together we burn

with fire the unrighteous female which is joined to the snake, see? So we are burning that snake to get it out of the hole, you know? We have to make that -- we have to render that snake powerless, or probably just paralyzed.

So let me say it again for my own self because I never even thought of this before. So there are two females, OK? There is the righteous female chromosome of the Lord Jesus Christ, and the Book of Proverbs talks about the hol- -- the godly woman and the ungodly woman. So we have the female chromosome from the Lord Jesus Christ that is joining with the male chromosome of the Lord Jesus Christ, and together they are burning with fire the adulteress, OK, the female chromosome from the fallen nature, the female of the fallen nature, which is our carnal mind. OK, so that they burn to the point that she is, I am not exactly sure, I am going to say paralyzed, OK, because as long as we have this physical body, she still exists. The carnal mind still exists. So we completely overthrow the carnal mind and put her under our authority, and we become a viable egg. And then -- and we actually are the fulfillment of the Lord Jesus Christ. He is the viable egg. He is the replacement for Humpty Dumpty, and I know the Lord knows that I do not mean that with any disrespect. It just -- I just love those nursery rhymes, OK? It is the reconstruction of Humpty Dumpty that all the king's horses and all the king's men could not put back together again, but the Lord Jesus Christ is putting them back together again. You see?

Amen. Yes.

And then the only male, which is Primordial Adam, also called Elohim, the creator, OK, the only begotten Son of God, OK, comes down and joins with the viable egg. And what is born of that union, that holy thing that is born of that union, is called the -- I think that might be it. It is called the Son of Man. That is the Son of Man that is being born. He is attached to the body. The Son of God is not attached to the body. The Son of God is present in us by his Spirit. The Son of Man is literally what this body has given birth to and is attached to the body, and that is when we become a whole new creature. We are born again as a whole new righteous creature. Everything is blended, and the enemy elements of the snake have been cast out, have been chopped up, boiled and spat at, either completely dissolved and absorbed or rejected, burnt. So --

Thank you. Amen.

And I do not believe the process is going to be any more painful than we are already experiencing with these trials and tribulations. You must trust God. If you are having any negative experience, please, if you feel it is necessary, talk to me about it. I have no reason to believe that it is going to be any kind of -- no more of a bad experience than we have all been going through already as we overcome our carnal mind. What a message, huh?

Amen.

What a message. What a message. What a message. It is just so exciting to see the reality of the Scripture come alive in our understanding.

So "I saw an angel standing in the sun, and he cried with a loud voice" -- and that is the Lord Jesus Christ. "And he cried with a loud voice, saying to all the fowls that fly in the midst of heaven" -- he is saying to all of his male -- all of his -- his male chromosome, "Come and gather yourselves together." Together with who? Gather yourselves together with a human. OK. Gather yourselves together unto the supper, the meal, of the great God. He has to eat us. Like Jesus said, "You have to drink my flesh and -- drink my blood and eat my flesh." He is telling his own sperm, called birdlings, OK, pieces of the Shekinah, OK, that they have to eat us in order to become one flesh. He said to the Pharisees, "You have to drink my blood and eat my flesh," and he is telling his sperm, "You have to eat them" -- it is the opposite -- "and become one with them that ye may eat the flesh of kings and the flesh of captains."

So the kings, I think that would be the pe- -- the term king refers to Malkhut, and Malkhut is Christ in us. Christ in us is the Malkhut of the new nature. So you may eat the flesh of those that have the Mal- -- the Holy Spirit grafted to them, which is the female chromosome, and has become the Malkhut of the new man. Eat the flesh of those that have the Malkhut grafted to them, and eat the flesh of captains. And that word, captain, I looked it up last night, and it is talking about a soldier that has command of 1000 men. And 1000 is the number for wisdom. So I am thinking in terms of the middle column. The Malkhut is the bottom one and, I guess, the number 1000, I am thinking that it would be Tiferet. But maybe not. Maybe -- I do not know what it would be, but it is a high -- it is talking about the middle column. Let me leave it at that.

So it is not -- it is -- listen. This commandment is not given to people that do not have Christ grafted to them. Now do not be deceived. Do not assume that people that have never spoken in tongues do not have Christ grafted to them, because there are different manifestations of the Holy Spirit. There are people who have the intellect of Christ, but everybody is not the same. There is a variety of conditions that we can be in. So all of the churches that are teaching, if you do not speak in tongues, you cannot go home with God, I do not believe that that is true. OK, I do not believe that it is true.

Besides, somebody can be speaking in tongues and be in deep sin. They can be speaking in tongues and be in adultery or fornication. What it means is that you have a relationship with God there. You have something of God that is grafted to you and holding onto you, and I am not going to go into all those options right now because that is not today's message and I really have to think about it anyway. I know people that are in these meetings that have never spoken in tongues, and their life is consecrated to God. And it is not just a question of understanding the message, because you -- I guess it is possible to understand it with your female spirituality, but you have a combination of consecrating your life to God, living for God. You are living a moral life and you are in a deep study like this. You cannot tell me that you do not have Christ, because that is Christ in you that is understanding the message.

So what happened to you? My understanding today of what happened to you is that the Holy Spirit came down upon you but it never differentiated. I know I have told you this before. The Holy Spirit -- we receive the Holy Spirit when the Spirit of the Lord Jesus Christ pierces our human spirit and deposits the female chromosome. You know what I just saw in the Spirit? I had seen

the picture of the chip being implanted to somebody, and they just -- they have a needle and they stick it into your skin and they go click and the seed, the chip, goes under your skin. Something like that. The humans that -- the Spirit of God pierces our human spirit and drops the female seed, the female chromosome. And the female chromosome, joined to our human spirit, manifests as the Holy Spirit, becomes the Holy Spirit in us. The Lord gives us the seed and joins with our human spirit. We can -- I am sorry.

So the chromosome joins with our human spirit. And in some cases, the seed did not differentiate. It has the potential to differentiate into nine gifts. When the seed joins with your human spirit, it is like a seed. You put a seed in water, and sometimes the seed sprouts at all different degrees. Sometimes the reaction of the union of the female chromosome and your human spirit, depending on the condition of your human spirit -- I mean, this -- brethren, there is so much I do not know. This is what I am sharing with you, what I do know. OK. Sometimes that seed differentiates into any number of up to nine gifts, OK, and sometimes it does not differentiate. It stays whole and grafts and becomes an intellectual, spiritual seed -- not a seed, an intellectual spi- -- an ability of a spiritual, intellectual mind and grafts right away, depending on a variety of conditions in your life. That is my understanding today.

So that means there could actually be more people that do not have the Holy Spirit than do have the Holy Spirit that start to experience this. There is no -- you cannot -- there is no one criteria. God is too great, brethren. God is too great for there to be one criteria. We really need to understand that and be very, very careful to not condemn people or pronounce them out of the running, because we cannot even imagine what God is capable of doing. It is beyond our ability to imagine what he is capable of doing, so we need to think the very best for everybody. In every possible situation, we need to think and hope for the very, very best for that person, because God is beyond anything that we can imagine that he would be willing to do, if he does it. He does not always do it, but you should hope for the best for everybody in all circumstances.

Could you open the window, somebody? I am starting to burn up here. Is it hot, or is it just me? I think I am on fire. No, I am kidding.

So, come and gather yourselves together to the supper of the great God, and the supper is the spiritual aspect of our humanity. Eventually this flesh will be a part of it, but right now I think you all know my position. I think that we will be in these bodies for 1000 years. I think that we will be in these spiritual sackcloth -- these bodies are spiritual sackcloth -- so that we can relate to other human beings and get them moving and get them fertile. That is our job. Our job is not to get them pregnant; our job is to get them fertile. So we understand now. As we move on with our studies, we understand now that the church is really not -- I am just reviewing it in my mind as I say this to you, that the process that the church is going through is the reconstruction of the viable egg. It is not really the pregnancy, OK?

So I was just thinking about Revelation 12, showing the man-child being born. OK, so what is being born? Let me -- OK. When the Scripture -- I think, brethren, that there is -- the Lord has given us in the Scripture just what we need. He has not given us more than we need. This message

is too hard to understand. He is just giving us what we need. So the man-child that is being born in the Revel- -- in chapter 12 of the Book of Revelation is that -- actually, the ovulation, that birth, is the ovulation of a viable female egg. OK. OK, it is expressed in the Scripture as the birth of the man-child. OK. It is actually the coming into existence or the reconstruction of a viable female egg, and the actual birth is talking about the ovulation, which means we are now ready to be impregnated. OK, anybody need me to say that again? I will say it again anyway.

Yeah, please.

What we read about in Revelation 12, the birth of a man-child, that man-child is the viable female egg that has a YY embryo in it. OK. Let me try again. I will get there. Without going through the whole schematic of genetics again, in our humanity, a woman has -- her only potential to produce a child is female, and it is the male sperm that can either pr- -- I guess I have to do the whole thing.

The female has two chromosomes, both X, which is female. The male has two chromosomes in his sperm. One is X, which would produce a female child, and one is Y, which will produce a male child. So in our natural humanity, when the male -- when the Y chromosome from the male joins with an X chromosome of the egg, OK, that embryo that is XY, or that initial -- that zygote which eventually becomes an embryo that is XY, that is a male child. If you abort that, if you have take- -- have a scraping, if you have your womb scraped, and that egg is aborted, that was a male child that you aborted. It was an egg. It was a male child in another form. OK, this is the whole issue with abortion. At what point is it OK to kill the conception or the product of the conception? At what point is it OK to kill it, you know? At the immediate union of the Y and the X chromosomes? That is a male child there, and if you abort it, you have killed your son. See? So that is the general principle. At what point is it OK to kill it? OK.

So we have had some -- I really do not want to go into abortion right now because that is not today's message, although we do have another hour here. It is a philosophical question, you know. My personal feeling based on what the Lord has shown me is that, in many instances, the soul is present in the body of the woman at the time of conception. So if the soul is standing ready, if the soul is one of these birdlings, OK, if the soul is ready to enter into a human ova, OK, is it OK to destroy the zygote because the soul has not entered in yet? But it is the will of God that the soul is present in the woman's body waiting for the conception to enter in. So in that circumstance, is it OK to kill it because the soul has not entered in yet? So what is an abortion, other than a violation of the will of God? In that circumstance, it is a violation of the will of God. So if you are seeing an abortion as a violation of the will of God, what is the difference if you kill the zygote before the soul enters in or not? You violated the will of God. Do you understand what I just said? Do you understand what I just said?

[UNINTELLIGIBLE]

Do not do that, June.

No.

OK.

No.

OK. The soul is standing ready in your spiritual universe. The soul has actually willed the conception of -- the physical conception so that it can get inside of the body. OK? At what point does it become illegal, or at what point is the abortion illegal? Can you say, well, the soul did not get its -- the male sperm joins with the female egg and it becomes a zygote, OK, the first cell of the next baby. And if you have access to that information, you know whether or not it is a boy or a girl at that point because, for the zygote to come into existence, either the X or the Y chromosome of the male has joined with one of the X chromosomes of the woman. So if you are a supernatural being, you have access to that information. You know whether that zygote is a male or a female child in a different form. OK. If you leave it alone, it is going to become an adult. OK, it is going to become an embryo and a fetus and an adult. So is it any less a person because it is an initial union of those two cells, which makes it a zygote that the soul has not entered into yet? Can you say that it is OK to abort that boy child, that little boy or that little girl, is it OK to abort it because the soul did not enter into it yet?

So the question that I am asking is, what is your definition of abortion? And that, in such an instance -- because every conception is not the will of God, but so I am talking about the will of God right now. OK. What is your definition of abortion? OK, is an abortion the violation of the will of God? We are just talking about believers now, and God wanting this birth. The soul is standing ready to enter into the zygote. What is an abortion? Is it not a violation of the will of God? So if it is a violation of the will of God, if abortion is a violation of the will of God, what is the difference if you abort the zygote before the soul enters into it or you abort it after the soul enters into it, if the definition of abortion is a violation of the will of God that sent the soul to get into that child? Do you understand what I just said?

But of course, every conception is not the will of God, you know, unless -- I do not want to get into that. That would be dealing with the unbelievers. I could probably have something to say about that. I guess we can say every conception is the will of God. We are told every conception is a miracle, that the environment in a woman's womb is deadly to the sperm and it is the will of God that the creation should reproduce itself. So if you want to look at it that way, abortion is a violation of the will of God, no matter how young that conception is.

See, the problem with these issues with fallen man is that nothing ever stays the same. It just gets worse and worse and worse and worse. See, when I was a young woman, which was a while ago, I guess, it was -- you would go and get a D&C. It was -- God forbid you were raped or something like that. You would -- they would go and scrape your womb so any s- -- any conc- -- any zygote that had embedded itself in the wall of your womb, which is what it has to do, where it -- that is where it starts to grow, would just be washed away. So that would be what you got, a D&C. If you were raped, you got a D&C. Today, I do not know what they say.

So it starts out, it sounds pretty harmless. Well, it is just water, you know, and the rabbis say 40 days. The soul does not enter in for 40 days. It is just water. That is what the rabbis said to me. It is just water. You just wash it away, you know? It is just water, you know? It is still a violation of the will of God. Well, if someone got raped, is that a violation of the will of God? Every conception is a miracle. That is a really hard word. What if it is a rape or incest, you know? That is a terrible situation for anybody to be in, but does that give us a right to kill the baby?

That is not this message. I pray to God that no one that I know or love shall ever conceive as a result of rape or incest. I do not have any -- I would pray for the whole earth, but we are fallen and these things happen every day, so I am not going to be unrealistic about it.

So, brethren, God is wonderful. You know? This is the same situation as right now. I do not know anybody, right, or I have not really heard of anybody except maybe -- I have never heard of anybody whose body is completely defended against illness, because that degree of salvation is not available to us at this time in my opinion, based upon what I know. So when somebody gets sick, God heals us, because we are not -- that kind of protection of the flesh that we would never get a virus, or a bug would bite us and we would not get sick -- the disease is in our blood. All the diseases are already inside of our blood, you know? So the Lord does not stop us from getting sick, but he heals us when we get sick. So it is the same thing with conception. He is not going to stop the conception. He is not going to stop the conception. And if, God forbid, it is the fruit of incest or rape, he will bring healing, not necessarily the death of the child, but he will bring a healing that is going to [INAUDIBLE]. And that is not today's message. And that would be a terrible thing. I do not wish it on anybody. I do not wish it on anybody.

I know life is very hard, and I know what life was like before Planned Parenthood, women having babies that they could not afford to feed. I understand all of those things, but there has to be a solution. God has to have a solution. There is a solution, and that is not -- that is -- there are people that will help you on that. There are Christian ministries that will help you with that. There are solutions. Listen, brethren, there is no easy answer. You know? This is -- this life is hell down here. All I know is that they used to take care of it. Some relative would take the child.

Do you know how many babies we kill every year? Do you know the blood that is on the hand of this country? Do you know that the new health care bill that the House passed, which some are saying the Senate will never pass? They put it off until August. Do you know what the big problem with the Democrats with that bill is? It cuts off all of the money for Planned Parenthood. It cuts off funding Planned Parenthood. They are making \$120 million. I think it was \$120 million dollars a year, or is it \$120,000 a month? Something like that, selling the body parts from aborted babies. It is disgusting. It is really disgusting, brethren.

"And I saw an angel standing in the sun, and he cried with a loud voice, saying to all the fowls that fly in the midst of heaven, 'Come and gather yourselves together with humanity,'" OK, unto which is the supper, the union. When you eat food, it becomes flesh on your body. The supper of the great God, Jehovah. "That ye may eat the flesh of kings," may eat the flesh of the people

that have Christ grafted to them, that have Malkhut of the new man, "and the flesh of captains," the ones that have the wisdom of the new man. So this is the middle column. These are -- this is just for God's people. The whole Bible is for Israel. It is for God's people. This Bible is not for unbelievers, OK? The people that have the beginnings of a viable egg in them, OK, your job is to complete the construction of the viable egg so that Elohim can come down and impregnate, join with that viable egg and produce a new creature called the creation of God. And the only hint that we have as to what it is like is that we see Jesus. He has overcome death. He has overcome death, and right now -- I am all over the place again.

Where is he? I asked that question before. Where is Jesus? Where is he? OK, I preached this at the end of Sunday's -- not S- -- last Thursday's message. Brethren, there is just so much information coming down, I really have to listen to my messages myself. That is so exciting, and it came forth at the last minute. I was so tired. I was just waiting to end the message, and that whole concept of Jesus being a ransom for us -- one of the first messages that I ever preached was about Jesus being a ransom. In the early days, I preached about that. And I do not know what I preached in those days, but what the Lord told me and told you last Thursday was just so exciting.

Well, what does it mean he is a ransom? What is a ransom? A ransom is something that you pay until -- to get the body back, to get the person back. You pay a ransom to get the body back. So Binah, who is the mother of the creation, she paid a ransom until she gets her body. OK. The birdlings are the Shekinah that are coming down to join with humanity because the Shekinah, the supernal mother, she wants a body. We are told in the Book of Job, "a body you prepared for me." It is all about the body. The man-child is all about the body for the invisible deity, OK, the provision of a house for an invisible deity.

So the mother gave -- the supernal mother, the one who is actually forming the creation on the authority of Jehovah, OK, gave her Son, the Lord Jesus Christ, because Adam is the Son of the supernal mother and the Lord Jesus Christ is the first begotten of the dead, not the only begotten Son of God. Primordial Adam is the only begotten Son of God. The Lord Jesus Christ is the first begotten of the dead, of the dead first Adam. He is the first one to be raised from the dead, the first cell of the first Adam to be raised from the dead.

So the mother, who is forming the creation, gave her first begotten of the dead as a ransom until the one -- who is being -- who is the one -- how am I going to say this? Who did she give a ransom to? You know, she gave the ransom until the body is produced. She gave a ransom until the body is produced. And I gave the example of the Lord Jesus Christ keeps Simeon in jail when the Hebrew children went to get food. OK, the ransom is in potential. He is in potentia. The Lord Jesus Christ is where Utnapishtim is, or a parallel place anyway. He is in exile. He is in exile and of course he is joined to the Spirit of God and to Elohim through Elijah. OK, Utnapishtim had a female deity that he was joined to. The Lord Jesus Christ is in potentia. He -- and the female deity is the supernal mother who is bringing forth the creation. He is the Son. She has kicked him back. She has kicked him back to potential. He does not have a body. OK. He is at the head of the -- he is in the garden of Eden at the head of the rivers, before they break out into four rivers, OK, and she

is holding him there until humanity produces the bodies that will contain his life. He will only come forth, OK, he will only come forth when he is born again, over and over again, in the bodies of humanity. So she is waiting for the bodies to come forth.

And in the Book of Genesis, we see Joseph holding onto Simeon in jail until the other brothers brought Benjamin back to produce the body, OK, to produce to body the get their brother back. So the Lord Jesus Christ will be released in full power when the bodies are produced for him. And it is going to be one man at a time, so we are waiting for the Lord Jesus Christ. And how is he going to be -- how is he going to acquire a body? By planting his seed, his chromosome, in us and making humanity spiritually fertile to be fertilized by Elohim. That is how he is going to get his body, OK, and that is how the ransom is being paid.

So the mother has put her son in potentia, and the humanity is being denied the benefits of his lordship, which could solve every problem on the earth, until we produce the body. So we all continue to die, OK. So what is the payoff? OK, we will stop dying when we produce the child. So the miracle worker who has been in place for 200 years, the one that is able to meet our every need, to heal the sick, raise the dead, do everything that mankind needs, he is gone. Where did he go? He is in potentia, and he is the ransom, OK, and we will be denied him until we produce the child.

And you need to understand that humanity is the criminal. We are criminal. OK, humanity, we are the criminal. We are the criminal that stole -- we are the snake. OK, and we are the snake that stole the substance of God that belongs to God. Listen. The consciousness inside of us called the carnal mind, in another form, acquired the material substance that is attached to the female chromosome and formed these corrupt bodies that die after a season. And the female chromosome of Adam is trapped inside of us, and the mother wants her back. The mother, the supernal mother of the God World of Atzilut that is forming the creation, wants her human spirit back. OK, and she wants the material substance that is attached to her back uncorrupted. But Satan will not give us up. The snake will not give us up. So the mother said, OK, keep on dying. Here it is. I did the whole job. OK, the Lord Jesus Christ, he can bring you into immortality. He can stop you from dying; he can heal you; he can feed you; he can do everything that you need. Do you see what he is like? She dangled him in front of us for a few years, and took him away. You want to overcome death?

Brethren, do you realize what is going on in the western world today, how desperate men are to become immortal and overcome death? It is the issue of the hour. Well, the supernal mother says, well, no. You will continue to die. You will continue to die until you produce the child, a child that grows out of holiness. In order to produce the child, you have to repent. You have to submit to God and you have to study and get to the place that we are getting to, OK, and then I will give you the benefits of the Savior who incarnated 2000 years ago. Where is he? He is being held as a ransom until we confess our sins and repent and produce the child. Is that not incredible?

Amen.

What an incredible revelation. You need to understand that, on a high spiritual level, there is a single consciousness of the female chromosome, of the female side of Adam that is illegally joined to the snake. At a very high place, they are a single consciousness. And the supernal mother, who has already produced a Savior and has produced the first begotten of the dead, OK, she is speaking to this unholy unity of the female chromosome and the snake, which are joined to us. They are the carnal mind of us. And she is saying you will keep on dying until you stop living for yourself. You need to confess your sins, pray for repentance, live a holy life, you know, and produce the child. And all will be forgiven. I will give you eternal life.

It is a power play. It is a power play between the supernal mother and the snake. Who is the supernal mother? She is the third degree of power of Atzilut. And who is the snake? The third degree of power of the World of Points. It is the two women fighting over the child, which is humanity. And Sophia is saying, I do not care if they keep on dying. Let them keep on dying. She is the woman that said cut the baby in half. She says, I do not care if they keep on dying. I want this incarnation experience. And the supernal mother says, well, OK, then you are going to have to keep on dying, and things will have to keep on getting worse and worse and worse until at least one person to start with finds God, follows him, and produces that child. And that child then can be -- I will connect that child to the Lord Jesus Christ who is above. And then I will start taking all the manifestations as one child, many manifestations of that child. Once I join my first -- my only begotten of the dead, the first begotten of the dead. Once I join the first begotten of the dead with one human being, that is your end, because I am going to go through the circle of the earth and I am going to take -- I am going to start with my church and I am going to take back every single person. And I am going to burn you and separate you from my child. I am going to burn you and separate you from my daughter, the female chromosome, one man at a time, because you have refused to pay the price to get the ransom that would set the whole of humanity free. At a very high spiritual level, you have said, no, I would rather see the baby cut in half.

So we are going to do it the hard way. We are going to do it the hard way. I am going to succeed with one person. I am going to find one person that is willing to obey God and pay the price. I am going to embed my Son, who is a Savior, the Savior that I have sent to humanity. I am going to embed him in the earth while he is attached to heaven. Well, why could you not leave Jesus there? Because Jesus was not attached to heaven. Well, how about Elijah? Elijah was not equipped to do what Jesus is equipped to do. Jesus is equipped to spread his seed all over humanity and to join with every one of those seeds. Elijah was not equipped to do that. So Jesus had to be taken. After he was glorified, he had to be taken from the earth, and now the earth has to offer up -- the snake has to offer up the earth, the material substance, to join with Jesus who is in potential, who is in potential. But so the snake will not do it. The snake says, I am not going to believe in that Jesus. I am not going to let all these people that I own submit to him and actually bring into existence the creation of God, the union of the Savior, the glorified Jesus Christ, and his offspring in a man. I am not going to do that. It is going to be the end of me. They are going to lay hold of me, chop me in pieces and boil me in a pot and separate us. As of 2000 years ago, if the snake would have cooperated, all of humanity would be saved today. But the snake and

the woman, the female chromosome that he corrupted, are in agreement, saying, "I would rather see the child die than give her up to another person."

The female chromosome, she is an unnatural mother. She is married to the snake. She has become an ostrich who rejects her own young. And she said, I would rather see all these people suffering and people dying every day, and some of them in terrible ways, just so that I can continue to have this individual experience, to experience an existence in individual people like we have today. All of humanity can suffer and die and be tormented, because I and my husband, the snake, we like it this way. We like the experience that we are having, and we will not give it up. Even though the sh- -- the animal clothing, the animal skins that we are dwelling in, are experiencing pain and torment and distress, we do not care. We want our individual experience. We will not submit to that man.

So the supernal mother says, well, OK. If that is what you insist on, the child will be divided until such time as my first begotten Son reproduces himself in at least one person to start with. And once he does that, he will go around the circle of the earth and he will take every human being on the face of the earth away from you. And you will be burnt, and your bones will be chopped and boiled in the cauldron, and my -- and the female chromos- -- the female side of the first Adam, my daughter, will be separated from you. Now I do not know what the judgment is on Sophia. I do not know what will happen to her after the separation. My guess is somehow she will be absorbed into the creation. And that is the doctrine of the ransom.

Amen.

That is what the ransom is. Man- -- not mankind. Fallen mankind, Satan, the snake, gives up humanity, and the supernal mother gives eternal life to humanity. You do not give up the body; you do not get eternal life.

I think even when I preached on that years ago, and there are several words that mean ransom, I really did not fully understand it. You know, there is -- you pay ransom to a crook that steals something, that steals your child. A kidnapper steals your child, and you pay the money and they give the child back. So the snake stole us, OK, the material substance of the child, and the ransom is there but the snake does not want the ransom. Did that not happen with Patty Hearst? Well, her father would not pay the ransom, but she became -- I do not think she married him. She became one of the group of kidnappers that kidnapped her. And now [UNINTELLIGIBLE] humanity where most of us are in agreement with the snake. Hopefully none of us here, but most human beings are in agreement with the snake. No, we do not want that Lord Jesus. He is Savior? Eternal life? No, I do not even believe that. I want to stay right here. That is what happened. The kidnappers stole us. The ransom is hanging in the eaves waiting to be paid, and the snake does not even want the ransom. He just wants the child that he kidnapped.

Mamma mia. So that ye may eat the flesh of the people that have the king, which is Malkhut of the Lord Jesus Christ, the people that have the flesh of the captains, the Chochmah of the sub-Sefirot of Christ that is being built in them, and their armies, all of the people that they dwell in.

This is not talking about one person. You will eat the kings of the earth, Malkhut, wherever it is - I am sorry. I am in the wrong place. You will eat the flesh of the kings and the flesh of the captains and the flesh of the mighty men. I could not -- I looked up mighty men and I do not know what that is. I am just believing that it is the whole middle column of the new man that is being built.

"And the flesh of horses" -- we are the horses. OK, so these birdlings, they are going to eat every part of us: our spirit, our soul, and eventually they will consume our flesh, which is what happened to Jesus of Nazareth. "And of them that sit on the horses" -- so who sits on my horse? Judah is the battle horse of the Lord. So that makes it -- well, they are going to eat the -- I did not look at that. I do not remember what I saw. "And the flesh of horses, and them that sit on the horses." It is some degree of the soul that is sitting on the horses that will be consumed. I guess it is the one that is sitting on the horse now and, according to the Book of Revelation, the one that is sitting on the horse now is Death. Death is sitting on the horse right now. So they will consume the body and they will consume Death, which is the nefesh soul, which kills us.

The nefesh soul that is attached to the marrow of our bones is literally sucking our energy. That nefesh is living off of the energy of the body, and the energy of this body in most people is not being replenished. We are born with a measure of energy because we are recycled clay, but in my case, in my personal case, my flesh is being replenished. I was dying for years. I remember the day, the first day I preached Kabbalah. I was tired; I went and I lay down, and my lungs opened up and I started breathing in a manner that I had not breathed in in my memory.

So I saw some people this past weekend that I had not seen in quite a while, and they said to me, you look the same. You look the same and maybe younger. So personally I do not think I look younger, but -- longevity is working, but I would not say that I have entered into longevity because I am still aging. I know that I am still aging. But the aging process has been slowed down. OK, why? Because of my relationship with Christ. Not my relationship with the Lord Jesus who is out there somewhere, but my relationship with Christ who is in here. And he is -- I have got the male Son. I have got the male Christ as well as the female Christ. And the male chromosome of Christ in me -- I think I probably have the sixth Sefirah -- has an imputed relationship with the Lord Jesus Christ. They communicate, right, so I get life-giving energy. See? And I will tell you, age is just a number to me because I am healthier and stronger than I was 20 or 30 years ago. I am stronger than I was 30 years ago, so age is just a number to me. I am going up. I am not going down; I am going up. So it is all in your head, brethren.

So, to eat the flesh of kings, the people that have Christ in them, the flesh of captains, the people that have the male chromosome as well as the female chromosome, that is the wisdom of God. So the Lord just told me what the captains are. Did you hear that? I did not know that two minutes ago. "That ye may eat the flesh of kings," the people that have Christ grafted to them, that is the female chromosome. "And the flesh of captains," that is that male chromosome going to -- you are going to eat the flesh of the people that have the male chromosomes. "And the flesh of the mighty men," I am not sure what that is. I am not sure what that is. "And the flesh of horses," which is the physical body. "And them that sit on them," which is the nefesh, the soul that is -- that produces death. "And the flesh of all men," and I believe, if I remember correctly, the word

men is not in the Greek. It just says, "And ye will eat the flesh of the all," meaning -- all means whole, the flesh of the whole Adam. And I have gone back and forth on that a little bit. Let me just review that for you in case I have confused you in trying to figure out the truth in this thing.

At one point, I was saying that the whole Adam was the Lord Jesus above and Christ below, or Christ Jesus below. And then the Lord started to bring that correction that the Lord Jesus Christ - - brethren, the Lord Jesus Christ is male to us, but he is spiritually female. He is the garment that covers Primordial Adam. So you cannot say that the whole Adam is all female. The Lord Jesus joined to Christ in us is all female, and the -- in order for the whole Adam to exist, he has to be male and female. So the only male, from this point of view, is Primordial Adam. The Lord Jesus indeed is male to us, but when he comes into contact with the other elements of the creation, he is female. He is a garment. The garment is female. The spiritual man inside is the male. So the whole Adam has to be Primordial Adam, the Lord Jesus Christ that covers him, and the union of the Lord Jesus Christ to Christ in us. That is the whole Adam. OK, and that is my understanding today as the Lord brought me through that correction.

So I -- and -- OK. So "that ye may eat the flesh of kings, the flesh of captains," the flesh of the female chromosome, the flesh of the male chromosome, "the flesh of the mighty men" -- I am not sure what it is -- "and the flesh of the horses," which is our physical body, "and them that sit on them," which is the soul, the nefesh of the body, "and the flesh of the whole Adam, both free and bond." The whole Adam, the part of Adam that is flying freely as the Lord Jesus is in the heavenlies, and the part of Adam that is bound to our humanity. And then "both small and great," and I really do not know what to do with that, "both small and great," unless it is still talking about the part of Adam that is above and the part of Adam that is below, but I am not sure. That would be a repetition of free and bond, so I do not know what to do with that.

So the assignment is to the birdlings. The assignment is to the spiritual sperm of the Lord Jesus, which are actually the male chromosome who was assigned to join with the female chromosome in the people where the female chromosome is viable, OK, where the female chromosome of the Lord Jesus Christ is. See, the male chromosome is not going down to join with a person where the female chromosome has not yet joined, because the male has to join to the female chromosome. God does not respect your persons. If there is no female chromosome present, what is the point of sending the male chromosome? See?

So he is sending his male chromosome, or his spiritual sperm, to the people that have the female chromosome grafted to them. And he is saying this grafting -- OK, he is saying this sending you down to join with the female chromosome that is already there, OK, is the same thing as saying "eat their flesh," because that is incarnation. He is saying to the male chromosomes, "This is incarnation, and you will be filled with their flesh." But "they will be filled with your flesh," I think, is more accurate. They will be filled with your flesh, or you will be filled with their flesh and then it will become their flesh. So I tried to make it work and it got a little confusing, but basically that is the way the language comes down. This is the male chromosome of the Lord Jesus. Go and join to wherever you find the female chromosome present. Join with it and fill yourself with their flesh. Join with the person that has all of these spiritual elements in place: Christ, OK, the wisdom

of God -- that is, the wisdom of God -- I am seeing corrections to what I am saying. I am just going to let it go, because I see a problem. I am just going to go on. Let me get through these four verses anyway, so I can end the meeting today.

"And I saw the beast" -- that is our fallen nature -- "and the kings of the earth." OK, those are the people, humans that have power from another spirit. "And I saw their armies." I saw the beast, and I saw the spiritual power of the fallen nature, and their armies are the humans that they are in. "And I saw them gathered together." I saw the humans together with the carnal mind. This is talking about the carnal mind. "And I saw the beast" -- that is the fallen nature, that is -- "the kings of the earth -- those are -- that is the carnal mind, probably Satan and Leviathan -- "and their armies" -- their human bodies -- "all gathered together as one person to make war against him that sat on the horse and against his army," and that is talking about the Lord Jesus who is sitting on the horse. And his army are the people that he is, that Christ Jesus is present in. It is Christ Jesus sitting on the horse and the people that he is grafted to.

So we see that the beast is not just a mindset. It is a complete agreement of mind and emotions and, if there is a second or third degree of soul there, they are in complete agreement. This beast is in complete agreement on every conscious level. Conscious, subconscious, unconscious, emotional, every level, it is in agreement. They are in agreement that they hate the Lord Jesus Christ. And we are seeing that more and more every day.

And by the way, what I did not notice in the -- I think it was in the Hopi prophecies, in a couple of prophecies that I have seen from non-Christian sources -- that they all talk about -- and the Hopi prophecy really did talk about the women getting out of control and not wanting to take care of their children anymore. You know, I think the Hopi prophecy said they were out in the marketplace dancing, and the men had to bring the children to them so that they would nurse their children, and then the men would go home with the children because the women would not take care of the children. So that is a major sign of the end times, the homosexuality and the rejection of the women of their natural role, because our very body dictates what our role in life should be, and it can only be different because of science.

So, "and the beast was taken." When I read that, I thought about the Scripture that said one would be taken and one would be left. So in this case, it means the beast was taken for destruction. The beast was taken to be thrown into the lake of fire. The beast is the complete fallen nature. "And the beast was taken, and with him the false prophet," and I believe that is the human spirit that is completely given over to the other side, "that wrought miracles before him." And that word before can be translated personality. So the personality that is housing the mind of the beast and prophesying false prophecy -- and that can be anyone in the church. That can be any one of these people prophesying in the name of Jesus that are guaranteeing World War III, like there is not even a hope that there will not -- there is no hope for the people. They are just guaranteeing World War III, false prophets. It is not the -- World War III is not the will of God. My hope is that Jehovah's requirement that he gave to Abraham in Genesis will manifest, that he will find in this earth -- he will find 10 Sefirot in this earth, which is the union of the Lord Jesus

Christ and Christ in a man. He said, "I will not destroy the nation if I can find 10." And that is what we are waiting for.

The Hopi prophecies, they do not know what they are waiting for. The Jews -- the Jewish site that I was in yesterday is just very interesting. The -- to get back to the Hopi prophecies, there were signs in their prophecies as to the signs of the end time, and they have pretty much all come to pass except this final event, which we do not know what it is going to be. And they all came to pass in the 1990s. I find that so interesting, because the Lord has been holding everything back, waiting to get the people ready that Christ Jesus will appear in. We are, like -- we are at least 17 years behind schedule, and that is even true with the new world order. If you look into the new world order, they expected to take over the world by now. Everything is delayed, OK, waiting for Christ Jesus to appear on the earth. They may not know that is what is going to happen, but the Scripture says, in the Book of Thessalonians, he is going to hold back. He is going to hold back until he does not hold it back anymore, all of this, holding all of this back, waiting for us. Is that not amazing? Or not really waiting for us, waiting for us to be ready. You know that the Lord Jesus, he is waiting for us. All of that was from the 1990s. But the latest I saw was 1998. I did not even see anything, any prophecy or anyone prophesying or talking about it in the 2000s at all. It just did not happen. None of this stuff happened. OK. Waiting for us, hopefully it is going to happen or at least begin to happen next Tuesday. We will see. We will see.

"And the beast was taken, and with him the false prophet that wrought miracles before him." And I am wondering about that because I really have not seen any miracles from the other side, that the whole world would be running after the beast because he is doing these miracles, unless, you know, the miracles, brethren, which could be -- the miracles could be this preservation. These ultra-rich, they really want immortality, and they are freezing their bodies and they are freezing their brains and they are freezing their consciousness, and there is all different processes that they are doing. You know, maybe that is the miracle. See, we are waiting to see someone, the average person who worships Jesus, we are waiting to see some kind of miracle, you know, a sign or a wonder type miracle. But science is doing all of the miracles. All of the miracles are coming out of science, these machines that control the weather. And what about miracles of medical science? What about miracles of medical science? What about Donny, who just had a quadruple bypass? What about the miracles of medical science? Why are we looking for some kind of hocus pocus out there, saying that we have not seen any miracles yet? There are miracles done every day by the medical community.

I was walking outside the other -- last night. And they built that business park next door to us, and almost every one of those buildings except for the bank is a building containing doctors, all different kinds of doctors. Surgery, plastic surgeons, all kinds of doctors. Could that not be the miracle? OK, those can very well be the miracles. So we are looking for something outstanding, but let me tell you something, brethren. That is outstanding that a man had his chest opened and had a quadruple bypass, and I just know he is going to live and be well. I just know that, OK. That is the most incredible miracle, but we are jaded. We have seen so many medical miracles. You tell somebody to that in Africa, and they probably would not even be able to believe it. In Africa, they wait for the medical teams to come to do what we would call a "simple" cataract operation.

People are blind. It is a miracle. They get a cataract operation and they can see. We are just so spoiled and jaded here in this country; we take these things for granted. But there are your miracles right there. So they are here. The miracles are here. And these are miracles that are not from God. It is from the wisdom of man. That is where it comes from.

"With which he deceived them that had received the mark of the beast and that worshipped his image." And, brethren, there are people worshipping the medical community today. They worship them. They do, and not only -- and it is not -- the medical community does not exist in a vacuum. They are connected to the government. They are connected to the pharmaceutical industry. OK, cancer is a multibillion dollar business in this country. If somebody found a cure for cancer tomorrow, thousands of millions of people would be out of a job. So it is not just the medical community. It is all of the buildings that they rent, the rent that they pay, the employees that they hire, the government that is now involved in the health care that is involved with the medical community. It is a whole big mess of involvement of little intricacies in and out. So -- and the government become- -- in this country becomes -- and I believe, in the western world, I believe in Britain and France, I am just -- we are pretty much just concerned with Britain, the two great Protestant nations. OK. The government becomes more and more intrusive every day. They just want to get inside of your house so that they can control your life. And there have been cases of a sick person being refused surgery because the doctor decided they were too heavy, and they died. So the government is in the medical community, and they become more and more intrusive. Every day, it is more and more dangerous for your children. You can lose your children more and more easily every day. They will take your kids away from you if they can do it, and they have done it on multiple occasions here, although it is still not the norm. But we are getting there.

So the beast was taken, and the false prophet who wrought miracles before him. The false prophet wrought miracles before him in the personality of the beast. The false prophet in the personality of the beast -- that is the man who has the mind of the flesh, OK, but his heart is the animal nature -- [?]joined the particles?] -- that is everything I have just described to you -- to make war against him that sat on the horse and against his army. And they are not friendly towards people that believe in natural healing, let alone healing by God.

Brethren, I -- it is going to be very interesting to see what happens when I see my doctor in July, because you may recall that my doctor retired and I have this new doctor that is in a war with me. And one of the first things I said to her, at that time, my blood pressure had gotten out of control. And I really believe today I know what caused it. I had been taken all those pills and then I stopped taking the pills and my blood pressure went out of control. So when I saw her for the first time, I was trying to have a normal conversation with her to do with what happens when my blood pressure goes down again. And she just kept her head down like this, like -- I now know she thought that I was crazy. No one's blood pressure goes down again, but I knew it was going to go down again. You see? So now that my blood pressure has gone down again, OK, and the issue was a calcium/potassium/magnesium imbalance, OK, I am going to go there in July and I am going to tell her that I am not on the medication, and it is going to be interesting to see what her reaction is. I guess the Lord is after her. I think she is Catholic. She is married to a Jewish man. I think she is Catholic. That is my opinion. She is probably Catholic.

So the Lord has a controversy with her, see? So I went in there like she -- I look like a total fool to her, see? I look like a crazy person to her, saying the things that I am saying. And my nephew also -- I am going on the fourth of July. He is going to say, well, are you taking medication yet, Sheila? And I am going to say no. The last thing he said to me was, "Who does not take blood pressure medication at your age?" That was what he said to me. So, brethren, God does make a fool of us on occasion to make his point. But that doctor, she is like the gestapo. I really asked the Lord if I could change doctors, and he did not say yes, so I did not do it. He has a controversy with her. We will see what this is going to bring.

So anyway, "the beast was taken, and with him the false prophet that wrought miracles before him, with which he deceived them that had received the mark of the beast." All of you that have the mind of the beast, that have made the doctors and the pharmacological community and the whole mess that I just talked about, you have made them God in your mind. There is nothing wrong with going to the doctor if God heals you through the doctor. But the population is worshipping these doctors. It has become, in my opinion, I am sorry, it has become insane. They want you to go -- people have become obsessed with their health, because you have the mark of the beast and you think that you are going to save your life by taking all of these scans and tests and screenings and doing all of these things that you humiliate yourself and people make a lot of money off of you and you are not even sick yet. You are taking all of these inoculations that you do not need, you know, and you think you are going to preserve your life. And you have the mind of the beast, because there is -- only the one that gave you life can continue your life.

Did you hear a 16-year-old boy just died? I think he was 16. Did you hear about that?

I am not sure.

And the doctors said it was because he drank too much caffeine. I think his heart gave out or something.

Oh, wow.

He had had so many caffeine drinks, and one day he died, 16 years old.

Gosh.

Yeah. Yeah, the whole society is out of balance. We are out of balance. The food is bad. I could not believe it a few years ago when I saw -- and this goes back 10, 20 years ago. I saw people drinking Coca-Cola for breakfast. I was amazed. Do they still do that? I am not even in the world out there anymore. People drinking Coca-Cola and Pepsi-Cola for breakfast -- do you see, you know, people who do that?

My daughter.

Your daughter? That is what they do, the younger generation, you know? How do you drink Coca-Cola for breakfast? Well, that is just me apparently. You know. It is just me, you know. How do you drink Coca-Cola for breakfast? There is nothing, no nutritional value in it at all. And then they wonder why they are sick.

So the whole society is out of balance. Out of balance, brethren. It really cannot continue. And I was talking to Hannah who just graduated, Hannah Aldrich, and she was telling me, at the college, almost everybody is sick. There is something wrong with everybody. People, they are just sick. People are just sick all over the place, and that is because you made the medicine your god. And that does not mean that you cannot do good works if you are a doctor. The people that you are helping today -- I thank God for Donny's life. So I am not against doctors. I am talking from the philosophical point of view. You need to put God first in your life, and if he sends you to a doctor, then praise the Lord. But do not worship the beast, because you will get swallowed up.

So he says -- the Scripture says here that, those that receive the mark of the beast, that you are deceived, that you think the doctors can save your life when the Lord says it is time for you to go and they cannot. So for those that have received the mark of the beast and worshipped his image, which is the pharmacological and the medical community, the whole everything that I have just said to you, these both were cast alive into a lake of fire burning with brimstone. And, brethren, I am convinced and I have been convinced for a long time that it is a spiritual lake of fire and that it is the burning that will separate our soul from our marrow. I believe that this whole -- the whole book is just for Israel, for the people of God. These particular Scriptures are just for the people of God. This is just talking to the people that have Malkhut grafted to them. They have the female chromosome and the male chromosome. This message is for them. So they have to be burnt. Why do they have to be burnt? What is being burnt? What is being -- does anybody remember what is being burnt? You have the male chromosome; you have the female chromosome; they are coming together. What is the third thing that has to happen before you become a viable egg? I know that I preached it right here in this message. Does anybody remember?

The fe- -- the carnal mind, the female egg.

The ungodly female chromosome that is joined to the snake has to be burnt. That is what the being cast into the lake of fire is. This is a positive Scripture. Would you believe it? It is a positive Scripture. This is the male chromosome coming down to join to God's people that already have the female chromosome, OK, joining with them, OK, exposing sin which is identified primarily with the beast nature or however it is manifesting. OK, and then they are going to be thrown into the lake of fire. The female chromosome that is joined to the snake, the original female side of the first Adam that is joined to the snake, is getting thrown into the lake of fire so that they separate. I am convinced of this. And brimstone is sulfur. Sulfur is a purifying agent. I had this revelation years ago. This lake of fire is a purifying agent. It is a spiritual fire, and it is a lake burning with fire and brimstone. A lake is a border, OK? So this could be anyone. This could be me. This could be anyone that has the -- that has Christ Jesus that breathes out -- a fire-breathing preacher that will expose your sins and burn them up.

They were cast alive. Now, brethren, that word, that Greek word translated alive, it is zoe. Zoe means life. But everybody is dead. OK, the only people that are alive are the people that have Christ grafted to them. Brethren, the only people in all of the earth that are alive are the people that have the blood of Jesus painted on the doorposts of their mind. So how can the sinners that do not even know God -- not that we are not sinners, but we are repentant sinners. How could the people that do not even know God be cast alive into a lake burning with fire? It is for the church. Not only is it for the church, it is for the mature church. It is for the people that have the male and the female chromosome. That is not the Holy Ghost people. That is the people that have the male and female chromosome that are burning the unholy female chromosome that is joined to the snake so that they can become a viable egg eligible for fertilization by Elohim.

It is not easy having this message and knowing that no one except a few are listening to you. I have to deal with it every day and just focus on my work, just focus on my work. It is not -- I have to focus on my job. The Lord Jesus will do his job. My job is to teach this, and I am going to teach it.

"And the remnant were slain." I am not really sure what that is now. So these were both cast alive into the lake burning with fire and brimstone, so that is the beast and the false prophet. That is our fallen soul and our corrupted spirit. And the remnant, I am not really sure what that is, but it is obviously another part of our consciousness, of our fallen consciousness. "The remnant were slain with the sword of him that sat upon the horse." Now the sword is the word of God, so the remnant has to do with our spiritual, intellectual ability to understand doctrine. So I believe that this remnant is the part of the fallen nature that is believing false doctrine. "The remnant were slain with the sword of him that sat on the horse." They were slain with the word of God. The remnant that still believed all of this false doctrine, OK, was slain by the truth. The truth slew the error. "Which sword proceeded out of his mouth, and all of the fowls" -- all of the birdlings incarnated -- "were filled with their flesh."

So all -- brethren, listen. This is so exciting. All of the people that have this experience, that have the male chromosome, they are going to receive the female chromosome. OK, they are going to join together the male and the female chromosome. They are going to burn the other woman in the vessel, because there are now two women in the vessel. OK, the Scripture talks about two men, but we know that it is two women that are in our vessel, the holy wife and the unholy wife. OK, they are going to burn her with fire, with brimstone, with fire, with a purifying fire. And then the part of them, their intellect that is still believing this false doctrine, OK, after all these other things happen to them, the truth will slay the error.

And then the male chromosome that entered in will become fully incarnate and that individual person will receive the nature of the viable egg, which is the godly nature, the nature of God, in preparation to be fertilized by Elohim. They will receive the fullness of the Y nature. They will be an egg that is prepared to be a male offspring. Actually, what they are burning is the X. Remember the female egg has an X and a Y. OK, in the natural, it is XX. In the spiritual, the female has an X and a Y chromosome, so what they are burning is the X chromosome. When Elohim comes down, there is no chance of the X chromosome being fertilized, not necessarily by Elohim. Elohim would

just fertilize the Y. The potential for Sophia to fertilize that person -- you see, we are in a very dangerous place when we have the male chromosome and the female chromosome and the unholy woman is not burnt yet. When we have the male and the female chromosome before the female side of the first Adam is burned, we could be seduced by Sophia and produce the female offspring which is Lucifer. So when that male and female chromosome come together and they burn, they burn that X chromosome, which is the female side of Adam from the first -- female side of the first Adam. Then we become capable only of producing the male child. Praise the Lord.

Amen.

Praise the Lord. Wow. Wow, wow, wow, wow. Wow. I think this is a good place to stop. I think I made all of my points. Any questions? I know that you all understand this perfectly and are going to run out and tell all of your neighbors this wonderful message, that they are about to be burnt in the lake of fire and it is a good thing. Not even the smell of smoke will be on you.

God bless you. I love you all.
